1. ABOUT THE BOOK

FOREWORDS

The challenge of dissemination of a tax law in a cogent and lucid manner is nearly as huge as its making. Mr. Pritam Mahure in this book has attempted to meet the challenge with laurels coming very close to what could even be termed as a “work of art”.

Indirect tax reforms in recent years have been largely guided keeping in view the eventual goal of GST. The changes over the last couple of years in the areas of service tax are definitely precursors in that direction. A careful understanding and applicability of the new provisions will go a great length in helping our smooth transition towards GST.

Taxation of services based on Negative List, together with many other significant changes, in 2012 has refreshed the challenge of managing change once again. Despite an elaborate effort to explain the new provisions by way of “Education Guide” released by the Government, it still required considerable effort to carry out the task in the light of experience gained from its early applicability.

Service tax law by itself is not comprehensive and relies considerably on the provisions from other enactments. To put it in a user-friendly manner for the tax-payers and other practitioners is an enormous challenge.

I have noticed that Mr Pritam Mahure has taken immense pains to provide comprehensive coverage to the subject. It has been a pleasure for me to go through the subject once again, somewhat like watching a suspense movie all over again, knowing the ultimate truth, yet enjoying the nuances from time-to time.

G. Brief Note on Negative List regime⁸

What is the significance of the changes due to the new system of taxation?

Budget 2012 proposes to usher a paradigm shift in the manner services will be taxed in future. The transition involves shift from taxation of 119 service-specific descriptions to a

⁵ Para 4.1.7 of Education Guide: What is the meaning of "support services" which appears to be a phrase of wide ambit?

Support services have been defined in section 65B of the Act as infrastructural, operational, administrative, logistic marketing or any other support of any kind comprising functions that entities carry out in ordinary course of operations themselves but may obtain as services by outsourcing from others for any reason whatsoever and shall include advertisement and promotion, construction or works contract, renting of movable or immovable property, security, testing and analysis.

Thus services which are provided by government in terms of their sovereign right to business entities, and which are not substitutable in any manner by any private entity, are not support services e.g. grant of mining or licensing rights or audit of government entities established by a special law, which are required to be audited by CAG under section 18 of the Comptroller and Auditor-General's (Duties, Powers and Conditions of Service) Act, 1971 (such services are performed by CAG under the statute and cannot be performed by the business entity themselves and thus do not constitute support services.)

Para 4.1.8 of Education Guide: Will the services provided by Police or security agencies to PSUs or corporate entities or sports events held by private entities be taxable?

Yes. Services provided by government security agencies are covered by the main portion of the definition of support service as similar services can be provided by private entities. In any case it is also covered by the inclusive portion of the definition. However the tax will be actually payable on reverse charge by the recipient.

⁶ Exemption provided to certain persons vide Sr. No. 6 of Not. No. 25/2012-ST

⁷ Exemption provided to certain persons vide Sr. No. 6 of Not. No. 25/2012-ST

new regime whereby all services will be taxed unless they are covered by any of the entries in the negative list or are otherwise exempted. The new system is a marked shift by way of comprehensive taxation of the entire service sector without getting into complex issues of classification of services.

What is the broad the scheme of new taxation?

In the new system, service tax will be levied on all services provided in a taxable territory other than the services specified in the negative list. The key features of this system are as follows:

- ▶ *At the outset 'service' has been defined in clause (44) of section 65B of the Act.*
- ▶ *Section 66B specifies the charge of service tax which is essentially that service tax shall be levied on all services provided or agreed to be provided in a taxable territory, other than services specified in the negative list.*
- ▶ *The negative list of services is contained in section 66D of the Act.*
- ▶ *Since provision of service in the taxable territory is an important ingredient of taxability, section 66C empowers the Central Government to make rules for determination of place of provision of service. Under these provisions the Place of Provision of Services Rules, 2012 have been made for which a separate and detailed guidance paper (GPB) has been issued.*
- ▶ *To remove some ambiguities certain activities have been specifically defined by description as services and are referred as Declared Services (listed in section 66E).*
- ▶ *In addition to the services specified in the negative list, certain exemptions have been given. Most of the exemptions are proposed to be consolidated in a single mega exemption for ease of reference.*
- ▶ *Principles have been laid down in section 66F of the Act for interpretation wherever services have to be treated differentially for any reason and also for determining the taxability of bundled services.*
- ▶ *The system of valuation of services for levy of service tax and of availment and utilization of Cenvat credits essentially remains the same with only incidental changes required for the new system of taxation*

What is service?

In the existing system, only the services specified in clause (105) of section 65 of the Finance Act, 1994 are taxed under the charging section 66. In the new system, all services, other than services specified in the negative list, provided or agreed to be provided in the taxable territory by a person to another would be taxed under section 66B. This Note explains the various ingredients and aspects of the definition of service. Service' has been defined in clause (44) of the new section 65B and means –

- any activity
- for consideration

- carried out by a person for another
- and includes a declared service.

The said definition further provides that 'Service' does not include –

- any activity that constitutes only a transfer in title of (i) goods or (ii) immovable property by way of sale, gift or in any other manner
- a transaction only in (iii) money or (iv) actionable claim
- any service provided by an employee to an employer in the course of the employment.
- fees payable to a court or a tribunal set up under a law for the time being in force

There are three explanations appended to the definition of 'service' which are dealt with in later part of this Guidance Note. Each of the ingredients bulleted above have been explained in the points below.

Taxability of service

The taxability of services or the charge of service tax has been specified in section 66B of the Act. To be a taxable a service should be –

- provided or agreed to be provided by a person to another
- in the taxable territory
- and should not be specified in the negative list.

Provided in the taxable territory

- Taxable territory has been defined in section 65B of the Act as the territory to which the Act applies i.e the whole of territory of India other than the State of Jammu and Kashmir.
- Detailed rules called the Place of Provision of Service Rules, 2012 have been made which determine the place of provision of service depending on the nature and description of service.
- Please refer to the Place of Provision of Service Rules, 2012

Rules of interpretation

Despite doing away with the service-specific descriptions, there will be some descriptions where some differential treatment will be available to a service or a class of services.

Section 66F lays down the principles of interpretation of specified descriptions of services and bundled services.

Principles for interpretation of specified descriptions of services

Although the negative list approach largely obviates the need for descriptions of services, such descriptions continue to exist in the following areas –

- *In the negative list of services.*
- *In the declared list of services.*
- *In exemption notifications.*
- *In the Place of Provision of Service Rules, 2012*
- *In few other rules and notifications.*

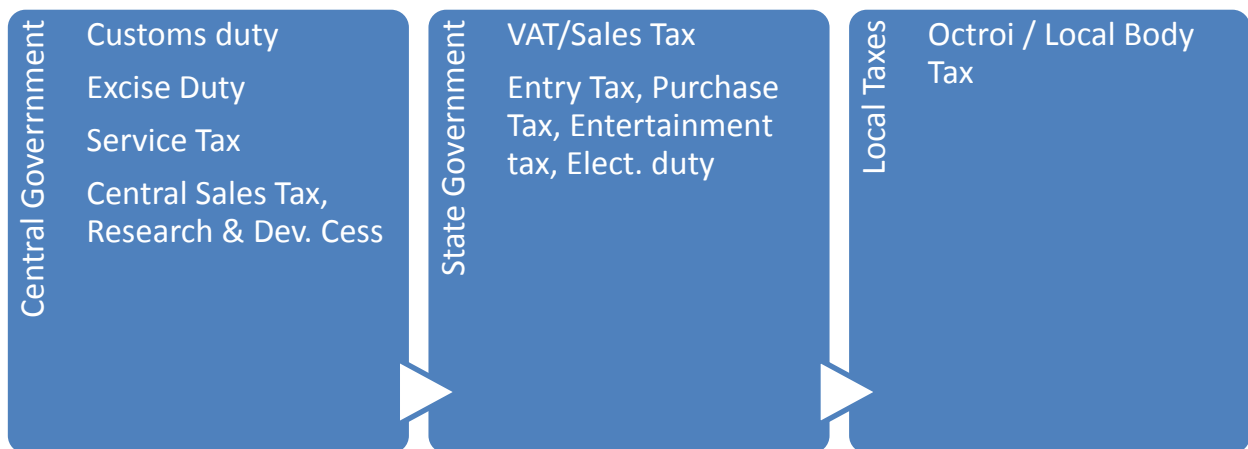

3. EXISTING INDIRECT TAX SYSTEM IN INDIA

As per the Constitution of India, the taxing powers of the Central Government encompass taxes on income (except agricultural income), excise duty on goods manufactured in India (other than alcohol for human consumption), customs duty, inter-state sale of goods etc. The taxing powers of the State Governments include the power to tax agricultural income, excise duty on alcohol for human consumption, sales tax on intra-State sale of goods etc.

On a high level basis, indirect taxes in the country can be categorised in three baskets

- Central level indirect taxes : Customs duty, Excise duty, Service Tax etc
- State level indirect taxes: VAT, Entry Tax, Purchase Tax etc
- Local level indirect taxes: Octroi etc

The following diagram captures the aforesaid:

Key features of specified indirect taxes:

10	Entertainment tax	<ul style="list-style-type: none"> - Entertainment tax is applicable on movie tickets, commercial shows etc - Entertainment tax is levied by the State Governments - The rate of entertainment tax varies from 0% to 110%¹⁶ - This source of revenue has grown with the advent of Pay Television Services in India. Since, entertainment is being provided through the services such as Broadcasting Services, DTH Services, Pay TV Services, Cable Services, etc. The component of entertainment is intrinsically intertwined in the transaction of service, that it cannot be separated from the whole transaction. Given the nature of transaction of service, it is being subjected to tax by the Union and the State governments both¹⁷

Current Indirect tax implications on various transactions

A transaction in an economy can be one of the following type:

- a. Transaction in goods:
 - o Trading (i.e. buying and subsequently selling the goods)
 - o Manufacturing and subsequently selling of goods
- b. Transaction is services (such as provision of logistics services, advisory services, courier services etc)
- c. Transaction involving both goods and services (i.e. works contract such as contract for construction of compound wall wherein material alongwith labour is provided by the contractor)
- d. Transaction in immovable property
- e. Other transactions (such as employment, grants etc)

Transactions in an economy are subject to indirect taxes. We have given below the typical indirect tax implications on the aforesaid transactions:

¹⁶ Source www.filmtvguildindia.org

¹⁷ Source www.en.wikipedia.org

SR	Activity	Tax applicable
1	Trading – Sale to a customer located in same State (Intra-State sale)	Value Added Tax ¹⁸ (VAT) would be applicable on the sale to the customer
2	Trading – Sale to a customer located in different State (inter-State sale)	Central Sales Tax (CST) would be applicable on the customer sale to the customer
3	Manufacturing and subsequently intra-State sale of goods	- Excise duty on manufacture of goods - VAT on sale of goods
4	Manufacturing and subsequently inter-State sale of goods	- Excise duty on manufacture of goods - CST on sale of goods
5	Provision of services	Service Tax ¹⁹
6	Works contracts (i.e. transaction involving both goods and services)	- VAT on 'goods' portion in works contract - Service Tax on 'service' portion in the works contract
7	Transaction of sale of an completed ²⁰ immovable property	Stamp duty
8	Other transactions (such as employment, donation etc)	Income from salary, donation etc is subject matter of Income Tax

Apart from the aforesaid taxes, certain States and Municipal Corporations also levy Entry Tax, Octroi for entry of goods for consumption/ sale in their respective jurisdiction.

From the aforesaid discussion, it can be observed from the above that currently the indirect tax system in the India is governed by the 'taxable events' (such as manufacture, sale, provision of service etc). However, this approach to levy and collect indirect tax has its own limitations and it results in inefficiency in certain cases due to non-availability of input tax credit.

¹⁸ Also known as Sales tax

¹⁹ However, certain specified services such as entertainment, advertisement etc may be liable to State VAT

²⁰ W.e.f. 1 July 2010, Service tax has been made applicable on sale of property before completion certificate is received for the same.

⁴⁹ IPR in normal trade parlance means copyright, patents, trademarks, designs, any other similar right to an intangible property. Also, there is no condition regarding the law under which an intellectual right should be registered. Further, **permanent** transfers do not come under the purview of this entry [Thermax Ltd 201-TIOL1092-CESTAT-MUM].

⁵⁰ It is a settled position of law that pre-packaged or canned software which is put on a media is in the nature of goods [Supreme Court judgment in case of Tata Consultancy Services vs State of Andhra Pradesh [2002(178) ELT22(SC) refers]. Sale of pre-packaged or canned software is, therefore, in the nature of sale of goods and is not covered in this entry. License to use software which does not involve the transfer of 'right to use' would neither be a transfer of title in goods nor a deemed sale of goods. Such an activity would fall in the ambit of definition of 'service' and also in the declared service category specified in clause (f) of section 66E [Refer Para 6.4.4 of Education Guide for details]

(herein referred to as main service) shall not include reference to a service which is used for providing main service⁵².

(2) Where a service is capable of differential treatment for any purpose based on its description, the most specific description shall be preferred over a more general description⁵³.

(3) Subject to the provisions of sub-section (2), the taxability of a bundled service shall be determined in the following manner, namely:--

(a) if various elements of such service are naturally bundled in the ordinary course of business, it shall be treated as provision of the single service which gives such bundle its essential character⁵⁴;

(b) if various elements of such service are not naturally bundled in the ordinary course of business, it shall be treated as provision of the single service which results in highest liability of service tax⁵⁵.

Explanation.— For the purposes of sub-section (3), the expression "bundled service" means a bundle of provision of various services wherein an element of provision of one service is combined with an element or elements of provision of any other service or services.‘;

⁵² Provision of access to any road or bridge on payment of toll' is a specified entry in the negative list in section 66D of the Act. [Refer Para 9. 1.1 of Education Guide for details]

⁵³ The services provided by a real estate agent are in the nature of intermediary services relating to immovable property. As per the Place of Provision of Service Rule, 2012, the place of provision of services provided in relation to immovable property is the location of the immovable property. However in terms of the rule 5 pertaining to services provided by an intermediary the place of provision of service is where the intermediary is located. Since Rule 5 provides a specific description of 'estate agent', the same shall prevail [Refer Para 9. 1.2 of Education Guide for details]

⁵⁴ Eg. A hotel provides a 4-D/3-N package with the facility of breakfast. This is a natural bundling of services in the ordinary course of business. The service of hotel accommodation gives the bundle the essential character and would, therefore, be treated as service of providing hotel accommodation [Refer Para 9.2.1 of Education Guide for details]

⁵⁵ Eg. A house is given on rent one floor of which is to be used as residence and the other for housing a printing press. Such renting for two different purposes is not naturally bundled in the ordinary course of business. Therefore, if a single rent deed is executed it will be treated as a service comprising entirely of such service which attracts highest liability of service tax. In this case renting for use as residence is a negative list service while renting for non-residence use is chargeable to tax. Since the latter category attracts highest liability of service tax amongst the two services bundled together, the entire bundle would be treated as renting of commercial property [Refer Para 9.2.2 of Education Guide for details]

SECTION 67. Valuation of taxable services for charging service tax. —

(1) Subject to the provisions of this Chapter, where service tax is chargeable on any taxable service with reference to its value, then such value shall, —

- (i) in a case where the provision of service is for a consideration in money, be the gross amount charged by the service provider for such service provided or to be provided by him;
- (ii) in a case where the provision of service is for a consideration not wholly or partly consisting of money, be such amount in money as, with the addition of service tax charged, is equivalent to the consideration;
- (iii) in a case where the provision of service is for a consideration which is not ascertainable, be the amount as may be determined in the prescribed manner.

(2) Where the gross amount charged by a service provider, for the service provided or to be provided is inclusive of service tax payable, the value of such taxable service shall be such amount as, with the addition of tax payable, is equal to the gross amount charged.

(3) The gross amount charged for the taxable service shall include any amount received towards the taxable service before, during or after provision of such service.

(4) Subject to the provisions of sub-sections (1), (2) and (3), the value shall be determined in such manner as may be prescribed.

Explanation. — For the purposes of this section, —

72A Special audit⁶³.

- (1) If the Commissioner of Central Excise, has reasons to believe that any person liable to pay service tax (herein referred to as "such person"),
 - (i) has failed to declare or determine the value of a taxable service correctly;

Provided further that in the case of a service provider, whose value of taxable services provided in a financial year does not exceed sixty lakh rupees during any of the financial years covered by the notice issued under sub-section (3) of section 73A or during the last preceding financial year, as the case may be, such rate of interest shall be reduced by three per cent. per annum.

¹¹⁷ [Service Tax - Pre-deposit: Free Telephone Service to employees and associates - Tribunal ordered pre-deposit of Rs . 80 Crores. Taxability doubtful for the period prior to 23.08.2007. Pre-deposit reduced to Rs. 25 Crores. Bharti Airtel Ltd 2013-TIOL-426-HC-DEL-ST](#)

- (3) The Central Excise Officer shall, after providing reasonable opportunity of being heard, determine the value of such taxable service for the purpose of charging service tax in accordance with the provisions of the Act and these rules.

5. Inclusion in or exclusion¹¹⁸ from value of certain expenditure or costs

- (1) Where any expenditure or costs are incurred by the service provider in the course of providing taxable service, all such expenditure or costs shall be treated as consideration for the taxable service provided or to be provided and shall be included in the value for the purpose of charging service tax on the said service.

Explanation.- For the removal of doubts, it is hereby clarified that for the value of the telecommunication service shall be the gross amount paid by the person to whom telecommunication service is actually provided,.

- (2) Subject to the provisions of sub-rule (1), the expenditure or costs incurred by the service provider as a pure agent of the recipient of service, shall be excluded from the value of the taxable service if all the following conditions are satisfied, namely :-

- (i) the service provider acts as a pure agent of the recipient of service when he makes payment to third party for the goods or services procured;
- (ii) the recipient of service receives and uses the goods or services so procured by the service provider in his capacity as pure agent of the recipient of service;
- (iii) the recipient of service is liable to make payment to the third party;
- (iv) the recipient of service authorises the service provider to make payment on his behalf;
- (v) the recipient of service knows that the goods and services for which payment has been made by the service provider shall be provided by the third party;

¹¹⁸ If a receipt is for reimbursing the expenditure incurred for the purpose, the mere act of reimbursement, per se, would not justify the contention of the Revenue that the same, having the character of the remuneration or commission, deserves to be included in the sum amount of remuneration / Commission – **Sangmitra Service Agency 2013-TIOL-606-HC-MAD-ST**

- (vi) the payment made by the service provider on behalf of the recipient of service has been separately indicated in the invoice issued by the service provider to the recipient of service;
- (vii) the service provider recovers from the recipient of service only such amount as has been paid by him to the third party; and
- (viii) the goods or services procured by the service provider from the third party as a pure agent of the recipient of service are in addition to the services he provides on his own account.

Explanation 1. - For the purposes of sub-rule (2), "pure agent" means a person who -

- (a) enters into a contractual agreement with the recipient of service to act as his pure agent to incur expenditure or costs in the course of providing taxable service;
- (b) neither intends to hold nor holds any title to the goods or services so procured or provided as pure agent of the recipient of service;
- (c) does not use such goods or services so procured; and
- (d) receives only the actual amount incurred to procure such goods or services.

Explanation 2. - For the removal of doubts it is clarified that the value of the taxable service is the total amount of consideration consisting of all components of the taxable service and it is immaterial that the details of individual components of the total consideration is indicated separately in the invoice.

Illustration 1. - X contracts with Y, a real estate agent to sell his house and thereupon Y gives an advertisement in television. Y billed X including charges for Television advertisement and paid service tax on the total consideration billed. In such a case, consideration for the service provided is what X pays to Y. Y does not act as an agent behalf of X when obtaining the television advertisement even if the cost of television advertisement is mentioned separately in the invoice issued by X. Advertising service is an input service for the estate agent in order to enable or facilitate him to perform his services as an estate agent.

Illustration 2. - In the course of providing a taxable service, a service provider incurs costs such as travelling expenses, postage, telephone, etc., and may indicate these items separately on the invoice issued to the recipient of service.

In such a case, the service provider is not acting as an agent of the recipient of service but procures such inputs or input service on his own account for providing the taxable service. Such expenses do not become reimbursable expenditure merely because they are indicated separately in the invoice issued by the service provider to the recipient of service.

Illustration 3. - A contracts with B, an architect for building a house. During the course of providing the taxable service, B incurs expenses such as telephone charges, air travel tickets, hotel accommodation, etc., to enable him to effectively perform the provision of services to A. In such a case, in whatever form B recovers such expenditure from A, whether as a separately itemised expense or as part of an inclusive overall fee, service tax is payable on the total amount charged by B. Value of the taxable service for charging service tax is what A pays to B.

Illustration 4. - Company X provides a taxable service of rent-a-cab by providing chauffeur-driven cars for overseas visitors. The chauffeur is given a lump sum amount to cover his food and overnight accommodation and any other incidental expenses such as parking fees by the Company X during the tour. At the end of the tour, the chauffeur returns the balance of the amount with a statement of his expenses and the relevant bills. Company X charges these amounts from the recipients of service. The cost incurred by the chauffeur and billed to the recipient of service constitutes part of gross amount charged for the provision of services by the Company X.

6. Cases in which the commission, costs, etc., will be included or excluded

(1) Subject to the provisions of section 67, the value of the taxable services shall include, -

- (i) the commission or brokerage charged by a broker on the sale or purchase of securities including the commission or brokerage paid by the stock-broker to any sub-broker;
- (ii) the adjustments made by the telegraph authority from any deposits made by the subscriber at the time of application for telephone connection or pager or facsimile or telegraph or telex or for leased circuit;

- (2) Subject to the provisions contained in sub-rule (1), the value of any taxable service, as the case may be, does not include -

 - (ii) the airfare collected by air travel agent in respect of service provided by him;
 - (iii) the rail fare collected by [rail travel agent] in respect of service provided by him; and
 - (iv) **interest** on delayed payment of any consideration for the provision of services or sale of property, whether moveable or immovable
 - (v) the **taxes** levied by any Government on any passenger travelling by air, if shown separately on the ticket, or the invoice for such ticket, issued to the passenger: and]

- vi) **accidental damages** due to unforeseen actions not
relatable to the provision of service; and

Madam/Sir,

Subject: Applicability of provisions of the Finance Act, 2004 relating to education cess and the Finance Act, 2007 relating to secondary and higher education cess-regarding.

There has been some doubt regarding the applicability of provisions of the Finance Act, 2004 relating to education cess and the Finance Act, 2007 relating to secondary and higher education cess as the concerned Acts make reference to section 66 of the Finance Act, 1994, which shall cease to have effect from July 1, 2012. In this connection, as also in general, you may kindly refer to the sub-section (1) of section 8 of the General Clauses Act, 1897 which reads as under:

“Where this Act, or any Central Act or Regulation made after reference to the commencement of this Act, repeals and re-enacts, with or without modification, any provision of a former enactment, then references in any other enactment or in any instrument to the provision so repealed shall, unless a different intention appears, be construed as references to the provisions so re-enacted.”

Thus any reference to section 66 of the Finance Act, 1994 shall be construed as reference to the newly re-enacted provision i.e. section 66B of the same Act. Despite the stated position of law, the matter has been

settled by the issue of Removal of Difficulties Order No. 2/2012 dated 29.06.2012.

2. This circular may be communicated to the field formations and service tax assesseees through Public Notice/Trade Notice. Hindi version would follow.

Madam/Sir,

Subject: Clarification on Point of Taxation Rules - regarding.

Consequent to the changes introduced at the time of Budget 2012 in the Point of Taxation Rules, 2011, together with revision of the service tax rate from 10% to 12% and the subsequent changes that have been made effective from 01.07.2012, the following clarifications have been desired:

- (a) Point of taxation and the rate applicable in respect of continuous supply of services at the time of change in rates effective from 01.04.2012;
- (b) Applicability of the revised rule 2A of the Service Tax (Determination of Value) Rules, 2006 to ongoing works contracts for determination of value when the value was being determined under the erstwhile Works Contract (Composition Scheme for Payment of Service Tax) Rules, 2007; and
- (c) Applicability of partial reverse charge provisions in respect of specified services.

2.1 The issues have been examined. The continuous supply of services was governed by rule 6 until 31.03.2012. The rule started with the wordings "notwithstanding anything

contained in rules 3, 4 ...” Therefore, the point of taxation in respect of services provided in terms of the said rule on or before 31.03.2012 would remain unaffected by rule 4.

- 2.2 To clarify the matter further, if the invoice had been issued or payment received in respect of such services on or before 31.03.2012, the point of taxation would stand determined under rule 6 accordingly and shall not alter due to the subsequent changes in the Point of Taxation Rules, 2011 that became effective only from 1.4.2012.
- 3.1 However the position has undergone a change at the time of transition towards the Negative List and the introduction of other accompanying changes in Service Tax (Determination of Value) Rules, 2006 and partial reverse charge. At the said time rule 6 stood omitted and the point of taxation was required to be determined ordinarily in such cases under the main rule i.e. rule 3. This rule is, however, overridden by rule 4 when there is a change in effective rate of tax. The “*change in effective rate of tax*” has been defined in clause (ba) of rule 2 to include a change in the portion of value on which tax is payable.
- 3.2 To illustrate, the following would be changes in effective rate of tax:-
- (i) the change in the portion of total value liable to tax in respect of works contract other than original works (from @ 4.8% earlier to @ 12% on 60% of the total amount charged, or effectively @ 7.2% now).
 - (ii) exemption granted to certain works contracts w.e.f. 1st July 2012 which were earlier taxable.
 - (iii) taxability of certain works contracts which were hitherto exempted.
 - (iv) change in the manner of payment of tax from composition scheme under the Works Contract (Composition Scheme for Payment of Service Tax) Rules, 2007 to payment on actual value under clause (i) of rule 2A of the Service Tax (Determination of Value) Rules, 2006.
- 3.3 However, the following will not be a change in effective rate of tax:-
- (i) works contracts earlier paying service tax @ 4.8% under Works Contract (Composition Scheme for Payment of Service Tax) Rules, 2007 and now required to pay service tax @12% on 40% of the total amount charged, keeping the effective rate again at 4.8% (as only the manner of expression has been altered).

- (ii) works contracts which were outside the scope of taxation (and not merely exempted) but have become now taxable e.g. construction of residential complex comprising of 2 to 12 residential units, construction of buildings meant for use by NGOs etc. (Rule 5 of the Point of Taxation Rules, 2011 shall apply to such services.)
- 3.4 Thus the point of taxation for services provided in respect of taxable works contracts in progress on 01.07.2012 would need to be determined under rule 4 of the Point of Taxation Rules unless there is no change in effective rate of tax.
4. It is further clarified that the provisions of partial reverse charge would also be applicable in respect of such services where point of taxation is on or after 01.07.2012 under the applicable rule in respect of the service provider.

Madam/Sir,

Subject: Clarification on service tax on remittances - regarding.

Concerns have been expressed in various forums regarding the leviability of service tax on the remittance of foreign currency in India from overseas.

2. The matter has been examined and it is clarified that there is no service tax *per se* on the amount of foreign currency remitted to India from overseas. In the negative list regime, 'service' has been defined in clause (44) of section 65B of the Finance Act 1994, as amended, which excludes transaction in money. As the amount of remittance comprises money, the activity does not comprise a 'service' and thus not subjected to service tax.

3. In case any fee or conversion charges are levied for sending such money, they are also not liable to service tax as the person sending the money and the company conducting the remittance are located outside India. In terms of the Place of Provision of Services Rules, 2012, such services are deemed to be provided outside India and thus not liable to service tax.

4. It is further clarified that even the Indian counterpart bank or financial institution who charges the foreign bank or any other entity for the services provided at the receiving end, is not liable to service tax as the place of provision of such service shall be the location of the recipient of the service, i.e. outside India, in terms of Rule 3 of the Place of Provision of Services Rules, 2012.

5. This Circular may be communicated to the field formations and service tax assessees, through Public Notice/ Trade Notice. Hindi version to follow.

Madam/Sir,

**Subject: service tax – vocational education/training course
-- regarding.**

Clarification has been sought in respect of levy of service tax on certain vocational education/training/ skill development courses (VEC) offered by the Government (Central Government or State Government) or local authority themselves or by an entity independently established by the Government under the law, as a society or any other similar body.

2. The issue has been examined. When a VEC is offered by an institution of the Government or a local authority, question of service tax does not arise. In terms of section 66D (a), only specified services provided by the Government are liable to tax and VEC is excluded from the service tax.
3. When the VEC is offered by an institution, as an independent entity in the form of society or any other similar body, service tax treatment is determinable by the application of either sub-clause (ii) or (iii) of clause (I) of section 66D of the Finance Act, 1994. Sub-clause (ii) refers to "qualification recognized by any law" and sub-clause (iii) refers to "approved VEC". In the context of VEC, qualification implies a Certificate, Diploma, Degree or any other similar Certificate. The words "recognized by any law" will include such courses as are approved or recognized by any entity established under a central or state

law including delegated legislation, for the purpose of granting recognition to any education course including a VEC.

165/16/2012 - CIRCULAR ON RESTORATION OF ACCOUNTING CODES

To

Madam/Sir,

Subject: Restoration of service specific accounting codes for payment of service tax - regarding.

Negative List based comprehensive approach to taxation of services came into effect from the first day of July, 2012. Accounting code for the purpose of payment of service tax under the Negative List approach ["All Taxable Services" – 00441089] was prescribed vide Circular 161/12/2012 dated 6th July, 2012.

2. Subsequent to the issuance of the Circular, suggestions were received from the field formations that the service specific old accounting codes should be restored, for the purpose of statistical analysis; also it was suggested that list of descriptions of services should be provided to the taxpayers for obtaining registration. These suggestions were examined and a decision has been taken to restore the service specific accounting codes. Accordingly, a list of 120 descriptions of services for the purpose of registration and accounting codes corresponding to each description of service for payment of tax is provided in the annexure to this Circular.

3. Descriptions of taxable services given in the annexure are solely for the purpose of statistical analysis. On the advice of the office of the C & AG, a specific sub-head has been created for payment of “penalty” under various descriptions of services. Henceforth, the sub-head “other receipts” is meant only for payment of interest payable on delayed payment of service tax. Accounting Codes under the sub-head “deduct refunds” is not to be used by the taxpayers, as it is meant for use by the field formations while allowing refund of tax.
4. Registrations obtained under the positive list approach continue to be valid. New taxpayers can obtain registrations by selecting the relevant description/s from among the list of 120 descriptions of services given in the Annexure. Where registrations have been obtained under the description ‘All Taxable Services’, the taxpayer should file amendment application online in ACES and opt for relevant description/s from the list of 120 descriptions of services given in the Annexure. If any applications for amendment of ST-1 are pending with field formations, seeking the description ‘all taxable services’, such amendment may not be necessary and the officers in the field formations may provide necessary guidance to the taxpayers in this regard. Directorate General of Systems will be making necessary arrangements for display of the list of 120 descriptions of services and their corresponding Accounting Codes in Form ST-1 and Form ST-2 as may be necessary.
5. Officers in the field formations are instructed to extend necessary guidance to the tax payers regarding the selection of appropriate description of taxable service and facilitate the payment of service tax/cess due under the appropriate accounting code. Trade Notice/Public Notice may be issued to the field formations and tax payers. Please acknowledge receipt of this Circular. Hindi version follows.

Respected Madam/Sir,

Subject: - Clarification in respect of notices/ reminder letters issued for life insurance policies - regarding.

It has been represented by life insurance companies that in terms of the practice followed, reminder notices/letters are being issued to the policy holders to pay renewal premiums. Such reminder notices only solicit furtherance of service which if accepted by policy holder by payment of premium results in a service. Clarification has been desired whether service tax needs to be paid on the basis of such reminders.

3. The matter has been examined. Under the Point of Taxation Rules 2011, the point of taxation generally is the date of issue of invoice or receipt of payment whichever is earlier. The invoice mentioned refers to the invoices as issued under Rule 4A of the Service Tax Rules 1994. No tax point arises on account of such reminders. Thus it is clarified that reminder letters/notices for insurance policies not being invoices would not invite levy of service tax. In case of issuance of any invoice, point of taxation shall accordingly be determined.

4. The above clarification is issued only for life insurance sector.

5. Trade Notice/Public Notice may be issued to the field formations accordingly.

6. Please acknowledge the receipt of this circular. Hindi version to follow.

Sub:- Amendment to CESTAT Appeal Forms – reg..

Sir / Madam,

The Board has decided to amend/revise the forms for filing appeal in the CESTAT. Accordingly, new forms for Central Excise (E.A.-3, E.A.-4, E.A.-5), Customs (C.A.-3, C.A.-4, C.A.-5) and **Service Tax (S.T.-5, S.T.-6, S.T.-7)** have been notified vide Notification Nos 6/2013-Central Excise (N.T.), 37/2013-Customs (N.T.) and 5/2013-Service Tax, all dated 10.04.2013 respectively. **These forms have been made effective from 1.6 2013. Therefore, all appeals filed in the Tribunal on or after 1.6.2013 would be in the new form being prescribed.**

- (2). The new forms are expected to ensure quick disposal of cases. Additional information sought would lead to faster communication between the Tribunal Registry and the appellant, bunching of cases and would also facilitate creation of a comprehensive database.
- 3). Salient features of the changes introduced in the new appeal forms are as under-
 - (i). Presently appeal against the orders passed by Commissioner (Appeals) under sub-section (2) of Section 35 B of the Central Excise Act, 1944 and sub-section (2) of Section 129A of the Customs Act, 1962 are being filed in E.A.-3 and C.A.-3 forms respectively by the department. These forms are also used for filing appeals by the party. Similarly, E.A.-5 and C.A.-5 forms are being used for filing departmental applications against Order-in-Original of Commissioner on the strength of order of the Committee of Chief Commissioner under sub-section (1)

of Section 35E of the CEA, 1944 and sub-section (1) of Section 129D of the Customs Act, 1962. While in the Service tax matter, appeals are filed under Section 86 (2) and Section 86 (2A) of the Finance Act, 1994 against orders passed by the Commissioner and Commissioner (Appeals) respectively in a single form S.T.-7. Therefore, to align the forms for filing appeals with that of Service Tax, in the new appeal forms, the appeal against order passed by Commissioner (Appeals) in Central Excise and Customs matter are to be filed in the new E.A.-5 and C.A.-5 forms along with appeal against orders passed by the Commissioner.

- (ii). Separate fields have been provided in the new forms seeking details of Assessee Code (PAN based registration number), Location Code (Commissionerate / Division / Range identifier), PAN or UID where PAN is not available. Apart from this, e-mail address, telephone number and fax number of the assessee is also being sought in the new forms. These new fields are intended to facilitate quick communication between the Tribunal Registry and the Appellant and would help in identifying the location code of the assessee in case of shifting of the unit or re-organization of the jurisdiction under which the unit existed earlier. In such cases, the Tribunal Registry was not able to reach to the assessee for service of notices and delivery of orders. Location Codes can be obtained from websites <http://cbec.nsd.com> and www.aces.gov.in
- (iii). In appeal forms for Customs, IEC (Importer Exporter Code) is to be furnished mandatorily by the Appellant along with the Port Code so as to identify the Port from which the import or export has taken place. These Port Codes are available on ICEGATE.
- (iv). In Service Tax forms, a separate field for Premises Code is being introduced for identification of the jurisdictional Commissionerate / Division / Range.
- (v). PAN is required to be furnished by the Appellants. In case where PAN is not available and the Appellant is having UID, the same is required to be furnished. This would help in identification / location of persons who are not registered with the Department but are charged with penalty etc.
- (vi). It has been decided to introduce a 21 string alphanumeric number along with the date of the Order against which appeal is being filed. All the 140 existing Commissionerates have been assigned pre-figured series and serial numbers have to be filled in for the orders passed by the Commissioner or Commissioner (Appeal) or Commissioner (Adjudication), as the case may be. Some examples of the alpha-numeric series are as below-

“**AHM-CUSTM-000-COM-034-12-13 DT 02-09-2012**. This would mean Order-in-Original No.34 for the year 12-13 passed by Commissioner of Customs, Ahmadabad.”

In case of Commissioner (Appeals), the alpha numeric number would consist of APP in place of COM. For example-

“**AHM-CUSTM-000-APP-034-12-13 DT 02-09-2012**. This would mean Order-in-Appeal No.34 for the year 12-13 passed by Commissioner of Customs (Appeals), Ahmadabad.”

To illustrate, first three letters denote the city where the Commissionerate office of the Adjudicating authority is located.

The next 5 alpha string denotes the nature of the Commissionerate i.e. ‘**CUSTM**’ for exclusive Customs Commissionerates, ‘**EXCUS**’ for combined Commissionerates of Excise, Service Tax & Customs, ‘**SVTAX**’ for exclusive Service Tax Commissionerates and ‘**LTUNT**’ for LTU Commissionerates. This part of the code is for the Commissionerate, and NOT for the *subject matter* of the impugned order. Thus, even if the impugned order passed by (or relating to), say, a Central Excise Commissionerate relates to Customs or Service Tax matters, the second part of the code would still read as EXCUS. This is necessary for achieving the desired purpose of Commissionerate-wise indexing of appeals.

The next three numeric strings denote the specific Commissionerate where the first eight strings are not sufficient to identify the Commissionerate. In cases where the first two parts suffice to identify the Commissionerate, this third part will simply be three zeroes, i.e. “000”. For example, the code of Ahmedabad Customs Commissionerate would be AHM-CUSTM-000. The code of Allahabad Central Excise Commissionerate would be ALD-EXCUS-000. The reason why 000 has to be kept in the third part even for such Commissionerates is because no field can be left blank in the string. In respect of places having more than one Central Excise Commissionerates, the third part will be 001, 002, 003 and so on. In respect of Commissioner (Adj), this part will be ‘ADJ’. In respect of Customs (Preventive) Commissionerates, the third part will be PRV. In respect of Customs Commissionerates in Chennai/Delhi/Mumbai, the codes given in the third part suitably capture the nature of the Commissionerate. For example, CHN-CUSTM-SXP refers to Chennai Customs Sea (Export) Commissionerate (the ‘S’ in the 3rd part is for Sea and the XP is for Export). Similarly, in the code DLI-CUSTM-AGN for the Delhi [Airport, ACC (Import) and (General) Commissionerate], the third part AGN means ‘A’ for Airport and ‘GN’ for General.

Thus, to recapitulate, the first three parts (11-characters long) of the proposed numbering system will uniquely identify the Commissionerate of the adjudicating authority. The next three alpha strings denote the officer who is adjudicating the case. COM would denote Order in Original passed by the Commissioner, APP would denote order in appeal passed by the Commissioner (Appeal) and ADJ would mean order in original passed by the Commissioner (Adjudication).

The next three numeric strings is meant for serial number of the order to be assigned by the office of the Commissioner who is passing the order.

The next four numeric strings would denote the financial year in which the order was passed.

The last 8 empty boxes in the string are meant for the date and year of the order passed.

(vii). Separate entries are being provided in the revised form for demand of duty, fine, penalty and interest.

(viii). In order to facilitate bunching of identical issues separate entry has been provided with subject codes which are being appended to the forms. The Appellant would be required to tick mark the subject in dispute. For example, in a Customs Appeal, Sl. No.16 requires the appellant to choose from the list given under three separate heads of "Import", or "Export", or "General" depending upon the nature of the case.

(4). The above changes may be taken note of by the field formations as well as trade for proper usage of the new forms from 1.6.2013. However, the old forms may continue to be used for a period of three months from the date of coming into effect of the new forms, i.e. till 31.08.2013. **From 01.09.2013 onwards, no appeal shall be filed in the old forms.**

(5). Wide publicity may be given to the new form for the benefit of trade and industry.

(6). The [pre-figured alpha numeric numbers](#) for all the 139 Commissionerates and 8 Commissioners (Adjudication) are being uploaded on the websites - <http://www.cbec.gov.in> under [Legal Affairs](#) and <http://www.cdrcestat.gov.in>

To,

Chief Commissioners of Central Excise and Customs (All),
Director General (Service Tax), Director General (Systems), Director General
(Central Excise Intelligence), Director General (Audit),
Commissioners of Service Tax (All), Commissioners of Central Excise (All),
Commissioners of Central Excise and Customs (All)

Madam/Sir,

Subject: Tax on service provided by way of erection of *pandal* or *shamiana* - regarding.

Several representations have been received seeking clarification on the levy of service tax on the activity of preparation of place for organizing event or function by way of erection/laying of *pandal* and *shamiana*. The doubt that has been raised is that this may be a transaction involving “transfer of right to use goods” and hence deemed sale.

2. The issue has been examined. “Service” defined in section 65B (44) of the Finance Act, 1994, includes a ‘declared service’. Activity by way of erection of *pandal* or *shamiana* is a declared service, under section 66E 8(f). The process of erection of *Pandal* or *shamiana* is a reasonably specialized job and is carried out by the supplier with the help of his own labour. In addition to the erection of *pandal* or *shamiana* the service is generally coupled with other services like supply of crockery, furniture, sound system, lighting arrangements, etc.
3. For a transaction to be regarded as “transfer of right to use goods”, the transfer has to be coupled with possession. Andhra Pradesh High Court in the case of *Rashtriya Ispat Nigam Ltd. Vs. CTO* [1990 77 STC 182] held that since the effective control and possession was with the supplier, there is no transfer of right to use. This decision of the Andhra Pradesh High Court was upheld by the Supreme Court subsequently [2002] 126 STC 0114. In the matter of *Harbans Lal vs. State of Haryana* – [1993] 088 STC 0357 [Punjab and Haryana High Court], a view was taken that if *pandal*, is given to the customers for use only after having been erected, then it is not transfer of right to use goods.
4. In the case of *BSNL Vs. UOI* [2006] 3 STT 245 Hon’ble Supreme Court held that to constitute the transaction for the transfer of the right to use the goods, the transaction must have the following attributes:-

- a. There must be goods available for delivery;
 - b. There must be a consensus *ad idem* as to the identity of the goods;
 - c. The transferee should have a legal right to use the goods and, consequently, all legal consequences of such use including any permissions or licenses required therefor should be available to the transferee;
 - d. For the period during which the transferee has such legal right, it has to be the exclusion of the transferor : this is the necessary concomitant or the plain language of the statute, viz., a “transfer of the right to use” and not merely a license to use the goods:
 - e. Having transferred the right to use the goods during the period for which it is to be transferred, the owner cannot again transfer the same right to others.
5. Applying the ratio of above judgments and the test formulated by Hon’ble Supreme Court, the activity of providing *pandal* and *shamiana* along with erection thereof and other incidental activities do not amount to transfer of right to use goods. It is a service of preparation of a place to hold a function or event. Effective possession and control over the *pandal* or *shamiana* remains with the service provider, even after the erection is complete and the specially made-up space for temporary use handed over to the customer.
 6. Accordingly services provided by way of erection of *pandal* or *shamiana* would attract the levy of service tax.

It has been provided in VCES that, beside interest and penalty, immunity would also be available from any other proceeding under the Finance Act, 1994 and Rules made thereunder.

170/5 /2013 - Clarification on VCES**CIRCULAR NO****170/5 /2013-ST, Dated: August 8, 2013**

Subject: The Service Tax Voluntary Compliance Encouragement Scheme - clarifications regarding.

The Service Tax Voluntary Compliance Encouragement Scheme (VCES) has come into effect from 10.5.2013. Some of the issues raised with reference to the Scheme have been clarified by the Board vide circular No. 169/4/2013-ST, dated 13.5.2013. Subsequently, references have been received by the Board seeking further clarifications as regards the scope and applicability of the Scheme.

2. The issues have been examined and clarifications thereto are as follows:

S No.	Issues	Clarification
1	Whether the communications, wherein department has sought information of roving nature from potential taxpayer regarding their business activities without seeking any documents from such person or calling for his presence, while quoting the authority of section 14 of the Central Excise Act, 1944, would attract the provision of section 106 (2) (a)?	Attention is invited to clarification issued at S. No. 4 of the circular No. 169/4/2013-ST, dated 13.5.2013, as regards the scope of section 106 (2) (a) of the Finance Act, 2013, wherein it has been clarified that the provision of section 106 (2)(a)(iii) shall be attracted only in such cases where accounts, documents or other evidence are requisitioned by the authorized officer from the declarant under the authority of a statutory provision. A communication of the nature as mentioned in the previous column would not attract the provision of section 106 (2) (a) even though the authority of section 14 of the Central Excise Act may have been quoted therein.
2	An assessee has two units at two different locations, say Mumbai and Ahmedabad. Both are separately registered. The Mumbai unit has received a Show Cause Notice for non-payment of tax on a revenue stream but the Ahmedabad unit has not. Whether the Ahmedabad unit is eligible for VCES?	Two separate service tax registrations are two distinct assessees for the purposes of service tax levy. Therefore, eligibility for availing of the Scheme is to be determined accordingly. The unit that has not been issued a show cause notice shall be eligible to make a declaration under the Scheme.
3	Whether a declaration can be made under the Scheme in respect of CENVAT credit wrongly utilized for payment of service tax?	Any service tax that has been paid utilizing the irregular credit, amounts to non-payment of service tax. Therefore such service tax amount is covered under the definition of "tax dues".

4	Whether a party, against whom an inquiry, investigation or audit has been initiated after 1.3.2013 (the cutoff date) can make a declaration under the Scheme?	Yes. There is no bar from filing of declaration in such cases.
5	There was a default and a Show Cause Notice was issued for the period prior to the period covered by the Scheme, i.e. before Oct 2007. Whether declaration can be filed for default on the same issue for the subsequent period?	In the context of the Scheme, the relevant period is from Oct 2007 to Dec 2012. Therefore, the 2 nd proviso to section 106 (1) shall be attracted only in such cases where a show cause notice or order of determination has been issued for the period from Oct 2007 to Dec 2012. Accordingly, issuance of a show cause notice or order of determination for any period prior to Oct 2007, on an issue, would not make a person ineligible to make a declaration under the Scheme on the same issue for the period covered by the Scheme. Therefore, declaration can be made under VCES.
6	In a case where the assessee has been audited and an audit para has been issued, whether the assessee can declare liability on an issue which is not a part of the audit para , under the VCES 2013?	Yes, declarant can declare the "tax dues" concerning an issue which is not a part of the audit para .
7	Whether a person, who has paid service tax for a particular period but failed to file return, can take the benefit of VCES Scheme so as to avoid payment of penalty for non- filing of return?	Under VCES a declaration can be made only in respect of "tax dues". A case where no tax is pending, but return has not been filed, does not come under the ambit of the Scheme. However, rule 7C of the Service Tax Rules provides for waiver of penalty in deserving cases where return has not been filed and, in such cases, the assessee may seek relief under rule 7C.
8	A person has made part payment of his 'tax dues' on any issue before the scheme was notified and makes the declaration under VCES for the remaining part of the tax dues. Will he be entitled to the benefit of non-payment of interest/penalty on the tax dues paid by him outside the VCES, i.e., (amount paid prior to VCES)?	No. The immunity from interest and penalty is only for "tax dues" declared under VCES. If any "tax dues" have been paid prior to the enactment of the scheme, any liability of interest or penalty thereon shall be adjudicated as per the provisions of Chapter V of the Finance Act, 1994 and paid accordingly.
9	Whether an assessee , who, during a part of the period covered by the Scheme, is in dispute on an issue with the department under an erstwhile provision of law,	In terms of the second proviso to section 106 (1), where a notice or order of determination has been issued to a person in respect of any issue, no declaration shall be made by such person in respect of "tax dues" on the same issue for subsequent period. Therefore, if an issue is being

	can declare his liability under the amended provisions, while continuing to litigate the outstanding liability under the erstwhile provision on the issue?	litigated for a part of the period covered by the Scheme, i.e., Oct, 2007 to Dec 2012, no declaration can be filed under VCES in terms of the said proviso on the same issue for the subsequent period.
10	Whether upon filing a declaration a declarant realizes that the declaration filed by him was incorrect by mistake? Can he file an amended declaration?	The declarant is expected to declare his tax dues correctly. In case the mistake is discovered suo-moto by the declarant himself, he may approach the designated authority, who, after taking into account the overall facts of the case may allow amendments to be made in the declaration, provided that the amended declaration is furnished by declarant before the cut off date for filing of declaration, i.e., 31.12.2013.
11	What is the consequence if the designated authority does not issue an acknowledgement within seven working days of filing of declaration? Whether the declarant can start making payment of the tax dues even if acknowledgement is not issued?	Department would ensure that the acknowledgement is issued in seven working days from the date of filing of the declaration. It may however be noted that payment of tax dues under the Scheme is not linked to the issuance of an acknowledgement. The declarant can pay tax dues even before the acknowledgement is issued by the department.
12	Whether declarant will be given an opportunity to be heard and explain his cases before the rejection of a declaration under section 106(2) by the designated authority?	<p>Yes. In terms of section 106 (2) of the Finance Act, 2013, the designated authority shall, by an order, and for reasons to be recorded in writing, reject a declaration if any inquiry/investigation or audit was pending against the declarant as on the cutoff date, i.e., 1.3.2013. An order under this section shall be passed following the principles of natural justice.</p> <p>To allay any apprehension of undue delays and uncertainty, it is clarified that the designated authority, if he has reasons to believe that the declaration is covered by section 106 (2), shall give a notice of intention to reject the declaration within 30 days of the date of filing of the declaration stating the reasons for the intention to reject the declaration. For declarations already filed, the said period of 30 days would apply from the date of this circular.</p> <p>The declarant shall be given an opportunity to be heard before any order is passed by the designated authority.</p>
13	What is the appeal mechanism against the order	The Scheme does not have a statutory provision for filing of appeal against the order for rejection of

	of the designated authority whereby he rejects the declaration under section 106 (2) of the Finance Act, 2013?	declaration under section 106 (2) by the designated authority ¹⁶² .
14	A declarant pays a certain amount under the Scheme and subsequently his declaration is rejected. Would the amount so paid by him be adjusted against his liability that may be determined by the department?	The amount so paid can be adjusted against the liability that is determined by the department.
15	Section 111 prescribes that where the Commissioner of Central Excise has reasons to believe that the declaration made by the declarant was 'substantially false', he may serve a notice on the declarant in respect of such declaration. However, what constitutes a 'substantially false' declaration has not been specified.	<p>The Commissioner would, in the overall facts of the case, taking into account the reasons he has to believe, take a judicious view as to whether a declaration is 'substantially false'. It is not feasible to define the term "substantially false" in precise terms. The proceeding under section 111 would be initiated in accordance with the principles of natural justice.</p> <p>To illustrate, a declarant has declared his "tax dues" as Rs 25 lakh. However, Commissioner has specific information that declaration has been made only for part liability, and the actual "tax dues" are Rs 50 lakh. This declaration would fall in the category of "substantially false".</p> <p>This example is only illustrative.</p>
16	What is the consequence if a declarant fails to pay atleast 50% of declared amount of tax dues by the 31 st Dec 2013?	One of the conditions of the Scheme [section 107 (3)] is that the declarant shall pay atleast an amount equal to 50% of the declared tax dues under the Scheme, on or before the 31.12.2013. Therefore, if the declarant fails to pay atleast 50% of the declared tax dues by 31 st Dec, 2013, he would not be eligible to avail of the benefit of the scheme.
17	Whether the CENVAT credit is admissible on the inputs/input services used for provision of output service in respect of which declaration has been made under VCES for payment of any tax liability outside the VCES?	<p>The VCES Rules 2013 prescribe that CENVAT credit cannot be utilized for payment of "tax dues" under the Scheme. Accordingly the "tax dues" under the Scheme shall be paid in cash.</p> <p>The admissibility of CENVAT credit on any inputs and input services used for provision of output service in respect of which declaration has been made shall continue to be governed by the</p>

Subject: Guidelines for arrest and bail in relation to offences punishable under the Finance Act, 1994

Section 103 (K) of the Finance Act, 2013 has introduced Sections 90 & 91 in the Finance Act, 1994, with effect from 10th May, 2013. In terms of section 90 of the Finance Act, 1994, as amended, offences under section 89(1) (ii) shall be cognizable and all other offences shall be non-cognizable and bailable. In terms of section 91(1) read with section 89(1) (i) and (ii) of the Finance Act, 1994, as amended, the power to arrest has been introduced in cases involving evasion of service tax covered under section 89(1) (i) and (ii) of the Finance Act, 1994, as amended and the amount of service tax evaded exceeds rupees fifty lakh. In this context, the following points may be noted for strict compliance:-

1.2 The following cases are covered under section 89(1) (i):

1.2.1 where a person knowingly evades the payment of service tax, or

1.2.2 avails and utilizes credit of taxes or duty without actual receipt of taxable service or excisable goods either fully or partially in violation of the rules, or

1.2.3 maintains false books of accounts or fails to supply any information which he is required to supply or supplies false information,

and the amount of service tax involved is more than fifty lakh rupees.

In such cases, the Assistant Commissioner or the Deputy Commissioner shall, for the purpose of releasing an arrested person on bail or otherwise, have the same powers and be subject to the same provisions as an officer in-charge of a police station has, and is subject to, under Section 436 of the Code of Criminal Procedure, 1973(2 of 1974). This is in terms of section 91(3) of the Finance Act, 1994, as amended.

1.3 The following cases are covered under section 89(1) (ii):

1.3.1 where a person has collected any amount exceeding fifty lakh rupees as service tax but fails to pay the amount as collected to the credit of the Central Government beyond a period of six months from the date on which such payment becomes due.

In such cases, after following the due procedure of arrest, the arrested person must be produced before the magistrate without unnecessary delay, and definitely within 24 hours. This is in terms of section 91(2) of the Finance Act, 1994, as amended. The magistrate will decide on whether or not to grant bail.

2.0 Conditions precedent

2.1 Since arrest impinges on the personal liberty of an individual, this power must be exercised carefully. The Finance Act 1994, as amended, has specified categories of offences in respect of which only powers of arrest may be exercised and these offences are covered under clause (i) or clause (ii) of sub-section (1) of section 89 of the Finance Act, 1994. Further, the Finance Act 1994 has also prescribed value limits of evasion of service tax exceeding Rs 50 lakh, for exercising the powers of arrest.

2.2 The legal stipulations in the Finance Act 1994, as amended, contained in section 91 read with section 89 must be strictly adhered to. An officer of Central Excise not below the rank of Superintendent of Central Excise can carry out an arrest on being authorized by the Commissioner of Central Excise. To authorize the arrest the Commissioner should have reason to believe that the person proposed to be arrested has committed an offence specified in clause (i) or clause (ii) of sub-section (1) of section 89. The reason to believe must be based on credible material which will stand judicial scrutiny.

2.3 Apart from fulfilling the legal requirements, the need to ensure proper investigation, prevention of the possibility of tampering with evidence or intimidating or influencing witnesses and large amounts of service tax evaded are relevant factors before deciding to arrest a person.

3.0 Procedure for arrest

3.1 The provisions of the Code of Criminal Procedure 1973 (2 of 1974) relating to arrest and the procedure thereof must be adhered to. It is therefore advised that the Commissioner should ensure that all officers are fully familiar with the provisions of the Code of Criminal Procedure 1973 (2 of 1974).

3.2 There is no prescribed format for arrest memo but an arrest memo must be in compliance with the directions in D.K Basu vs State of West Bengal reported in 1997(1) SCC 416 (see paragraph 35). The arrest memo should include:

3.2.1 brief facts of the case;

3.2.2 details of the person arrested;

3.2.3 gist of evidence against the person;

3.2.4 relevant section (s) of the Finance Act, 1994 or other laws attracted to the case and to the arrested person;

3.2.5 the grounds of arrest must be explained to the arrested person and this fact noted in the arrest memo;

3.2.6 a nominated person (as per the details provided by arrested person) of the arrested person should be informed immediately and this fact also may be mentioned in the arrest memo;

3.2.7 the date and time of arrest may be mentioned in the arrest memo and the arrest memo should be given to the person arrested under proper acknowledgment;

3.2.8 a separate arrest memo has to be made and provided to each individual/arrested person. This should particularly be kept in mind in the event that there are several arrests in a single case.

3.3 Further there are certain modalities that should be complied with at the time of arrest and pursuant to an arrest, which include the following:

3.3.1 A female should be arrested by or in the presence of a woman officer;

3.3.2 Medical examination of an arrested person should be conducted by a medical officer in the service of Central or State Governments and in case the medical officer is not available, by a registered medical practitioner, soon after the arrest is made. If an arrested person is a female then such an examination shall be made only by, or under supervision of a female medical officer, and in case the female medical officer is not available, by a female registered medical practitioner.

3.3.3 It shall be the duty of the person having the custody of an arrested person to take reasonable care of the health and safety of the arrested person.

4.0 Post arrest formalities

4.1 The procedure is separately outlined for the different categories as listed in section 89(1) (i) and (ii) of the Finance Act, 1994, as amended:

4.1.1 In cases covered under section 89(1) (i), the Assistant Commissioner or Deputy Commissioner is bound to release a person on bail against a bail bond. The bail conditions should be informed in writing to the arrested person and also informed on telephone to the nominated person of the person (s) arrested. The arrested person should be also allowed to talk to a nominated person. The conditions will relate to, inter alia, execution of a personal bail bond and one surety of like amount given by a local person of repute, appearance before the investigating officer when required and not leaving the country without informing the officer. The amount to be indicated in the personal bail bond and security will depend, inter alia, on the amount of tax involved.

4.1.2 If the conditions of the bail are fulfilled by the arrested person, he shall be released by the officer concerned on bail forthwith. However, only in cases where the conditions for granting bail are not fulfilled, the arrested person shall be produced before the appropriate Magistrate without unnecessary delay and within twenty-four (24) hours of arrest. The arrested person may be handed over to the nearest police station for his safe custody, within 24 hours, during the night under a challan, before he is produced before the Court.

4.2 In cases covered under section 89(1) (ii) and only in the event of circumstances preventing the production of the arrested person before a Magistrate without unnecessary delay, the arrested person may be handed over to nearest Police Station for his safe custody, within 24 hours, under a proper challan, and produced before the Magistrate on the next day, and the nominated person of the arrested person may be also informed accordingly.

4.3 Formats of the relevant documentation i.e. the Bail Offer Letter, the Bail Bond and the Challan for handing over to the police, in the Code of Criminal Procedure, 1973. (2 of 1974) may be followed.

4.4 Every Commissionerate should maintain a Bail Register which will have the details of the case, arrested person, bail amount, surety amount. The money/instruments/documents received as surety should be kept in safe custody. The money should be deposited in the treasury. The other instruments/documents should be kept in the custody of a single nominated officer. It should be ensured that the instruments/documents received as surety are kept valid till the bail is discharged.

5.0 Reporting System

5.1 A report on every person arrested should be sent to the jurisdictional Chief Commissioner with a copy to DGCEI (Headquarters) the same day or on the next day.

5.2 Chief Commissioners shall send a report on every arrest to the Zonal Member within 24 hours of the arrest giving such details as prescribed in the monthly report . To maintain an all India record of arrests made in service tax, a monthly report of all persons arrested in the Zone shall be sent by the Chief Commissioner to DGCEI (Headquarters), New Delhi, by the 5th of the succeeding month, in the following format:

Monthly Report on Persons Arrested in a Zone

S.No	Name, designation and age of arrested person	Date of arrest	Commissionerate	Name and Registration Number of Company	Amount of duty evaded	Role in evasion and nature of evidence collected

To
Chief Commissioners of Central Excise and Service Tax (All),
Director General (Service Tax), Director General (Central Excise Intelligence),
Director General (Audit),
Commissioners of Service Tax (All),
Commissioners of Central Excise and Service Tax (All).

Madam/Sir,

Subject: Education services – clarification -- reg.

The following representations have been received seeking clarifications regarding the levy of service tax on certain services relating to the education sector:

1. Private Schools Correspondents Confederation, Madurai.
2. Tamil Nadu Nursery, Primary, matriculation and Higher Secondary Schools Association, Chennai.
3. Punjab Association, Chennai.
4. Association of Self financing Universities of Rajasthan
5. Unaided Schools' Forum, Mumbai.
6. Vedavalli Vidyalaya, Wallajapet.
7. Independent Schools Associations, Chandigarh.
8. Mother Teresa Public School, New Delhi.
9. BVM Global, Chennai.
10. Sastra University, Tanjavur.
11. HLC International, Chennai.
12. Sodexo Food Solutions, Mumbai.
13. Federation of Associations of Maharashtra, Mumbai.

2. The matter is covered by two provisions of the Finance Act, 1994. Section 66D of the Finance Act contains a negative list of services and clause (l) thereof reads as under:

“services by way of –

(i) pre-school education and education upto higher secondary school or equivalent;

(ii) education as a part of a curriculum for obtaining a qualification recognized by any law for the time being in force;

(iii) education as a part of an approved vocational education course;”

Further section 93(1) of the Finance Act, 1994, enables the Government to exempt generally or subject to such conditions taxable service of specified description. By virtue of the said power, Government has issued a notification No.25/2012-ST dated 20th June, 2012, exempting certain services. Sl.no.9 thereof reads as follows:

“Services provided to an educational institution in respect of education exempted from service tax, by way of,-

(a) auxiliary educational services; or

(b) renting of immovable property;”

As defined in the said notification, "auxiliary educational services" means any services relating to imparting any skill, knowledge, education or development of course content or any other knowledge–enhancement activity, whether for the students or the faculty, or any other services which educational institutions ordinarily carry out themselves but may obtain as outsourced services from any other person, including services relating to admission to such institution, conduct of examination, catering for the students under any mid-day meals scheme sponsored by Government, or transportation of students, faculty or staff of such institution.

3. By virtue of the entry in the negative list and by virtue of the portion of the exemption notification, it will be clear that all services relating to education are exempt from service tax. There are many services provided to an educational institution. These have been described as “auxiliary educational services” and they have been defined in the exemption notification. Such services provided to an educational institution are exempt from service tax. For example, if a school hires a bus from a transport operator in order to ferry students to and from school, the transport services provided by the transport operator to the school are exempt by virtue of the exemption notification.

4. In addition to the services mentioned in the definition of “auxiliary educational services”, other examples would be hostels, housekeeping, security services, canteen, etc.

5. Thus the apprehensions conveyed in the representations submitted by certain educational institutions and organizations have no basis whatsoever. These institutions and organizations are requested not to give credence to rumours or mischievous suggestions. If there is any doubt they are requested to approach the Chief Commissioner concerned.

6. All concerned are requested to acknowledge the receipt of this circular.

 Director General (Service Tax), Director General (Central Excise Intelligence),
 Director General (Audit),
 Commissioners of Service Tax (All)
 Commissioners of Central Excise (All),
 Commissioners of Central Excise and Customs (All).

Madam/Sir,

Subject: Restaurant Service- clarification -regarding

As part of the Budget exercise 2013, the exemption for services provided by specified restaurants extended vide serial number 19 of Notification 25/2012-ST was modified vide para 1 (iii) of Notification 3/2013-ST. This has become operational on the 1st of April, 2013.

2. In this context, representations have been received. On the doubts and questions raised therein clarifications are as follows:

	Doubts	Clarifications
1.	In a complex where air conditioned as well as non-air conditioned restaurants are operational but food is sourced from the common kitchen, will service tax arise in the non-air conditioned restaurant?	Services provided in relation to serving of food or beverages by a restaurant, eating joint or mess, having the facility of air conditioning or central air heating in any part of the establishment, at any time during the year (hereinafter referred as 'specified restaurant') attracts service tax. In a complex, if there is more than one restaurant, which are clearly demarcated and separately named but food is sourced from a common kitchen, only the service provided in the specified restaurant is liable to service tax and service provided in a non air-conditioned or non centrally air- heated restaurant will not be liable to service tax. In such cases, service provided in the non air-conditioned / non-centrally air-heated restaurant will be treated as exempted service and credit entitlement will be as per the Cenvat Credit Rules.
2.	In a hotel, if services are provided by a specified restaurant in other areas e.g. swimming pool or an open area attached to the restaurant, will service tax arise?	Yes. Services provided by specified restaurant in other areas of the hotel are liable to service tax.

3.	Whether service tax is leviable on goods sold on MRP basis across the counter as part of the Bill/invoice.	If goods are sold on MRP basis (fixed under the Legal Metrology Act) they have to be excluded from total amount for the determination of value of service portion.

Madam/Sir,

Sub: The Service Tax Voluntary Compliance Encouragement Scheme - reg.

The Service Tax Voluntary Compliance Encouragement Scheme (VCES) has come into effect from 10.5.2013. Most of the issues raised with reference to the Scheme have been clarified by the Board vide circular Nos. 169/4/2013-ST, dated 13.5.2013 and No. 170/5/2013-ST, dated 8.8.2013. These clarifications have also been released in the form of FAQs. Attention is also invited to letter F. No. 137/50/2013-ST, dated 22.8.2013 as regards the action to be taken by the field formations for effective implementation of the Scheme. A number of interactive sessions have also been held at various places to ascertain and address the concerns of trade on any aspect of the Scheme.

2. In the recently held interactive sessions at Chennai, Delhi and Mumbai, which were chaired by the Hon'ble Finance Minister, the trade had raised certain queries and also expressed some apprehensions. Most of these issues have already been clarified in the aforementioned circulars/FAQs. Certain issues raised in these interactive sessions, which have not been specifically clarified hitherto or clarified adequately, are discussed and clarified as below.

S.No.	Issue raised	Clarification
1	An instance was brought to notice wherein a declaration was returned probably on the ground that it was incomplete.	As has already been directed by the Board, vide the said letter dated 22.8.2013 (para 2.4 of the letter), the designated authority shall ensure that no declaration is returned. In all cases, declaration should be promptly received and duly acknowledged. Request for clarification should be dealt with promptly. Defects in the application, if any, should be explained to the declarant and possible assistance be provided in rectifying these defects. The effort must be to accept a declaration, as far as possible, and recover the arrears of tax.
2	An apprehension was raised that declarations are being	Section 106(2) prescribes four conditions that would

	<p>considered for rejection under section 106 (2) of the Finance Act, 2013, even though the "tax dues" pertain to an issue or a period which is different from the issue or the period for which inquiry /investigation or audit was pending as on 1.3.2013.</p>	<p>lead to rejection of declaration, namely,</p> <p>(a) an inquiry or investigation in respect of a service tax not levied or not paid or short-levied or short-paid has been initiated by way of,-</p> <p>(i) search of premises under section 82 of the Finance Act,1994 ; or</p> <p>(ii) issuance of summons under section 14 of the Central Excise Act, 1944; or</p> <p>(iii) requiring production of accounts, documents or other evidence under the Finance Act, 1994 or the rules made there under; or</p> <p>(b) an audit has been initiated,</p> <p>and such inquiry, investigation or audit was pending as on the 1st day of March, 2013.</p> <p>These conditions may be construed strictly and narrowly. The concerned Commissioner may ensure that no declaration is rejected on frivolous grounds or by taking a wider interpretation of the conditions enumerated in section 106(2). If the issue or the period of inquiry, investigation or audit is identifiable from summons or any other document, the declaration in respect of such period or issue <u>alone</u> will be liable for rejection under the said provision.</p> <p>Examples:</p> <p>(1) If an inquiry, investigation or audit, pending as on 1.3.2013 was being carried out for the period from 2008-2011, benefit of VCES would be eligible in respect of 'tax dues' for the year 2012, i.e., period not covered by the inquiry, investigation or audit.</p> <p>(2) If an inquiry or investigation, pending as on 1.3.2013 was in respect of a specific issue, say renting of immovable property, benefit of VCES would be eligible in respect of 'tax dues' concerning any other issue in respect of which no inquiry or investigation was pending as on 1.3.2013.</p> <p>It is also reiterated that the designated authority, if he has reasons to believe that the declaration is covered by section 106(2), shall give a notice of intention to reject the declaration within 30 days of the date of filing of the declaration stating such reasons to reject the declaration. Commissioners should ensure that this time line is followed scrupulously.</p>
3	<p>Whether benefit of VCES would be available in cases where documents like balance sheet, profit and loss account etc. are called for by department in the inquiries of</p>	<p>The designated authority/ Commissioner concerned may take a view <u>on merit</u>, taking into account the facts and circumstances of each case as to whether the inquiry is of roving nature or whether the provisions of section 106 (2) are attracted in such cases.</p>

	roving nature, while quoting authority of section 14 of the Central Excise Act in a routine manner.	
4	Whether the benefit of the Scheme shall be admissible in respect of any amount covered under the definition of 'taxes dues', as defined in the Scheme, if paid by an assessee after the date of the Scheme coming into effect, (i.e., 10.5.2013), but before a declaration is filed	<p>Yes, benefit of the Scheme would be available if such amount is declared under the Scheme subsequently, along with the remaining tax dues, if any, provided that Cenvat credit has not been utilized for payment of such amount.</p> <p>Example: A person has tax dues of Rs 10 lakh. He makes a payment of Rs 2 lakh on 15.5.2013, without making a declaration under VCES. He does not utilize Cenvat credit for paying this amount. Subsequently, he makes declaration under VCES on 1.7.2013. He may declare his tax dues as Rs 10 lakh. Rs 2 lakh paid before making the declaration will be considered as payment under VCES.</p>
5	Whether declaration can be made in such case where service tax pertaining to the period covered by the Scheme along with interest has already been paid by the parties, before the Scheme came into effect, so as to get waiver from penalty and other proceedings?	As no "tax dues" is pending in such case, declaration cannot be filed under VCES. However, there may be a case for taking a lenient view on the issue of penalties under the provision of the Finance Act, 1994. In this regard attention is invited to section 73 (3) and section 80 of the Finance Act, 1994.

175/01/2014 ST – RWA Clarification**Dated: January 10, 2014**

To

Chief Commissioners of Central Excise and Service Tax (All), Director General (Service Tax), Director General (Central Excise Intelligence), Director General (Audit), Commissioners of Service Tax (All), Commissioners of Central Excise and Service Tax (All).

Madam/Sir,

Subject : Levy of service tax on services provided by a Resident Welfare Association (RWA) to its own members – regarding.

Service tax on 'club or association service' which covers Resident Welfare Association (RWA) was introduced with effect from 16.06.2005, vide section 65(105)(zzze) read with section 65(25a)[(25a) was later renumbered as (25aa)]. Under the positive list approach which was followed prior to 1 st July 2012, exemption was available under notification No. 8/2007-ST dated 01.03.2007, if the total consideration received from an individual member by the RWA for the services does not exceed three thousand rupees per month. This notification was rescinded vide notification No. 34/2012-ST dated 20 th June 2012, with effect from 1 st July, 2012.

2. Under the negative list approach, with effect from 1 st July, 2012, notification No.25/2012-ST [sl.no.28 (c)] provides for exemption to service by a RWA to its own members by way of reimbursement of charges or share of contribution up to five thousand rupees per month per member for sourcing of goods or services from a third person for the common use of its members.

Certain doubts have been raised regarding the scope of the present exemption extended to RWAs under the negative list approach. These doubts have been examined and clarifications are given below:

Sl. No.	Doubt	Clarification
1.	(i) In a residential complex, monthly contribution collected from members is used by the RWA for the purpose of making payments to the third parties, in respect of commonly used services or goods [Example: for providing security service for the residential complex, maintenance or upkeep of common area and common facilities like lift, water sump, health and fitness centre, swimming pool, payment of electricity Bill for the common area and lift, etc.]. Is service tax	<p>Exemption at Sl. No. 28 (c) in notification No. 25/2012-ST is provided specifically with reference to service provided by an unincorporated body or a non-profit entity registered under any law for the time being in force such as RWAs, to its own members.</p> <p>However, a monetary ceiling has been prescribed for this exemption, calculated in the form of five thousand rupees per month per member contribution to the RWA, for sourcing of goods or services from third person for the common use of its members.</p> <p>If per month per member contribution of any or some members of a RWA exceeds five thousand rupees, the entire contribution of such members whose per month contribution exceeds five thousand rupees would be ineligible for the exemption under the said notification. Service tax would then be leviable on the aggregate</p>

	leviable? (ii) If the contribution of a member/s of a RWA exceeds five thousand rupees per month, how should the service tax liability be calculated?	amount of monthly contribution of such members.
2.	(i) Is threshold exemption under notification No. 33/2012-ST available to RWA? (ii) Does 'aggregate value' for the purpose of threshold exemption, include the value of exempt service?	Threshold exemption available under notification No. 33/2012-ST is applicable to a RWA, subject to conditions prescribed in the notification. Under this notification, taxable services of aggregate value not exceeding ten lakh rupees in any financial year is exempted from service tax. As per the definition of 'aggregate value' provided in Explanation B of the notification, aggregate value does not include the value of services which are exempt from service tax.
3.	If a RWA provides certain services such as payment of electricity or water bill issued by third person, in the name of its members, acting as a 'pure agent' of its members, is exclusion from value of taxable service available for the purposes of exemptions provided in Notification 33/2012-ST or 25/2012-ST ?	In Rule 5(2) of the Service Tax (Determination of Value) Rules, 2006, it is provided that expenditure or costs incurred by a service provider as a pure agent of the recipient of service shall be excluded from the value of taxable service, subject to the conditions specified in the Rule. For illustration, where the payment for an electricity bill raised by an electricity transmission or distribution utility in the name of the owner of an apartment in respect of electricity consumed thereon, is collected and paid by the RWA to the utility, without charging any commission or a consideration by any other name, the RWA is acting as a pure agent and hence exclusion from the value of taxable service would be available. However, in the case of electricity bills issued in the name of RWA, in respect of electricity consumed for common use of lifts, motor pumps for water supply, lights in common area, etc., since there is no agent involved in these transactions, the exclusion from the value of taxable service would not be available.
4.	Is CENVAT credit available to RWA for payment of service tax?	RWA may avail cenvat credit and use the same for payment of service tax, in accordance with the Cenvat Credit Rules.

974/08/2013-CX - Arrest and Bail
F. No. 4/2/2011-CX-1

New Delhi, the 17th September 2013

To

All Chief Commissioners of Central Excise & Customs,

All Chief Commissioners of Central Excise,

All Directors General,

Sir/Madam,

Subject – Arrest and Bail under Central Excise Act, 1944 - reg.

1.1 I am directed to invite your attention to the amendments to sections 9A, 20 and 21 of the Central Excise Act, 1944 vide the Finance Act, 2013. A new sub-section (1A) has been inserted in section 9A to specify that the offences relating to excisable goods, where the duty involvement exceeds Rs. fifty lakh and which are punishable under clause (b) or clause (bbbb) of sub-section (1) of section 9, are cognizable and non-bailable. For ease of reference, clause (b) and clause (bbbb) of sub-section 9(1) as well as new sub-section 9A (1A) are summarized below:

(i) Clause (b) of sub-section 9(1) - Whoever evades the payment of any duty payable under this Act;

(ii) Clause (bbbb) of sub-section 9(1) – Whoever contravenes any of the provisions of this Act or the rules made there under in relation to credit of any duty allowed to be utilised towards payment of excise duty on final product.

(iii) Sub-section 9A(1A) - The offences relating to excisable goods where the duty leviable thereon under this Act exceeds fifty lakh rupees and punishable under clause (b) or clause (bbbb) of sub-section (1) of section 9, shall be cognizable and non-bailable.

1.2 All other offences under section 9 are non-cognizable and bailable.

2.1 Thus the offences under Central Excise Act fall in two categories - bailable and non-bailable. Depending on the type of offence committed, a person is liable to

be arrested in either of the two category of offence. Since arrest takes away the liberty of an individual, the power must be exercised with utmost care and caution and only when the exigencies of the situation demand arrest.

Non-bailable offences

3.1 A person is liable to be arrested for non-bailable offence only when the offence committed by him is covered under clause (b) or clause (b) of sub-section 9(1) and the duty involvement exceeds Rs. fifty lakh. Thus, it is essential to examine offences in each and every case with reference to each of the clauses of sub-section 9(1) and also the quantum of duty involved prior to invoking the arrest provisions. Only where clause (b) or clause (b) are the most appropriate clauses to describe the offence and duty involved exceeds rupees fifty lakhs, these provisions should be invoked. Any person arrested for offences under these clauses should be informed of the grounds of arrest and produced before a magistrate without unnecessary delay and within 24 hours of arrest.

3.2 A list of non-bailable offences where decision to arrest may be taken by the Commissioner is given below:-

- (a) clandestine removal of manufactured goods;
- (b) removal of goods without declaring the correct assessable value and receiving a portion of sale price in cash which is in excess of invoice price and not accounted for in the books of account;
- (c) taking Cenvat Credit without the receiving the goods specified in the invoice;
- (d) taking Cenvat Credit on fake invoices;
- (e) issuing Cenvatable invoices without delivering the goods specified in the said invoice.

3.3 In all other cases of cognizable and non-bailable offences, covered by clause (b) or clause (b) of sub-section 9(1) where the duty involved exceeds rupees fifty lakhs, which are not listed at paragraph 3.2 above, e.g. (i) removal of inputs as such, without reflecting such removal in records, on which Cenvat

credit has been taken, without payment of amount equal to the credit availed on such inputs (ii) irregular and wrongful availment of benefit of central excise duty exemption by reason of fraud, collusion, willful misstatement, suppression of facts, or contravention of the provisions of the Act or the rules with intent to evade payment of duty, etc, decision to arrest shall be taken by the Commissioner only with the approval of the jurisdictional Chief Commissioner.

Bailable offence

- 4.1 A person is also liable to be arrested in case of non-cognizable and bailable offences, when such an offence is committed. Amendments have been made in section 20 and section 21 to provide, *inter alia*, that powers to grant bail or release an arrested person on execution of bond can be exercised only for offences which are non-cognizable. Any person arrested for non-cognizable offence shall have to be released on bail, if he offers bail, and in case of default of bail, he is to be forwarded to the custody of magistrate. In terms of notification no 9/99-C.E.(N.T.) dated 10-2-99, an officer not below the rank of Superintendent of Central Excise can exercise powers under section 21 including powers to grant bail.
- 4.2 Bail should be subject to the condition(s), as deemed fit, depending upon the facts and circumstances of each individual case. It has to be ensured that the amount of bail bond/ surety should not be excessive and should be commensurate with the financial status of the arrested person. Further the bail conditions should be informed by the arresting officer in writing to the person arrested and also informed on telephone to the nominated person of the person(s) arrested. Arrested person should be allowed to talk to the nominated person. If the conditions of the bail are fulfilled by the arrested person, he shall be released by the officer concerned on bail. The arresting officer may, and shall if such a person is indigent and unable to furnish surety, instead of taking bail, discharge him on executing a bond without sureties to his appearance as provided under section 436 of CrPC. However, in cases where the conditions for granting bail are not fulfilled, the arrested person shall be produced before the appropriate magistrate within 24 hours of arrest.

4.3 Only in the event of circumstances preventing the production of the person arrested before a Magistrate without unnecessary delay, the arrested person may be handed over to nearest Police Station for his safe custody during night, under proper Challan and produced before the magistrate the next day. These provision shall apply for non-bailable offence also. The nominated person of the arrested person may also be informed accordingly.

Precautions to be taken by the departmental officers

5.1 Powers to arrest a person needs to be exercised with utmost caution. Chief Commissioners/ Commissioners of Central Excise are required to ensure that approval for arrest for non-bailable offence is granted only where the intent to evade duty is evident and element of *mens rea* / guilty mind is palpable. Attention is also invited to the decision of the Hon'ble Supreme Court in case of D. K. Basu Vs State of West Bengal, wherein specific guidelines in respect of arrest have been provided. These are required to be followed.

5.2 Decision to arrest needs to be taken on case-to-case basis considering various factors, such as, nature & gravity of offence, quantum of duty evaded or credit wrongfully availed, nature & quality of evidence, possibility of evidences being tampered with or witnesses being influenced, cooperation with the investigation, etc. To summarize, power to arrest has to be exercised after careful consideration of the facts of the case and the above factors.

5.3 There is no prescribed format for arrest memo but an arrest memo must be in compliance with the directions of Hon'ble Supreme Court in case of D. K. Basu Vs State of W.B reported as 1997 (1) SCC 416. The arrest memo should include

-
- (a) brief facts of the case;
- (b) details of the person arrested;
- (c) gist of evidence against the person;
- (d) relevant Section(s) of the Central Excise Act, 1944 attracted in the case;

- (e) the grounds of arrest must be explained to the person arrested and this fact noted in the arrest memo;
- (f) a nominated person (as per details provided by the person arrested) of the person arrested should be informed immediately and this fact also may be mentioned in the arrest memo;
- (g) the date and time of arrest may be mentioned in the arrest memo and the arrest memo should be given to person arrested under proper acknowledgement;
- (h) a separate arrest memo has to be made and provided to each person arrested.

5.4 Further there are certain modalities that should be complied with at the time of arrest and pursuant to an arrest, which include the following:-

- (i) Arrest of a female should be carried out by or in the presence of a lady officer;
- (ii) Arrest memo should be attested by nominated person (such as member of family) of the person arrested or a respectable member of the locality from where the arrest is made;
- (iii) Medical examination of the arrested person should be conducted by a medical officer in the service of Central or State Governments and in case such medical officer is not available, by a registered medical practitioner soon after the arrest is made. If an arrested person is a female then such an examination shall be made only by, or under supervision of a female medical officer, and in case such female medical officer is not available, by a female registered medical practitioner;
- (iv) It shall be the duty of the officer having the custody of the arrested person to take reasonable care of the health and safety of the person arrested.

Reports to be sent

6.0 Chief Commissioners shall send a report on every arrest to the Zonal Member within 24 hours of the arrest giving such details as have been prescribed in the monthly report. To maintain an all India record of arrests made in Central Excise, a monthly report of all persons arrested in the Zone shall be sent by the

Chief Commissioner to the DGCEI, Headquarters, New Delhi in the format, hereby prescribed and enclosed, by the 5th of the succeeding month.

7.0 All previous circulars on arrest and instructions in the Supplementary manual of instructions stand modified to the above extent.

Yours Faithfully,

(Pankaj Jain)

341/34/2010-TRU - POTR Clarifications

Point of Taxation Rules, 2011 and other provisions – Clarification on amendments

Instruction No. 341/34/2010-TRU, dated 31-3-2011

Government of India
Ministry of Finance (Department of Revenue)
Central Board of Excise & Customs, New Delhi

Subject : Amendments in Point of Taxation Rules, 2011 and other related provisions.

As you are aware, the *Point of Taxation Rules* (PTR) were formulated vide Notification No. 18/2011-S.T., dated 1-3-2011. Based on the feedback, certain amendments are being carried out in these rules vide Notification No. 25/2011-S.T., dated 31-3-2011. The highlights of the changes are discussed in the following paragraphs.

2. While the rules shall come into force from 1-4-2011, an option has been given in rule 9 to pay tax on payment basis, as at present, till 30-6-2011.

3. Rule 3 has been amended to provide that the point of taxation shall be as follows :

- (a) Date of invoice or payment, whichever is earlier, if the invoice is issued within the prescribed period of 14 days from the date of completion of the provision of service.
- (b) Date of completion of the provision of service or payment, if the invoice is not issued within the prescribed period as above.

The applicability of the rule will be clear from the illustrations in the following table :

S. No.	Date of completion of service	Date of invoice	Date on which payment recd.	Point of Taxation	Remarks
1.	April 10, 2011	April 20, 2011	April 30, 2011	April 20, 2011	Invoice issued in 14 days and before receipt of payment
2.	April 10, 2011	April 26, 2011	April 30, 2011	April 10, 2011	Invoice not issued within 14 days and payment received after completion of service
3.	April 10, 2011	April 20, 2011	April 15, 2011	April 15, 2011	Invoice issued in 14 days but payment received before invoice

S. No.	Date of completion of service	Date of invoice	Date on which payment recd.	Point of Taxation	Remarks
4.	April 10, 2011	April 26, 2011	April 5, 2011 (part) and April 25, 2011 (remaining)	April 5, 2011 and April 10, 2011 for respective amounts	Invoice not issued in 14 days. Part payment before completion, remaining later

4. Rule 4 has been amended to clarify that change in the effective rate of tax shall also include change in that portion of value on which tax is payable in terms of an exemption notification or rules made in this regard. It may be noted that an exemption has been granted in value for various services vide Notification No. 1/2006-S.T., dated 1-3-2006 which has the effect of payment of tax only on a part of the value. Similarly either the values or the rates at which tax is payable are provided under rule 6 (7, 7A, 7B or 7C) of the Service Tax Rules, 1994 as well as the Works Contract (Composition Scheme for Payment of Service Tax) Rules, 2007. Thus, whenever these values or the composition rates are changed, it would have the same effect as the change in the rate of duty. It is hereby further clarified that the rate of tax shall also include any other notification which is issued, rescinded or amended and has the effect of altering the taxability of any service.

5. Rule 6 relating to continuous supply of service has been aligned with the revised rule 3 and the date of completion of continuous service has been defined within the rule. This date shall be the date of completion of the specified event stated in the contract which obligates payment in part or whole for the contract. For example, in the case of construction services if the payments are linked to stage-by-stage completion of construction, the provision of service shall be deemed to be completed in part when each such stage of construction is completed. Moreover, it has been provided that this rule will have primacy over rules 3, 4 and 8.

6. Moreover, the following services have been notified as "continuous supply of services" in terms of clause 2(c) of the rules vide notification No. 28/2011-S.T., dated 1-4-2011 :

- (a) Telecommunication service [65(105)(zzzx)]
- (b) Commercial or industrial construction [65(105)(zzq)]
- (c) Construction of residential complex [65(105)(zzzh)]
- (d) Internet Telecommunication Service [65(105)(zzzu)]
- (e) Works contract service [65(105)(zzza)]

Thus these services will constitute "continuous supply of services" irrespective of the period for which they are provided or agreed to be provided. Other services will be considered continuous supply only if they are provided or agreed to be provided continuously for a period exceeding three months.

7. Rule 7 relating to associated enterprises has been deleted. Now that the date of completion of the provision of service is an important criterion in the determination of point of taxation, it shall take care of most of the dealings between the associated enterprises. Thus in case of failure to issue the invoice within the prescribed period, the date of completion of provision of service shall come into effect even if payment is not made.

8. Rule 7 has thus been replaced by a new provision whereby the point of taxation shall be the date of making or receiving the payment, as the case may be. This provision shall apply to the following :

- (i) Export of services;

- (ii) Persons, where the obligation to pay tax is on the service recipient in terms of rule 2(1)(d) of the Service Tax Rules, 1994 in respect of services notified under section 68(2) of the Finance Act, 1994.
- (iii) Individuals, proprietorships and partnership firms providing specified services (Chartered Accountant, Cost Accountant, Company Secretary, Architect, Interior Decorator, Legal, Scientific and Technical consultancy services). The benefit shall not be available in case of any other service also supplied by the person concerned along with the specified services.

9. Export of services is exempt subject, *inter alia*, to the condition that the payment should be received in convertible foreign exchange. Until the payment is received, the provision of service, even if all other conditions are met, would not constitute export. In order to remove the hardship that will be caused due to accrual method, the point of taxation has been changed to the date of payment. However, if the payment is not received within the period prescribed by RBI, the point of taxation shall be determined in the absence of this rule.

10. In the case of services where the recipient is obligated to pay service tax under rule 2(1)(d) of Service Tax Rules i.e. on reverse charge basis, the point of taxation shall be the date of making the payment. However, if the payment is not made within six months of the date of invoice, the point of taxation shall be determined as if this rule does not exist. Moreover, in the case of associated enterprises, when the service provider is outside India, the point of taxation will be the earlier of the date of credit in the books of account of the service receiver or the date of making the payment.

11. Changes have also been made in the Service Tax Rules, 1994 vide Notification No. 26/2011-S.T., dated 31-3-2011 and have a close relationship with the *Point of Taxation Rules* as follows :

- (i) The obligation to issue invoice shall be within 14 days of completion of service and not provision of service.
- (ii) If the amount of invoice is renegotiated due to deficient provision or in any other way changed in terms of conditions of the contract (e.g. contingent on the happening or non-happening of a future event), the tax will be payable on the revised amount provided the excess amount is either refunded or a suitable credit note is issued to the service receiver. However, concession is not available for bad debts.

12. The credit of input services under rule 4(7) of the Cenvat Credit Rules has also been liberalized vide notification No. 13/2011-C.E. (N.T.), dated 31-3-2011 and the same shall be available on receipt of invoice (except in cases of reverse charge) as long as the payment is made within three months. Even specified persons required to pay tax on cash basis will be able to avail credit on receipt of invoice. Suitable changes have also been made for reversal of credit or payment when the value of service is renegotiated or altered for any reason by refund or issue of a credit note by the service provider. Amendment has also been made in Rule 9 of Cenvat Credit Rules, 2004 by allowing credit on supplementary invoice, except in *non-bona fide* cases, which may become necessary in certain situations e.g. where the point of tax is the date of payment while the invoice had already been issued e.g. rule 4(b)(i) of Point of Taxation Rules.

13. It is further clarified that the transitional provisions will apply to all invoices issued before 31-3-2011 in so far as taxpayers who switch over to the new rules on 1-4-2011. Those assesseees who like to shift to the new rules on 1-7-2011 would have similar protection in respect of invoices issued before the date they switch over to the new rules. The benefit has also been extended to services when provision has been completed before 1-4-2011 or 1-7-2011, as the case may be. It

is also clarified that the payments received before the new rules come into force do not require any transitional provisions as they are already required to pay tax on payment basis.

Subject : Clarification on Point of Taxation Rules - Regarding.

1. Notification No. 4/2012-Service Tax dated the 17th March 2012 has amended the **Point of Taxation Rules**, 2011 w.e.f. 1st April 2012, *inter-alia*, amending Rule 7 which applied to individuals or proprietary firms or partnership firms providing taxable services referred to in sub-clauses (g), (p), (q), (s), (t), (u), (za) and (zzzzm) of clause (105) of section 65 of the Finance Act, 1994. Rule 7 determined the point of taxation in such cases as the date of receipt of payment. The provisions have been amended both in the Point of Taxation Rules, 2011 and the Service Tax Rules 1994 such that from 1st April 2012 the payment of tax shall be allowed to be deferred till the receipt of payment upto a value of Rs 50 lakhs of taxable services. The facility has been granted to all individuals and partnership firms, irrespective of the description of service, whose turnover of taxable services is fifty lakh rupees or less in the previous financial year.

2. Representations have been received, in respect of the specified eight services, requesting clarification on determination of point of taxation in respect of invoices issued on or before 31st March 2012 where the payment has not been received before 1st April 2012.

3. The issue has been examined. For invoices issued on or before 31st March 2012, the point of taxation shall continue to be governed by the Rule 7 as it stands till the said date. Thus in respect of invoices issued on or before 31st March 2012 the point of taxation shall be the date of payment.

Subject : Clarification on Point of Taxation Rules - Regarding.

1. Notification No. 2/2012-Service Tax dated the 17th March 2012 has rescinded Notification No. 8/2009-Service Tax, dated the 24th February, 2009, thus restoring the effective rate of service tax to 12% w.e.f. 1st April 2012. Further the Notification No. 26/2010-Service Tax, dated the 22nd June, 2010 has been superseded by Notification No. 6/2012-Service Tax dated the 17th March, 2012, w.e.f. 1st April 2012.

2. It has been brought to the attention of the Board that some airlines are collecting differential service tax on tickets issued before 1st April 2012 for journey after 1st April 2012, causing inconvenience to passengers. Representations have also been received in this regard. The position of law in the above respect is clear and is detailed below.

3. Rule 4 of the *Point of Taxation Rules, 2011* deals with the situations of change in effective rate of tax. In case of airline industry, the ticket so issued in any form is recognised as an invoice by virtue of proviso to Rule 4A of Service Tax Rules, 1994. Usually in case of online ticketing and counter sales by the airlines, the payment for the ticket is received before the issuance of the ticket. Rule 4(b)(ii) of the Point of Taxation Rules, 2011 addresses such situations and accordingly the point of taxation shall be the date of receipt of payment or date of issuance of invoice, whichever is earlier. Thus the service tax shall be charged @ 10% subject to applicable exemptions plus cesses in case of tickets issued before 1st April, 2012 when the payment is received before 1st April, 2012.

4. In case of sales through agents (IATA or otherwise including online sales and sales through GSA) the payment is received by the agent and remitted to airlines after some time. When the relationship between the airlines and such agents is that of principal and agent in terms of the Indian Contract Act, 1872, the payment to the agent is considered as payment to the principal. Accordingly as per Rule 4(b)(ii), the point of taxation shall be the date of receipt of payment or date of issuance of invoice, whichever is earlier. Thus the service tax shall be charged @ 10% subject to applicable exemptions plus cesses in case of tickets issued before 1st April 2012 when the payment is received before 1st April 2012 by the agent.

5. However, to the extent airlines have already collected extra amount as service tax and do not refund the same to the customers, such amount will be required to be paid to the credit of the Central Government under Section 73A of the Finance Act, 1994 (as amended).

6. Trade Notice/Public Notice may be issued to the field formations accordingly.

Subject : Clarification on Rate of Tax - regarding.

1. The rate of service tax has been restored to 12% w.e.f. 1st April 2012. Representations have been received requesting clarification on the rate of tax applicable wherein invoices were raised before 1st April 2012 and the payments shall be after 1st April 2012. Clarification has been requested in case of the 8 specified services provided by individuals or proprietary firms or partnership firms, to which Rule 7 of Point of Taxation Rules, 2011 was applicable and services on which tax is paid under reverse charge.

2. The rate of service tax prevalent on the date when the point of taxation occurs is rate of service tax applicable on any taxable service. In case of the 8 specified services and services wherein tax is required to be paid on reverse charge by the service receiver the point of taxation is the date of payment. Circular No. 154/5/2012-S.T., dated 28th March 2012 [2012 (26) S.T.R. C109] has also clarified the same. Thus in case of such 8 specified services provided by individuals or proprietary firms or partnership firms and in case of services wherein tax is required to be paid on reverse charge by the service receiver, if the payment is received or made, as the case maybe, on or after 1st April 2012, the service tax needs to be paid @ 12%.

3. The invoices issued before 1st April 2012 may reflect the previous rate of tax (10% and cess). In case of need, supplementary invoices may be issued to reflect the new rate of tax (12% and cess) and recover the differential amount. In case of reverse charge the service receiver pays the tax and takes the credit on the basis of the tax payment challan. Cenvat credit can be availed on such supplementary invoices and tax payment challans, subject to other restrictions and conditions as provided in the Cenvat Credit Rules, 2004.

Subject : Clarification on Point of Taxation Rules - Regarding.

Consequent to the changes introduced at the time of Budget 2012 in the *Point of Taxation Rules, 2011*, together with revision of the service tax rate from 10% to 12% and the subsequent changes that have been made effective from 1-7-2012, the following clarifications have been desired :

- (a) Point of taxation and the rate applicable in respect of continuous supply of services at the time of change in rates effective from 1-4-2012;
- (b) Applicability of the revised rule 2A of the Service Tax (Determination of Value) Rules, 2006 to ongoing works contracts for determination of value when the value was being determined under the erstwhile Works Contract (Composition Scheme for Payment of Service Tax) Rules, 2007; and
- (c) Applicability of partial reverse charge provisions in respect of specified services.

2.1 The issues have been examined. The continuous supply of services was governed by rule 6 until 31-3-2012. The rule started with the wordings "notwithstanding anything contained in rules 3, 4 ..." Therefore, the point of taxation in respect of services provided in terms of the said rule on or before 31-3-2012 would remain unaffected by rule 4.

2.2 To clarify the matter further, if the invoice had been issued or payment received in respect of such services on or before 31-3-2012, the point of taxation would stand determined under rule 6 accordingly and shall not alter due to the subsequent changes in the *Point of Taxation Rules, 2011* that became effective only from 1-4-2012.

3.1 However the position has undergone a change at the time of transition towards the Negative List and the introduction of other accompanying changes in Service Tax (Determination of Value) Rules, 2006 and partial reverse charge. At the said time rule 6 stood omitted and the point of taxation was required to be determined ordinarily in such cases under the main rule i.e. rule 3. This rule is, however, overridden by rule 4 when there is a change in effective rate of tax. The "*change in effective rate of tax*" has been defined in clause (ba) of rule 2 to include a change in the portion of value on which tax is payable.

3.2 To illustrate, the following would be changes in effective rate of tax :-

- (i) the change in the portion of total value liable to tax in respect of works contract other than original works (from @ 4.8% earlier to @ 12% on 60% of the total amount charged, or effectively @ 7.2% now).
- (ii) exemption granted to certain works contracts w.e.f. 1st July 2012 which

were earlier taxable.

- (iii) taxability of certain works contracts which were hitherto exempted.
- (iv) change in the manner of payment of tax from composition scheme under the Works Contract (Composition Scheme for Payment of Service Tax) Rules, 2007 to payment on actual value under clause (i) of rule 2A of the Service Tax (Determination of Value) Rules, 2006.

3.3 However, the following will not be a change in effective rate of tax :-

- (i) works contracts earlier paying service tax @ 4.8% under Works Contract (Composition Scheme for Payment of Service Tax) Rules, 2007 and now required to pay service tax @ 12% on 40% of the total amount charged, keeping the effective rate again at 4.8% (as only the manner of expression has been altered).
- (ii) works contracts which were outside the scope of taxation (and not merely exempted) but have become now taxable e.g. construction of residential complex comprising of 2 to 12 residential units, construction of buildings meant for use by NGOs etc. (Rule 5 of the *Point of Taxation Rules, 2011* shall apply to such services.)

3.4 Thus the point of taxation for services provided in respect of taxable works contracts in progress on 1-7-2012 would need to be determined under rule 4 of the *Point of Taxation Rules* unless there is no change in effective rate of tax.

4. It is further clarified that the provisions of partial reverse charge would also be applicable in respect of such services where point of taxation is on or after 1-7-2012 under the applicable rule in respect of the service provider.

5. This Circular may be communicated to the field formations and service tax assesses, through Public Notice/Trade Notice. Hindi version to follow.

F.No 354/127/2012-TRU
Government of India

Central Board of Excise and Customs

146 North Block, New Delhi
Dated 27th July 2012

Subject: - Draft Circular on leviability of service tax on staff benefits and employment related transactions- reg

Subsequent to the operationlisation of the Negative List, a number of issues have been raised in relation to the manpower supply or the services provided by the directors of a company or by the employer to the employees. These issues have been examined and are proposed to be clarified as follows:

A. Scope of manpower supply

2. After the operationlisation of the Negative List, the erstwhile definition of the manpower recruitment or supply agency is no more applicable. Thus, the words manpower supply would have to be given their natural meaning. The manpower supply is understood to mean when one person provides another person with the use of one or more individuals who are contractually employed or otherwise engaged by the first person. The essence of the employment should

*This is a draft
circular*

¹⁶⁵ Now, this Draft Circular is not available on the CBEC website <http://www.cbec.gov.in/draft-circ/draft-circular.htm>

be that the individuals should be employed by the provider of the service and not by the recipient of the service.

3. There could be certain contracts in which such manpower is made available to execute another independent contract by the service provider. For example, a person may agree to carry out construction or a manufacture for another in which certain manpower may be engaged. As long as such manpower is not placed operationally under the superintendence or control of the recipient, it shall not be a case of manpower supply, though it will continue to be judged independently whether it comprises any other taxable service.
4. There are also cases of secondment whereby certain staff belonging to an organization is placed at the disposal of a subsidiary company or any other associate company. Such cases will be covered by the definition of manpower supply as the contractual employment continues to be with the parvent company.

*This is a draft
circular*

B. Joint Employment

5. There can also be cases where staff is employed by one or more employers who normally share the cost of such employment. The services provided by such employee will be covered by the exclusion provided in the definition of service. However, if the staff has been engaged by one employer and only made available to other for a consideration, it shall not be a case of joint employment.

6. Another arrangement could be where one entity pays the salary and other expenses of the staff on behalf of other joint employers which are later recouped from the other employers on an agreed basis on actuals. Such recoveries will not be liable to service tax as it is merely a case of cost reimbursement.

C. Directors

7. Services of a director on the board of a company have now become taxable. A director may be appointed either in an individual capacity or to represent an entity (including government) who has either invested in the company or is otherwise authorized to nominate a director. When a director receives payment in his personal capacity, the same is liable to be taxed in the hands of the director. However, where the fee is charged by the entity appointing the director and is paid to such entity, the services shall be deemed to be supplied by such an entity and not by the individual director. Thus in the case of Govt. nominees, the services shall be deemed to be provided by the Govt. and liable to be taxed under the exclusion sub- (iv) of clause (a) of section 66D of the Finance Act, 1994 i.e. support services by Government to business. Such services are liable to be taxed on reverse charge basis.

*This is a draft
circular*

D. Treatment of supplies made by the employer to employees

8. A number of activities are carried out by the employers for the employees for a consideration. Such activities fall within the definition of "service" and are liable to be taxed unless specified in the Negative List or otherwise exempted.

9. One of the ingredients for the taxation is that such activity should be provided for consideration. Where the employees pays for such services or where the amount is deducted from the salary, there does not seem to be any doubt. However, in certain situations, such services may be provided against a portion of the salary foregone by the employee. Such activities will also be considered as having been made for a consideration and thus liable to tax. Cenvat credit for inputs and input services used to provide such services will be eligible under extant rules. The said goods or services would now not be construed to be for personal use or consumption of an employee per se and rather shall be a constituent to the taxable service provided to an employee. The status of the employee would be as a service recipient rather than as a mere employee when consuming such output service. The valuation of the service so provided by the employer to the employee shall be determined as per the extant rules in this regard.
10. However, any activity available to all the employees free of charge without any reduction from the emoluments shall not be considered as an activity for consideration and will thus remain outside the purview of the service tax liability (facilities like crèche, gymnasium or a health club which all employees may use without any charge or reduction from the salary will be outside the tax net). However the Cenvat credit for such inputs and input services will be guided by the extant rules.
11. Moreover, it would need to be seen whether the services provided by the employer are otherwise covered by the Negative List or exempt. For example, the services of food and catering provided by

*This is a draft
circular*

the employer in a canteen would normally fall outside the tax net unless such canteen has both the facility of air-conditioning as well as license to serve liquor (S. No. 19 of the Mega exemption). Likewise, services provided by way of guest house will also not be liable to tax if the tariff for such unit of accommodation is below Rs.1000 per day or equivalent (S. No. 18 of the Mega exemption). Similarly, services of telephone and motorcar for personal use will be covered by the service tax.

*This is a draft
circular*

E. Treatment of reimbursements made by the employer to the employee.

12. Provision of service by an employee to the employer in the course of or in relation to his employment is excluded from the definition of the "service". Thus reimbursements of expenditure incurred on behalf of the employer in course of employment would not amount to a "service" per se and hence are non-taxable.

F. Treatment of supplies and reimbursements made by the employer to ex-employees/ pensioners.

13. The supplies made by the employer to the ex-employees or pensioners will be of same status as those to an employee and thus would accordingly attract taxability as per discussion in D above. The reimbursements to pensioners will also be treated at par with those of current employees when such reimbursements arise out of

the initial employment contract or are in relation to that employment.

14. Chambers, trade, industry and field formations are requested to go through the draft Circular and offer their comments, views and suggestions. It is requested that comments, views and suggestions on the same may be forwarded to the undersigned on or before 24th August 2012. The same may also be emailed to shobhit.jain@nic.in

DRAFT CIRCULAR ON SERVICE TAX ON AIR TRANSPORT**Draft Circular**

F. No.354 /146/2012 - TRU
Government of India
Ministry of Finance
Department of Revenue
Central Board of Excise & Customs
(Tax Research Unit)

146-F, North Block,
New Delhi, 27th September, 2012

To
Chief Commissioner of Customs and Central Excise / Central Excise & Service Tax (All)
Director General of Service Tax /Central Excise Intelligence /Audit;
Commissioner of Customs and Central Excise/ Central Excise and Service Tax/ Service Tax (All)

Madam/Sir,

Subject: Draft circular -- service tax -- transport of passengers by air -- regarding.

Representation has been received seeking clarification regarding certain doubts which arise during the course of levy and collection of service tax on transport of passengers by air.

2. The issues have been examined and the guidance is as follows:

Issue (a) : Whether service tax of 4.944% (60% abatement) will apply to related charges such as reconfirmation fee, upgrade fee, date change, additional collection, etc., levied by airlines to passengers?

This is a draft circular

Clarification: These charges could be levied in either of the following manners: (a) as a consolidated charge without any break-up; (b) with break-up for individual services or at a point later to the initial booking. In case of (a) above the provisions of section 66F will apply and the service that imports the essential character will determine the applicability of both the Place of Provision of Services (POP) Rules as well as abatement. In the case of (b) above, the individual components will need to be analyzed on their respective merits.

Various charges collected by airlines from a passenger can be broadly put into two categories: (a) charges which are directly related to the journey; and (b) charges which are not so related. Charges which are directly related will be covered by abatement. Re-confirmation fees, date-change fee, upgrade fee, preferred seat charges, additional collection in the nature of differential ticket fare towards the journey and unaccompanied minor charges are directly related charges. For the charges which are not directly related to the particular journey, abatement is not available. Sky-meal-on-order and escort charges are not directly related to the journey.

Issue (b): Whether abatement meant for transport of passenger by air service, is applicable for excess baggage charges?

Where a passenger embarks on an international journey, excess baggage charges are not leviable to service tax as the place of provision of such service will be outside India under Rule 10 of POP Rules. However, in the case of journey within the taxable territory, excess baggage charge is leviable to service tax without abatement. Similar will be the tax treatment for pet charges.

*This is a draft
circular*

Issue (c): When a passenger puts a ticket for refund, whether full rate of 12% will apply to cancellation fee, refund fee, no show fee, since the passenger is not availing air transportation service?

Clarification : In terms of section 66B of the Finance Act, 1994, service tax is leviable on service provided or agreed to be provided. Thus service tax becomes payable when a booking is made, i.e. when the service is agreed to be provided, the subsequent cancellation of the ticket does not take it outside the purview of tax absolutely.

However, Rule 6(3) of the Service tax Rules, 1994, provides that where an assessee has issued an invoice, or received any payment, against a service to be provided which is not so provided by him either wholly or partially for any reason, the assessee may take credit of such excess service tax paid by him, if the assessee, -

- (a) has refunded the payment or part thereof, so received for the service provided to the person from whom it was received; or (b) has issued a credit note for the value of the service not so provided to the person to whom such an invoice had been issued.

Thus the amount retained by the airlines in the event of cancellation of ticket, out of the original fare will remain liable to be

taxed as originally taxed and hence is entitled to abatement applicable in this regard. However, if the ticketed amount is fully refunded to the passenger, but no-show (late cancellation charges) or cancellation fee is separately collected through an invoice or bill, abatement will not be applicable. Here, cancellation fee takes the nature of administrative charge.

Issue (d): (i) whether service tax will apply on related fees/charges on journeys starting outside India, even if the transaction for related charges is made in India? ; (ii) Whether service tax will apply on related fee charges on journeys starting in India, even if the transaction for related charges is made outside India?

Clarification: According to Rule 11 of Place of Provision of Services Rules, 2012, the place of provision of a passenger transportation service is the place where the passenger embarks on the conveyance for a continuous journey. Therefore, if place of embarkation of passenger is located within the taxable territory, service tax is leviable on the gross amount payable for such continuous journey, irrespective of where the ticket is booked and where fees/charges are collected. If the place of embarkation of a passenger on a continuous journey falls outside the taxable territory, service tax is not leviable, irrespective of where the tickets are booked and where fees/charges are collected. However, as mentioned at (a) above, only such charge will be determined under Rule 11 of POP as are directly related to the continuous journey. The POP of other charges will be judged on their own merits.

Services of commission agents to exporters on the existing lines have also been validated by the issue of Notification No.42/2012-ST dated 29.06.2012.
4. There has been some doubt regarding the applicability of provisions of the Finance Act, 2004 relating to education cess and the Finance Act, 2007 relating to secondary and higher education cess as the concerned acts make reference to section 66 of the Finance Act, 1994, which shall cease to have effect from July 1, 2012. In this connection, as also in general, you may kindly refer to the sub-section (1) of section 8 of the General Clauses Act, 1897 which reads as under:
"Where this Act, or any Central Act or Regulation made after reference to the commencement of this Act, repeals and re-enacts, with or without modification, any provision of a former enactment, then references in any

other enactment or in any instrument to the provision so repealed shall, unless a different intention appears, be construed as references to the provisions so re-enacted.”

Thus any reference to section 66 of the Finance Act, 1994 shall be construed as reference to the newly re-enacted provision i.e. section 66B of the same Act. Despite the stated position of law, the matter has been settled by the issue of Removal of Difficulties Order No. 2/2012 dated 29.06.2012.

5. It may be noted that Notification No. 11/2005-ST dated 19.04.2005 has not been rescinded to enable sanction of pending rebates. It shall, however, automatically cease to have effect for exports on or after July 1, 2012 as the Export of Services Rules, 2005 will stand superseded from the said date.
6. You may kindly go through all the changes and let me know at the earliest if anything is required in any manner for the smooth implementation of the new provisions.
7. The successful implementation of this reform requires an involved approach at all levels, in particular in the initial months. It is necessary that these changes are well understood by the tax payers as well as our staff. To this end CBEC has released an elaborate Educational Guide (with further improvisation over the draft Guidance Papers that were released at the time of budget) and adequate copies of the same should be available to you already or shortly. You may also like to download the same from CBEC website (from the dropdown menu under the title service tax).
8. It is clarified that any Board circular that is contrary to the revised law will stand automatically superseded. In case you have any doubt about any specific circular the same may be referred to the Board.
9. CBEC has already held five seminars during this month at Delhi, Chennai, Kolkata, Ahmedabad and Hyderabad for both the trade and some of the officers in and around these places. Seminar at Mumbai is scheduled on July 13, 2012.
10. It will be desirable if similar events are held locally, supplemented also by training of our officers who have to implement the new provisions. If you need, some of the TRU officers could also assist subject a little bit to the exigencies of work here. Those who desire may source a copy of the power point presentation from TRU (by sending a request at garg.vk@nic.in).
11. Despite a very elaborate consultative process starting from August, 2011, when the first concept paper was released, it is likely that the actual implementation of negative list will throw some issues that appear a little complex. You may like to discuss them appropriately within your own set up and in appropriate cases refer them to the Board for suitable examination.

Any precipitated action will be ill-advised at the early stages of implementation unless the revenue is at immediate stakes.

12. A list of services that are likely to come into the tax net in your charge may be drawn and communicated to me. This would help us to share the same with other formations as also provide information from other formations to you so that a coordinated approach is followed until the system gets streamlined.
13. In general any case resulting in taxation of an activity that is not liable to tax under the present regime should at least receive the attention of the Commissioner in charge before it is taken up for any further action.
14. Of equal importance is to devote attention to activities that are presently liable to tax and may cease to be taxed in future. Some of these have been clearly exempted. There could be others where, either due to a particular interpretation or due to applicability of Place of Provision Rules, 2012 or in some other manner, an interpretation may be taken that the same are no more liable to tax. Such cases may be immediately identified and in case of doubt referred to the Board.
15. The allotment of accounting heads is being communicated by a separate communication.
- 16. A spirit of Helpfulness, Understanding and Guidance (HUG for short) should guide us in balancing our task keeping in perspective the enormity of changes that are being implemented shortly.**

With regards,
Yours sincerely,
(V.K. Garg)

Madam/Sir,

**Subject: Filing of ST-3 only for the period 1st April to 30th
June 2012**

In terms of sub-rules (1) and (2) of Rule 7 of the Service Tax Rules, 1994, the half yearly return for the period 1st April to 30th September 2012, is to be filed by 25th October, 2012. In the current financial year , an assessee would have had to give data with respect to specific services and the corresponding legal provisions for the period 1-4-2012 to 30-6-2012. The data for the period 1-7-2012 to 30-9-2012, would have been with respect to different services and the corresponding legal provisions. Combination of all these provisions into one return would have made the return complex for the assessees .

2. I am directed to inform you that it has been decided that assessees have to provide data only for the period 1-4-2012 to 30-6-2012 in the first half yearly return which is due on 25-10-2012. (The data for the period from 1-7-2012 to 30-9-2012 should not be filed . Modifications will be made in the ACES so that any data filed for this period is rejected. Till such time as the modifications are made, ACES will not be accepting returns) Accordingly notification 47/2012 dated 28-9-2012 has been issued today.

3. Data for the period 1-7-2012 to 30-9-2012 will have to be furnished in a return in a revised format. The revised format of the return and the last date for filing it will be indicated separately.

4. The above information may be communicated to departmental officers and assesseees. Hindi version to follow.

New Delhi, the 15th October, 2012

ORDER NO: 3/2012

In exercise of the powers conferred by sub-rule(4) of rule 7 of the Service Tax Rules, 1994, the Central Board of Excise & Customs hereby extends the date of submission of the return for the period 1st April 2012 to 30th June 2012, from 25th October, 2012 to 25th November,2012.

The circumstances of a special nature which have given rise to this extension of time are as follows:

- a) ACES will start releasing the return in Form ST3 in a quarterly format, shortly before the due date of 25th October,2012.
- b) This will result in all the assesses attempting to file their returns in a short time period, which may result in problems in the computer network and delay and inconvenience to the assesses.

Revised Form ST 3

Attention is invited to this office letter dated 28th September 2012 issued from F.No.137/22/2012-

Service Tax (copy of which can be accessed at www.cbec.gov.in), wherein it was informed, inter alia, that in the ST- 3 return which was due by 25-10-2012, assessee had to provide data only for the period 1-4-2012 to 30-6-2012. It was also informed therein that data for the period 1-7-2012 to 30-9-2012 would have to be furnished in a return in a revised format and that the revised format of the return and the last date for filing it would be indicated separately.

2. Data for the remaining portion of the half year (i.e. 1-7-2012 to 30-9-2012) can now be furnished by the assessee in the revised Form ST3, which has been

notified vide notification 1/2013-Service Tax dated 22-2-2013. Since ordinarily this would have formed part of the return, the due date of which was 25th October 2012, rule 7(2) of the Service Tax Rules 1994 has also been amended vide the same notification, so as to provide that **the last date for filing the return covering the period 1-7-2012 to 30-9-2012 is 25-3-2013**. It is clarified that when filing this return, assesseees need to fill in data only for the period 1-7-2012 to 30-9-2012.

3. The paper version has to be notified for legality (reference paragraph 2 above). It must however be borne in mind that in terms of rule 7(3) of the Service Tax Rules 1994, all returns have to be filed electronically.

The electronic version, to be completed by the assessee, may therefore differ in certain aspects from the paper version. For example, for certain fields, drop down menus from which an option has to be chosen, will be there in the electronic version but not in the paper version. Similarly provisions in the electronic version to add rows or validate entries cannot be appropriately indicated in the paper version. The revised Form ST-3 is expected to be available on ACES by the first week of March. However in the event of any delay, the last date will be suitably extended and adequate time given so that no inconvenience is caused to the assesseees. The assesseees are advised to access the ACES website wherein updates will be given.

4. The objective behind revising the ST-3 form has been to retain the existing structure, which both the assesseees and the departmental officers are familiar with, while making some changes required after 1-7-2012. Assesseees are expected to fill in service wise data as before, for effective use of the data available consequent to the restoration of accounting codes. In the interregnum, the assessee might not be able to do so, as duty payment was not required to be service wise. While recognizing this difficulty, assesseees are requested to provide service wise data, to the extent possible, for this period also.

5. The above information may be communicated to departmental officers and assesseees. Hindi version to follow.

Government of India

Central Board of Excise & Customs
(Tax Research Unit)

New Delhi the 11th December, 2013

To,

All Chief Commissioners of Central Excise/Service Tax
Director General Service Tax
All Commissioners of Central Excise/Service Tax

Madam/Sir,

Sub: The Service Tax Voluntary Compliance Encouragement Scheme – issues for clarification – req

The undersigned is directed to state that the Board has issued clarifications on issues concerning various aspects of the VCES, vide circulars dated 13.05.2013, 8.08.2013 and 25.11.2013. A FAQ has also been issued on VCES. However, certain instances have come to notice, as mentioned below, that the declarants under the VCES are still facing difficulties.

2. In one instance, the Designated Authority has asked a declarant, who has "tax dues" only for a part of the period covered by the Scheme, to furnish an undertaking that he had no unpaid "tax dues" for the remaining period covered by the Scheme. However, the Scheme does not envisage furnishing of any such undertaking. A declarant may have tax dues only for a part period covered by the Scheme. In terms of the Scheme a declaration of tax dues has to be made in Form VCES-I, which includes an undertaking that the information given in the declaration is correct and complete. Therefore, the Designated Authority should not ask for any other undertaking or declaration beyond what has been prescribed in the Scheme or Rules made there under.

3. In another instance, the Designated Authority has objected to the payment of the first tranche of 50%, payable by 31.12.2013, in installments. It is clarified that the Scheme only prescribes that the declarant would pay a minimum amount of 50% of the tax dues by 31.12.2013. Rest of the payment may be made by 30.6.2014, without any interest, and any amount

remaining unpaid on 30.6.2014 shall be paid by 31.12.2014, with interest for the period of delay beyond 30.6.2014. There is no bar to pay these amounts in installments. For example a declarant may pay the 50% amount that he is required to pay by 31.12.2013 in more than one installment. Therefore, payment of 50% "tax dues" in lump-sum may not be insisted to.

4. In some instances, it has been observed that the Designated Authority has raised frivolous/unnecessary queries as regards the veracity and the manner of calculation of tax dues. While the designated authority may cause arithmetical check as regards the correctness of computation of tax dues, the Scheme does not envisage investigation by the designated authority into the veracity of declaration. Only if the Commissioner has reason to believe that the declaration filed by the declarant is substantially false he may, for reasons to be recorded in writing, serve notice on the declarant requiring him to show cause why he should not pay the tax dues not paid or short-paid.

Yours faithfully,

Subject: Action with respect to the Service Tax Voluntary Compliance Encouragement Scheme (VCES)

In continuation of this office letter of even number dated 22-8-2013., which had outlined an Action Plan for VCES, the following points should be noted for compliance during the remaining period of the VCES.

2.1 Since there will be an increase in the number of application in the month of December, more so in the last few days, all Chief Commissioners are requested to ensure that adequate arrangements are made for speedy processing of applications. The time period of thirty days will obviously not be available in cases where applications are filed in the last few days of December. Cases in which declarations are in order must be orally communicated so that 50% of the tax dues are paid by 31-12-2013. DG DGCEI may also suitably instruct his officers so that any references made by Commissionerates are disposed off expeditiously. The Chief Commissioners may also ensure that the offices are kept open Saturdays, to take care of the influx of applications and for timely processing of the same.

2.2 Since three clarifications, dated 13.5.2013, 8.8.2013 and 25.11.2013 have been issued by TRU, Commissioners may ensure that rejections by the Designated Authority are strictly covered by these three clarifications. In this context paragraph 4 of Chairperson CBEC's DO letter dated 6.11.2013 to all Chief Commissioners is also relevant.

18. Budget 2013

Union FM –Budget Speech (Extracts)

Indirect Taxes

155. I shall now deal with indirect taxes.

156. There will be no change in the peak rate of basic customs duty of 10 percent for non-agricultural products. There will also be no change in the normal rate of excise duty of 12 percent and the normal rate of service tax of 12 percent.

157. I have a few proposals on customs duties.

158. To encourage manufacture of environment-friendly vehicles, I propose to extend the period of concession now available for specified parts of electric and hybrid vehicles upto 31.3.2015.

159. Leather and leather goods is a thrust sector for exports. I propose to reduce the duty on specified machinery for manufacture of leather and leather goods, including footwear, from 7.5 percent to 5 percent.

160. To encourage exports, I propose to reduce the duty on pre-forms of precious and semi-precious stones from 10 percent to 2 percent.

161. Export duty on de-oiled rice bran oil cake has made our exports uncompetitive. Hence, I propose to withdraw the said duty.

162. Prices of unprocessed ilmenite have gone up several fold in the export market. Considering the need to conserve our natural resources, I propose to impose a duty of 10 percent on export of unprocessed ilmenite and 5 percent on export of upgraded ilmenite.

163. The aircraft manufacture, repair and overhaul (MRO) industry is at a nascent stage. Encouraging the MRO sector will generate employment besides other benefits. Hence, I propose to provide certain concessions to the MRO industry, details of which are in the budget documents.

164. To encourage domestic production of set top boxes as well as value addition, I propose to increase the duty from 5 percent to 10 percent.

165. In order to give a measure of protection to domestic sericulture, I propose to increase the duty on raw silk from 5 percent to 15 percent.

166. Steam coal is exempt from customs duty but attracts a concessional CVD of one percent. Bituminous coal attracts a duty of 5 percent and CVD of 6 percent. Since both kinds of coal are used in thermal power stations, there is rampant misclassification. I propose to equalise the duties on both kinds of coal and levy 2 percent customs duty and 2 percent CVD.

167. There is an affluent class in India that consumes imported luxury goods such as high end motor vehicles, motorcycles, yachts and similar vessels. I am sure they will not mind paying a little more. Hence, I propose to increase the duty on such motor vehicles from 75 percent to 100 percent; on motorcycles with engine capacity of 800cc or more from 60 percent to 75 percent; and on yachts and similar vessels from 10 percent to 25 percent.

168. The baggage rules permitting eligible passengers to bring jewellery was last amended in 1991. Gold prices have risen since, and passengers have complained of harrasment. Hence, I propose to raise the duty-free limit to ` 50,000 in the case of a male passenger and ` 100,000 in the case of a female passenger, subject to the usual conditions.

169. Next, I shall deal with excise duties.

170. The readymade garment industry is in the throes of a crisis. The industry needs a lifeline. There is a demand to restore the 'zero excise duty route' for cotton and manmade sector (spun yarn) at the yarn, fabric and garment stages. I propose to accept the demand. In the case of cotton, there will be zero duty at the fibre stage also and, in the case of spun yarn, there will be a duty of 12 percent at the fibre stage. The 'zero excise duty route' will be in addition to the CENVAT route now available.

171. I propose to totally exempt handmade carpets and textile floor coverings of coir or jute from excise duty.

172. As a measure of relief to the ship building industry, I propose to exempt ships and vessels from excise duty. Consequently, there will be no CVD on imported ships and vessels.

173. What does a Finance Minister turn to when he requires resources? The answer is cigarettes. I propose to increase the specific excise duty on cigarettes by about 18 percent. Similar increases are proposed on cigars, cheroots and cigarillos.

174. SUVs occupy greater road and parking space and ought to bear a higher tax. I propose to increase the excise duty on SUVs from 27 percent to 30 percent. However, the increase will not apply to SUVs registered as taxis.

175. The excise duty rate on marble was fixed in 1996. Keeping in view the increase in prices of marble, I propose to increase the duty from ` 30 per sq. mtr to 60 per sq mtr.

176. I propose to levy 4 percent excise duty on silver manufactured from smelting zinc or lead, to bring the rate on par with the excise duty applicable to silver obtained from copper ores and concentrates.

177. About 70 percent of imported mobile phones and about 60 percent of domestically manufactured mobile phones are priced at `2000 or below. Mobile phones enjoy a concessional excise duty of one percent and I do not propose to change that in the case of low priced mobile phones. However, on mobile phones priced at more than `2000, I propose to raise the duty to 6 percent.

178. To reduce valuation disputes, I propose to provide for MRP based assessment in respect of branded medicaments of Ayurveda, Unani, Siddha, Homeopathy and bio-chemic systems of medicine. There will be an abatement of 35 percent.

179. As regards service tax, I have only a few proposals. The negative list became effective after the last Budget. Stability in the tax regime is important. Hence, I propose to include only two services which deserve to be in the negative list. They are vocational courses offered by institutes affiliated to the State Council of Vocational Training and testing activities in relation to agriculture and agricultural produce.

180. Last year, at the request of the film industry, full exemption of service tax was granted on copyright on cinematography. The industry has now requested to limit the benefit of exemption to films exhibited in cinema halls. I propose to accept the request.

181. At present, service tax does not apply to air conditioned restaurants that do not serve liquor. The distinction is artificial, and I propose to levy service tax on all air conditioned restaurants.

166-182. Homes and flats with a carpet area of 2,000 sq.ft. or more or of a value of 1 crore or more are high-end constructions where the component of 'service' is greater. Hence, I propose to reduce the rate of abatement for this class of buildings from 75 percent to 70 percent. Existing exemptions from service tax for low cost housing and single residential units will continue.

183. While there are nearly 17,00,000 registered assesseees under service tax, only about 7,00,000 file returns. Many have simply stopped filing returns. We cannot go after each of them. I have to motivate them to file returns and pay the tax dues. Hence, I propose to introduce a one-time scheme called 'Voluntary Compliance Encouragement Scheme'. A defaulter may avail of the scheme on condition that he files a truthful declaration of service tax dues since 1.10.2007 and makes the payment in one or two instalments before prescribed dates. In such a case, interest, penalty and other consequences will be waived. I hope to entice a large number of assesseees to return to the tax fold. I also hope to collect a reasonable sum of money.

184. There are a few more decisions which entail small gains or losses of

¹⁶⁶ [This has been amended vide Not. No. 9/2013-ST dated 8 May 2013](#)

revenue. They are reflected in the budget documents.

185. My tax proposals on the direct taxes side are estimated to yield ` 13,300 crore and on the indirect taxes side ` 4,700 crore.

Goods and Services Tax

186. Hon'ble Members will recall that I had first mentioned the Goods and Services Tax (GST) in the Budget speech for 2007-08. At that time, it was thought that GST could be brought into effect from 1.4.2010. Alas, that was not to be, although all States swear by the benefit of GST. However, my recent meetings with the Empowered Committee of State Finance Ministers has led me to believe that the State Governments – or, at least, the overwhelming majority – are agreed that there is need for a Constitutional amendment; there is need for State Governments and the Central Government to pass a GST law that will be drafted by the State Finance Ministers and the GST Council; and there is need for the Centre to compensate the States for loss due to the reduction in the CST rate. I hope we can take this consensus forward in the next few months and bring to this House a draft Bill on the Constitutional amendment and a draft Bill on GST. Hope inspires courage. I propose to take the first decisive step by setting apart, in the Budget, a sum of ` 9,000 crore towards the first instalment of the balance of CST compensation. I appeal to the State Finance Ministers to realise the serious intent of the Government to introduce GST and come forward to work with the Government and bring about a transformational change in the tax structure of the country.

D.O.F. No. 334/3/2013-TRU
New Delhi, dated February 28, 2013.
Dear Sir/ Madam,

Subject: Union Budget 2013: Changes in Service Tax-reg.

The service tax changes in Budget 2013 are largely guided by the objectives to provide a stable tax regime and improve voluntary compliance. The important changes are as follows:

A. Legislative changes

Following changes are being made in the Finance Act, 1994:

1. There are following changes in relation to the negative list:

(i) The definition of approved vocational course in section 65B(11) is being proposed to be changed to:

- a) include courses run by an industrial training institute or an industrial training centre affiliated to State Council for Vocational Training; and
- b) delete clause (iii) dealing with courses run by an institute affiliated to the National Skill Development Corporation.

(ii) The definition of "process amounting to manufacture or production" in section 65B(40) is being expanded to include processes under the Medicinal and Toilet Preparations (Excise Duties) Act, 1955

(iii) The negative list entry in sub-clause (i) of clause (d) of section 66D is being modified by deleting the word "seed". This will allow the benefit to all other testings in relation to "agriculture" or "agricultural produce".

2. The provisions of section 73 are being modified such that if the grounds for invoking extended period are not sustained, the Central Excise officer will be able to determine the demand for the shorter period of eighteen months.

3. The penalty under section 77(a) is being restricted to Rs 10,000. A new section 78A is also being introduced to impose penalty on directors and officials of the company for specified offences in cases of willful actions.

New provisions are being introduced to prescribe revised punishments for offences in section 89, make certain offences cognizable and others non-cognizable and

bailable. The Policy wing of the Board will be issuing detailed instructions in due course. These changes will come into force when the Finance Bill, 2013 is enacted.

B. Exemptions

4. The following changes are being made **w.e.f April 1, 2013** in the exemption notification number 25/2012-ST dated June 20, 2012:

- (i) Exemption by way of auxiliary educational services and renting of immovable property by (and not to) specified educational institutes under S. No 9 will not be available;
- (ii) The benefit of exemption under S. No 15 of the notification in relation to copyrights for cinematograph films will now be available only to films exhibited in a cinema hall or theatre. This will allow service providers to pass on input tax credits to taxable end-users;
- (iii) Exemption under S. No 19 will now be available only to non air-conditioned (non-centrally air-heated) restaurants; the dual requirement earlier that it should also have a license to serve alcohol is being done away with;
- (iv) The exemptions available to transportation of goods by railway and vessel under S. No 20 and services provided by a goods transportation agency (GTA) under S. No.21 are being harmonized. Thus exemption to transportation of petroleum and petroleum products, postal mails or mail bags and household effects by railways and vessels will not be available while the benefit of transportation of agricultural produce, foodstuffs, relief materials for specified purposes, chemical fertilizers and oilcakes, registered newspapers or magazines and defence equipments will be available to GTAs;
- (v) The exemptions under S. No 24 for vehicle parking to general public and S. No 25 for repair or maintenance of government aircrafts are being withdrawn; and
- (vi) The definition of "charitable activities" is being changed by deleting the portion listed in sub-clause (v) of clause (k). Thus the benefit to charities providing services for advancement of "any other object of general public utility" up to Rs 25 Lakh will not be available. However the threshold exemption will continue to be available up to Rs 10 lakh.

C. Abatement

¹⁶⁷5. The abatement available under S. No 12 of notification 26/2012-ST dated June 20, 2012 for construction of a complex, building, civil structures etc. is being reduced from the existing 75% to 70% for construction other than **residential properties** having a carpet area up to 2000 sq ft **or** where the amount charged is less than Rs 1 crore. This will come into effect from March 1, 2013.

D. Voluntary Compliance Encouragement Scheme, 2013 (VCES)

6.1 A new scheme is proposed to be introduced to encourage voluntary compliance with the following main features:

- (i) The scheme can be availed of by non-filers or stop-filers or persons who have not made a truthful declaration in their return. However it will not be applicable to

¹⁶⁷ [This has been amended vide Not. No. 9/2013-ST dated 8 May 2013](#)

persons against whom any inquiry or investigation is pending by the issue of search warrant or summon or by way of audit;

(ii) The defaulter will be required to make a truthful declaration of all his pending tax dues (from October 1, 2007 to December 31, 2012) and pay at least half of that before December 31, 2013; remaining half to be paid by:

(a) June 30, 2014 without interest; or

(b) By December 31, 2014 with interest from July 1, 2014 onwards;

(iii) On compliance with all the requirements the person will have immunity from interest (as specified), penalties and other proceedings;

6.2 The scheme will come into force when the Finance Bill is enacted. It is clarified that the tax-payers will need to settle their dues for the period after December 31, 2012 under the present law.

E. Advance Ruling Authority

7. The benefit of Advance Ruling Authority is being extended to resident public limited companies.

Article – Budget 2013 – Changes in Service Tax – CA Pritam Mahure

The rate of Service Tax (i.e. 12.36%) has been retained. However, changes are proposed by way of introduction of 2 new services in Negative List, withdrawal of Service tax exemption in certain cases, change in taxable value for high end flats, one time Amnesty scheme etc. In the following paras the author has made an attempt to capture these proposed changes.

A. Changes in abatements (effective from 1 March 2013)

At present taxable portion for service tax purpose is prescribed as 25% uniformly for constructions where value of land is included in the amount charged from the service recipient.

Going forward, in the case of 'construction of complex, building or civil structure, or a part thereof, intended for sale to a buyer, wholly or partly except where the entire consideration is received after issuance of completion certificate by the competent authority', **where the carpet area of residential unit is upto 2000 square feet. or the amount charged is less than One Crore Rupees**, the taxable portion for service tax purpose will remain as 25%, however, in all other cases taxable portion for service tax purpose will be 30%. Thus, the effective Service Tax would be increased from 3.09% (i.e. 12.36% * 25%) to 3.708% (i.e. 12.36% * 30%).

[¹⁶⁸Refer Not. No. 2/2013-ST dated 1 March 2013]

B. Exemptions withdrawn (effective from 1 April 2013)

1. **Air-conditioned restaurants:** Currently, Service Tax (on 40% value) is leviable on air conditioned restaurants serving liquor. However, w.e.f. 1 April 2013, Service Tax (on 40% value) will be applicable on all **Air Conditioned restaurants** (irrespective of the fact whether they serve liquor or not). Thus,

¹⁶⁸ [This Not. has been amended vide Not. No. 9/2013-ST dated 8 May 2013](#)

eating in restaurants is set to become costlier. Now, to save Service Tax, its better to pre-pone the plans to go to an restaurant before 1 April 2013!!!

2. **Services by way of vehicle parking to general public:** Entry no. 24 in the Mega Exemption Notification exempts 'Services by way of vehicle parking to general public excluding leasing of space to an entity for providing such parking facility' is exempt. This exemption is being withdrawn. Thus, all parkings will be liable to Service Tax. However, threshold/ small service providers exemption of Rs 10 lacs would be available to these eservice providers.
3. **Advancement of any other object of general public utility:** Currently, advancement of any other object of general public utility up to a value of Rs 25 lacs p.a. is exempt. Going forward, this exemption limit has been reduced to Rs 10 lacs p.a. (i.e. at par with other small service providers exemption)
4. **Renting of immovable property by Educational institute to others:** Currently, entry no. 9 in the Mega Exemption Notification (No. 25/2012-ST) exempts 'Services provided **to or by an** educational institution in respect of education exempted from service tax by way of renting of immovable property'. Now, exemption will not be available to renting of immovable property **by** an educational institute to others.
5. **Services provided to Government, a local authority or a governmental authority, by way of repair or maintenance of aircraft:** Entry no. 25 in the Mega Exemption Notification exempts Services provided to Government, a local authority or a governmental authority, by way of repair or maintenance of aircraft. This exemption is being withdrawn and thus Service Tax will be leviable on this activity.
6. **Film exhibited through a mode other than theatres:** Entry no. 15 in the Mega Exemption Notification exempts 'Temporary transfer or permitting the use or enjoyment of a copyright relating to cinematographic films'. Now, this exemption will be restricted to exhibition of cinematograph films in a cinema hall or a cinema theatre. Thus, exhibition though TV/ satellite would be subject to Service Tax.
7. **Exemption to transport of goods by rail/vessel:** Entry no. 20 in the Mega Exemption Notification exempts transportation of certain goods by rail/vessel.

Now, exemption to transportation of petroleum and petroleum products, postal mails or mail bags and household effects by railways and vessels will not be available. It is worried that this move may further drive the inflation.

8. **Exemption to transport of goods by rail/vessel:** Entry no. 21 in the Mega Exemption Notification exempts transportation of certain goods (fruits, vegetable, milk etc) by road. Now, Transportation of certain more goods (such as foodstuff, fertilisers, oil cakes, newspapers etc) by road has been exempted.

[Refer Not. No. 3/2013-ST dated 1 March 2013]

C. CHANGES IN THE NEGATIVE LIST I.E. SECTION 66D OF THE ACT (effective from the date of Presidential assent)

1. **Vocational training:** Courses in 'designated trades' offered by Industrial Training Institute or Industrial Training Center affiliated to State Council of Vocational Training will also be covered by the Negative List and thus not liable to Service Tax.
2. **Testing relation to agriculture:** Currently, Section 66D (d) (i) inter-alia exempts 'seed' testing. Now, it is proposed that all testing activities directly related to production of any agricultural produce like soil testing, animal feed testing, testing of samples from plants or animals, for pests and disease causing microbes will be covered by the Negative List and thus not liable to Service Tax.
3. **Process amounting to manufacture or production of goods:** Currently, vide Section 66D (f) of the Act "any process amounting to manufacture or production of goods" is covered in the Negative List. The term "any process amounting to manufacture or production of goods" is defined to mean a process on which duties of excise are leviable under section 3 of the Central Excise Act, 1944 or any process on which duties of excise are leviable under any State Act for the time being in force.

Listening to the concerns voiced by many various industry chambers, Section 65B(40) of the Act is being amended to include processes on which duties of

excise are leviable under the Medicinal and Toilet Preparations (Excise Duties) Act, 1955. This is a welcome move.

[Refer Chapter V of Finance Bill, 2013]

D. Other changes (effective from the date of Presidential assent)

1. **Show Cause Notice:** If a show cause notice issued under proviso to sub-section (1) of section 73 (i.e. fraud, suppression cases), is not found sustainable by an appellate authority or tribunal or court, the same will be deemed to be a notice issued for a period of 18 months.
2. **Maximum penalty for failure to obtain registration:** Maximum penalty imposed for failure to obtain registration will be Rs 10,000 only.
3. **Officer in-charge would be punishable also:** Section 78A is being introduced, to make provision for imposition of penalty on director, manager, secretary or other officer of the company, who is in any manner **knowingly** concerned with specified contraventions. This, will surely create difficulties in the years to come for the directors/ officers of the Company.
4. **Appeal to Appellate Tribunal/CESTAT:** Section 86 is being amended to provide that in case of appeal filed by assessee, CESTAT can admit an appeal or permit the filing of Memorandum of Cross Objections after the expiry of the relevant period by the Department.
5. **Offenses:** Section 89 is being amended to provide for imprisonment (upto 7 years in certain cases) where the amount exceeds Rs 50 lacs.
6. **Cognizable offence:** Section 90 is being introduced to specify and differentiate cognizable offences from non-cognizable and bailable offences.
7. **Arrest:** Section 91 is being introduced to provide for power to arrest. We hope these provisions are not mis-utilised.

[Refer Chapter V of Finance Bill, 2013]

E. Advance Ruling (from 1 March 2013)

Scope of advance ruling is being extended to cover resident **public limited companies**. Thus, public limited Companies can now obtain Advance Rulings and

this will go long in reducing the litigation between public limited Companies and Department.

[Refer Not. No. 4/2013-ST dated 1 March 2013]

F. Voluntary Compliance Encouragement Scheme (effective from the date of Presidential assent)

Finance Minister in his speech stated that there are 17 lacs registered assesseees. However, only 7 lac assesseees file returns.

Thus, to encourage voluntary compliance and broaden the tax base Voluntary Compliance Encouragement Scheme, 2013 is proposed to be introduced. This scheme will provided one-time amnesty by way of waiver of interest and penalty and immunity from prosecution who pay the "tax dues". This scheme would be applicable for service providers who have not obtained registration, or disclosed true liability or not filed returns for the period from October 2007 to December 2012.

[Refer Chapter VI of Finance Bill, 2013]

G. GST

This year the FM has assured that soon the Constitutional Amendment would be in place and also Draft GST bill will be introduced in Parliament. This step will enable the States to make their State GST laws and would make the process of introduction of GST faster. *[Refer Budget Speech, 2013]*

H. Conclusion

In last year mammoth changes were introduced in Service tax legislation (by way of introduction of Negative List regime and related rules). Though, many concerns of the industry are not answered still compared to last year, the Budget 2013 has proposed less changes and this really comes as a breeze.

Supply of food in restaurant, 'sale' or 'service'? – CA Pritam Mahure

In the present article we have analysed the judgment of H'ble Kerala High Court in the case of [Kerala Classified Hotels and Resorts Association [[2013-TIOL-533-HC-KERALA-ST](#)]].

In the aforesaid case the Petitioners in the writ petitions before the H'ble Kerala High Court had challenged the validity of sub clause (zzzzv) and (zzzzw) of clause 105 of Section 65 of the Finance Act, 1994 and Section 66 of the Finance Act, 1994 as amended by the Finance Act, 2011 relating to levy of service tax on taxable services referred therein.

The relevant entries of Finance Act, 1994 read as under:

Services by air-conditioned restaurants having licence to serve liquor [Sec. 65 (105) (zzzzv)]	Services by hotels / inns / clubs / guest houses, etc for short-term accommodation [Sec.65(105)(zzzzw)]
<i>services provided or to be provided to any person, by a restaurant, by whatever name called, having the facility of air-conditioning in any part of the establishment, at any time during the financial year, which has licence to serve alcoholic beverages, in relation to serving of food or beverage, including alcoholic beverages or both, in its premises;</i>	<i>Services provided or to be provided to any person, by a hotel, inn, guest house, club or camp-site, by whatever name called, for providing of accommodation for a continuous period of less than three months;</i>

Contentions of Appellants and Revenue

The main of the Appellants and Revenue were as under:

Contentions of Appellants	Contentions of Revenue
<ul style="list-style-type: none"> - The transaction essentially is in the nature of 'sale' of goods and squarely falls under Entry 54 of List II (State List) of the Seventh schedule to the Constitution of India which reads as under: "Taxes on the sale or purchase of goods other than newspapers, subject to the 	<ul style="list-style-type: none"> - Service tax levied by the Government of India is not for serving alcoholic beverages and it is a tax on the services provided by restaurants and hotels. - It was argued by the Respondent that Service Tax can be imposed on the service involved during the sale of a

<ul style="list-style-type: none"> - Levy of Service Tax accommodation was challenged on the ground that it transgresses Entry 62 of List II (State List) of the Seventh schedule is reproduced for ease of referral: "Taxes on luxuries, including taxes on entertainments, amusements, betting and gambling" 	<ul style="list-style-type: none"> - Entry 97 of List I (Union List) of the Seventh schedule to the Constitution of India is reproduced for ease of referral: "Any other matter not enumerated in List II or List III including any tax not mentioned in either of those Lists"

Questions raised before the Kerala High Court

In view of the aforesaid the questions that arose for consideration before the H'ble Kerala High Court were:

- i. Whether "taxes on the sale and purchase of goods" in Entry 54 of List II of the seventh schedule covers service in the light of the definition of "tax on sale and purchase of goods" under Article 366 (29A) (f) of the Constitution of India
- ii. Whether the service provided in a hotel, inn, guest house, club etc. imposed with luxury tax under State Act in terms of Entry 62 of List II can be separately assessed and imposed by the Union with service tax, invoking the residuary powers at Entry 97 of List I of the Constitution.

Discussion and analysis of the Judgment

While analysing the aforesaid questions the H'ble Kerala High Court *inter-alia* referred to judgment of Apex Court in the case of ***K. Damodarasamy Naidu (2002-TIOL-884-SC-CT-CB)*** and ***T.N. Kalyana Mandapam Assn. (2004-TIOL-36-SC-ST)***. The H'ble Kerala High Court distinguished the judgment of the Apex Court in the case of ***T.N. Kalyana Mandapam Assn. (supra)*** as the question therein was with reference to services rendered by mandap-keepers.

The H'ble Kerala High Court observed that the facts in the instant case were similar to the facts in the case of *K. Damodarasamy Naidu (supra)* wherein while considering the entitlement of the States to levy tax on the sale of food and drink, the Constitutional Bench of the Supreme Court held that "The tax, therefore, is on

the supply of food or drink and it is not of relevance that the supply is by way of a service or as part of a service. In our view, therefore, the price that the customer pays for the supply of food in a restaurant cannot be split up as suggested by learned Counsel”

In view of the aforesaid discussion, the H’ble Kerala High Court observed that when food is supplied or alcoholic beverages are supplied as part of any service, such transfer is deemed to be a sale and there cannot be a different component of service which could be imposed with service tax in exercise of the residuary power of the Central Government under Entry 97 of List I of the Constitution of India.

Similarly, in the context of Service Tax on Accommodation the H’ble Kerala High Court observed that the service tax is imposed on accommodation is beyond the legislative power of the Central Government.

In view of the aforesaid discussion H’ble Kerala High Court held as under:

- i) It is declared that sub Clauses (zzzzv) and (zzzzw) to Clause 105 of Section 65 of the Finance Act 1994 as amended by the Finance Act 2011 is beyond the legislative competence of the Parliament as the sub Clauses are covered by Entry 54 and Entry 62 respectively of List II of the Seventh Schedule.*
- ii) That if any payments have been made by the petitioners on the basis of the impugned clauses, they are entitled to seek refund of the same.*

Applicability of the decision

It is likely that the Revenue would take the matter to the Apex Court. However, it may be noted on facts similar to the aforesaid case the Apex Court has ruled that supply of food in restaurant would amount to ‘sale’ [please see The East India Hotels 2002-TIOL-883-SC-CT-LB, Northern India Caterers v. Lieutenant Governor of Delhi : (1978) 48 STC 386 (SC) and also *K. Damodarasamy Naidu (supra)*]. Also, as the judgment is delivered after analysing Constitutional provisions the judgment of H’ble Kerala High Court could apply to Post-Negative List scenario too.

ST on Foreign Bank Charges

CA PRITAM MAHURE

Exporters across the country pay bank charges to various foreign banks (which are located outside India) for realisation of export proceeds. The issue herein is whether Service Tax is payable by Exporters (under Reverse Charge Mechanism) on the payment of bank charges to Foreign Banks (located outside India)? In the following paragraphs let's try to find answer to the same.

Typically, the transaction mechanics in such situation is as under:

- For exports, Exporter's bank in India (Say SBI -Mumbai) forwards export documents to its counterpart (say ABC -New York) for necessary action
- Subsequently, ABC - New York acts as a collecting bank for realizing export proceeds from customers.
- ABC - New York collects export proceeds in foreign exchange and remits the same (after deducting Foreign Bank charges) to SBI – Mumbai
- SBI - Mumbai after receiving the foreign exchange converts the same in Indian currency and thereafter deduct their service charge on which it levies Service Tax

The flow of money can be captured in pictorial terms as under:

Wef 1 July 2012, Service tax is being levied on **all services** except services which are covered under 'Negative list' or otherwise exempt. This approach to tax services is also called as 'Negative List' based approach to taxation. Section 66B specifies the charge of service tax which is essentially that service tax shall be levied on all services provided or agreed to be provided in the **taxable territory**,

other than services specified in the negative list. Service Tax is payable by the provider of taxable service. However, a recipient of service is liable to pay Service Tax (also known as **Reverse Charge Mechanism**) *inter-alia* in case where the service is provided by a person located in non-taxable territory and received by a person located in taxable territory (in view of Rule 2 (1) (d) of Service Tax Rules, 1994 read with Not. No. 30/2012-ST).

In the instant case, services of remittance are provided by foreign banks for consideration. Under the Negative List Regime, the said activity of providing remittance would qualify as an activity for consideration. However, as mentioned above, under Negative List regime, Service tax applies only if the services are provided in "taxable territory". **Thus, the important question is whether the said bank services are provided by the Foreign Bank to Indian Exporter in the "taxable territory"?**

Under Section 66C of the Finance Act, 1994 the Central Government has framed **Place of Provision of Services Rules, 2012** (PoPSR) for determination of 'place of provision of service'. These Rules will guide us to the answer whether the said services are provided in the taxable territory.

Prima-facie, Rule 3 and Rule 9 of PoPSR seems relevant. The said Rules are reproduced below for ease of referral:

Rule 2 (b): "account" means an **account bearing interest** to the depositor, and includes a non-resident external account and a non-resident ordinary account;

Rule 3: Place of provision generally.- The place of provision of a service shall be the location of the recipient of service:

Provided that in case the location of the service receiver is not available in the ordinary course of business, the place of provision shall be the location of the provider of service.

Rule 9: Place of provision of specified services.- The place of provision of following services shall be the location of the service provider:-

(a) Services provided by a **banking company**, or a financial institution, or a nonbanking financial company, to **account** holders;

It may be noted that the term used in Rule 9 of PoPSR is 'account' holders. The term 'account' is defined in the Rule 2 (b) to *inter-alia* mean **an account bearing interest to the depositor**. Even the Education Guide clarifies that Services provided to holders of demand deposits, term deposits, NRE (non-resident external) accounts and NRO (non-resident ordinary) accounts will be covered under this rule. Typically, the services provided by Foreign Banks to Exporter will not get covered under Rule 9 PoPSR (as it will not qualify as 'account' in terms of the definition).

Thus, the services provided by Foreign Banks will get covered under Rule 3 of PoPSR (being residual Rule). As per Rule 3 of PoPSR, the place of provision of service would be 'location of recipient of service'. In the instant case, the recipient is Exporter located in India (other than J&K). Given this, the place of provision of service would be India (other than J&K) i.e. in taxable territory.

In the instant case, as the service is provided by a person (Foreign Bank) located in a non-taxable territory to Exporter (which is located in taxable territory). Given this, as per Rule 2 (1) (d) of Service Tax Rules, 1994 read with Not. No. 30/2012-ST, Service Tax would be payable by the recipient of the service i.e. Exporter. Thus, Exporter would be liable to pay Service Tax on the Foreign Bank charges.

Contrary view

There is also an alternative school of thought that in absence of privity of contract between Exporter and Foreign Bank and thus Exporter is not availing the services of Foreign Bank and the services of Foreign Bank are actually hired by bank in India and thus, Exporter is not required to pay service tax under reverse charge mechanism. However, this position may be highly litigative for following reasons:

1. Due to Reserve Bank of India guidelines, foreign banks cannot directly remit the money to Indian exporter and the same has to be remitted through Indian bank

of exporter. Thus, to this extend the exporter is agreeing to be party to contract with foreign bank and thus is further demonstrated by the act of the exporter (i.e. by accepting the consideration which is net of foreign bank charges).

2. Also, it may not be out of place to mention that we have observed that the Service Tax Department has issued Show Cause Notices in the past (before 1 July 2012) to various exporters for non-payment of Service tax on Foreign Bank charges¹⁶⁹. Also, non-payment of Service Tax on Foreign Bank charges was taken up by **Comptroller General of India**¹⁷⁰

On practical basis, as the Negative List law is recently introduced and this being an industry issue, Exporter should write letter to banks to obtain a suitable clarification for following:

- a. Whether the Indian bank charges are inclusive of Foreign Bank charges (on which Service Tax is charged by Indian bank). If yes, then Exporter need not pay Service Tax on the same (as Service tax on the entire amount including foreign charges would be paid by the Indian Bank).
- b. In other cases, in respect of provision of service by Foreign Banks, the Exporter should pay Service Tax.

Going forward

Going forward, as a relief to exporters, isn't it a good idea to provide exemption to exporter for the aforesaid services same as Not. No. 42/2012-ST (which provides for exemption to services of commission agent located outside India to exporter of goods).

¹⁷⁰ Report No. 11 of 2010-11 Indirect Taxes - Central Excise)

CEVAT Credit of ST paid under VCES

Issue

The issue that is discussed in the instant article is '*Whether CENVAT Credit of Service Tax paid under by a Service Provider availing Voluntary Compliance Encouragement Scheme (VCES) scheme is available to the Service Receiver?*'

Herein, the service tax could be paid by vendor of the service receiver and a supplementary invoice could be raised by the said vendor or by service receiver himself as a recipient of service (under reverse charge mechanism).

Legal provisions

In this regard, it is pertinent to note that the VCES does not provide availment of CENVAT Credit and availment of CENVAT Credit is governed CENVAT Credit Rules, 2004 (CCR). Even in the Circular No. 170/5/2013-ST dated 8 August 2013 the Department has stated that "*As regards admissibility of CENVAT credit in situations covered under part (a) and (b), attention is invited to rule 9(1)(bb) and 9(1)(e) respectively of the Cenvat Credit Rules*".

Typically, a service provider or manufacturer can avail CENVAT Credit if it qualifies as 'input service'.

In this regard, Rule 9 (1) (e) of CCR provides that CENVAT credit is available on the basis of '*a challan evidencing payment of service tax, by the service recipient as the person liable to pay service tax*'. However, it is pertinent to note that Rule 9 (1) (bb) of CCR provides as under:

*'(bb) a supplementary invoice, bill or challan issued by a provider of output service, in terms of the provisions of Service Tax Rules, 1994 except where the **additional amount of tax became recoverable** from the provider of service **on account of non-levy or non-payment or short-levy or short-payment by reason of fraud or collusion or wilful mis-statement or suppression of facts or contravention** of any of the provisions of the Finance Act or of the rules made thereunder with the intent to evade payment of service tax '*

Analysis

Thus, though generally the CENVAT credit of service tax paid is admissible if the underlying service qualifies as 'input service', still in terms of Rule 9 (1) (bb) of CCR , the same would be rendered inadmissible where:

- a. **Additional amount of tax became recoverable** from the provider of service
- b. **On account of non-levy or non-payment or short-levy or short-payment by reason of:**
 - i. **Fraud or**
 - ii. **Collusion or**
 - iii. **wilful mis-statement or**
 - iv. **suppression of facts or**
 - v. **contravention** of any of the provisions of the Finance Act or of the rules made thereunder with the intent to evade payment of service tax

Thus, in case the Service Tax is paid under VCES scheme, the question that needs to be answered is ***'Whether payment of Service Tax under VCES scheme per se amounts to acceptance of the allegations that non-payment or short-payment was the result of any fraud, collusion or suppression of facts etc?'***

In this regard, there is an apprehension that when the assessee is paying by availing VCES, assessee is 'indirectly' accepting that the he had contravened provisions and now he intends to correct the same. Also, VCES scheme itself is designed to grant immunity from 'penalty' and 'prosecution' (thus contravention is 'assumed'/ 'in-built' in the VCES). This could trigger applicability of Rule 9(1)(bb) of the CCR and consequent denial of CENVAT Credit. Also, the Department may invoke section 109 of the Finance Act, 1994 which provides that amount paid under VCES shall not be refundable in any circumstances.

As regards, Departments view on this issue, it is apparent from the above clarification (Circular No. 170/5/2013-ST dated 8 August 2013), that a clear view on eligibility of Cenvat credit of amount paid under VCES has not been explained by the Department.

However, the assessee can take recourse to the judgment of the Larger Bench in the case of Bosch Chasis System India Ltd ([2008-TIOL-1764-CESTAT-DEL-LB](#)) wherein it was held that in case the assessee pays differential duty on receipt of show cause notice and taking recourse to **Settlement Scheme** then it does not mean admission of fraud by assessee. The Larger Bench observed that whether fraud was

committed by assessee or not is a question of fact to be decided basis appreciation of facts of each case. Thus, Rule 9(1)(bb) of CCR will not be applicable by de-fault. Further, it is pertinent to note that as regards, Rule 9 (1) (e) of CCR there are no restrictions similar to 9 (1) (bb). Thus, in scenario where assessee pays Service Tax under Reverse Charge Mechanism by availing VCES, *per-se* denial will not be applicable.

Clarification by H'ble Finance Minister in VCES seminar

Recently, at a VCES Seminar organised by Institute of Chartered Accountants of India (ICAI) at Mumbai, I was fortunate enough to raise the aforesaid issue before the H'ble Finance Minister. In response to this issue, the H'ble Finance Minister clarified that the CENVAT credit would be available to the service receiver and a suitable clarification would be issued to further clarify the doubts.

Way forward

In view of the aforesaid apprehension that there could be denial of CENVAT Credit of the amount paid under VCES, it would be in the interest of VCES that a clarification on the aforesaid should be issued at earliest.

Applicability of VAT on flat

The article analyses the recent judgment delivered on 26/9/2013 by the Larger Bench of the Apex Court in the case of Larson & Toubro Ltd [2013-TIOL-SC-CT-LB].

A. The Issue

The underlying issue before the Apex Court in the aforesaid case was whether the transaction of sale of in-complete flat/unit is a 'works contract' and thus subject to Value Added Tax/ VAT.

B. Background

Earlier in 2005, the Apex Court in the case of K Raheja Development Corporation [2005-TIOL-77-SC-CT] had *upheld* the charge of the VAT on a contract for building and subsequent sale of immovable property. Later, in the year 2008 validity of the K Raheja 2005 case was *doubted* in the case of Larsen and Toubro Ltd [2008-TIOL-186-SC-CT] and the aforesaid decision of Raheja Development was referred to Larger Bench.

C. Key argument of Assessee/petitioners

1. Intention of Article 366 (29A) (b) of the Constitution of India is to tax the transfer of property in goods (whether as goods or '**in some other form**'). 'In some other form' would not mean as an immovable property.
2. Main intention of developer to sell fully constructed flat only. Even, by applying the test of enforceability, common parlance test (view of the reasonable man), test of substance of the contract and assignment test one can infer that the contract is to purchase flat (and not a contract for 'works contract')
3. Developer does not construct **at the behest** of the flat purchaser as on various occasions the flat is constructed without there being any booking for the said flat. Ownership in the material used in the construction remains with the promoter/developer and the said ownership passes to the flat purchaser only on the eventual conveyance of the flat
4. Goods/materials are purchased from the dealers registered under the Act levying VAT again as 'works contract' would amount to **double taxation**
5. State has been levying stamp duty on agreement of sale under Entry 25 and not under Entry 63 and hence the State does not consider an agreement for sale to be a works contract
6. Without prejudice to the above arguments, if the aforesaid activity is a works contract then the same would be a works contract only from the stage when the developer enters into a contract with the flat purchaser

D. Key argument of Revenue/respondent

1. The whole idea by insertion of Article 366 (29A) (b) in the Constitution of India is to make the materials used in the building activity liable to sales tax. The

taxable event is deemed sale. All that is required to be enquired into is as to whether the goods were involved in the execution of the works.

2. The expression "works" is extremely **wide** and nothing in Article 366 (29A) (b) restricts its meaning. Thus, construction of flat is one of the species of 'works contract'
3. There is no question of ascertaining the **dominant** intention of the contract now since the sale of goods element is a deemed sale under Article 366(29A)(b) and can be taxed separately.
4. Different aspects of the same transaction can involve more than one taxable event. There is nothing to prevent the taxation of different aspects of the same transaction as separate taxable events.
5. View taken in Raheja Development is correct and needs no reconsideration – both on merits as well as on the basis of binding precedents
6. Even in case of flats/ unit sold post completion, VAT is leviable as the building was intended for sale and is in fact sold

E. Judgment

a. 46th Amendment and Article 366 (29A)

The Apex Court observed that as a result of clause Article 366 (29A), it is open to the States to divide the works contract into two separate contracts by legal fiction. In view of this deeming legal fiction, it is not necessary to ascertain what the dominant intention of the contract is.

Further, the Apex Court observed that its earlier decision in the case of Rainbow Colour Lab [[2002-TIOL-373-SC-CT](#)] (that the division of the contract after 46th Amendment can be made only if the works contract involved a dominant intention to transfer the property in goods and not in contracts where the transfer of property takes place as an incident of contract of service) is no longer good law.

b. Meaning of the term 'in some other form'

The Apex Court observed that in the aforesaid deeming fiction the emphasis is on the 'transfer of property in goods whether as goods or ***in some other form***'. It held that the expression "in some other form" in the bracket is of utmost significance as by this expression the ordinary understanding of the term 'goods' has been **enlarged** by bringing within its fold goods in a form other than goods. In other words, goods which have by incorporation become part of immovable property are deemed as goods (i.e. 'In some other form' would also mean in the form of immovable property).

c. Meaning of Works contract

To distinguish a 'works contract' and a contract for 'sale' of goods the Apex Court referred its earlier observations in the case of Kone Elevators [2005-TIOL-30-SC-

CT-LB] wherein it was held that '*Another test often to be applied is: when and how the property of the dealer in such a transaction passes to the customer: is it by transfer at the time of delivery of the finished article as a chattel or by accession during the procession of work on fusion to the movable property of the customer? If it is the former, it is a "sale"; if it is the latter, it is a "works contract".*

Further, the Apex Court observed that the term 'works contract' is **amply wide** and it encompasses a wide range and many varieties of contract and it takes within its fold all genre of works contract and is not restricted to one specie of contract to provide for labour and services alone.

d. Whether sale of flat is a 'works contract'?

The question before the Apex Court was '*Whether taxing sale of goods in an agreement for sale of flat which is to be constructed by the developer/promoter is permissible under the Constitution?*'

In this regard, the Apex Court held that '*It is obvious that such transaction involves the activity of construction inasmuch as it is only when the flat is constructed then it can be conveyed. Such activity of construction has all the characteristics or elements of works contract. The ultimate transaction between the parties may be sale of flat but it cannot be said that the characteristics of works contract are not involved in that transaction. In a contract to build a flat there will necessarily be a sale of goods element. Works contracts also include building contracts. Effectively and de facto it is the developer who constructs the building for the flat purchaser.*

e. Valuation

As regard valuation the Apex Court stated that the value of the goods has to be the value of the goods at the time of incorporation of the goods in works even though property passes as between the developer and the flat purchaser after incorporation of goods.

Apex Court Also clarified that activity of construction undertaken by the developer would be works contract **only from the stage the developer enters into a contract with the flat purchaser**. The value addition made to the goods transferred after the agreement is entered into with the flat purchaser can only be made chargeable to tax by the State Government.

f. Other aspects

The Apex Court also upheld the Constitutional validity of Explanation (b)(ii) to Section 2(24) of MVAT Act,2002 (brought w.e.f. 20 June 2012).

As regards, Rule 58 (1A) of MVAT Rules, 2005, the Apex Court observed that the State Government of Maharashtra should bring more clarify this Rule.

g. Summary

Basis the aforesaid discussion, the Apex Court approved its earlier decision in the case of K Raheja Development Corporation 2005-TIOL-77-SC-CT and held as under:

- Sale of a completed flat / unit would not be works contract.
- Sale of in-complete flat / unit would be works contract. However, the activity would be a Works Contract only from the stage the Developer enters into a contract with the flat purchaser

H. Remarks

The tremors of the judgment would not only felt by the industry but also all the buyers of flats/units. Further, it is pertinent to note that the aforesaid judgment is delivered in the context of VAT laws, still could have its share of implications in Service Tax.

FOREWORD

The Service Tax Voluntary Compliance Encouragement Scheme (VCES) has been announced in this year's budget. It has come into effect from 10.5.2013. The objective of this Scheme is to encourage disclosure of tax dues and compliance of service tax law by the persons who have not paid service tax dues for the period from Oct. 2007 to Dec. 2012, either on account of ignorance of law or otherwise. VCES is the opportunity for such persons to pay the "tax dues" and come clean. On payment of "tax dues" relating to the period under VCES, there will be a complete waiver of interest, penalty and other consequences.

During the course of interaction with the trade associations on the VCES, certain issues have been raised for clarification and apprehensions have been expressed regarding certain provisions of the Scheme. These issues have been examined and the response of the department has been compiled in the form of Frequently Asked Questions (FAQ's) in this booklet. For ease of reference, the statutory provisions and the ST VCES Rules containing the VCES forms are also included in the booklet.

It is our expectation that the stakeholders would herein get the answers to their questions on the issues concerning VCES.

FAQs
FREQUENTLY ASKED QUESTIONS ON
SERVICE TAX
VOLUNTARY COMPLIANCE ENCOURAGEMENT SCHEME (VCES), 2013

Q1. Whether a person who has not obtained service tax registration so far can make a declaration under VCES?

Any person who has tax dues to declare can make a declaration in terms of the provisions of VCES. If such person does not already have a service tax registration he will be required to take registration before making such declaration.

Q2. Whether a declarant shall get immunity from payment of late fee/penalty for having not taken registration earlier or not filed the return or for delay in filing of return.

Yes. It has been provided in VCES that, beside interest and penalty, immunity would also be available from any other proceeding under the Finance Act, 1994 and Rules made thereunder.

Q3. Whether an assessee to whom show cause notice or order of determination has been issued can file declaration in respect of tax dues which are not covered by such SCN or order of determination?

In terms of section 106 (1) of the Finance Act, 2013 and second proviso thereto, the tax dues in respect of which any show cause notice or order of determination under section 72, section 73 or section 73A has been issued or which pertains to the same issue for the subsequent period are excluded from the ambit of the Scheme. Any other tax dues could be declared under the Scheme subject to the other provisions of the Scheme.

Q4. What is the scope of section 106 (2)(a)(iii)? Whether a communication from department seeking general information from the declarant would lead to invoking of section 106 (2) (a)(iii) for rejection of declaration under the said section?

Section 106 (2) (a)(iii) of the Finance Act, 2013 provides for rejection of declaration if such declaration is made by a person against whom an inquiry or investigation in respect of service tax not levied or not paid or short levied or short paid, has been initiated by way of requiring production of accounts, documents or other evidence under the chapter or the rules made thereunder, and such inquiry or investigation is pending as on the 1st day of March, 2013.

The relevant provisions, beside section 14 of the Central Excise Act as made applicable to service tax vide section 83 of the Finance Act, 1994, under which accounts, documents or other evidences can be requisitioned by the Central Excise Officer for the purposes of inquiry or investigation, are as follows,-

- (i) Section 72 of the Act envisages requisition of documents and evidences by the Central Excise Officer if any person liable to pay service tax fails to furnish the return or having made a return fails to assess the tax in accordance with the provision of the Chapter or rules made thereunder.
- (ii) Rule 5A of the Service Tax Rules, 1994 prescribes for requisition of specified documents by an officer authorised by the Commissioner for the purposes specified therein.

The provision of section 106 (2)(a)(iii) shall be attracted only in such cases where accounts, documents or other evidences are requisitioned by the authorised officer from the declarant under the authority of any of the above stated statutory provisions and the inquiry so initiated against the declarant is pending as on the 1st day of March, 2013. No other communication from the department would attract the provisions of section 106 (2)(a)(iii) and thus would not lead to rejection of the declaration.

Q5. Whether the communications, wherein department has sought information of roving nature from potential taxpayer regarding their business activities without seeking any documents from such person or calling for his presence, while quoting the authority of section 14 of the Central Excise Act, 1944, would attract the provision of section 106 (2) (a)?

Attention is invited to clarification issued at S. No. 4 of the circular No. 69/4/ 2013-ST, dated 13.5.2013, as regards the scope of section 106 (2) (a) of the Finance Act, 2013, wherein it has been clarified that the provision of section 106 (2)(a)(iii) shall be attracted only in such cases where accounts, documents or other evidence are requisitioned by the authorized officer from the declarant under the authority of a statutory provision.

A communication of the nature as mentioned in the question would not attract the provision of section 106 (2)(a) even though the authority of section 14 of the Central Excise Act may have been quoted therein.

Q6. An assessee has two units at two different locations, say Mumbai and Ahmedabad. Both are separately registered. The Mumbai unit has received a show cause notice for non-payment of tax on a revenue stream but the Ahmedabad unit has not. Whether the Ahmedabad unit is eligible for VCES?

Two separate service tax registrations are two distinct assesseees for the purposes of service tax levy. Therefore, eligibility for availing of the Scheme is to be determined accordingly. The unit that has not been issued a show cause notice shall be eligible to make a declaration under the Scheme.

Q7. Whether a declaration can be made under the Scheme in respect of cenvat credit wrongly utilized for payment of service tax?

Any service tax that has been paid utilizing the irregular credit, amounts to non-payment of service tax. Therefore such service tax amount is covered under the definition of "tax dues".

Q8. Whether a party, against whom an inquiry, investigation or audit has been initiated after 1.3.2013 (the cutoff date) can make a declaration under the Scheme?

Yes. There is no bar from filing of declaration in such cases.

Q9. There was a default and a Show Cause Notice was issued for the period prior to the period covered by the Scheme, i.e. before Oct 2007. Whether declaration can be filed for default on the same issue for the subsequent period?

In the context of the Scheme, the relevant period is from Oct 2007 to Dec 2012. Therefore, the 2nd proviso to section 106 (1) shall be attracted only in such cases where a show cause notice or order of determination has been issued for the period from Oct 2007 to Dec 2012. Accordingly, issuance of a show cause notice or order of determination for any period prior to Oct 2007, on an issue, would not make a person ineligible to make a declaration under the Scheme on the same issue for the period covered by the Scheme. Therefore, declaration can be made under VCES.

Q10. In a case where the assessee has been audited and an audit para has been issued, whether the assessee can declare liability on an issue which is not a part of the audit para, under the VCES 2013?

Yes, declarant can declare the "tax dues" concerning an issue which is not a part of the audit para.

Q11. Whether a person, who has paid service tax for a particular period but failed to file return, can take the benefit of VCES Scheme so as to avoid payment of penalty for non-filing of return?

Under VCES a declaration can be made only in respect of "tax dues". A case where no tax is pending, but return has not been filed, does not come under the ambit of the Scheme. However, rule 7C of the Service Tax Rules provides for waiver of penalty in deserving cases where return has not been filed and, in such cases, the assessee may seek relief under rule 7C.

Q12. A person has made part payment of his 'tax dues' on any issue before the scheme was notified and makes the declaration under VCES for the remaining part of the tax dues. Will he be entitled to the benefit of nonpayment of interest/penalty on the tax dues paid by him outside the VCES, i.e., (amount paid prior to VCES)?

No. The immunity from interest and penalty is only for "tax dues" declared under VCES. If any "tax dues" have been paid prior to the enactment of the scheme, any liability of interest or penalty thereon shall be adjudicated as per the provisions of Chapter V of the Finance Act, 1994 and paid accordingly.

Q13. Whether an assessee, who, during a part of the period covered by the Scheme, is in dispute on an issue with the department under an erstwhile provision of law, can declare his liability under the amended provisions, while continuing to litigate the outstanding liability under the erstwhile provision on the issue?

In terms of the second proviso to section 106 (1), where a notice or order of determination has been issued to a person in respect of any issue, no declaration shall be made by such person in respect of "tax dues" on the same issue for subsequent period. Therefore, if an issue is being litigated for a part of the period covered by the Scheme, i.e., Oct, 2007 to Dec 2012, no declaration can be filed under VCES in terms of the said proviso on the same issue for the subsequent period.

Q14. Whether upon filing a declaration a declarant realizes that the declaration filed by him was incorrect by mistake? Can he file an amended declaration?

The declarant is expected to declare his tax dues correctly. In case the mistake is discovered suo-moto by the declarant himself, he may approach the designated authority, who, after taking into account the overall facts of the case may allow amendments to be made in the declaration, provided that the amended declaration is furnished by declarant before the cut off date for filing of declaration, i.e., 31.12.2013.

Q15. What is the consequence if the designated authority does not issue an acknowledgement within seven working days of filing of declaration? Whether the declarant can start making payment of the tax dues even if acknowledgement is not issued?

Department would ensure that the acknowledgement is issued in seven working days from the date of filing of the declaration. It may however be noted that payment of tax dues under the Scheme is not linked to the issuance of an acknowledgement. The declarant can pay tax dues even before the acknowledgement is issued by the department.

Q16. Whether declarant will be given an opportunity to be heard and explain his cases before the rejection of a declaration under section 106(2) by the designated authority?

Yes. In terms of section 106 (2) of the Finance Act, 2013, the designated authority shall, by an order, and for reasons to be recorded in writing, reject a declaration if any inquiry/ investigation or audit was pending against the declarant as on the cutoff date, i.e., 1.3.2013. An order under this section shall be passed following the principles of natural justice.

To allay any apprehension of undue delays and uncertainty, it is clarified that the designated authority, if he has reasons to believe that the declaration is covered by section 106 (2), shall give a notice of intention to reject the declaration within 30 days of the date of filing of the declaration stating the reasons for the intention to reject the declaration. For declarations already filed, the said period of 30 days would apply from the date of the circular.

The declarant shall be given an opportunity to be heard before any order is passed by the designated authority.

Q17. What is the appeal mechanism against the order of the designated authority whereby he rejects the declaration under section 106 (2) of the Finance Act, 2013?

The Scheme does not have a statutory provision for filing of appeal against the order for rejection of declaration under section 106 (2) by the designated authority.

Q18. A declarant pays a certain amount under the Scheme and subsequently his declaration is rejected. Would the amount so paid by him be adjusted against his liability that may be determined by the department?

The amount so paid can be adjusted against the liability that is determined by the department.

Q19. Section 111 prescribes that where the Commissioner of Central Excise has reasons to believe that the declaration made by the declarant was 'substantially false', he may serve a notice on the declarant in respect of such declaration. However, what constitutes a 'substantially false' declaration has not been specified.

The Commissioner would, in the overall facts of the case, taking into account the reasons he has to believe, take a judicious view as to whether a declaration is 'substantially false'. It is not feasible to define the term "substantially false" in precise terms. The proceeding under section 111 would be initiated in accordance with the principles of natural justice.

To illustrate, a declarant has declared his "tax dues" as Rs. 25 lakh. However, Commissioner has specific information that declaration has been made only for part liability, and the actual "tax dues" are Rs 50 lakh. This declaration would fall in the category of "substantially false". This example is only illustrative.

Q20. What is the consequence if a declarant fails to pay at least 50% of declared amount of tax dues by the 31st Dec 2013?

One of the conditions of the Scheme [section 107 (3)] is that the declarant shall pay at least an amount equal to 50% of the declared tax dues under the Scheme, on or before the 31.12.2013. Therefore, if the declarant fails to pay at least 50% of the declared tax dues by 31st Dec, 2013, he would not be eligible to avail of the benefit of the scheme.

Q21. Whether the cenvat credit is admissible on the inputs/ input services used for provision of output service in respect of which declaration has been made under VCES for payment of any tax liability outside the VCES?

The VCES Rules 2013 prescribe that CENVAT Credit cannot be utilized for payment of tax dues under the Scheme. Accordingly the tax dues under the Scheme shall be paid in cash.

The admissibility of CENVAT Credit on any inputs and input services used for provision of output service in respect of which declaration has been made shall continue to be governed by the provisions of the Cenvat Credit Rules, 2004.

Q22. (a) Whether the tax dues amount paid under VCES would be eligible as CENVAT Credit to the recipient of service under a supplementary invoice?

(b) Whether CENVAT Credit would be admissible to the person who pays tax dues under VCES as service recipient under reverse charge mechanism?

Rule 6(2) of the Service Tax Voluntary Compliance Encouragement Rules, 2013, prescribes that CENVAT Credit cannot be utilized for payment of tax dues under the Scheme. Except this condition, all issues relating to admissibility of CENVAT Credit are to be determined in terms of the provisions of the Cenvat Credit Rules. As regards admissibility of CENVAT Credit in situations covered under part (a) and (b), attention is invited to rule 9(1)(bb) and 9(1)(e) respectively of the Cenvat Credit Rules.

Q23. In terms of section 106 (2)(b), if a declaration made by a person against whom an audit has been initiated and where such audit is pending, then the designated authority shall by an order and for reasons to be recorded in writing, reject such declaration. As the audit process may involve several stages, it may be indicated as to what event would constitute,-

(i) initiation of audit; and
(ii) culmination of audit.

Initiation of audit: For the purposes of VCES, the date of the visit of auditors to the unit of the taxpayer would be taken as the date of initiation of audit. A register is maintained of all visits for audit purposes.

Culmination of audit: The audit process may culminate in any of the following manner.-

- (i) Closure of audit file if no discrepancy is found in audit;
- (ii) Closure of audit para by the Monitoring Committee Meeting (MCM);

- (iii) Approval of audit para by MCM and payment of amount involved therein by the party in terms of the provisions of the Finance Act, 1994;
- (iv) Approval of audit para by MCM, and issuance of SCN, if party does not agree to the para so raised.

The audit culminates at a point when the audit paras raised are settled in any manner as stated above.

The pendency of audit as on 1.3.2013 means an audit that has been initiated before 1.3.2013 but has not culminated as on 1.3.2013.

Our country is about to embrace the new system of taxation of services by way of the introduction of Negative List. These changes ushered as a part of Budget 2012 mark a paradigm shift in the taxation of services.

Besides providing for the comprehensive taxation of the entire service sector, the new changes will help to mitigate litigation and prepare both the Department as well as the taxpayers for the eventual transition towards the Goods and Services Tax (GST).

We, in the Central Board of Excise and Customs (CBEC) are highly conscious of our responsibility to explain the changes as lucidly and as comprehensively as possible. This educational Guide material has been prepared by a team of officers of our Tax Research Unit and goes far beyond the standard Q&A guides, budget circulars or similar tools that are commonly used for such purposes.

We are conscious that the concept is new and it may not have been possible to capture all the intricacies of the new provisions. But we do hope that our sincere effort will help to narrow the areas of differences while providing the taxpayers a ready guide for reference.

Any suggestions for further improvement of this guide booklet are most welcome.

Preface

I write this on behalf of a number of persons collectively addressed as “We”: the Team TRU, other officials of the Department as well as elsewhere, academicians, innumerable tax-payers, tax advisors, business entities and representatives from the chambers of trade and industry and professional institutes.

The comprehensive taxation of services, that appeared a pipedream less than a year back, is now ready to be implemented.

In perhaps the most transparent exercises in Indian budget making, the idea of the Negative List originated in the first concept paper in August, 2011. This was fiercely debated by all, some understandably cautious or even skeptical, a few ruthlessly opposed, while a large majority displayed the foresight to look at the larger canvas; all making many valuable suggestions.

It was evident that we were measuring up to the challenge of remote budget-making entrusted to us. But we knew we had to do some more work. Despite the Negative List being operational in most parts of the world, we had to address our own uniqueness and in our way.

With the level of confidence and trust that we had won, it was natural that we were kept in the picture and informed which of our suggestions were accepted and which were not. The revised concept paper followed in November. We realized that the government was serious with this piece of progressive reform. We had to be likewise. Once again we tried our best to critique and comment on various proposals.

When the Budget announcements came in March, it was no shock or surprise. It was largely an affirmation of what we had known all along. We could see our collective efforts bear fruit.

The Department was also becoming far more reliant in entrusting us the responsibility of reading two rather lengthy draft guidance papers, trying to explain the whole concept and seeking our inputs so that very little was left for experimentation through litigation on either side.

Innumerable seminars organized by various chambers and professional institutes were very illuminating with the CBEC also breaking tradition by holding its own seminar for business in Delhi immediately after the budget followed by a well-attended seminar at its academy for the officers. Not to rest on that laurel alone, CBEC further reinforced learning and doubt-clearing with seminars in Delhi, Ahmedabad, Kolkata, and Chennai in June (Mumbai to follow soon), collaborating with industry associations and professional bodies and making it grossly interactive.

And now the final packaged version is before us on June 20, 2012 ready to be operationalised from July 1, 2012.

The head of the family: the Hon'ble Finance Minister of India, who has personally supported this entire initiative, guiding it intellectually and in all other possible ways, has very readily and graciously agreed to find time, out of his most busy schedule, to release the final version of this Educational Guide, indigenously produced and directed by We: The Team Negative List.

Taxation of Services: An Education Guide

**TRU, Central Board of Excise & Customs,
Department of Revenue, Ministry of Finance
June 20, 2012**

1. Introduction

1.1 Background

The journey of taxation of services began by selective taxation of just three services on July 1, 1994. The first year collections now appear a very modest at Rs 407 crore.

After appearing largely as just-another-tax for the first 8 years, with collections touching Rs 3,302 crore in 2001-02, service tax took some giant leaps in the next 7 years, both on the back of wider coverage as well as increase in tax rate, reaching Rs 60,941 crore in 2008-09. Next two years saw the growth somewhat moderating with collections reaching Rs 70,896 crore in 2010-11.

The buoyancy began once again on the back of some policy initiatives and Service Tax contributed Rs 97, 444 crore during 2011-12, an increase of nearly 37% over the previous year.

While the revenue expectations were often exceeded in all these years the administrative challenge began to assume unmanageable proportions. The newer additions to the list of services often raised issues of overlaps with the previously existing services, confounding both sides as to whether some activities were taxed for the first time or were already covered under an earlier, even if a little less specific head.

There was also a near unanimity across a wide section of thinkers that potential of service tax remained huge and largely untapped. Part of the problem identified was the lack of comprehensive taxation of services, not so much in the lack of coverage but more on account of lack of clarity and significant gaps in existing definitions, exposing the tax collection process to avoidable leakages and litigation.

Budget 2012 has ushered a new system of taxation of services; popularly known as Negative List. The new changes are a paradigm shift from the existing system where only services of specified descriptions are subjected to tax. In the new system all services, except those specified in the negative list, will be subject to taxation. For those who like to use modern-day terminology one could call it taxation of service version 2.0.

1.2 What is the aim of this Guide?

This guide is aimed at educating the tax payers and the tax administrators on various aspects of the new concept in order to assist them in gaining better understanding about the new system of taxation.

It is clarified at the outset that this guide is merely an educational aid based on a broad understanding of a team of officers of the issues. It is neither a "Departmental Circular" nor a manual of instructions issued by the Central Board of Excise and Customs. To that extent it does not command the required legal backing to be binding on either side in any manner. The guide is being released purely as a measure of facilitation so that all stakeholders obtain some preliminary understanding of the new issues for smooth transition to the new regime.

1.3 What is the key to using this Guide?

The guide consists of a number of Guidance Notes. Each of the notes deals with a specific topic relating to the negative list. The list of these educational notes is as follows-

- Guidance Note 1 Introduction
- Guidance Note 2 What is 'service'?
- Guidance Note 3 Taxability of a 'service'
- Guidance Note 4 Negative List
- Guidance Note 5 Place of Provision of Service
- Guidance Note 6 Declared Services
- Guidance Note 7 Exemptions
- Guidance Note 8 Valuation
- Guidance Note 9 Rules of Interpretation
- Guidance Note 10 Miscellaneous

In addition, the Guide has the following three Exhibits:

Exhibit A1 - List of services specified in the negative list

Exhibit A2 - Place of Provision of Service Rules, 2012.

Exhibit A3- List of exemptions in mega notification

1.4 What is the broad scheme of new taxation?

The key features of the new system of taxation are as follows:

At the outset 'service' has been defined in clause (44) of section 65B of the Act.

Section 66B specifies the charge of service tax which is essentially that service tax

shall be levied on all services provided or agreed to be provided in a taxable territory, other than services specified in the negative list.

The negative list of services is contained in section 66D of the Act.

Since provision of service in the taxable territory is an important ingredient of taxability, section 66C empowers the Central Government to make rules for determination of place of provision of service. Under these provisions the Place of Provision of Services Rules, 2012 have been made.

To remove some ambiguities certain activities have been specifically defined by description as services and are referred as Declared Services (listed in section 66E).

In addition to the services specified in the negative list, certain exemptions have been given. Most of the exemptions have been consolidated in a single mega exemption for ease of reference.

Principles have been laid down in section 66F of the Act for interpretation wherever services have to be treated differentially for any reason and also for determining the taxability of bundled services.

The system of valuation of services for levy of service tax and of availment and utilization of Cenvat credits essentially remains the same with only incidental changes required for the new system of taxation

Guidance Note 2 –What is Service?

'Service' has been defined in clause (44) of the new section 65B and means –

- any activity
- for consideration
- carried out by a person for another
- and includes a declared service.

The said definition further provides that 'Service' does not include –

- any activity that constitutes only a transfer in title of (i) goods or (ii) immovable property by way of sale, gift or in any other manner
- (iii) a transfer, delivery or supply of goods which is deemed to be a sale of goods within the meaning of clause (29A) of article 366 of the Constitution
- a transaction only in (iv) money or (v) actionable claim
- a service provided by an employee to an employer in the course of the employment.
- fees payable to a court or a tribunal set up under a law for the time being in force

There are four explanations appended to the definition of 'service' which are dealt with in later part of this Guidance Note. Each of the ingredients bulleted above have been explained in the points below.

2.1 Activity

2.1.1 What does the word 'activity' signify?

'Activity' has not been defined in the Act. In terms of the common understanding of the word activity would include an act done, a work done, a deed done, an operation carried out, execution of an act, provision of a facility etc. It is a term with very wide connotation.

Activity could be active or passive and would also include forbearance to act. Agreeing to an obligation to refrain from an act or to tolerate an act or a situation has been specifically listed as a declared service under section 66E of the Act.

2.2 Consideration

2.2.1 The phrase 'consideration' has not been defined in the Act. What is, therefore, the meaning of 'consideration'?

As per Explanation (a) to section 67 of the Act "consideration" includes any amount that is payable for the taxable services provided or to be provided.

Since this definition is inclusive it will not be out of place to refer to the definition of 'consideration' as given in section 2 (d) of the Indian Contract Act, 1872 as follows-

"When, at the desire of the promisor, the promisee or any other person has done or abstained from doing, or does or abstains from doing, or promises to do or to abstain from doing, something, such act or abstinence or promise is called a consideration for the promise"

In simple terms, 'consideration' means everything received or recoverable in return for a provision of service which includes monetary payment and any consideration of non- monetary nature or deferred consideration as well as recharges between establishments located in a non-taxable territory on one hand and taxable territory on the other hand.

2.2.2 What are the implications of the condition that activity should be carried out for a 'consideration'?

To be taxable an activity should be carried out by a person for a 'consideration'

Activity carried out without any consideration like donations, gifts or free charities are therefore outside the ambit of service. For example grants given for a research where the researcher is under no obligation to carry out a particular research would not be a consideration for such research.

An act by a charity for consideration would be a service and taxable unless otherwise exempted. (**for exemptions to charities please see Guidance Note 7**)

Conditions in a grant stipulating merely proper usage of funds and furnishing of account also will not result in making it a provision of service.

Donations to a charitable organization are not consideration unless charity is obligated to provide something in return e.g. display or advertise the name of the donor in a specified manner or such that it gives a desired advantage to the donor.

2.2.3 What is the meaning of monetary consideration?

Monetary consideration means any consideration received in the form of money. 'Money' has been defined in section 65B and includes not only cash but also cheque, promissory note, bill of exchange, letter of credit, draft, pay order, traveler's cheque, money order, postal or electronic remittance or any such similar instrument.

2.2.4 What is non-monetary consideration?

Non-monetary consideration essentially means compensation in kind such as the following:

Supply of goods and services in return for provision of service

Refraining or forbearing to do an act in return for provision of service

Tolerating an act or a situation in return for provision of a service

Doing or agreeing to do an act in return for provision of service

Illustrations

If.....	And in return...
A agrees to dry clean B's clothes	B agrees to click A's photograph
A agrees not to open dry clean shop in B's neighborhood	B agrees not to open photography shop in A's neighborhood
A agrees to design B's house	B agrees not to object to construction of A's house in his neighborhood
A agrees to construct 3 flats for B on land owned by B	B agrees to provide one flat to A without any monetary consideration

Then

For the services provided by A to B, the acts of B specified in column are non-monetary consideration provided by B to A. Conversely, for services provided by B to A, similar reasoning will be adopted.

2.2.5 Is the value of non-monetary consideration important?

Yes. The non-monetary consideration also needs to be valued for determining the tax payable on the taxable service since service tax is levied on the value of consideration received which includes both monetary consideration and money value of non-monetary consideration.

2.2.6 How is the money value of non-monetary consideration determined?

The value of non-monetary consideration is determined as per section 67 of the Act and the Service Tax (Determination of Value) Rules 2006, which is equivalent money value of such consideration and if not ascertainable, then as follows:-

On the basis of gross amount charged for similar service provided to other person in the ordinary course of trade;

Where value cannot be so determined, the equivalent money value of such consideration, not less than the cost of provision of service.

For details please refer to point no 8.1.8 and 8.1.9 of this Guide.

2.2.7 Are research grant with counter obligation on researcher to provide IPR rights on outcome of a research a consideration?

In case research grant is given with counter obligation on the researcher to provide IPR rights on the outcome of research or activity undertaken with the help of such grants then the grant is a consideration for the provision of service of research. General grants for researches will not amount to a consideration.

2.3 Activity for a consideration

The concept 'activity for a consideration' involves an element of contractual relationship wherein the person doing an activity does so at the desire of the person for whom the activity is done in exchange for a consideration. An activity done without such a relationship i.e. without the express or implied contractual reciprocity of a consideration would not be an 'activity for consideration' even though such an activity may lead to accrual of gains to the person carrying out the activity.

Thus an award received in consideration for contribution over a life time or even a singular achievement carried out independently or without reciprocity to the amount to be received will not comprise an activity for consideration.

There can be many activities without consideration. An artist performing on a street does an activity without consideration even though passersby may drop some coins in his bowl kept after feeling either rejoiced or merely out of compassion. They are, however, under no obligation to pay any amount for listening to him nor have they engaged him for his services. On the other hand if the same person is called to perform on payment of an amount of money then the performance becomes an activity for a consideration.

Provisions of free tourism information, access to free channels on TV and a large number of governmental activities for citizens are some of the examples of activities without consideration.

Similarly there could be cases of payments without an activity though they cannot be put in words as being "consideration without an activity". Consideration itself pre-supposes a certain level of reciprocity. Thus grant of pocket money, a gift or reward (which has not been given in terms of reciprocity), amount paid as alimony for divorce would be examples in this category. However a reward given for an activity performed explicitly on the understanding that the winner will receive the specified amount in reciprocity for a service to be rendered by the winner would be a consideration for such service. Thus amount paid in cases where people at large are invited to contribute to open software development (e.g. Linux) and getting an amount if their contribution is finally accepted will be examples of activities for consideration.

2.3.1 Would imposition of a fine or a penalty for violation of a provision of law be a consideration for the activity of breaking the law making such activity a 'service'?

No. To be a service an activity has to be carried out for a consideration. Therefore fines and penalties which are legal consequences of a person's actions are not in the nature of consideration for an activity.

2.3.2 Would the payments in the nature as explained in column A of the table below constitute a consideration for provision of service?

S. No.	A Nature of payment	B Whether consideration for service?
1.	Amount received in settlement of dispute.	Would depend on the nature of dispute. Per se such amounts are not consideration unless it represents a portion of the consideration for an activity that has been carried out. If the dispute itself pertains to consideration relating to service then it would be a part of consideration.
2.	Amount received as advances for performance of service.	Such advances are consideration for the agreement to perform a service.
3.	Deposits returned on cancellation of an agreement to provide a service.	Returned deposits are in the nature of a returned consideration. If tax has already been paid the tax payer would be entitled to refund to the extent specified and subject to provisions of law in this regard.
4.	Advances forfeited for cancellation of an agreement to provide a service.	Since service becomes taxable on an agreement to provide a service such forfeited deposits would represent consideration for the agreement that was entered into for provision of service.
5.	Security deposit that is returnable on completion of provision of service.	Returnable deposit is in the nature of security and hence do not represent consideration for service. However if the deposit is in the nature of a colorable device wherein the interest on the deposit substitutes for the consideration for service provided or the interest earned has a perceptible impact on the consideration charged for service then such interest would form part of gross amount received for the service. Also security deposit should not be in lieu of advance payment for the service.
6.	Security deposits forfeited for damages done by service receiver in the course of receiving a service	If the forfeited deposits relate to accidental damages due to unforeseen actions not relatable to provision of service then such forfeited deposits would not be a consideration in terms of clause (vi) of sub-rule (2) of rule 6 of the Valuation Rules.

7.	Excess payment made as a result of a mistake	If returned it is not consideration . If not returned and retained by the service provider it becomes a part of the taxable value.
8.	Demurrages payable for use of services beyond the period initially agreed upon e.g. retention of containers beyond the normal period.	This will be consideration and is covered by clause (x) of sub -rule (1) to Rule 6 of the Valuation Rules.

2.3.3 Can a consideration for service be paid by a person other than the person receiving the benefit of the service?

Yes. The consideration for a service may be provided by a person other than the person receiving the benefit of service as long as there is a link between the provision of service and the consideration. For example, holding company may pay for services that are provided to its associated companies.

2.4 By a person for another

2.4.1 What is the significance of the phrase 'carried out by a person for another'?

The phrase 'provided by one person to another' signifies that services provided by a person to self are outside the ambit of taxable service. Example of such service would include a service provided by one branch of a company to another or to its head office or vice-versa.

2.4.2 Are there any exceptions wherein services provided by a person to oneself are taxable?

Yes. Two exceptions have been carved out to the general rule that only services provided by a person to another are taxable. These exceptions, contained in Explanation 2 of clause (44) of section 65B, are:

an establishment of a person located in taxable territory and another establishment of such person located in non-taxable territory are treated as establishments of distinct persons. [Similar provision exists presently in section 66A (2)].

an unincorporated association or body of persons and members thereof are also treated as distinct persons. [Also exists presently in part as explanation to section 65].

Implications of these deeming provisions are that inter-se provision of services between such persons, deemed to be separate persons, would be taxable. For example, services provided by a club to its members and services provided by the branch office of a multi-national company to the headquarters of the multi-national company located outside India would be taxable provided other conditions relating to taxability of service are satisfied.

2.4.3 Are services provided by persons who have formed unincorporated joint ventures or profit-sharing arrangements liable to be taxed?

The services provided, both by the so constituted JV or profit sharing association of persons (AOP), as well as by each of the individual persons constituting the JV/AOP will be liable to be taxed separately, subject of course to the availability of the credit of the tax paid by independent persons to the JV/AOP and as otherwise admissible under Cenvat Rules..

2.4.4 Who is a 'person'? Is it only a natural person or includes an artificial or a juridical person?

'Person' is not restricted to natural person. 'Person' has been defined Section 65 B of the Act. The following shall be considered as persons for the purposes of the Act:

- an individual
- a Hindu undivided family
- a company
- a society
- a limited liability partnership
- a firm
- an association or body of individuals, whether incorporated or not
- Government
- a local authority, or
- every artificial juridical person, not falling within any of the preceding sub-clauses.

2.4.5 Are Government and local authorities also liable to pay tax?

Yes. However, most of the services provided by the Government or local authorities are in the negative list.

2.4.6 What is the rationale behind taxing certain activities of the Government or local authorities?

Only those activities of Government or local authorities are taxed where similar or substitutable services are provided by private entities. The rationale is as follows-

to provide a level playing field to private entities in these areas as exemption to Government in such activities would lead to competitive inequities; and

to avoid break in Cenvat chain as the support services provided by Government are normally in the nature of intermediary services.

2.4.7 What is the meaning of 'Government'?

The phrase 'Government' has not been defined in the Act. As per clause (23) of section 3 of the General Clauses Act, 1897 'Government' includes both Central Government and any State

Government. As per clause (8) of section 3 of the said Act 'Central Government', in relation to anything done or to be done after the commencement of the Constitution, mean the President. As per article 53 of the Constitution the executive power of the Union shall be vested in the President and shall be exercised by him either directly or indirectly through officers subordinate to him in accordance with the Constitution. Further, in terms of article 77 of the Constitution all executive actions of the Government of India shall be expressed to be taken in the name of the President. Therefore, the Central Government means the President and the officers subordinate to him while exercising the executive powers of the Union vested in the President and in the name of the President.

Similarly as per clause (60) of section 3 of the General Clauses Act, 1897 'State Government', as respects anything done after the commencement of the Constitution, shall be in a State the Governor, and in Union Territory the Central Government. Further as per article 154 of the Constitution the executive power of the State shall be vested in the Governor and shall be exercised by him either directly or indirectly through officers subordinate to him in accordance with the Constitution. Further, as per article 166 of the Constitution all executive actions of the Government of State shall be expressed to be taken in the name of Governor. Therefore, State Government means the Governor or the officers subordinate to him who exercise the executive power of the State vested in the Governor and in the name of the Governor.

2.4.8 What is a local authority?

Local authority is defined in clause (31) of section 65B and means the following:-

A Panchayat as referred to in clause (d) of article 243 of the Constitution

A Municipality as referred to in clause (e) of article 243P of the Constitution

A Municipal Committee and a District Board, legally entitled to, or entrusted by the Government with, the control or management of a municipal or local fund

A Cantonment Board as defined in section 3 of the Cantonments Act, 2006

A regional council or a district council constituted under the Sixth Schedule to the Constitution

A development board constituted under article 371 of the Constitution, or

A regional council constituted under article 371A of the Constitution.

2.4.9 Are all local bodies constituted by a State or Central Law local authorities?

No. The definition of 'local authority' is very specific as explained in point no 2.4.8 above and only those bodies which fall in the definition comprise 'local authorities'. It would not include other bodies which are merely described as a local body by virtue of a local law.

However it may be noted that services by a governmental authority by way of any activity in relation to any function entrusted to a municipality under article 243W of the Constitution are specifically exempt under the mega exemption. 'Governmental authority' has been defined in the said mega exemption as a board, or an authority or any other body established with 90% or more participation by way of equity or control by Government and set up by an Act of the Parliament or a State Legislature to carry out any function entrusted to a municipality under

article 243W of the Constitution. Thus some of these local bodies may comprise governmental authorities.

2.4.10 Would various entities like a statutory body, corporation or an authority constituted under an Act passed by the Parliament or any of the State Legislatures be 'Government' or "local authority"?

A statutory body, corporation or an authority created by the Parliament or a State Legislature is neither 'Government' nor a 'local authority' as would be evident from the meaning of these terms explained in point nos. 2.4.7 and 2.4.8 above respectively. Such statutory body, corporation or an authority are normally created by the Parliament or a State Legislature in exercise of the powers conferred under article 53(3)(b) and article 154(2)(b) of the Constitution respectively. It is a settled position of law Government (Agarwal Vs. Hindustan Steel AIR 1970 Supreme Court 1150) that the manpower of such statutory authorities or bodies do not become officers subordinate to the President under article 53(1) of the Constitution and similarly to the Governor under article 154(1). Such a statutory body, corporation or an authority as a juristic entity is separate from the state and cannot be regarded as Central or State Government and also do not fall in the definition of 'local authority'.

Thus regulatory bodies and other autonomous entities which attain their entity under an act would not comprise either government or local authority.

2.4.11 Would services provided by one department of the Government to another Department of the Government be taxable?

If services are provided by one department of the Central Government to another department of the Central Government or by a department of a State Government to another department of the same State Government then such service would not be taxable as it would amount to self-service. To be taxable a service has to be provided to another person.

On the other hand if a service is provided by a Central Government department to a State Government department or vice versa or a by a State to another State Government or by a Government to an autonomous body, the same would be taxable if such service does not fall in the negative list. It is another matter that most of the services provided by the Government are in the negative list. For details please refer to point no. 4.1 of this Guide.

2.4.12 Would taxable services provided by Government or local authorities still be liable to tax if they are covered under any other head of the negative list or are otherwise exempted?

No. For example, transport services provided by Government to passengers by way of a stage carriage would not be taxable as transport of passengers by stage carriage has separately been specified in the negative list of services. The specified services provided by the Government or local authorities are taxable only to the extent they are not covered elsewhere i.e. either in the negative list or in the exemptions.

2.5 Activities specified in the declared list are services.

Declared Services are activities that have been specified in Section 66 E of the Act. When such activities are carried out by one person for another in the taxable territory for a

consideration then such activities are taxable services. For guidance on the declared services please refer to **Guidance Note 6**.

2.6 Activity to be taxable should not constitute only a transfer in title of goods or immovable property by way of sale, gift or in any other manner

Mere transfer of title in goods or immovable property by way of sale, gift or in any other manner for a consideration does not constitute service.

Goods has been defined in section 65B of the Act as 'every kind of moveable property other than actionable claims and money; and includes securities, growing crops, grass and things attached to or forming part of the land which are agreed to be severed before sale or under contract of sale'.

Immovable property has not been defined in the Act. Therefore the definition of immovable property in the General Clauses Act, 1897 will be applicable which defines immovable property to include land, benefits to arise out of land, and things attached to the earth, or permanently fastened to anything attached to the earth.

2.6.1 What is the significance of the phrase 'transfer of title'?

'Transfer of title' means change in ownership. Mere transfer of custody or possession over goods or immovable property where ownership is not transferred does not amount to transfer of title. For example giving the property on rent or goods for use on hire would not involve a transfer of title.

2.6.2 What is the significance of the word 'only' in the said exclusion clause in the definition of 'service'?

The word 'only' signifies that activities which constitute only:

transfer of title in goods or immovable property; or

transfer, supply or delivery which is deemed to be a deemed sale of goods or constitute; or

a transaction in money or an actionable claim-are outside the definition of service.

A transaction which in addition to a transfer of title in goods or immovable property involves an element of another activity carried out or to be carried out by the person transferring the title would not be outrightly excluded from the definition of service. Such transactions are liable to be treated as follows-

If two transactions, although associated, are two discernibly separate transactions then each of the separate transactions would be assessed independently. In other words the discernible portion of the transaction which constitutes, let's say, a transfer of title in goods, would be excluded from the definition of service by operation of the said exclusion clause while the service portion would be included in the definition of

service. For example a builder carrying out an activity for a client wherein a flat is constructed by the builder for the client for which payments are received in instalments and on completion of the construction the title in the flat is transferred to the client involves two elements namely provision of construction service and transfer of title in immovable property. The two activities are discernibly separate. The activity of construction carried out by the builder would, therefore, be a service and the activity of transfer of title in the flat would be outside the ambit of service.

In cases of composite transactions, i.e. transactions involving an element of provision of service and an element of transfer of title in goods in which various elements are so inextricably linked that they essentially form one composite transaction then the nature of such transaction would be determined by the application of the dominant nature test laid down by the Supreme Court in BSNL's case. The judgement has been explained in detail in point no 2.6.3. Although the judgement was given in the context of composite transactions involving an element of transfer in title of goods by way of sale and an element of provision of service, the ratio would equally apply to other kind of composite transactions involving a provision of service and transfer in title in immovable property or actionable claim.

2.6.3 What is the manner of dealing with composite transactions which in addition to a transfer of title in goods involve an element of provision of service?

The manner of treatment of such composite transactions for the purpose of taxation, i.e. are they to be treated as sale of goods or provision of service, has been laid down by the Honorable Supreme Court in the case of Bharat Sanchar Nigam Limited vs Union of India [2006(2)STR161(SC)]. The relevant paras 42 and 43 of the said judgment are reproduced below -

42. Of all the different kinds of composite transactions the drafters of the 46th Amendment chose three specific situations, a works contract, a hire purchase contract and a catering contract to bring within the fiction of a deemed sale. Of these three, the first and third involve a kind of service and sale at the same time. Apart from these two cases where splitting of the service and supply has been Constitutionally permitted in Clauses (b) and (g) of Clause 29A of Art. 366, there is no other service which has been permitted to be so split. For example the clauses of Article 366(29A) do not cover hospital services. Therefore, if during the treatment of a patient in a hospital, he or she is given a pill, can the sales tax authorities tax the transaction as a sale? Doctors, lawyers and other professionals render service in the course of which can it be said that there is a sale of goods when a doctor writes out and hands over a prescription or a lawyer drafts a document and delivers it to his/her client? Strictly speaking with the payment of fees, consideration does pass from the patient or client to the doctor or lawyer for the documents in both cases.

43. The reason why these services do not involve a sale for the purposes of Entry 54 of List II is, as we see it, for reasons ultimately attributable to the principles enunciated in Gannon Dunkerley's case, namely, if there is an instrument of contract which may be composite in form in any case other than the exceptions in Article 366(29-A), unless the transaction in truth represents two distinct and separate contracts and is discernible as such, then the State would not have the power to separate the agreement to sell from the agreement to render service, and impose tax on the sale. The test therefore for composite contracts other than

those mentioned in Article 366 (29A) continues to be - did the parties have in mind or intend separate rights arising out of the sale of goods. If there was no such intention there is no sale even if the contract could be disintegrated. The test for deciding whether a contract falls into one category or the other is to as what is the substance of the contract. We will, for the want of a better phrase, call this the **dominant nature test.**”

The following principles emerge from the said judgment for ascertaining the taxability of composite transactions-

Except in cases of works contracts or catering contracts [exact words in article 366(29A) being - 'service wherein goods, being food or any other article of human consumption or any drink (whether or not intoxicating) is supplied in any manner as part of the service'] composite transactions cannot be split into contracts of sale and contracts of service.

The test whether a transaction is a 'composite transaction' is that did the parties intend or have in mind that separate rights arise out of the constituent contract of sale and contract of service. If no then such transaction is a composite transaction even if the contracts could be disintegrated.

The nature of a composite transaction, except in case of two exceptions carved out by the Constitution, would be determined by the element which determines the 'dominant nature' of the transaction.

- If the dominant nature of such a transaction is sale of goods or immovable property then such transaction would be treated as such.
- If the dominant nature of such a transaction is provision of a service then such transaction would be treated as a service and taxed as such even if the transaction involves an element of sale of goods.

In case of works contracts and 'service wherein goods, being food or any other article of human consumption or any drink (whether or not intoxicating) is supplied in any manner as part of the service' the 'dominant nature test' does not apply and service portion is taxable as a 'service' This has also been declared as a service under section 66E of the Act. For guidance on these two types of composite transactions and the manner of determining the value portion of service portion of such composite transactions please refer to point nos. 5.8 and 5.9 of this Guidance Paper.

If the transaction represents two distinct and separate contracts and is discernible as such then contract of service in such transaction would be segregated and chargeable to service tax if other elements of taxability are present. This would apply even if a single invoice is issued.

The principles explained above would, mutatis mutandis, apply to composite transactions involving an element of transfer of title in immovable property or transaction in money or an actionable claim.

2.6.4 Why has notification 12/2003-ST been deleted?

Notification 12/2003 – ST exempted so much of the value of all taxable services as was equal to the value of goods and materials **sold** (emphasis supplied) by the service provider to the service recipient subject to condition that there is documentary proof of such value of goods and materials. This was necessary under the regime of taxation of services based on specified descriptions as some of the specified descriptions could include an element of transfer of title in goods.

On the other hand, under the negative list scheme, specified descriptions of taxable services have been done away with and transactions that involve transfer of title in goods or are 'deemed to be sale of goods' under the Constitution are excluded from the ambit of service by the very definition of service. Therefore if, in the course of providing a service, goods are also being sold by a service provider for which there is such documentary proof as to make the sale a distinct and a separate transaction then the activity of sale of such goods gets excluded from the definition of service itself. The essence and intent of notification no 12/2003 has, therefore, been fully captured in the definition of service itself.

2.6.5 Will the goods portion in transactions like annual maintenance contracts or erection and commissioning or construction be includible in the value of services consequent to the deletion of Notification 12/2003-ST?

All the examples given in the question now comprise "works contracts" and only the service portion of such contracts comprise service. By the express provisions contained in the definition of service (which is mandated by constitutional provisions) it is not possible to tax the goods portion of works contracts. However the principles of segregation of the value of goods are provided in Rule 2A of the Valuation Rules. Thus there is no basis for the taxation of goods in such contracts even after the deletion of the stated notification.

Even for the sale of any equipment for which a separate contract for warranty or after sales services or maintenance is entered the discernible sales portion is not to be included in the discernible portion of the value of service. For all practical purposes these will be two separate contracts. However for artificial segregation of value between goods and services, to save either of the taxes on goods or services, the benefit was neither available earlier under the stated notification and the position continues to be the same under the new regime.

2.6.6 "Securities" have been included as goods. What are securities?

Securities have been defined in section 65B of the Act as having the same meaning assigned to it in clause (h) of section 2 of the Securities Contract (Regulation) Act, 1956 (42 Of 1956) in terms of which 'securities' includes –

Shares, scrips, stocks, bonds, debentures, debenture stock or other marketable securities of a like nature in or of any incorporated company or other body corporate.

Derivative.

Security receipt as defined in clause (zg) of section 2 of the Securitisation and Reconstruction of Financial Assets and Enforcement of Security Interest Act, 2002.

Units or any other such instrument issued to the investors under any mutual fund scheme.

Any certificate or instrument (by whichever name called), issued to any investor by any issuer being a special purpose distinct entity which possesses any debt or receivable, including mortgage debt, assigned to such entity, and acknowledging beneficial interest of such investor in such debt or receivable, including mortgage debt, as the case may be;

Government securities;

Such other instruments as may be declared by the Central Government to be securities.

Rights or interest in securities.

2.6.7 What are the implications of inclusion of 'securities' as 'goods'?

The definition of 'goods' has essentially been borrowed from the Sale of Goods Act, 1930 with the only variation that in the inclusion clause of the said definition the phrase 'stocks and shares' been replaced with 'securities'. In effect, therefore, activities that are in the nature of only transfer of title by way of sale, redemption, purchase or acquisition of securities on principal-to-principal basis, excluding services of dealers, brokers or agents in relation to such transactions, are outside the ambit of 'services'. However activities which are not in the nature of transfer of title in securities (for example a person agreeing not to exercise his right in a security for a given period of time for a consideration) would not be included in this exclusion clause to the definition of 'service'.

2.6.8 What is a derivative?

As per in clause (ac) of section 2 of the Securities Contract (Regulation) Act, 1956 (42 Of 1956) "derivative" includes—

(A) a security derived from a debt instrument, share, loan, whether secured or unsecured, risk instrument or contract for differences or any other form of security;

(B) a contract which derives its value from the prices, or index of prices, of underlying securities.

The definition of 'derivatives' in the said Act is an inclusive definition. Moreover, it may be noticed that as per the said definition 'derivative' includes security derived from a 'contract of difference' which is of a very wide ambit.

It would thus be prudent to keep in mind definition of derivatives as contained in Clause (a) of Section 45U of the RBI Act, 1935 as per which a 'derivates' means an instrument, to be settled at a future date, whose value is derived from change in interest rate, foreign exchange rate, credit rating from credit index, price of securities (also called "underlying") , or a combination of a more than one of them and includes interest rates swaps, forward rate agreements, foreign currency swaps, foreign currency-rupee swaps, foreign currency options, foreign currency-rupee options or such other instruments as may be specified by the Bank

from time-to- time. Transactions, including over the counter transactions, in such securities would therefore be out of the ambit of definition of 'service'.

However if some service charges or service fees or documentation fees or broking charges or such like fees or charges are charged, the same would be considerations for provision of service and chargeable to service tax.

2.6.9 Would buying or selling of mutual funds or debentures be a 'service'?

No. buying or selling of mutual funds or debentures would not be a service as the same would be a transaction in securities.

2.6.10 Whether the service tax would be chargeable on the 'entry and exit load' amount charged by a mutual fund to the investor?

As per the definition of 'service' only activities which are in the nature of transfer of title in goods (which includes securities) are excluded. As a consideration for the transfer of title in mutual funds the investors pay amounts equal to NAV of the mutual fund. Entry or exit loads are in the nature of consideration for documentation, covering initial expenses, asset management etc. Hence service tax would be leviable on such entry and exit loads.

Service tax would also be leviable on fund management activity undertaken by an asset management company (AMC) for which an AMC charges the mutual fund an 'investment and advisory fee', in accordance with provisions contained in the SEBI regulation.

2.6.11 What is the meaning of 'immoveable property'?

'Immoveable property' has not been defined in the Act. Therefore, the definition of 'immoveable property' as given in clause (26) of the General Clauses Act, 1897 has to be taken as per which "immovable property" shall include land, benefits to arise out of land, and things attached to the earth, or permanently fastened to anything attached to the earth.

2.7 Activity to be taxable should not constitute merely a transfer, delivery or supply of goods which is deemed to be a sale of goods within the meaning of clause (29A) of article 366 of the Constitution.

2.7.1 What are 'deemed sales' defined in article 366(29A)?

The six categories of deemed sales as defined in article 366(29A) of the Constitution are –

transfer, otherwise than in pursuance of a contract, of property in any goods for cash, deferred payment or other valuable consideration

transfer of property in goods (whether as goods or in some other form) involved in the execution of a works contract

delivery of goods on hire-purchase or any system of payment by installments

transfer of the right to use any goods for any purpose (whether or not for a specified period) for cash, deferred payment or other valuable consideration

supply of goods by any unincorporated association or body of persons to a member thereof for cash, deferred payment or other valuable consideration

supply, by way of or as part of any service or in any other manner whatsoever, of goods, being food or any other article for human consumption or any drink (whether or not intoxicating), where such supply or service, is for cash, deferred payment or other valuable consideration.

2.7.2 Once transfer of title by way of sale of goods is specifically excluded, what is the need to exclude deemed sales specifically?

Some categories of deemed sales do not involve transfer of title in goods like transfer of goods on hire-purchase or transfer of right to use goods. Accordingly, deemed sales have been specifically excluded.

2.7.3 Is there a possible conflict between exclusion of transactions covered under Article 366 (29A) and activities that have been declared as services under section 66E?

No. Activities specified under section 66E, which are related to transactions that are deemed as sales under article 366 (29A), have been carefully specified to ensure that there is no conflict. This would be evident from the following illustrations-

Transfer of property in goods (whether as goods or in some other form) involved in the execution of a works contract is a category of deemed sales. On the other hand the declared list entry is limited to the service portion in execution of a works contract.

Delivery of goods on hire-purchase or any system of payment by installments is deemed to be a sale under article 366 (29A), while the related declared service list entry is limited to activities related to delivery of goods on hire-purchase or any system of payment by installments

Transfer of the right to use any goods for any purpose (whether or not for a specified period) for cash, deferred payment or other valuable consideration is again a specified category of deemed sales. The declared list entry in clause (f) of section 66E specifies transfer of goods by way of hiring, leasing or licensing or in any such manner without involving transfer of right to use goods as a declared service.

Supply, by way of or as part of any service or in any other manner whatsoever, of goods, being food or any other article for human consumption or any drink (whether or not intoxicating), where such supply or service, is for cash, deferred payment or other valuable consideration is a deemed sale of goods. Such supply takes place in restaurants or in catering. On the other hand clause (i) of section 66E restricts the declared service to service portion in an activity where such supply of food or drinks takes place.

It is thus evident that the activities specified as declared services in section 66E do not encroach upon the area of deemed sales. In fact most of the declared services have been specified with the intent of clarifying the distinction between deemed sales and activities related thereto which are outside the realm of deemed sales but qualify as a service.

2.8 Transactions only in money or actionable claims do not constitute service

2.8.1 What kind of activities would come under 'transaction only in money'?

The principal amount of deposits in or withdrawals from a bank account.

Advancing or repayment of principal sum on loan to someone.

Conversion of Rs 1,000 currency note into one rupee coins to the extent amount is received in money form.

2.8.2 Would a business chit fund comes under 'transaction only in money'?

In business chit fund since certain commission received from members is retained by the promoters as consideration for providing services in relation to the chit fund it is not a transaction only in money. The consideration received for such services is therefore chargeable to service tax.

2.8.3 Would the making of a draft or a pay order by a bank be a transaction only in money?

No. Since the bank charges a commission for preparation of a bank draft or a pay order it is not a transaction only in money. However, for a draft or a pay order made by bank the service provided would be only to the extent of commission charged for the bank draft or pay order. The money received for the face value of such instrument would not be consideration for a service since to the extent of face value of the instrument it is only a transaction in money.

2.8.4 Would an investment be transaction only in money?

Investment of funds by a person with another for which the return on such investment is returned or repatriated to the investors without retaining any portion of the return on such investment of funds is a transaction only in money. Thus a partner being admitted in a partnership against his share will be a transaction in money. However, if a commission is charged or a portion of the return is retained as service charges, then such commission or portion of return is out of the purview of transaction only in money and hence taxable. Also, if a service is received in lieu of an investment it would cease to be a transaction only in money to the extent the investment represents the consideration for the service received.

2.8.5 What is the significance of Explanation 2 to the definition of service in clause (44) of section 65B of the Act?

The said Explanation 2 clarifies that transaction in money does not include any activity in relation to money by way of its use or conversion by cash or by any other mode, from one form, currency or denomination to another form, currency or denomination for which a separate consideration is charged. The implications of this explanation are that while mere transactions in money are outside the ambit of service, any activity related to a transaction in money by way of its use or conversion by cash or by any other mode, from one form, currency or denomination to another form, currency or denomination would not be treated as a transaction in money if a separate consideration is charged for such an activity. While the transaction in

money, per-se, would be outside the ambit of service the related activity, for which a separate consideration is charged, would not be treated as a transaction of money and would be chargeable to service tax if other elements of taxability are present. For example a foreign exchange dealer while exchanging one currency for another also charges a commission (often inbuilt in the difference between the purchase price and selling price of forex). The activity of exchange of currency, per-se, would be a transaction only in money, the related activity of providing the services of conversion of forex, documentation and other services for which a commission is charged separately or built in the margins would be very much a 'service'.

2.8.6 Would debt collection services or credit control services be considered to be transaction only in money?

No. Such services provided for consideration are taxable.

2.8.7 What are actionable claims?

As per section 3 of the Transfer of Property Act, 1893 actionable claims means a claim to any debt, other than a debt secured by mortgage of immovable property or by hypothecation or pledge of movable property or to any beneficial interest in movable property not in the possession, either actual or constructive, of the claimant, which the Civil Courts recognize as affording grounds for relief, whether such debt or beneficial interest be existent, accruing, conditional or contingent.

Illustrations of actionable claims are -

Unsecured debts

Right to participate in the draw to be held in a lottery.

2.8.8 If an unsecured debt is transferred to a third person for a consideration would this activity be treated as service?

No. Since unsecured debt is an actionable claim, a transaction only in such actionable claim is outside the ambit of service. However if a service fee or processing fee or any other charge is collected in the course of transfer or assignment of a debt then the same would be chargeable to service tax.

2.8.9 Would sale, purchase, acquisition or assignment of a secured debt like a mortgage also constitute a transaction in money?

Yes. However if a service fee or processing fee or any other charge is collected in the course of transfer or assignment of a debt then the same would be chargeable to service tax.

2.8.10 What is the scope of 'beneficial interest in moveable property' in the definition of actionable claim?

Black's Law Dictionary defines 'beneficial interest' as follows-

"A right or expectancy in something (such as a trust or an estate), as opposed to legal title to that thing. For example, a person with a beneficial interest in a trust receives income from the trust but does not hold legal title to the trust property"

Therefore 'beneficial interest in moveable property' is a right or expectancy in a moveable property like right to receive income accruing from a moveable property. It may be noted that accrual of income from a moveable property could be in the nature of a consideration for a taxable service, e.g. a hiring fees or a license fee accruing on hiring or licensing of a moveable property. In such a situation the service being provided in relation to such moveable property would not be covered in the exclusion clause. It is only if the beneficial interest in such property is transferred to another person for a consideration that the activity of transferring the beneficial interest would be covered.

2.8.11 Would vouchers that entitle a person to enjoy a service, for example a health club, be an actionable claim?

No. Such a voucher does not create a 'beneficial interest' in a moveable property but only entitles a person to enjoy a particular service for a single or specified number of times.

2.8.12 Would recharge vouchers issued by service companies for enabling clients/ consumers to avail services like mobile phone communication, satellite TV broadcasts, DTH broadcasts etc be 'actionable claims'?

No. Such recharge vouchers do not create a 'beneficial interest' in a moveable property but only enable a person to enjoy a particular service.

2.9 Provision of service by an employee to the employer is outside the ambit of service

2.9.1 Are all services provided by an employer to the employee outside the ambit of services?

No. Only services that are provided by the employee to the employer in the course of employment are outside the ambit of services. Services provided outside the ambit of employment for a consideration would be a service. For example, if an employee provides his services on contract basis to an associate company of the employer, then this would be treated as provision of service.

2.9.2 Would services provided on contract basis by a person to another be treated as services in the course of employment?

No. Services provided on contract basis i.e. principal-to-principal basis are not services provided in the course of employment.

2.9.3 Would amounts received by an employee from the employer on premature termination of contract of employment be chargeable to service tax?

No. Such amounts paid by the employer to the employee for premature termination of a contract of employment are treatable as amounts paid in relation to services provided by the employee to the employer in the course of employment. Hence, amounts so paid would not be chargeable to service tax. However any amount paid for not joining a competing business would be liable to be taxed being paid for providing the service of forbearance to act.

2.9.4 What is the status of services provided by casual workers or contract labour?

If..... taxable	Then.....
Services provided by casual worker to employer who gives wages on daily basis to the worker	These are services provided by the worker in the course of employment
Casual workers are employed by a contractor, like a building contractor or a security services agency, who deploys them for execution of a contract or for provision of security services to a client	Services provided by the workers to the contractor are services in the course of employment and hence not taxable. However, services provided by the contractor to his client by deploying such workers would not be a service provided by the workers to the client in the course of employment. The consideration received by the contractor would therefore be taxable if other conditions of taxability are present.

2.10 Explanations to the definition of 'service'

Explanation 1 clarifies that 'service' does not cover functions or duties performed by Members of Parliament, State Legislatures, Panchayat, Municipalities or any other local authority, any person who holds any post in pursuance of the provisions of the Constitution or any person as a Chairperson or a Member or a Director in a body established by the Central or State Governments or local authority and who is not deemed as an employee.

Explanation 2 clarifies that transaction in money does not include any activity in relation to money by way of its use or conversion by cash or by any other mode, from one form, currency or denomination to another form, currency or denomination for which a separate consideration is charged. (please refer to point no 2.8.5 for further guidance on this)

Explanation 3 creates two exceptions, by way of a deeming provision, to the general rule that only services provided by a person to another are taxable. As per these deeming provisions establishment of a person located in taxable territory and establishment of such person located in non-taxable territory are deemed to be establishments of distinct persons. Further an unincorporated association or body of persons and members thereof are also deemed as separate persons. For implications please see point no 2.4.2 of this Guide.

Explanation 4 explains that a branch or an agency of a person through which the person carries out business is also an establishment of such person.

Guidance Note 3 – Taxability of Services

The taxability of services or the charge of service tax has been specified in section 66B of the Act. To be a taxable a service should be –

- provided or agreed to be provided by a person to another
- in the taxable territory
- and should not be specified in the negative list.

3.1 Provided or agreed to be provided

3.1.1 What is the significance of the phrase 'agreed to be provided'?

The phrase "agreed to be provided" has been retained from the definition of taxable service as contained in the erstwhile clause (105) of section 65 of the Act. The implications of this phrase are –

Services which have only been agreed to be provided but are yet to be provided are taxable

Receipt of advances for services agreed to be provided become taxable before the actual provision of service

Advances that are retained by the service provider in the event of cancellation of contract of service by the service receiver become taxable as these represent consideration for a service that was agreed to be provided.

3.1.2 Does the liability to pay the service tax on a taxable service arise the moment it is agreed to be provided without actual provision of service?

No. The point of taxation is determined in terms of the Point of Taxation Rules, 2011. As per these Rules point of taxation is –

- the time when the invoice for the service provided or agreed to be provided is issued;
- if invoice is not issued within prescribed time period(30 days except for specified financial sector where it is 45 days) of completion of provision of service then the date of completion of service;
- the date of receipt of payment where payment is received before issuance of invoice or completion of service.

Therefore agreements to provide taxable services will become liable to pay tax only on issuance of invoice or date of completion of service if invoice is not issued within prescribed period of completion or on receipt of payment. For specific cases covered under the said Rules, including continuous supply of service, please refer to the Point of Taxation Rules, 2011.

3.2 Provided in the taxable territory

Taxable territory has been defined in section 65B of the Act as the territory to which the Act applies i.e. the whole of territory of India other than the State of Jammu and Kashmir.

“India” includes not only the land mass but its territorial waters, continental shelf, exclusive economic zone or any other maritime zone as defined in the Territorial Waters, Continental Shelf, Exclusive Economic Zone and Other Maritime Zones Act, 1976(- of 1976); the sea-bed and the subsoil underlying the territorial waters; the air space above its territory and territorial waters; and the installations structures and vessels located in the continental shelf of India and the exclusive economic zone of India, for the purposes of prospecting or extraction or production of mineral oil and natural gas and supply thereof.

Detailed rules called the Place of Provision of Services Rules, 2012 have been made which determine the place of provision of service depending on the nature and description of service.

Please refer to Guidance Note 5 relating to the Place of Provision of Services Rules, 2012

3.3 Service should not be specified in the negative list

As per section 66B, to be taxable a service should not be specified in the negative list. The negative list of services has been specified in section 66D of the Act. For the sake of simplicity the negative list of services has been reproduced in **Exhibit AI** to this Guidance Paper. For guidance on the negative list please refer to **Guidance Note 4**.

3.4 Relevant Questions relating to taxability of services

3.4.1 How do I know that I am performing a taxable service in the absence of a positive list?

The drill to identify whether you are providing taxable service is very simple. Pose the questions listed in Step 1 and Step 2 below-

Step 1

To determine whether you are providing a 'Service'

Pose the following questions to yourself

S.NO.	QUESTION	ANSWER
	1

3	Is this activity entirely covered in any of the services described in the negative list of services specified in section 66D of the Act?	No

No. You will not have to pay service tax on taxable services provided by you in the following cases:

if in the previous financial year the aggregate value of taxable services provided by you was less than Rs.10 lakh and in the present financial year the aggregate value of taxable services provided by you is also less than Rs.10 lakh. (you start paying service tax after crossing the threshold of Rs 10 lakh)

For the sake of convenience the proposed mega exemption has been reproduced at **Exhibits A3 of this Guide.**

3.4.4 Are declared services also covered by exemptions?

Yes.

3.4.5 Are services other than declared services taxable?

Yes. All services, whether declared or not, which are covered under Section 66B of the Act are taxable if elements of taxability are present. The only purpose behind declaring activities as service is to bring uniformity in assessment of such activities across the country.

Guidance Note 4 – Negative List of Services

In terms of Section 66B of the Act, service tax will be leviable on all services provided in the taxable territory by a person to another for a consideration other than the services specified in the negative list. The services specified in the negative list therefore go out of the ambit of chargeability of service tax. The negative list of service is specified in the Act itself in Section 66 D. For ease of reference the negative list of services is given in **Exhibit A1**. In all, there are seventeen heads of services that have been specified in the negative list. The scope and ambit of these is explained in paras below.

4.1 Services provided by Government or local authority

4.1.1 Are all services provided by Government or local authority covered in the negative list?

No. Most services provided by the Central or State Government or local authorities are in the negative list except the following:

- a) services provided by the Department of Posts by way of speed post, express parcel post, life insurance, and agency services carried out on payment of commission on non government business;
- b) services in relation to a vessel or an aircraft inside or outside the precincts of a port or an airport;
- c) transport of goods and/or passengers;
- d) support services, other than those covered by clauses (a) to (c) above, to business entities.

4.1.2 Would the taxable services provided by the Government be charged to tax if they are otherwise exempt or specified elsewhere in the negative list?

No. If the services provided by the government or local authorities that have been excluded from the negative list entry are otherwise specified in the negative list then such services would also not be taxable.

4.1.3 'Government' has not been defined in the Act. What is the meaning of Government?

Please refer to point no. 2.4.7.

4.1.4 Are various corporations formed under Central Acts or State Acts or various government companies registered under the Companies Act, 1956 or autonomous institutions set up by a special Acts covered under the definition of 'Government'?

No. For detailed analysis please refer to point no. 2.4.10.

4.1.5 What entities are then covered under 'Government'?

'Government' would include various departments and offices of the Central or State Government or the U.T. Administrations which carry out their functions in the name and by order of the President of India or the Governor of a State.

4.1.6 Would a department of the Government need to get itself registered for each of the services listed in answer to Q. No.4.1.1 above?

For the support services provided by the Government, other than where such support services are by way of renting of immovable property, to business entities government departments will not have to get registered because service tax will be payable on such services by the service receiver i.e. the business entities receiving the service under reverse charge mechanism in terms of the provisions of section 68 of the Act and the notification issued under the said section as well Service Tax Rules, 1994. For services mentioned at (a) to (c) of the list (point 4.1.1 above refers) and renting of immovable properties the tax will be payable by the concerned department.

4.1.7 What is the meaning of "support services" which appears to be a phrase of wide ambit?

Support services have been defined in section 65B of the Act as 'infrastructural, operational, administrative, logistic marketing or any other support of any kind comprising functions that entities carry out in ordinary course of operations themselves but may obtain as services by outsourcing from others for any reason whatsoever and shall include advertisement and promotion, construction or works contract, renting of movable or immovable property, security, testing and analysis.

Thus services which are provided by government in terms of their sovereign right to business entities, and which are not substitutable in any manner by any private entity, are not support services e.g. grant of mining or licensing rights or audit of government entities established by a special law, which are required to be audited by CAG under section 18 of the Comptroller and Auditor-General's (Duties, Powers and Conditions of Service) Act, 1971 (such services are performed by CAG under the statute and cannot be performed by the business entity themselves and thus do not constitute support services.)

4.1.8 Will the services provided by Police or security agencies to PSUs or corporate entities or sports events held by private entities be taxable?

Yes. Services provided by government security agencies are covered by the main portion of the definition of support service as similar services can be provided by private entities. In any case it is also covered by the inclusive portion of the definition. However the tax will be actually payable on reverse charge by the recipient.

4.1.9 What is the meaning of local authority?

Please refer to point no 2.4.8 and 2.4.9.

4.1.10 Department of Posts provides a number of services. What is the status of those services for the purpose of levy of service tax?

As per sub-clause (i) of clause (a) of section 66D services provided by the Department of Posts by way of speed post, express parcel post, life insurance, and agency services carried out on payment of commission on non government business are excluded from the negative list. Therefore, the following services provided by Department of Posts are not liable to service tax.

Basic mail services known as postal services such as post card, inland letter, book post, registered post provided exclusively by the Department of Posts to meet the universal postal obligations.

Transfer of money through money orders, operation of savings accounts, issue of postal orders, pension payments and other such services.

4.1.11 Would agency or intermediary services on commission basis (distribution of mutual funds, bonds, passport applications, collection of telephone and electricity bills), which are provided by the Department of Posts to non-government entities be liable to service tax?

Yes. Agency services carried out on payment of commission on non government business are excluded from the negative list entry relating to services provided by Government or a local authority.

4.2 Services provided by Reserve Bank of India**4.2.1 Are all services provided by the Reserve Bank of India in the negative list?**

Yes. All services provided by the Reserve Bank of India are in the negative list.

4.2.2 What about services provided to the Reserve Bank of India?

Services provided to the Reserve Bank of India are not in the negative list and would be taxable unless otherwise covered in any other entry in the negative list.

4.2.3 Would services provided by banks to RBI be also taxable?

Yes. Services provided by banks to RBI would be taxable as these are neither in the negative list nor covered in any of the exemptions.

4.3 Services by a foreign diplomatic mission located in India

Any service that is provided by a diplomatic mission of any country located in India is in the negative list. This entry does not cover services, if any, provided by any office or establishment of an international organization.

4.4 Services relating to agriculture or agricultural produce.

The services relating to agriculture or agricultural produce that are specified in the negative list are services relating to –

agricultural operations directly related to production of any agricultural produce including cultivation, harvesting, threshing, plant protection or seed testing;

supply of farm labour;

processes carried out at the agricultural farm including tending, pruning, cutting, harvesting, drying cleaning, trimming, sun drying, fumigating, curing, sorting, grading, cooling or bulk packaging and such like operations which do not alter essential characteristics of agricultural produce but makes it only marketable for the primary market;

renting of agro machinery or vacant land with or without a structure incidental to its use;

loading, unloading, packing, storage and warehousing of agricultural produce;

agricultural extension services;

services provided by any Agricultural Produce Marketing Committee or Board or services provided by commission agent for sale or purchase of agricultural produce;

4.4.1 What is the meaning of 'agriculture'?

'Agriculture' has been defined in the Act as cultivation of plants and rearing or breeding of animals and other species of life forms for foods, fibre, fuel, raw materials or other similar products but does not include rearing of horses.

4.4.2 Are activities like breeding of fish (pisciculture), rearing of silk worms (sericulture), cultivation of ornamental flowers (floriculture) and horticulture, forestry included in the definition of agriculture?

It also includes specified processes in the definition like tending, pruning, grading, sorting etc. which may be carried out at the farm or elsewhere as long as they do not alter the essential characteristics.

4.4.4 Would plantation crops like rubber, tea or coffee be also covered under agricultural produce?

Yes. Such plantation crops are also covered under agricultural produce.

4.4.5 Would potato chips or tomato ketchup qualify as agricultural produce?

No. In terms of the definition of agricultural produce, only such processing should be carried out as is usually done by cultivator producers which does not alter its essential characteristics

but makes it marketable for primary market. Potato chips of tomato ketchup are manufactured through processes which alter the essential characteristic of farm produce (potatoes and tomatoes in this case).

4.4.6 Would operations like shelling of paddy or cleaning of wheat carried out outside the farm be covered in the negative list entry relating to agriculture as sub-clause (iii) of clause (d) of section 66D relating to services by way of processes carried out at an agricultural farm?

The said sub-clause (iii) also includes 'such like operations which do not alter the essential characteristic of agricultural produce'. Therefore, activities like the processes carried out in agricultural farm would also be covered if the same are performed outside the agricultural farm provided such processes do not alter the essential characteristics of agricultural produce but only make it marketable in the primary market. Therefore, cleaning of wheat would be covered in the negative list entry even if the same is done outside the farm. Shelling of paddy would not be covered in the negative list entry relating to agriculture as this process is never done on a farm but in a rice sheller normally located away from the farm.

However, if shelling is done by way of a service i.e. on job work then the same would be covered under the exemption relating to 'carrying out of intermediate production process as job work in relation to agriculture'.

4.4.7 Would agricultural products like cereals, pulses, copra and jaggery be covered in the ambit of 'agricultural produce' since on these products certain amount of processing may be done by a person other than a cultivator or producer?

'Agricultural produce' has been defined in clause (5) of section 65B as 'any produce resulting from cultivation or rearing of plants, animals including all life- forms, on which either no further processing is done or such processing is done as is usually done by the cultivator or producer which does not alter essential characteristics of agricultural produce but make it marketable for primary market'. The processes contemplated in the said definition are those as are 'usually done by the cultivator or producer'

4.4.8 Would the processes of grinding, sterilizing, extraction packaging in retail packs of agricultural products, which make the agricultural products marketable in retail market, be covered in the negative list?

No. Only such processes are covered in the negative list which make agricultural produce marketable in the primary market.

4.4.9 Would leasing of vacant land with a green house or a storage shed meant for agricultural produce be covered in the negative list?

Yes. In terms of the specified services relating to agriculture 'leasing' of vacant land with or without structure incidental to its use' is covered in the negative list. Therefore, if vacant land has a structure like storage shed or a green house built on it which is incidental to its use for agriculture then its lease would be covered under the negative list entry.

4.4.10 What is the meaning of agricultural extension services?

Agricultural extension services have been defined in section 65B of the Act as application of scientific research and knowledge to agricultural practices through farmer education or training.

4.4.11 What are the services referred to in the negative list entry pertaining to Agricultural Produce Marketing Committee or Board?

Agricultural Produce Marketing Committees or Boards are set up under a State Law for purpose of regulating the marketing of agricultural produce. Such marketing committees or boards have been set up in most of the States and provide a variety of support services for facilitating the marketing of agricultural produce by provision of facilities and amenities like, sheds, water, light, electricity, grading facilities etc. They also take measures for prevention of sale or purchase of agricultural produce below the minimum support price. APMCs collect market fees, license fees, rents etc. Services provided by such Agricultural Produce Marketing Committee or Board are covered in the negative list. However any service provided by such bodies which is not directly related to agriculture or agricultural produce will be liable to tax e.g. renting of shops or other property.

4.5 Trading of goods

4.5.1 Would activities of a commission agent or a clearing and forwarding agent who sells goods on behalf of another for a commission be included in trading of goods?

No. The services provided by commission agent or a clearing and forwarding agent are not in the nature of trading of goods. These are auxiliary for trading of goods. In terms of the provision of clause (1) of section 66F reference to a service does not include reference to a service used for providing such service. (For guidance on clause (1) of section 66F please refer to Guidance Note 9) Moreover the title in the goods never passes on to such agents to come within the ambit of trading of goods.

4.5.2 Would forward contracts in commodities be covered under trading of goods?

Yes. Forward contracts would be covered under trading of goods as these are contracts which involve transfer of title in goods on a future date at a pre-determined price.

In commodity futures actual delivery of goods does not normally take place and the purchaser under a futures contract normally offset all obligations or closes out by selling an equal quantity of goods of the same description under another contract for delivery on the same date. These are in the nature of derivatives which have been dealt with in point no. 4.14.9.

4.5.4 Would auxiliary services relating to future contracts or commodity futures be covered in the negative list entry relating to trading of goods?

No. Such services provided by commodity exchanges clearing houses or agents would not be covered in the negative list entry relating to trading of goods.

alcoholic liquors for human consumption, opium, Indian hemp and other narcotic drugs and narcotics on which duties of excise are leviable under any State Act. This entry, therefore, covers manufacturing activity carried out on contract or job work basis, which does not involve transfer of title in goods, provided duties of excise are leviable on such processes under the Central Excise Act, 1944 or any of the State Acts.

4.6.1 Would service tax be leviable on processes which do not amount to manufacture or production of goods?

Yes. Service tax would be levied on processes, unless otherwise specified in the negative list, not amounting to manufacture or production of goods carried out by a person for another for consideration. Some of such services relating to processes not amounting to manufacture are exempt as specified in entry no. 30 of Exhibit A3.

4.6.2 Would service tax be leviable on processes on which Central Excise Duty is leviable under the Central Excise Act, 1944 but are otherwise exempted?

No. If Central Excise duty is leviable on a particular process, as the same amounts to manufacture, then such process would be covered in the negative list even if there is a central excise duty exemption for such process. However if central excise duty is wrongly paid on a certain process which does not amount to manufacture, with or without an intended benefit, it will not save the process on this ground.

4.7 Selling of space or time slots for advertisements other than advertisements broadcast by radio or television

4.7.3 In case a person provides a composite service of providing space for advertisement that is covered in the negative list entry coupled with taxable service relating to design and preparation of the advertisement how will its taxability be determined?

This would be a case of bundled services taxability of which has to be determined in terms of the principles laid down in section 66F of the Act.

Bundled services have been defined in the said section as provision of one type of service with another type or types of services.

If such services are bundled in the ordinary course of business then the bundle of services will be treated as consisting entirely of such service which determines the dominant nature of such a bundle.

If such services are not bundled in the ordinary course of business then the bundle of services will be treated as consisting entirely of such service which attracts the highest liability of service tax.

For guidance on how to determine whether or not a combination of services is bundled in the ordinary course of business please refer to **Guidance Note 9 of this Guide**.

No. These services are in the nature of services used for providing the negative list services of betting or gambling. As per the principle laid down in sub section (1) of section 66F of the Act the reference to a service by nature or description in the Act will not include reference to a service used for providing such service.

It means that only such educational services are in the negative list as are related to delivery of education as 'a part' of the curriculum that has been prescribed for obtaining a qualification prescribed by law. It is important to understand that to be in the negative list the service should be delivered as part of curriculum. Conduct of degree courses by colleges, universities or institutions which lead grant of qualifications recognized by law would be covered. Training given by private coaching institutes would not be covered as such training does not lead to grant of a recognized qualification.

4.12.2 What are the courses which would qualify as an approved vocational education courses?

Approved vocational education courses have been specified in section 65B of the Act. These are –

Therefore the bundle of services will be treated as consisting entirely of such service which determines the dominant nature of such a bundle. In this case since dominant nature is determined by the service of education other dominant service of providing residential dwelling is also covered in a separate entry of the negative list, the entire bundle would be treated as a negative list service.

4.12.5 Are services provided to educational institutions also covered in this entry?

No. Such services are not covered under the negative list entry. However certain services provided to or by educational institutions are separately exempted under the mega-notification. These are services provided to or by an educational institution in respect of education exempted from service tax, by way of,-

- (a) auxiliary educational services; or
- (b) renting of immovable property

4.12.6 What are auxiliary educational services?

'Auxiliary educational services' are defined in the mega notification. In term of the definition, the following activities are auxiliary educational services:

4.12.10 If a course in a college leads to dual qualification only one of which is recognized by law would the service provided by the college by way of such education be covered in this entry?

Provision of dual qualifications is in the nature of two separate services as the curriculum and fees for each of such qualifications are prescribed separately. Service in respect of each qualification would, therefore, be assessed separately. If an artificial bundle of service is created by clubbing two courses together, only one of which leads to a qualification recognized by law, then by application of the rule of determination of taxability of a service which is not bundled in the ordinary course of business contained in section 66F of the Act it is liable to be treated as a course which attracts the highest liability of service tax. However incidental auxiliary courses provided by way of hobby classes or extra-curricular activities in furtherance of overall well being will be an example of naturally bundled course. One relevant consideration in such cases will be the amount of extra billing being done for the unrecognized component viz-a-viz the recognized course. (For guidance on 'bundled services' please refer to **Guidance Note 9**).

4.13.1 What is a 'residential dwelling'?

The phrase 'residential dwelling' has not been defined in the Act. It has therefore to be interpreted in terms of the normal trade parlance as per which it is any residential accommodation, but does not include hotel, motel, inn, guest house, camp-site, lodge, house boat, or like places meant for temporary stay.

4.13.2 Would renting of a residential dwelling which is for use partly as a residence and partly for non residential purpose like an office of a lawyer or the clinic of a doctor be covered under this entry?

This would also be a case of bundled services as renting service is being provided both for residential use and for non residential use. Taxability of such bundled services has to be determined in terms of the principles laid down in section 66F of the Act. (Please refer to Guidance Note 9).

4.13.3 Would the nature of renting transactions explained in column 1 of the table below be covered in this negative list entry?

1	2
If.....	Then.....
(i) a residential house taken on rent is used only or predominantly for commercial or non-residential use.	the renting transaction is not covered in this negative list entry.
(ii) if a house is given on rent and the same is used as a hotel or a lodge	the renting transaction is not covered in this negative list entry because the person taking it on rent is using it for a commercial purpose.
(iii) rooms in a hotel or a lodge are let out whether or not for temporary stay	the renting transaction is not covered in this negative list entry because a hotel or a lodge is not a residential dwelling.
(iv) government department allots houses to its employees and charges a license fee	such service would be covered in the negative list entry relating to services provided by government and hence non- taxable.
(v) furnished flats given on rent for temporary stay (a few days)	such renting as residential dwelling for the bonafide use of a person or his family for a reasonable period shall be residential use; but if the same is given for a short stay for different persons over a period of time the same would be liable to tax.

4.14 Financial sector

4.14.1 What is the manner of dealing with various services provided by banks and other financial institutions?

Banks and financial institutions provide a bouquet of financial services relating to lending or borrowing of money or investments in money. For such services invariably a variety of instruments, often complex in nature, are used in the financial markets. Transactions in such instruments have to be examined on the touchstone of definition of 'service' given in clause (44) of section 65B and the list of services specified in the negative list to see whether such transactions would be chargeable to service tax. Broadly, the following legal provisions would have a bearing on determining the taxability of such transactions.

The definition of 'service' excludes activities that constitute only transactions in money or actionable claims. 'Money' has been defined in clause (33) of section 65B to include instruments like cheques, drafts, pay orders, promissory notes, letters of credit etc. Therefore activities that are only transactions in such instruments would be outside the definition of service. This would include transactions in Commercial Paper ('CP') and Certificate of Deposit ('CD') (on the understanding of being in the nature of promissory notes), issuance of drafts or letters of credit etc.

Explanation 2 to clause (44) of section 65B has to be kept in mind which clarifies that transaction in money does not include any activity in relation to money by way of its use or conversion by cash or by any other mode, from one form, currency or denomination to another form, currency or denomination for which a separate consideration is charged. The implications of this explanation are that while mere transactions in money are outside the ambit of service, any activity related to a transaction in money by way of its use or conversion by cash or by any other mode, from one form, currency or denomination to another form, currency or denomination would not be treated as a transaction in money if a separate consideration is charged for such an activity. While the transaction in money, per-se, would be outside the ambit of service the related activity, for which a separate consideration is charged, would not be treated as a transaction of money and would be chargeable to service tax if other elements of taxability are present therefore service tax would be levied on service charges normally charged for various transactions in money including charges for making drafts, letter of credit issuance charges, service charges relating to issuance of CDs/CPs etc.

Activities that constitute only transactions in 'goods' are also excluded from the definition of service. 'Goods' have been defined in clause (25) of section 65 B to include 'securities'. Definition of 'securities include 'derivatives'. These two instruments have been discussed in detail in point no. 2.6.6 to 2.6.8. Transactions in instruments like interest rate swaps and foreign exchange swaps would be excluded from the definition of 'service' as such instruments are derivatives, being securities, based on contracts of difference. Since only transfer of title in securities is excluded from the definition of 'service' any attendant service charges or fees would be chargeable to service tax.

Further services by way of extending deposits, loans or advances in so far as the consideration is represented by way of interest or discount. This has been explained in point nos. 14.2 to 14.4 below.

4.14.2 What are the “services by way of extending deposits, loans or advances in so far as the consideration is represented by way of interest or discount”?

The negative list entry covers any such service wherein moneys due are allowed to be used or retained on payment of interest or on a discount. The words used are ‘deposits, loans or advances and have to be taken in the generic sense. They would cover any facility by which an amount of money is lent or allowed to be used or retained on payment of what is commonly called the time value of money which could be in the form of an interest or a discount. This entry would not cover investments by way of equity or any other manner where the investor is entitled to a share of profit.

Illustrations of such services are -

Fixed deposits or saving deposits or any other such deposits in a bank or a financial institution for which return is received by way of interest.

Providing a loan or overdraft facility or a credit limit facility in consideration for payment of interest.

Mortgages or loans with a collateral security to the extent that the consideration for advancing such loans or advances are represented by way of interest.

Corporate deposits to the extent that the consideration for advancing such loans or advances are represented by way of interest or discount.

4.14.3 If any service charges or administrative charges or entry charges are recovered in addition to interest on a loan, advance or a deposit would such charges be also a part of this negative list entry?

No. The services of loans, advances or deposits are exempt in so far as the consideration is represented by way of interest or discount. Any charges or amounts collected over and above the interest or discount amounts would represent taxable consideration.

4.14.4 To what extent is invoice discounting or cheque discounting or any other similar form of discounting covered in the negative list entry?

Such discounting is covered only to the extent consideration is represented by way of discount as such discounting is nothing else but a manner of extending a credit facility or a loan.

4.14.5 Would services provided by banks or authorized dealers of foreign exchange by way of sale of foreign exchange to general public be covered in this entry?

No. This entry only covers sale and purchase of foreign exchange between banks or authorized dealers of foreign exchange or between banks and such dealers

4.14.6 Would transactions entered into by banks in instruments like repos and reverse repos be covered in this negative list entry?

Section 45U(c) of the RBI Act, 1934 defines 'repos' as an instrument for borrowing funds by selling securities with an agreement to repurchase the securities on a mutually agreed future date at an agreed price which includes interest for the funds borrowed'.

Section 45U (d) of the RBI Act, 1934 defines 'reverse repos' as an instrument for lending funds by buying securities with an agreement to resell the securities on a mutually agreed future date at an agreed price which includes interest for the funds lent'.

Repos and reverse repos are financial instruments of short term call money market that are normally used by banks to borrow from or lend money to RBI. The margins, called the repo rate or reverse repo rate in such transactions are nothing but interest charged for lending or borrowing of money. Thus they have the characteristics of loans and deposits for interest. However they are more appropriately excluded from the definition of service itself being the sale and purchase of securities, which are goods.

4.14.7 Would subscription to or trading in Commercial Paper (CP) or Certificates of Deposit (CD) be taxable?

Commercial Paper ('CP') and Certificate of Deposit ('CD') are understood as unsecured money market instruments which may be issued in the form of a promissory note or in a dematerialized form through any of the depositories approved by and registered with SEBI. CPs are normally issued by highly rated companies, primary dealers and financial institutions at a discount to the face value. CDs can be issued by Scheduled Commercial Banks (excluding RRBs and Local Area Banks) and All - India Financial Institutions (FIs) permitted by RBI.

Since these are instruments for lending or borrowing money where in consideration is represented by way of a discount issue or subscription to CPs or CDs would be covered in the negative list entry relating to 'services by way of extending deposits, loans or advances in so far as consideration is represented by way of interest or discount'. It may also be borne in mind that promissory note is included in the definition of money in the Act as given in clause (33) of section 65B.

However if some service charges or service fees or documentation fees or broking charges or such like fees or charges are charged, the same would be considerations for provision of service and chargeable to service tax.

4.14.8 Would forward contracts in commodities or currencies be within the ambit of definition of 'service'?

A forward contract is an agreement, executed, to purchase or sell a pre-determined amount of a commodity or currency at a pre-determined future date at a pre-determined price. The settlement could be by way of actual delivery of underlying commodity/currency or by way of net settlement of differential of the forward rate over the prevailing market rate on the settlement date.

In a forward contract effectively two contracts are entered into, one for purchase and other for sale at a future date at a pre-determined price. These contracts would be in the nature of

transfer in title in goods (in case the forward contract relates to a commodity) or transaction only money (in case the forward contract relates to transaction and money). Therefore, forward contracts in commodities or currencies would not fall in the ambit of definition of 'service'. For transactions in money Explanation 2 to clause (44) of section 65B should also be kept in mind.

However if some service charges or service fees or documentation fees or broking charges or such like fees or charges are charged, the same would be considerations for provision of service and chargeable to service tax.

4.14.9 Would 'future contracts' be chargeable to Service tax?

Future contracts are in the nature of financial derivatives price of which is depended on the value of underlying stocks or index of stocks or certain approved currencies and the settlement happens normally by way of net settlement with no actual delivery.

Since future contracts are in the nature of contracts of difference based on the prices of underlying stocks or index of stocks or approved currencies, they would be outside to the ambit of definition of 'service' as being transactions only in transfer of title in derivatives. For details please refer to point no. 2.6.8.

4.14.10 Would charges for late payment of dues on credit card outstandings be chargeable to service tax?

In case of a credit card, issuing entity allows the facility of payment of the purchases made by the card holder within a specified period failing which some charges are levied. The question that arises is whether the credit so extended for this payment is in the nature of a loan or advance for interest.

Interest for delayed payment of any consideration for the sale of goods or provision of service has been specifically excluded from value by rule 6 of valuation rules. Thus ordinarily any interest charged for delayed payment of consideration would have been outside the gambit of service tax. However in the case of credit cards the credit extended is not for the delayed payment of consideration for the provision of services. The services in the case of the credit card are by way of levy of issuing charges or the commission charged from merchants etc. The interest in this case is not for the consideration for the use of the card. Thus the benefit under the valuation rules will not be available to credit card companies.

The other question is whether such credit extended will amount to loans or advances. Loans and advances are meant to signify amounts contractually negotiated as such (loan or advance) and not merely failure to pay an amount at the due date. The exorbitant charges have also no relationship with the prevailing interest for the same class of creditworthiness and are in the nature of consideration for the services rendered for using the convenience of using the services by way of a credit card and hence taxable.

4.15 Services relating to transportation of passengers

The following services relating to transportation of passengers, with or without accompanied belongings, have been specified in the negative list.

Services by:

- a stage carriage;
- railways in a class other than (i) first class; or (ii) an AC coach;
- metro, monorail or tramway;
- inland waterways;
- public transport, other than predominantly for tourism purpose, in a vessel, between places located in India; and
- metered cabs, radio taxis or auto rickshaws.

Following terms have also been defined in section 65B of the Act –

- stage carriage
- inland waterways
- metered cab

4.15.1 Are services by way of giving on hire of motor vehicles to state transport undertakings covered in this negative list entry?

No. However such services provided by way of hire of a motor vehicle meant to carry more than 12 passengers to a State transport undertaking is exempt (refer entry no. 22 of Exhibit A3).

4.15.2 In some cases contract carriages get permission or temporary permits to ply as stage carriages. Would such services be taxable?

Specific exemption is available to services of transport passengers by a contract carriage for transportation of passengers, excluding tourism, conducted tours, charter or hire. (Refer entry No. 23 of Exhibit A3).

4.15.3 Are national waterways covered in the definition of inland waterways?

Yes.

4.15.4 Would services by way of transportation of passengers on a vessel, from say Chennai to Port Blair (mainland – island) or Port Blair to Havelock (inter island), be covered in the negative list entry?

Yes in case the transportation is not predominantly for tourism purpose. Such transportation by a vessel (of any size) is covered in negative list since such transportation is between two places located in India.

4.15.5 What is the scope of the phrase ‘predominantly for tourism purpose’ which qualifies the negative list entry relating to public transportation of passengers by a vessel in sub-clause (v) of clause (o) of section 66D?

The words ‘other than predominantly for tourism purpose’ qualify the preceding words “public transport”. This implies that the public transport by a vessel should not be predominantly for

tourism purposes. Normal public ships or other vessels that sail between places located in India would be covered in the negative list entry even if some of the passengers on board are using the service for tourism as predominantly such service is not for tourism purpose. However services provided by leisure or charter vessels or a cruise ship, predominant purpose of which is tourism, would not be covered in the negative list even if some of the passengers in such vessels are not tourists.

4.16 Service relating to transportation of goods

The following services provided in relation to transportation of goods are specified in the negative list of services:-

- by road except the services of (i) a goods transportation agency; or (ii) a courier agency
- by aircraft or vessel from a place outside India up to the customs station of clearance in India; or
- by inland waterways.

4.16.1 Are all services provided by goods transport agency excluded from the negative list?

Yes. However, there are separate exemptions available to the services provided by the goods transport agency. These are services by way of transportation of –

- fruits, vegetables, eggs, milk, food grains or pulses in a goods carriage;
- goods where gross amount charged on a consignment transported in a single goods carriage does not exceed one thousand five hundred rupees; or
- goods where gross amount charged for transportation of all such goods for a single consignee in the goods carriage does not exceed rupees seven hundred fifty.

4.16.2 Are goods transport agencies liable to pay tax in all cases or are provisions relating to reverse charge also applicable after introduction of negative list?

The provisions relating to reverse charge, i.e. service tax is liable to be paid by the consigner or consignee in specified cases, are applicable even after the introduction of negative list.

4.16.3 Some transporters under-take door-to-door transportation of goods or articles and they have made special arrangements for speedy transportation and timely delivery of such goods or articles. Such services are known as 'Express Cargo Service' with assurance of timely delivery. Whether such 'Express cargo service' is excluded as courier agency service under this negative list entry?

"Courier" has been defined in section 65B as any person engaged in door-to-door delivery of time sensitive documents, goods or articles utilizing the services of a person, either directly or indirectly, to carry or accompany such documents, goods or articles. The nature of service provided by 'Express Cargo Service' falls within the scope and definition of the courier agency.

Hence, the said service is excluded from the negative list entry relating to transportation of goods by road.

4.16.4 Whether services provided by 'angadia' are liable to service tax as a courier service?

'Angadia' undertakes delivery of documents, goods or articles received from a customer to another person for a consideration. Therefore, 'angadias' are covered within the definition of a 'courier' and services provided by angadia are liable to service tax.

4.16.5 Are the following services of transportation of goods covered in the negative list entry?

Nature of service relating to transportation of goods	Whether covered in the negative list entry?
By railways	No
By air within the country or abroad	No
By a vessel in the coastal waters	No
By a vessel on a national waterway	Yes
Services provided by a GTA	No

4.16.6 Are services provided as agents for inland waterways covered by this entry?

No. these are in the nature of services used for providing the negative list entry service of transport of goods on inland waterways and would not be covered by application of the rule for interpretation where services are specified by way of description contained in clause (1) of section 66F of the Act. (for guidance on this rule please refer to **Guidance Note 9**)

4.16.7 If transportation of goods takes place from Delhi to Jammu by road then how would the taxability of such transportation be determined considering that Jammu is located in at a place outside taxable territory?

Please refer to Guidance note 5 relating to **Place of Provision of Services**.

4.17 Funeral, burial, crematorium or mortuary services including transportation of the deceased

This negative list entry is self-explanatory.

Guidance Note 5

Place of Provision of Services Rules, 2012

5.1 Introduction

5.1.1 What is the relevance of the 'Place of Provision of Services Rules, 2012'?

The 'Place of Provision of Services Rules, 2012' specify the manner to determine the taxing jurisdiction for a service. Hitherto, the task of identifying the taxing jurisdiction was largely limited in the context of import or export of services. For this purpose rules were formulated which handled the subject of place of provision of services somewhat indirectly, confining to define the circumstances in which a provision of service would constitute import or export.

The new rules will, on the other hand, determine the place where a service shall be deemed to be provided, in terms of section 66C of the Finance Act, 2012, read with section 94 (hhh) of Chapter V of the Finance Act, 1994. Under Section 66B, a service is taxable only when, *inter alia*, it is "provided (or agreed to be provided) in the taxable territory". Thus, the taxability of a service will be determined based on the "**place of its provision**". The 'Place of Provision of Services Rules, 2012' will replace the 'Export of Services, Rules, 2005' and 'Taxation of Services (Provided from outside India and received in India) Rules, 2006.

5.1.2 For whom are these rules meant?

These rules are primarily meant for persons who deal in cross-border services. They will also be equally applicable for those who have operations with suppliers or customers in the state of Jammu and Kashmir.

Additionally service providers operating within India from multiple locations, without having centralized registration will find them useful in determining the precise taxable jurisdiction applicable to their operations. The rules will be equally relevant for determining services that are wholly consumed within a SEZ, to avail the outright exemption.

5.1.3 What is the basic philosophy of these rules?

The essence of indirect taxation is that a service should be taxed in the jurisdiction of its consumption. This principle is more or less universally applied. In terms of this principle, exports are not charged to tax, as the consumption is elsewhere, and services are taxed on their importation into the taxable territory.

However, this determination is not easy. Services could be provided by a person located at one location, actually performed at another while being delivered to a person located at a third location, and occasionally actually consumed at a third location or over a larger geographical territory, falling in more than one taxable jurisdiction. For example a person located in Mumbai may buy a ticket on internet from a service provider located outside India for a journey from Delhi to London. On other occasions the exact location of service recipient itself may not be available e.g. services supplied electronically. As a result it is necessary to lay down rules determining the exact place of provision, while ensuring a certain level of

harmonization with international practices in order to avoid both the double taxation as well as double non-taxation of services.

It is also a common practice to largely tax services provided by business to other business entities, based on the location of the customers and other services from business to consumers based on the location of the service provider. Since the determination in terms of above principle is not easy, or sometimes not practicable, nearest proxies are adopted to provide specificity in the interpretation as well as application of the law.

5.2 Basic Framework

5.2.1 How will a person determine the taxability of a service in terms of these rules?

As stated earlier, in terms of section 66B, a service is taxable only when, inter alia, it is "provided (or agreed to be provided) in the taxable territory". Thus, the taxability of a service will be determined based on the place of its provision. For determining the taxability of a service, therefore, one needs to ask the following questions sequentially:-

1. Which rule applies to the service provided specifically? In case more than one rules apply equally, which of these come later in the order given in the rules?
2. What is the place of provision of the service in terms of the above rule?
3. Is the place of provision in taxable territory? If yes, tax will be payable. If not, tax will not be payable.
4. Is the provider 'located' in the taxable territory? If yes, he will pay the tax.
5. If not, is the service receiver located in taxable territory? If yes, he may be liable to pay tax on reverse charge basis.
6. Is the service receiver an individual or government receiving services for a non-business purpose, or a charity receiving services for a charitable activity? If yes, the same is exempted.
7. If not, he is liable to pay tax.

5.2.2 What is "taxable territory"? What is its significance?

Taxable territory has been defined in sub-section 52 of section 65B. It means the territory to which the provisions of Chapter V of the Finance Act, 1994 apply i.e. whole of India excluding the state of Jammu and Kashmir. "Non-taxable territory" is defined in sub-section 35 ibid accordingly as the territory other than the taxable territory.

"India" is defined in sub-section 27 of section 65 B, as follows:

"India" means—

- (a) the territory of the Union of India as referred to in clauses (2) and (3) of article 1 of the Constitution;

- (b) its territorial waters, continental shelf, exclusive economic zone or any other maritime zone as defined in the Territorial Waters, Continental Shelf, Exclusive Economic Zone and Other Maritime Zones Act, 1976;
- (c) the sea-bed and the subsoil underlying the territorial waters;
- (d) the air space above its territory and territorial waters; and
- (e) the installations structures and vessels located in the continental shelf of India and the exclusive economic zone of India, for the purposes of prospecting or extraction or production of mineral oil and natural gas and supply thereof;

The new charging section, section 66B, enables taxation of only such services as are provided in taxable territory. Thus services that are provided in a non-taxable territory are not chargeable to service tax.

5.2.3 What is the significance of "Location" of a Service Provider or Receiver for determining taxing jurisdiction?

In terms of explanation (2) to sub-section 44 of section 65B, an establishment of a person outside the taxable territory is a person distinct from an establishment in a taxable territory. Thus, services provided from overseas are to be carefully judged whether they are being rendered by the establishment outside the taxable territory or within.

Similarly, from the taxpayer's perspective the jurisdiction of the field formation, which is relevant for compliance with registration formalities, filing of returns, refund claims etc. by the person liable to pay tax (provider or receiver as the case may be), will be the "location" as determined in terms of these rules.

5.2.4 How will such "location" be determined?

The location of a service provider or receiver (as the case may be) is to be determined by applying the following steps sequentially:

- A. where the service provider or receiver has obtained only one registration, whether centralized or otherwise, the premises for which such registration has been obtained;
- B. where the service provider or receiver is not covered by A above:
 - i. the location of his business establishment; or
 - ii. where services are provided or received at a place other than the business establishment i.e. a fixed establishment elsewhere, the location of such establishment;
 - iii. where services are provided or received at more than one establishment, whether business or fixed, the establishment most directly concerned with the provision or use of the service; and
 - iv. in the absence of such places, the usual place of residence of the service provider or receiver.

It is important to note that in the case of a service receiver, the place relevant for determining location is the place where the service is “used” or “consumed”.

Flow Diagram F1 at the end of this section illustrates the manner of determination of location.

5.2.5 What is the meaning of “business establishment”?

‘Business establishment’ is the place where the essential decisions concerning the general management of the business are adopted, and where the functions of its central administration are carried out. This could be the head office, or a factory, or a workshop, or shop/ retail outlet. Most significantly, there is only one business establishment that a service provider or receiver can have.

5.2.6 What is the meaning of a “fixed establishment”?

A “fixed establishment” is a place (other than the business establishment) which is characterized by a sufficient degree of permanence and suitable structure in terms of human and technical resources to provide the services that are to be supplied by it, or to enable it to receive and use the services supplied to it for its own needs.

Temporary presence of staff by way of a short visit at a place cannot be called a fixed establishment. Also, the number of staff at a location is not important. What is relevant is the adequacy of the arrangement (of human and technical resources), to carry out an activity for a consideration, or to receive and use a service supplied. Similarly, it will be important to evaluate the permanence of the arrangement i.e. whether it is capable of executing the task.

For further guidance on when a fixed establishment of a service receiver would be treated as “location”, please see para 5.3.4.

5.2.7 How will the establishment “most directly concerned with the supply” be determined?

This will depend on the facts and supporting documentation, specific to each case. The documentation will include the following:-

- the contract(s) between the service provider and receiver;

- where there are no written contracts, any written account (documents, correspondence/e-mail etc) between parties which sets out in detail their understanding of the oral contract;

- in particular, for suppliers, from which establishment the services are actually provided;

- in particular, for receivers, at which establishment the services are actually consumed, effectively used or enjoyed;

- details of how the business fits into any larger corporate structure;

- the establishment whose staff is actually involved in the execution of the job;

performance agreements (which may be indicative both of the substance and actual nature of work performed at a particular establishment);

Thus , normally in the case of multiple establishments of a person, it will be the establishment that actually provides, or receives (i. e. uses or consumes), a service that would be treated as 'directly concerned' with the provision of service, notwithstanding the contractual position, or invoicing or payment. For further guidance in this regard, please see section 5.3.4.

Illustration 1

A business has its headquarters in India, and branches in London, Dubai, Singapore and New York. Its business establishment is in India.

Illustration 2

An overseas business house sets up offices with staff in India to provide services to Indian customers. Its fixed establishment is in India.

Illustration 3

A company with a business establishment abroad buys a property in India which it leases to a tenant. The property by itself does not create a fixed establishment. If the company sets up an office in India to carry on its business by managing the property, this will create a fixed establishment in India.

Illustration 4

A company is incorporated in India, but provides its services entirely from Singapore. The location of this service provider is Singapore, being the place where the establishment most directly concerned with the supply is located.

5.2.8 What does "usual place of residence" mean?

The usual place of residence, in case of a body corporate, has been specified as the place where it is incorporated or otherwise legally constituted.

The usual place of residence of an individual is the place (country, state etc) where the individual spends most of his time for the period in question. It is likely to be the place where the individual has set up his home, or where he lives with his family or is in full time employment. Individuals are not treated as belonging in a country if they are short term, transitory visitors (for example if they are visiting as tourists, or to receive medical treatment or for a short term educational course). An individual cannot have more than one usual place of residence.

In addition, in the case of telecommunication services, it has been prescribed that the usual place of residence of the receiver shall be the billing address. This in effect means the address that is available in the records of the service provider for billing the receiver of the

telecommunication service. This provision will be applicable to individual customers (generally referred to as subscribers) of a telecommunication service, who are provided a subscriber identification module (commonly referred to as SIM card, which may be post-paid or pre-paid) and a unique identification number (10-digit or 8-digit, as the case may be) by the service provider.

5.3 Main Rule- Rule 3- Location of the Receiver

5.3.1 What is the implication of this Rule?

The main rule or the default rule provides that a service shall be deemed to be provided where the receiver is located.

The main rule is applied when none of the other later rules apply (by virtue of rule 14 governing the order of application of rules- see para 5.14 of this guidance paper). In other words, if a service is not covered by an exception under one of the later rules, and is consequently covered under this default rule, then the receiver’s location will determine whether the service is leviable to tax in the taxable territory.

The principal effect of the Main Rule is that:-

- A. Where the location of receiver of a service is in the taxable territory, such service will be deemed to be provided in the taxable territory and service tax will be payable.
- B. However if the receiver is located outside the taxable territory, no service tax will be payable on the said service.

5.3.2 If the place of provision of a taxable service is the location of service receiver, who is the person liable to pay tax on the transaction?

Service tax is normally required to be paid by the provider of a service, except where he is located outside the taxable territory and the place of provision of service is in the taxable territory.

Where the provider of a service is located outside the taxable territory, the person liable to pay service tax is the receiver of the service in the taxable territory, unless of course, the service is otherwise exempted.

Following illustration will make this clear:-

A company ABC provides a service to a receiver PQR, both located in the taxable territory. Since the location of the receiver is in the taxable territory, the service is taxable. Service tax liability will be discharged by ABC, being the service provider and being located in taxable territory.

However, if ABC were to supply the same service to a recipient DEF located in non-taxable territory, the provision of such service is not taxable, since the receiver is located outside the taxable territory.

If the same service were to be provided to PQR (located in taxable territory) by an overseas provider XYZ (located in non-taxable territory), the service would be taxable, since the recipient is located in the taxable territory. However, since the service provider is located in a non-taxable territory, the tax liability would be discharged by the receiver, under the reverse charge principle (also referred to as "tax shift").

5.3.3 Who is the service receiver?

Normally, the person who is legally entitled to receive a service and, therefore, obliged to make payment, is the receiver of a service, whether or not he actually makes the payment or someone else makes the payment on his behalf.

Illustration

A lady leaves her car at a service station for the purpose of servicing. She asks her chauffeur to collect the car from the service station later in the day, after the servicing is over. The chauffeur makes the payment on behalf of the lady owner and collects the car. Here the lady is the 'person obliged to make the payment' towards servicing charges, and therefore, she is the receiver of the service.

5.3.4 What would be the situation where the payment for a service is made at one location (say by the headquarters of a business) but the actual rendering of the service is elsewhere (i.e. a fixed establishment)?

Occasionally, a person may be the person liable to make payment for the service provided on his behalf to another person. For instance, the provision of a service may be negotiated at the headquarters of an entity by way of centralized sourcing of services whereas the actual provision is made at various locations in different taxing jurisdictions (in the case of what is commonly referred to as a multi-locational entity or MLE). Here, the central office may act only as a facilitator to negotiate the contract on behalf of various geographical establishments. Each of the geographical establishments receives the service and is obligated to make the payment either through headquarters or sometimes directly. When the payment is made directly, there is no confusion. In other situations, where the payment is settled either by cash or through debit and credit note between the business and fixed establishments, it is clear that the payment is being made by a geographical location. Wherever a fixed establishment bears the cost of acquiring, or using or consuming a service through any internal arrangement (normally referred to as a "recharge", "reallocation", or a "settlement"), these are generally made in accordance with corporate tax or other statutory requirements. These accounting arrangements also invariably aid the MLE's management in budgeting and financial performance measurement.

Various accounting and business management systems are generally employed to manage, monitor and document the entire purchasing cycle of goods and services (such as the ERP-Enterprise Resource Planning System). These systems support and document the company processes, including the financial and accounting process, and purchasing process. Normally, these systems will provide the required information and audit trail to identify the establishment that uses or consumes a service.

It should be noted that in terms of proviso to section 66B, the establishments in a taxable and non-taxable territory are to be treated as distinct persons. Moreover, the definition of "location of the receiver" clearly states that "where the services are "used" at more than one establishment, whether business or fixed, the establishment most directly concerned with the use of the service" will be the location. Thus, the taxing jurisdiction of service, which is provided under a 'global framework agreement' between two multinational companies with the business establishment located outside the taxable territory, but which is used or consumed by a fixed establishment located in the taxable territory, will be the taxable territory.

Illustration

The following example illustrates the above, by comparing the place of provision of services rendered under a Global Agreement¹ vis-à-vis a Global Framework Agreement².

AAA is a firm with its manufacturing unit and business establishment located in the taxable territory A. It has got two other manufacturing plants located in countries X and Y (say, AAA-X and AAA-Y respectively). AAA wishes to obtain IT services for a new production process for its three manufacturing plants in the region.

BBB is an IT firm located in the taxable territory (location of business establishment). BBB Ltd also has fixed establishments (subsidiaries) located in country X (say BBB-X) and in country Y (say, BBB- Y).

AAA engages BBB for meeting its IT service requirement.

Scenario 1 [See Flow Diagram F 2 at the end of this section]

AAA enters into a **Global (centralized purchasing) agreement** with BBB for provision of IT services for the whole group. Following are the different transactions under which services are provided:-

- a) Under the global agreement, some component of IT service is provided by BBB to AAA in country A (say, Transaction 1).
- b) To meet the requirements of providing IT solutions specific to the plants AAA-X and AAA-Y in countries X and Y, BBB enters into agreements with its subsidiaries BBB-X (in country X) and BBB-Y (in country Y), under which they provide IT services to

¹A 'Global Contract or Agreement' is between two parent companies for provision of services from one to the other, where actual provision of services is to be made to subordinate offices of the recipient company in different tax jurisdictions.

²A 'Global Framework Agreement' is between two parent companies for provision of services, but here, the 'framework agreement' only specifies the broad terms of the agreement i.e. fees, terms and conditions, the list of recipient branches/offices or even the details of provision of services to be made. The subsidiaries in different locations then enter into separate and independent business agreements, for provision of services and payments.

BBB (say, Transaction 2 and Transaction 3). Though these services are provided by BBB-X and BBB-Y to BBB, these are rendered as under:-

By BBB-X to AAA-X (in country X)- under transaction 2, and

By BBB-Y to AAA-Y (in country-Y) – under transaction 3.

- c) AAA enters into separate agreements with AAA-X and AAA-Y, under which AAA Ltd provides IT services to them (transaction 4 and transaction 5).

The transactions and provision of service under each are illustrated in the Flow diagram F2 titled 'Scenario1' at the end of this section.

Scenario 2 [See Flow Diagram F 3 at the end of this section]

AAA enters into a **Framework Agreement** with BBB for provision of IT services for the whole group. The Framework agreement covers the broad contours of supply between the two parties, payment milestones, obligations relating to confidentiality, penalty for default, limitations of liability and warranties etc, which would apply as and when group companies enter into separate agreements, in accordance with the terms envisaged in the framework agreement. BBB-X and BBB-Y could then enter into separate and independent business agreements with AAA-X and AAA-Y, in countries X and Y respectively, for provision of IT services. There are four agreements, but only three transactions involving provision of services, as indicated in the Flow diagram F3- Scenario 2 at the end of this section.

5.3.5 What is the place of provision where the location of receiver is not ascertainable in the ordinary course of business?

Generally, in case of a service provided to a person who is in business, the provider of the service will have the location of the recipient's registered location, or his business establishment, or his fixed establishment etc, as the case may be. However, in case of certain services (which are not covered by the exceptions to the main rule), the service provider may not have the location of the service receiver, in the ordinary course of his business. This will also be the case where a service is provided to an individual customer who comes to the premises of the service provider for availing the service and the provider has to, more often than not, rely on the declared location of the customer. In such cases the place of provision will be the location of the service provider. It may be noted that the service provider is not required to make any extraordinary efforts to trace the address of the service receiver. The address should be available in the ordinary course of business.

In case of certain specified categories of services, the place of provision shall be the place where the services are actually performed. These are discussed in the following paragraphs.

5.4 Rule 4- Performance based Services

5.4.1 What are the services that are provided "in respect of goods that are made physically available, by the receiver to the service provider, in order to provide the service"?- sub-rule (1):

Services that are related to goods, and which require such goods to be made available to the service provider or a person acting on behalf of the service provider so that the service can

be rendered, are covered here. The essential characteristic of a service to be covered under this rule is that the goods temporarily come into the physical possession or control of the service provider, and without this happening, the service cannot be rendered. Thus, the service involves movable objects or things that can be touched, felt or possessed. Examples of such services are repair, reconditioning, or any other work on goods (not amounting to manufacture), storage and warehousing, courier service, cargo handling service (loading, unloading, packing or unpacking of cargo), technical testing/inspection/certification/ analysis of goods, dry cleaning etc. It will not cover services where the supply of goods by the receiver is not material to the rendering of the service e.g. where a consultancy report commissioned by a person is given on a pen drive belonging to the customer. Similarly, provision of a market research service to a manufacturing firm for a consumer product (say, a new detergent) will not fall in this category, even if the market research firm is given say, 1000 nos. of 1 kilogram packets of the product by the manufacturer, to carry for door-to-door surveys.

5.4.2 What is the implication of the proviso to sub-rule (1)?

The proviso to this rule states as follows:-

“Provided further that where such services are provided from a remote location by way of electronic means, the place of provision shall be the location where goods are situated at the time of provision of service.”

In the field of information technology, it is not uncommon to provide services in relation to tangible goods located distantly from a remote location. Thus the actual place of performance of the service could be quite different from the actual location of the tangible goods. This proviso requires that the place of provision shall be the actual location of the goods and not the place of performance, which in normal situations is one and the same.

5.4.3 What are the services that are provided “to an individual ... which require the physical presence of the receiver ... with the provider for provision of the service.”?- sub-rule (2)

Certain services like cosmetic or plastic surgery, beauty treatment services, personal security service, health and fitness services, photography service (to individuals), internet café service, classroom teaching, are examples of services that require the presence of the individual receiver for their provision. As would be evident from these examples, the nature of services covered here is such as are rendered in person and in the receiver’s physical presence. Though these are generally rendered at the service provider’s premises (at a cosmetic or plastic surgery clinic, or beauty parlor, or health and fitness centre, or internet café), they could also be provided at the customer’s premises, or occasionally while the receiver is on the move (say, a personal security service; or a beauty treatment on board an aircraft).

5.4.4 What is the significance of “..in the physical presence of an individual, whether represented either as the service receiver or a person acting on behalf of the receiver” in this rule?

This implies that while a service in this category is capable of being rendered only in the presence of an individual, it will not matter if, in terms of the contractual arrangement between the provider and the receiver (formal or informal, written or oral), the service is actually rendered by the provider to a person other than the receiver, who is acting on behalf of the receiver.

Illustration

A modelling agency contracts with a beauty parlour for beauty treatment of say, 20 models. Here again is a situation where the modelling agency is the receiver of the service, but the service is rendered to the models, who are receiving the beauty treatment service on behalf of the modelling agency. Hence, notwithstanding that the modelling agency does not qualify as the individual receiver in whose presence the service is rendered, the nature of the service is such as can be rendered only to an individual, thereby qualifying to be covered under this rule.

5.5 Rule 5- Location of Immovable Property

In the case of a service that is 'directly in relation to immovable property', the place of provision is where the immovable property (land or building) is located, irrespective of where the provider or receiver is located.

5.5.1 What is "immovable property"?

"Immovable Property" has not been defined in the Finance Act, 1994. However, in terms of section 4 of the General Clauses Act, 1897, the definition of immovable property provided in sub-section 3 (26) of the General Clauses Act will apply, which states as under:

"Immovable Property" shall include land, benefits to arise out of land, and things attached to the earth, or permanently fastened to anything attached to the earth."

It may be noted that the definition is inclusive and thus properties such as buildings and fixed structures on land would be covered by the definition of immovable property. The property must be attached to some part of earth even if underwater.

5.5.2 What are the criteria to determine if a service is 'directly in relation to' immovable property located in taxable territory?

Generally, the following criteria will be used to determine if a service is in respect of immovable property located in the taxable territory:

- i) The service consists of lease, or a right of use, occupation, enjoyment or exploitation of an immovable property;
- ii) the service is physically performed or agreed to be performed on an immovable property (e.g. maintenance) or property to come into existence (e.g. construction);
- iii) the direct object of the service is the immovable property in the sense that the service enhances the value of the property, affects the nature of the property, relates to preparing the property for development or redevelopment or the environment within the limits of the property (e.g. engineering, architectural services, surveying and sub-dividing, management services, security services etc);
- iv) the purpose of the service is:

- a) the transfer or conveyance of the property or the proposed transfer or conveyance of the property (e.g., real estate services in relation to the actual or proposed acquisition, lease or rental of property, legal services rendered to the owner or beneficiary or potential owner or beneficiary of property as a result of a will or testament);
- b) the determination of the title to the property.

There must be more than a mere indirect or incidental connection between a service provided in relation to an immovable property, and the underlying immovable property. For example, a legal firm's general opinion with respect to the capital gains tax liability arising from the sale of a commercial property in India is basically advice on taxation legislation in general even though it relates to the subject of an immovable property. This will not be treated as a service in respect of the immovable property.

5.5.3 Examples of land-related services

- i) Services supplied in the course of construction, reconstruction, alteration, demolition, repair or maintenance (including painting and decorating) of any building or civil engineering work;
- ii) Renting of immovable property;
- iii) Services of real estate agents, auctioneers, architects, engineers and similar experts or professional people, relating to land, buildings or civil engineering works. This includes the management, survey or valuation of property by a solicitor, surveyor or loss adjuster.
- iv) Services connected with oil/gas/mineral exploration or exploitation relating to specific sites of land or the seabed.
- v) The surveying (such as seismic, geological or geomagnetic) of land or seabed.
- vi) Legal services such as dealing with applications for planning permission.
- vii) Packages of property management services which may include rent collection, arranging repairs and the maintenance of financial accounts.
- viii) The supply of hotel accommodation or warehouse space.

5.5.4 What if a service is not directly related to immovable property?

The place of provision of services rule applies only to services which relate directly to specific sites of land or property. In other words, the immovable property must be clearly identifiable to be the one from where, or in respect of which, a service is being provided. Thus, there needs to be a very close link or association between the service and the immovable property. Needless to say, this rule does not apply if a provision of service has only an indirect connection with the immovable property, or if the service is only an incidental component of a more comprehensive supply of services.

For example, the services of an architect contracted to design the landscaping of a particular resort hotel in Goa would be land-related. However, if an interior decorator is engaged by a retail chain to design a common décor for all its stores in India, this service would not be land-related. The default rule i.e. Rule 3 will apply in this case.

5.5.5 Examples of services which are not land-related

- i) Repair and maintenance of machinery which is not permanently installed. This is a service related to goods.
- ii) Advice or information relating to land prices or property markets because they do not relate to specific sites.
- iii) Land or Real Estate Feasibility studies, say in respect of the investment potential of a developing suburb, since this service does not relate to a specific property or site.
- iv) Services of a Tax Return Preparer in simply calculating a tax return from figures provided by a business in respect of rental income from commercial property.
- v) Services of an agent who arranges finance for the purchase of a property.

5.6 Rule 6- Services relating to Events

5.6.1 What is the place of provision of services relating to events?

Place of provision of services provided by way of admission to, or organization of a cultural, artistic, sporting, scientific, educational, entertainment event, or a celebration, conference, fair, exhibition, or any other similar event and of services ancillary to such admission, shall be the place where the event is held.

5.6.2 What are the services that will be covered in this category?

Services in relation to admission as well as organization of events such as conventions, conferences, exhibitions, fairs, seminars, workshops, weddings, sports and cultural events are covered under this Rule.

Illustration 1

A management school located in USA intends to organize a road show in Mumbai and New Delhi for prospective students. Any service provided by an event manager, or the right to entry (participation fee for prospective students, say) will be taxable in India.

Illustration 2

An Indian fashion design firm hosts a show at Toronto, Canada. The firm receives the services of a Canadian event organizer. The place of provision of this service is the location of the event, which is outside the taxable territory. Any service provided in relation to this event, including the right to entry, will be non-taxable.

5.6.3 What is a service ancillary organization or admission to an event?

Provision of sound engineering for an artistic event is a prerequisite for staging of that event and should be regarded as a service ancillary to its organization. A service of hiring a specific equipment to enjoy the event at the venue (against a charge that is not included in the price of entry ticket) is an example of a service that is ancillary to admission.

5.6.4 What are event-related services that would be treated as not ancillary to admission to an event?

A service of courier agency used for distribution of entry tickets for an event is a service that is not ancillary to admission to the event.

5.7 Rule 7- Part performance of a service at different locations

5.7.1 What does this Rule imply?

This Rule covers situations where the actual performance of a service is at more than one location, and occasionally one (or more) such locations may be outside the taxable territory.

This Rule states as follows:-

“Where any service stated in rules 4, 5, or 6 is provided at more than one location, including a location in the taxable territory, its place of provision shall be the location in the taxable territory where the greatest proportion of the service is provided”.

The following example illustrates the application of this Rule:-

Illustration 1

An Indian firm provides a 'technical inspection and certification service' for a newly developed product of an overseas firm (say, for a newly launched motorbike which has to meet emission standards in different states or countries). Say, the testing is carried out in Maharashtra (20%), Kerala (25%), and an international location (say, Colombo 55%).

Notwithstanding the fact that the greatest proportion of service is outside the taxable territory, the place of provision will be the place in the taxable territory where the greatest proportion of service is provided, in this case Kerala.

This rule is, however, not intended to capture insignificant portion of a service rendered in any part of the taxable territory like mere issue of invoice, processing of purchase order or recovery, which are not by way of service actually performed on goods.

It is clarified that this rule is applicable in performance-based services or location-specific services (immovable property related or event-linked). Normally, such services when provided in a non-taxable territory would require the presence of separate establishments in such territories. By virtue of an explanation of sub-clause (44) of section 65B, they would constitute distinct persons and thus it would be legitimate to invoice the services rendered individually in the two territories.

5.8 Rule 8- Services where the Provider as well as Receiver is located in Taxable Territory

5.8.1 What is the place of provision of a service where the location of the service provider and that of the service receiver is in the taxable territory?

The place of provision of a service, which is provided by a provider located in the taxable territory to a receiver who is also in the taxable territory, will be the location of the receiver.

5.8.2 What is the implication of this Rule?

This Rule covers situations where the place of provision of a service provided in the taxable territory may be determinable to be outside the taxable territory, in terms of the application of one of the earlier Rules i.e. Rule 4 to 6, but the service provider, as well as the service receiver, are located in the taxable territory.

The implication of this Rule is that in all such cases, the place of provision will be deemed to be in the taxable territory, notwithstanding the earlier rules. The presence of both the service provider and the service receiver in the taxable territory indicates that the place of consumption of the service is in the taxable territory. Services rendered, where both the provider and receiver of the service are located outside the taxable territory, are now covered by the mega exemption.

Illustration

A helicopter of Pawan Hans Ltd (India based) develops a technical snag in Nepal. Say, engineers are deputed by Hindustan Aeronautics Ltd, Bangalore, to undertake repairs at the site in Nepal. But for this rule, Rule 4, sub-rule (1) would apply in this case, and the place of provision would be Nepal i.e. outside the taxable territory. However, by application of Rule 7, since the service provider, as well as the receiver, are located in the taxable territory, the place of provision of this service will be within the taxable territory.

5.9 Rule 9- Specified services- Place of provision is location of the service provider

5.9.1 What are the specified services where the place of provision is the location of the service provider?

Following are the specified services where the place of provision is the location of the service provider:-

- i) Services provided by a banking company, or a financial company, or a non-banking financial company to account holders;
- ii) Online information and database access or retrieval services;
- iii) Intermediary services;
- iv) Service consisting of hiring of means of transport, up to a period of one month.

5.9.2 What is the meaning of "account holder"? Which accounts are not covered by this rule?

"Account" has been defined in the rules to mean an account which bears an interest to the depositor. Services provided to holders of demand deposits, term deposits, NRE (non-resident external) accounts and NRO (non-resident ordinary) accounts will be covered under this rule. Banking services provided to persons other than account holders will be covered under the main rule (Rule 3- location of receiver).

5.9.3 What are the services that are provided by a banking company to an account holder (holder of an account bearing interest to the depositor)?

Following are examples of services that are provided by a banking company or financial institution to an "account holder", in the ordinary course of business:-

- i) services linked to or requiring opening and operation of bank accounts such as lending, deposits, safe deposit locker etc;
- ii) transfer of money including telegraphic transfer, mail transfer, electronic transfer etc.

5.9.4 What are the services that are not provided by a banking company or financial institution to an account holder, in the ordinary course of business, and will consequently be covered under another Rule?

Following are examples of services that are generally NOT provided by a banking company or financial institution to an account holder (holder of a deposit account bearing interest), in the ordinary course of business:-

- i) financial leasing services including equipment leasing and hire-purchase;
- ii) merchant banking services;
- iii) Securities and foreign exchange (forex) broking, and purchase or sale of foreign currency, including money changing;
- iv) asset management including portfolio management, all forms of fund management, pension fund management, custodial, depository and trust services;
- v) advisory and other auxiliary financial services including investment and portfolio research and advice, advice on mergers and acquisitions and advice on corporate restructuring and strategy;
- vi) banker to an issue service.

In the case of any service which does not qualify as a service provided to an account holder, the place of provision will be determined under the default rule i.e. the Main Rule 3. Thus, it will be the location of the service receiver where it is known (ascertainable in the ordinary course of business), and the location of the service provider otherwise.

5.9.5 What are "Online information and database access or retrieval services"?

"Online information and database access or retrieval services" are services in relation to on-line information and database access or retrieval or both, in electronic form through computer network, in any manner. Thus, these services are essentially delivered over the internet or an electronic network which relies on the internet or similar network for their provision. The other important feature of these services is that they are completely automated, and require minimal human intervention.

Examples of such services are:-

- i) online information generated automatically by software from specific data input by the customer, such as web-based services providing trade statistics, legal and financial data, matrimonial services, social networking sites;
- ii) digitized content of books and other electronic publications, subscription of online newspapers and journals, online news, flight information and weather reports;
- iii) Web-based services providing access or download of digital content.

The following services will not be treated as "online information and database access or retrieval services":-

- i) Sale or purchase of goods, articles etc over the internet;
- ii) Telecommunication services provided over the internet, including fax, telephony, audio conferencing, and videoconferencing;
- iii) A service which is rendered over the internet, such as an architectural drawing, or management consultancy through e-mail;
- iv) Repair of software, or of hardware, through the internet, from a remote location;
- v) Internet backbone services and internet access services.

5.9.6 What are "Intermediary Services"?

Generally, an "intermediary" is a person who arranges or facilitates a supply of goods, or a provision of service, or both, between two persons, without material alteration or further processing. Thus, an intermediary is involved with two supplies at any one time:

- i) the supply between the principal and the third party; and
- ii) the supply of his own service (agency service) to his principal, for which a fee or commission is usually charged.

For the purpose of this rule, an intermediary in respect of goods (such as a commission agent i.e. a buying or selling agent, or a stockbroker) is excluded by definition.

Also excluded from this sub-rule is a person who arranges or facilitates a provision of a service (referred to in the rules as "the main service"), but provides the main service on his own account.

In order to determine whether a person is acting as an intermediary or not, the following factors need to be considered:-

Nature and value: An intermediary cannot alter the nature or value of the service, the supply of which he facilitates on behalf of his principal, although the principal may authorize the intermediary to negotiate a different price. Also, the principal must know the exact value at which the service is supplied (or obtained) on his behalf, and any discounts that the intermediary obtains must be passed back to the principal.

Separation of value: The value of an intermediary's service is invariably identifiable from the main supply of service that he is arranging. It can be based on an agreed percentage of the sale or purchase price. Generally, the amount charged by an agent from his principal is referred to as "commission".

Identity and title: The service provided by the intermediary on behalf of the principal is clearly identifiable.

In accordance with the above guiding principles, services provided by the following persons will qualify as 'intermediary services':-

- i) Travel Agent (any mode of travel)
- ii) Tour Operator
- iii) Commission agent for a service [an agent for buying or selling of goods is excluded]
- iv) Recovery Agent

Even in other cases, wherever a provider of any service acts as an intermediary for another person, as identified by the guiding principles outlined above, this rule will apply. Normally, it is expected that the intermediary or agent would have documentary evidence authorizing him to act on behalf of the provider of the 'main service'.

Illustration

A freight forwarder arranges for export and import shipments. There could be two possible situations here- one when he acts on his own account, and the other, when he acts as an intermediary.

When the freight forwarder acts on his own account (say, for an export shipment)

A freight forwarder provides domestic transportation within taxable territory (say, from the exporter's factory located in Pune to Mumbai port) as well as international freight service (say, from Mumbai port to the international destination), under a single contract, on his own account (i.e. he buys-in and sells freight transport as a principal), and charges a consolidated amount to the exporter. This is a service of transportation of goods for which the place of supply is the destination of goods. Since the destination of goods is outside taxable territory, this service will not attract service tax. Here, it is presumed that ancillary freight services (i.e. services ancillary to transportation- loading, unloading, handling etc) are "bundled" with the principal service owing to a single contract or a single price (consideration).

On an import shipment with similar conditions, the place of supply will be in the taxable territory, and so the service tax will be attracted.

When the freight forwarder acts as an intermediary

Where the freight forwarder acts as an intermediary, the place of provision will be his location. Service tax will be payable on the services provided by him. However, when he provides a service to an exporter of goods, the exporter can claim refund of service tax paid under notification for this purpose.

Similarly, persons such as call centres, who provide services to their clients by dealing with the customers of the client on the client's behalf, but actually provided these services on their own account, will not be categorized as intermediaries.

5.9.7 What is the service of "hiring of means of transport"?

The services of providing a hire or lease, without the transfer of right to use (explained in guide at point 6.6), is covered by this rule. Normally the following will constitute means of transport:-

- i) Land vehicles such as motorcars, buses, trucks;
- ii) Vessels;
- iii) Aircraft;
- iv) Vehicles designed specifically for the transport of sick or injured persons;
- v) Mechanically or electronically propelled invalid carriages;
- vi) Trailers, semi-trailers and railway wagons.

The following are not 'means of transport':-

- i) Racing cars;
- ii) Containers used to store or carry goods while being transported;
- iii) Dredgers, or the like.

5.9.8 What if I provide a service of hiring of a fleet of cars to a company on an annual contract? What will be place of provision of my service if my business establishment is located in New Delhi, and the company is located in Faridabad (Haryana)?

This Rule covers situations where the hiring is for a period of upto one month. Since hiring period is more than one month, this sub-rule cannot be applied to the situation. The place of provision of your service will be determined in terms of Rule 3 i.e. receiver location, which in this case is Faridabad (Haryana).

5.10 Rule 10- Place of Provision of a service of transportation of goods

5.10.1 What are the services covered under this Rule?

Any service of transportation of goods, by any mode of transport (air, vessel, rail or by a goods transportation agency), is covered here. However, transportation of goods by courier or mail is not covered here.

5.10.2 What is the place of provision of a service of transportation of goods?

Place of provision of a service of transportation of goods is the place of destination of goods, except in the case of services provided by a Goods Transportation Agency in respect of transportation of goods by road, in which case the place of provision is the location of the person liable to pay tax (as determined in terms of rule 2(1)(d) of Service Tax Rules, 1994 (since amended)).

Illustration

A consignment of cut flowers is consigned from Chennai to Amsterdam. The place of provision of goods transportation service will be Amsterdam (outside India, hence not liable to service tax). Conversely, if a consignment of crystal ware is consigned from Paris to New Delhi, the place of provision will be New Delhi.

5.10.3 What does the proviso to this Rule imply?

The proviso to this Rule states as under:-

“Provided that the place of provision of services of transportation of goods by goods transportation agency shall be the location of the person liable to pay tax.”

Sub-rule 2(1)(d) of Service Tax Rules, 1994 provides that where a service of transportation of goods is provided by a ‘goods transportation agency’, and the consignor or consignee is covered under any of the specified categories prescribed therein, the person liable to tax is the person who pays, or is liable to pay freight (either himself or through his agent) for the transportation of goods by road in a goods carriage. If such person is located in non-taxable territory, then the person liable to pay tax shall be the service provider.

Illustration 1

A goods transportation agency ABC located in Delhi transports a consignment of new motorcycles from the factory of XYZ in Gurgaon (Haryana), to the premises of a dealer in Bhopal, Madhya Pradesh. Say, XYZ is a registered assessee and is also the person liable to pay freight and hence person liable to pay tax, in this case. Here, the place of provision of the service of transportation of goods will be the location of XYZ i.e. Haryana.

Illustration 2

A goods transportation agency ABC located in Delhi transports a consignment of new motorcycles from the factory of XYZ in Gurgaon (Haryana), to the premises of a dealer in Jammu (non-taxable territory). Say, as per mutually agreed terms between ABC and XYZ, the dealer in Jammu is the person liable to pay freight. Here, in terms of amended provisions of rule 2(1)(d), since the person liable to pay freight is located in non-taxable territory, the person liable to pay tax will be ABC. Accordingly, the place of provision of the service of transportation of goods will be the location of ABC i.e. Delhi.

5.11 Rule 11- Passenger Transportation Services

5.11.1 What is the place of provision of passenger transportation services?

The place of provision of a passenger transportation service is the place where the passenger embarks on the conveyance for a continuous journey.

5.11.2 What does a "continuous journey" mean?

A "continuous journey" means a journey for which:-

- (i) a single ticket has been issued for the entire journey; or
- (ii) more than one ticket or invoice has been issued for the journey, by one service provider, or by an agent on behalf of more than one service providers, at the same time, and there is no scheduled stopover in the journey

5.11.3 What is the meaning of a stopover? Do all stopovers break a continuous journey?

"Stopover" means a place where a passenger can disembark either to transfer to another conveyance or break his journey for a certain period in order to resume it at a later point of time. All stopovers do not cause a break in continuous journey. Only such stopovers will be relevant for which one or more separate tickets are issued. Thus a travel on Delhi-London-New York-London-Delhi on a single ticket with a halt at London on either side, or even both, will be covered by the definition of continuous journey. However if a separate ticket is issued, say New York-Boston-New York, the same will be outside the scope of a continuous journey.

5.11.4 The Table below contains illustrations which explain the principle enunciated in this Rule.

Illustrations

S. No.	Journey	Place of Provision	Taxability
Single Ticket (No stopover)			
1	Mumbai-Delhi	Mumbai	Yes, Mumbai being the place of embarkation.
2	Mumbai-Delhi-Jaipur	Mumbai	Yes, Mumbai, being the place of embarkation for the continuous journey.

4	Delhi-London-New York-London-New York	Delhi	Yes, New Delhi, being the place of provision for continuous journey with single return ticket.

8	Delhi-Jammu-Delhi	Delhi	Yes, Delhi is the place of provision for continuous journey.
9	Jammu-Delhi-Jammu	Jammu	No, Jammu is the place of provision for continuous journey with single return ticket

1	(a) Delhi-Bangkok-Delhi (b) Bangkok-Bali-Bangkok	Delhi is place of provision for journey (a); Bangkok is place of provision for journey (b)	Journey (a) is taxable since place of provision is in taxable territory; Journey (b) is not taxable since place of provision is outside taxable territory.
2	(a) Delhi-New York-Delhi (b) New York-Boston-New York	Delhi is place of provision for journey (a); New York is place of provision for journey (b)	Journey (a) is taxable since place of provision is in taxable territory; Journey (b) is not taxable since place of provision is not in taxable territory.
3	(a) London-Delhi-London (b) Delhi-Chandigarh (c) Chandigarh-Amritsar (d) Amritsar-Delhi	London is place of provision for journey (a); Delhi is place of provision for journey (b); Chandigarh is place of provision for journey (c); Amritsar is place of provision for journey (d)	Journey (a) is not taxable since place of provision is outside taxable territory; Journeys (b), (c) and (d) are taxable since place of provision is in taxable territory.
4	(a) Delhi-Jammu (b) Jammu-Delhi	Delhi is place of provision for journey (a) Jammu is place of provision for journey (b)	Journey (a) is taxable since place of provision is in taxable territory. Journey (b) is not taxable since place of provision is outside taxable territory.
5	(a) Jammu-Delhi-Jammu (b) Delhi-Bangkok-Delhi	Jammu is place of provision for journey (a); Delhi is place of provision for journey (b)	Journey (a) is not taxable since place of provision is outside taxable territory for the continuous journey with single, return ticket. Journey (b) is taxable, since place of provision is in taxable territory for the journey with single, return ticket.
6	(a) Jammu-Delhi (b) Delhi-Bangkok-Delhi (c) Delhi-Lucknow (d) Lucknow-Jammu	Jammu is place of provision for journey (a); Delhi is place of provision for journey (b); Delhi is place of provision for journey (c); Lucknow is place of provision for journey (d)	Journey (a) is not taxable since place of provision is not in taxable territory; Journeys (b), (c) and (d) are taxable since place of provision is in taxable territory for each of these.

It may also be pertinent to mention that for flights originating from, or terminating in, the north-east region, though the place of provision will be determined in terms of this rule, there is an exemption for air transportation of passengers, embarking from, or terminating in an airport located in the state of Arunachal Pradesh, Assam, Manipur, Meghalaya, Mizoram, Nagaland, Sikkim, or Tripura or at Bagdogra located in West Bengal. The examples in the table below illustrate some situations.

S. No.	Journey	Place of Provision	Taxability
Single ticket (No stopover)			
1	Dibrugarh-Kolkata-Mumbai	Dibrugarh is the place of provision	Journey is taxable, but no service tax is payable owing to the exemption.
2	Dibrugarh-Kolkata-Mumbai-Kolkata-Dibrugarh	Dibrugarh is the place of provision	Journey is taxable, but no service tax is payable owing to the exemption. Here it is relevant to note that the journey is against a single, return ticket.
3	Guwahati-Kolkata-Bangkok-Kolkata-Guwahati	Guwahati is the place of provision for the continuous journey	Place of provision being in the taxable territory, the service is taxable, but no service tax is payable owing to the exemption and journey is deemed continuous.
4	Kolkata-Guwahati-Kolkata	Kolkata is the place of provision for the continuous journey.	Place of provision being in the taxable territory, the service is taxable, but no service tax is payable owing to the exemption (the onward and return legs of journey terminate and originate in exempted territory respectively).
More than one ticket for a journey (issued by a single service provider, or by a single agent, for more than one service providers)			
1	(a) Bagdogra-Kolkata (b) Kolkata-Delhi	Place of provision for journey (a) is Bagdogra. Place of provision for journey (b) is Kolkata.	In these cases, generally, the passenger would be required to change aircraft after exiting the airport, and is required to obtain a fresh boarding pass for the next leg. This is deemed to be a stopover. Thus, journey (b) is taxable, and service tax is payable on leg (b).
2	(a) Guwahati-Kolkata-Guwahati (b) Kolkata-Bangkok-Kolkata	Each journey is deemed continuous based on the assumption that two single return tickets are purchased. For journey (a) place of provision is Guwahati, and for journey (b) place of provision is Kolkata.	Generally, in such cases, since separate return tickets have been purchased for the two journeys, after completing journey (a) the passenger will be required to disembark from the aircraft and complete check-in formalities for journey (b). Thus, the journey will not be deemed to be continuous and place of provision for journey (b) will be Kolkata.

5.12 Rule 12- Services provided on board conveyances

5.12.1 What are services provided on board conveyances?

Any service provided on board a conveyance (aircraft, vessel, rail, or roadways bus) will be covered here. Some examples are on-board service of movies/music/video/ software games on demand, beauty treatment etc, albeit only when provided against a specific charge, and not supplied as part of the fare.

5.12.2 What is the place of provision of services provided on board conveyances?

The place of provision of services provided on board a conveyance during the course of a passenger transport operation is the first scheduled point of departure of that conveyance for the journey.

Illustration

A video game or a movie-on-demand is provided as on-board entertainment during the Kolkata-Delhi leg of a Bangkok-Kolkata-Delhi flight. The place of provision of this service will be Bangkok (outside taxable territory, hence not liable to tax).

If the above service is provided on a Delhi-Kolkata-Bangkok-Jakarta flight during the Bangkok-Jakarta leg, then the place of provision will be Delhi (in the taxable territory, hence liable to tax).

5.13 Rule 13- Power to notify services or circumstances

5.13.1 What is the implication of this Rule?

This Rule states as follows:-

“In order to prevent double taxation or non-taxation of the provision of a service, or for the uniform application of rules, the Central Government shall have the power to notify any description of service or circumstances in which the place of provision shall be the place of effective use and enjoyment of a service.”

The rule is an enabling power to correct any injustice being met due to the applicability of rules in a foreign territory in a manner which is inconsistent with these rules leading to double taxation. Due to the cross border nature of many services it is also possible in certain situations to set up businesses in a non-taxable territory while the effective enjoyment, or in other words consumption, may be in taxable territory. This rule is also meant as an anti-avoidance measure where the intent of the law is sought to be defeated through ingenious practices unknown to the ordinary ways of conducting business.

5.14 Rule 14- Order of application of Rules

5.14.1 What is the implication of this Rule?

Rule 14 provides that where the provision of a service is, prima facie, determinable in terms of more than one rule, it shall be determined in accordance with the rule that occurs later among the rules that merit equal consideration.

This Rule covers situations where the nature of a service, or the business activities of the service provider, may be such that two or more rules may appear equally applicable.

Following illustrations will make the implications of this Rule clear:-

Illustration 1

An architect based in Mumbai provides his service to an Indian Hotel Chain (which has business establishment in New Delhi) for its newly acquired property in Dubai. If Rule 5 (Property rule) were to be applied, the place of provision would be the location of the property i.e. Dubai (outside the taxable territory). With this result, the service would not be taxable in India.

Whereas, by application of Rule 8, since both the provider and the receiver are located in taxable territory, the place of provision would be the location of the service receiver i.e. New Delhi. Place of provision being in the taxable territory, the service would be taxable in India.

By application of Rule 14, the later of the Rules i.e. Rule 8 would be applied to determine the place of provision.

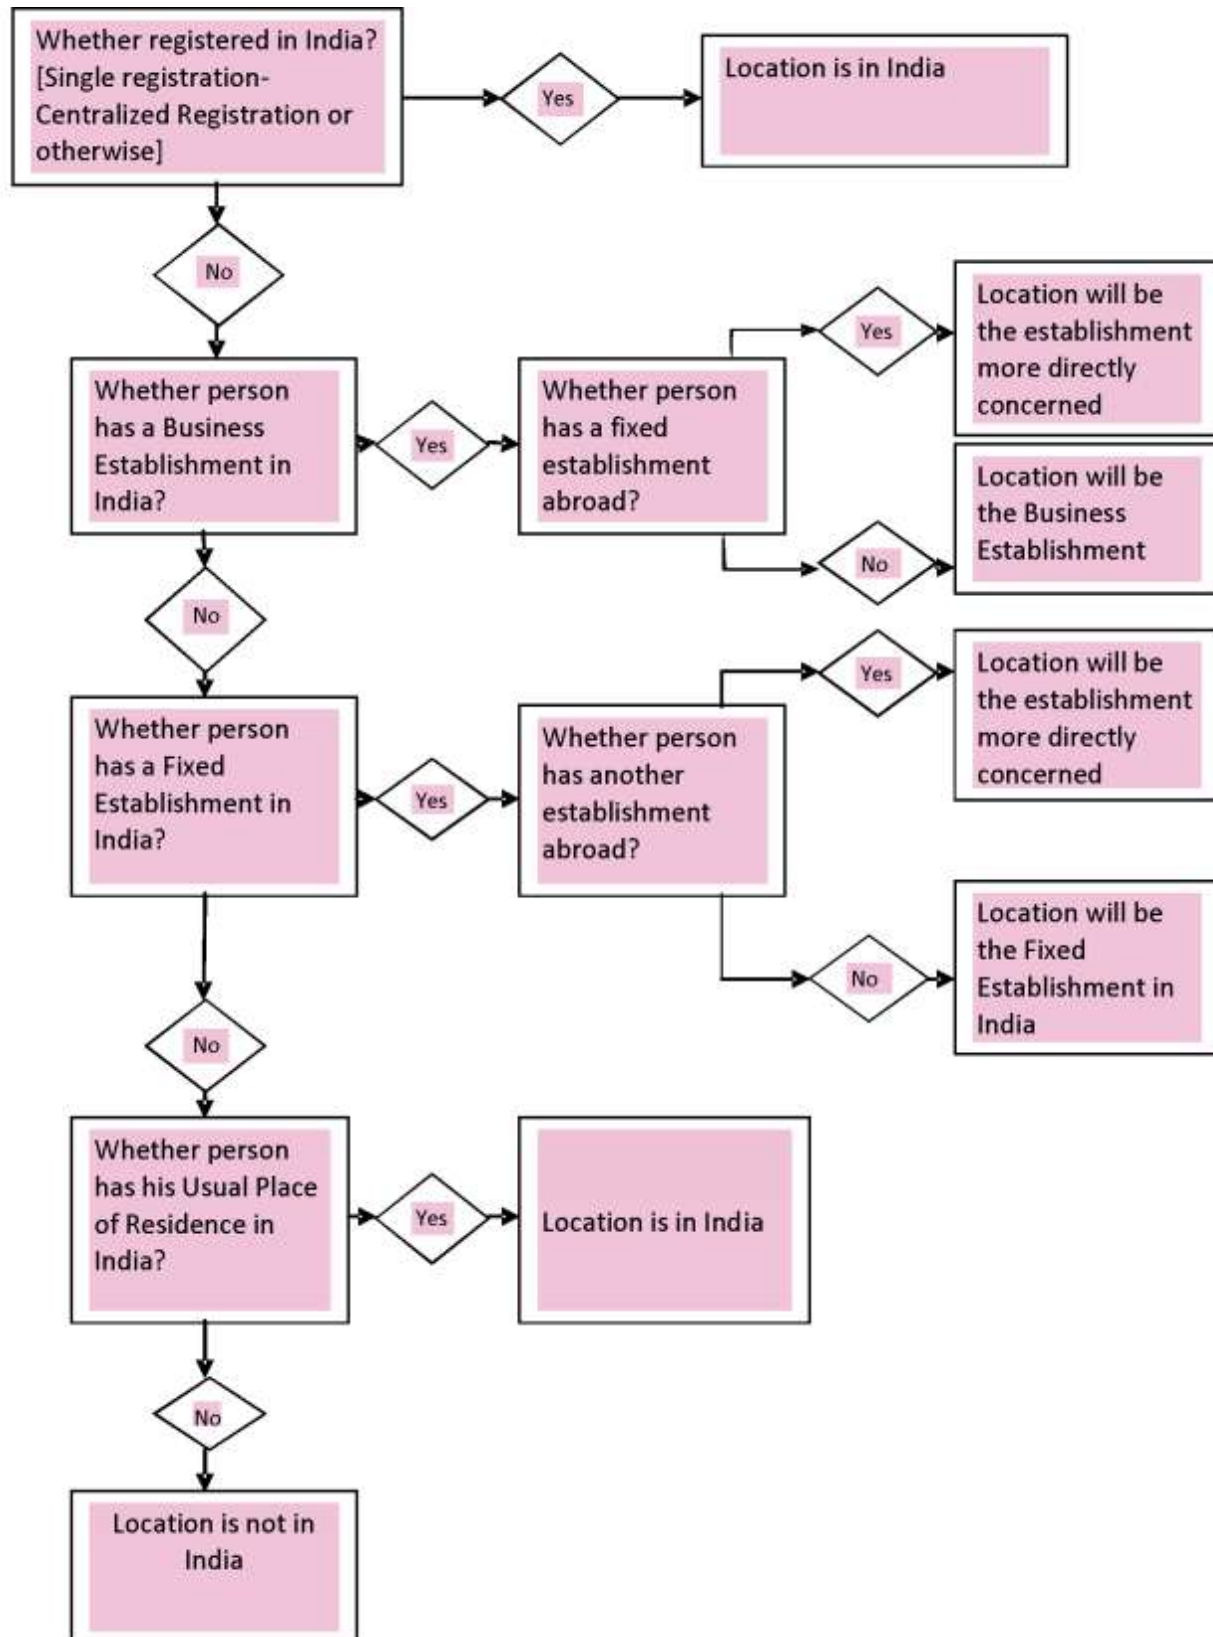

Illustration 2

For the Ms Universe Contest planned to be held in South Africa, the Indian pageant (say, located in Mumbai) avails the services of Indian beauticians, fashion designers, videographers, and photographers. The service providers travel as part of the Indian pageant's entourage to South Africa. Some of these services are in the nature of personalized services, for which the place of provision would normally be the location where performed (Performance rule-Rule 4), while for others, under the main rule (Receiver location) the place of provision would be the location of receiver.

Whereas, by application of Rule 8, since both the provider and the receiver are located in taxable territory, the place of provision would be the location of the service receiver i.e. New Delhi. Place of provision being in the taxable territory, the service would be taxable in India.

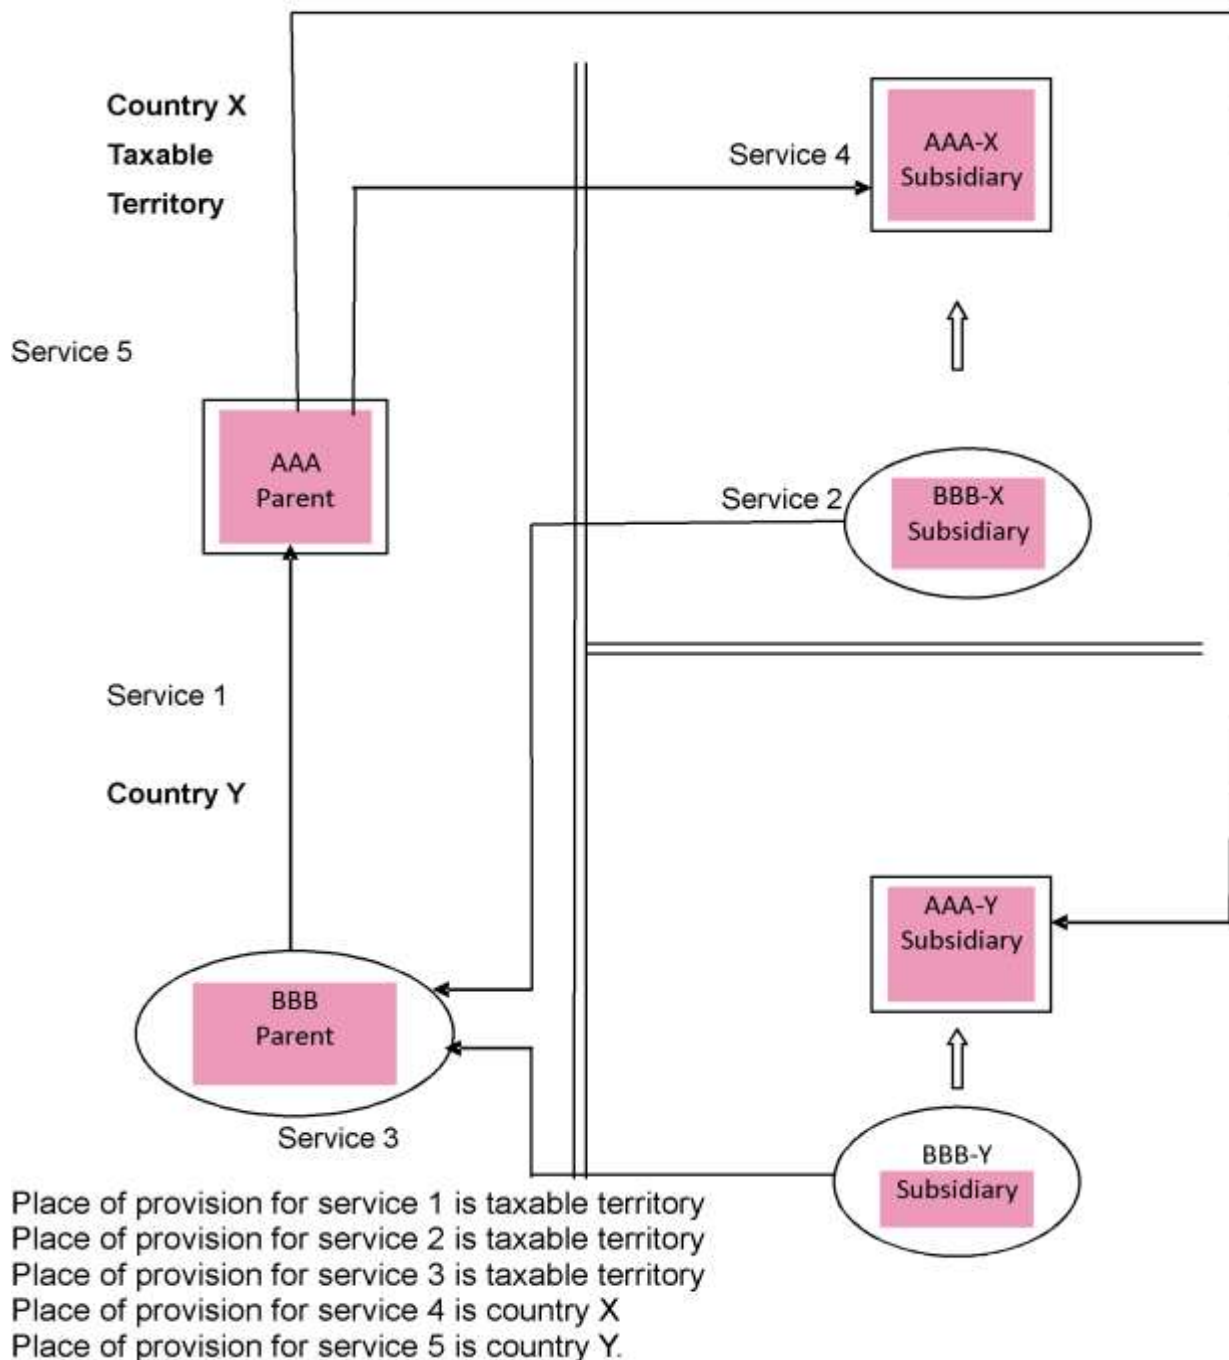

By application of Rule 15, the later of the Rules i.e. Rule 8 would be applied to determine the place of provision.

FLOW DIAGRAM F 2 (Refer para 5.3.4)

PROVISION OF SERVICES UNDER A 'GLOBAL AGREEMENT'- Scenario 1

FLOW DIAGRAM F 3 (Refer para 5.3.4)

PROVISION OF SERVICES UNDER 'FRAMEWORK AGREEMENT'- Scenario 2

Agreement 1 is not transactional, has no consideration, and does not create a provision of service. Agreement 1 stipulates the terms and conditions which are activated only when the parties (i.e. group subsidiaries on either side enter into separate and independent business agreements, in accordance with the terms specified in the framework agreement.

Under Agreement 2, service 1 is provided by BBB Ltd to AAALtd, and the place of provision of this service, under the main rule, is the location of the receiver i.e. within the taxable territory. Under Agreement 3, service 2 is provided by BBB-X to AAA-X, and the place of provision of this service, under the main rule, is country X i.e. outside the taxable territory. Under Agreement 4, service 3 is provided by BBB-Y to AAA-Y, and the place of provision of this service, again under the main rule, is country Yi.e. outside the taxable territory.

Guidance Note 6 – Declared Services

In the definition of 'service' contained in clause (44) of section 65B of the Act it has also been stated that service includes a declared service. The phrase 'declared service' is also defined in the said section as an activity carried out by a person for another for consideration and specified in section 66E of the Act. The following nine activities have been specified in section 66E:

1. renting of immovable property;
2. construction of a complex, building, civil structure or a part thereof, including a complex or building intended for sale to a buyer, wholly or partly, except where the entire consideration is received after issuance of certificate of completion by a competent authority;
3. temporary transfer or permitting the use or enjoyment of any intellectual property right;
4. development, design, programming, customization, adaptation, up gradation, enhancement, implementation of information technology software;
5. agreeing to the obligation to refrain from an act, or to tolerate an act or a situation, or to do an act;
6. transfer of goods by way of hiring, leasing, licensing or any such manner without transfer of right to use such goods;
7. activities in relation to delivery of goods on hire purchase or any system of payment by instalments;
8. service portion in execution of a works contract;
9. service portion in an activity wherein goods, being food or any other article of human consumption or any drink (whether or not intoxicating) is supplied in any manner as part of the activity.

The above activities when carried out by a person for another for consideration would amount to provision of service. Most of these services are presently also being taxed except in so far as Sl. No.5 is concerned. It is clarified that they are amply covered by the definition of service but have been declared with a view to remove any ambiguity for the purpose of uniform application of law all over the country.

6.1 Renting of Immovable Property

Renting has been defined in section 65B as "allowing, permitting or granting access, entry, occupation, usage or any such facility, wholly or partly, in an immovable property, with or without the transfer of possession or control of the said immovable property and includes letting, leasing, licensing or other similar arrangements in respect of immovable property"

6.1.1 Is renting of all kinds of immovable properties taxable?

No. Renting of certain kinds of immovable properties is specified in the negative list. These are –

renting of vacant land, with or without a structure incidental to its use, relating to agriculture. (Sl. no. (d) (iv) of Exhibit A1)

renting of residential dwelling for use as residence (Sl. No. (m) of Exhibit A1)

renting out of any property by the Reserve Bank of India

renting out of any property by a Government or a local authority to a non-business entity.

Renting of all other immovable properties would be taxable unless covered by an exemption (refer 6.1.2).

6.1.2 Are there any exemptions in respect of renting of immovable property?

Yes. These are:–

Threshold level exemption up to Rs. 10 lakh.

Renting of precincts of a religious place meant for general public.

Renting of a hotel, inn, guest house, club, campsite or other commercial places meant for residential or lodging purposes, having declared tariff of a room below rupees one thousand per day or equivalent.

Renting to an exempt educational institution

6.1.3 Would permitting usage of a property for a temporary purpose like conduct of a marriage or any other social function be taxable?

Yes. As per definition allowing or permitting usage of immovable property, without transferring possession of such property, is also renting of immovable property.

6.1.4 Would activities referred to in column 1 of a table below be chargeable to service tax?

S. No.	Journey	Taxability
1.	Renting of property to an educational body	Exempted if provided to an educational institution for the purpose of education which is exempt from the levy of service tax; to others will be taxable.
2.	Renting of vacant land for animal husbandry or floriculture	Not chargeable to service tax as it is covered in the negative list entry relating to agriculture
3.	Permitting use of immovable property for placing vending/dispensing machines	Chargeable to service tax as permitting usage of space is covered in the definition of renting
4.	Allowing erection of a communication tower on a building for consideration.	Chargeable to service tax as permitting usage of space is covered in the definition of renting
5.	Renting of land or building for entertainment or sports	Chargeable to service tax as there is no specific exemption.
6.	Renting of theatres by owners to film distributors (including under a profit-sharing arrangement)	Chargeable to service tax as the arrangement amounts to renting of immovable property.

6.1.5 Whether hotels/restaurants/convention centres letting out their halls, rooms etc. for social, official or business or cultural functions fall within the scope of this declared list service?

Halls, rooms etc. let out by hotels/restaurants for a consideration for organizing social, official or business or cultural functions are covered within the scope of renting of immovable property and would be taxable if other elements of taxability are present.

6.2 Construction of a complex, building, civil structure or a part thereof, including a complex or building intended for sale to a buyer, wholly or partly, except where the entire consideration is received after issuance of certificate of completion by a competent authority.

This service is already taxable as part of construction of residential complex service under clause (zzzh) of sub-section 105 of section 65 of the Act and as part of service in relation to commercial or industrial construction under clause (zzq) of sub-section 105 of section 65 of the Act. This entry covers the services provided by builders or developers or any other person, where building complexes, civil structure or part thereof are offered for sale but the payment for such building or complex or part thereof is received before the issuance of completion certificate by a competent authority.

6.2.1 What would be the liability to pay service tax on flats/houses agreed to be given by builder/developer to the land owner towards the land /development rights and to other buyers. If payable, how would the services be valued?

Here two important transactions are identifiable: (a) sale of land by the landowner which is not a taxable service; and (b) construction service provided by the builder/developer. The builder/developer receives consideration for the construction service provided by him, from two categories of service receivers: (a) from landowner: in the form of land/development rights; and (b) from other buyers: normally in cash.

Construction service provided by the builder/developer is taxable in case any part of the payment/development rights of the land was received by the builder/ developer before the issuance of completion certificate and the service tax would be required to be paid by builder/ developers even for the flats given to the land owner.

It may be pointed out that in a recent judgement passed by the Mumbai High Court in the case of Maharashtra Chamber of Housing Industry and Others vs. Union of India [012-TIOL-78-HC-Mum-ST] has upheld the Constitutional validity of levy of service tax, under clauses (zzzh) and (zzzzu) of section 65, on similar construction services provided by a builder. A relevant portion of the judgement is reproduced below-

"29. The charge of tax under Section 66 of the Finance Act is on the taxable services defined in clause (105) of Section 65. The charge of tax is on the rendering of a taxable service. The taxable event is the rendering of a service which falls within the description set out in sub-clauses (zzq), (zzzh) and (zzzzu). The object of the tax is a levy on services which are made taxable. The fact that a taxable service is rendered in relation to an activity which occurs on land does not render the charging provision as imposing a tax on land and

buildings. The charge continues to be a charge on taxable services. The charge is not a charge on land or buildings as a unit. The tax is not on the general ownership of land. The tax is not a tax which is directly imposed on land and buildings. The fact that land is subject to an activity involving construction of a building or a complex does not determine the legislative competence of Parliament. The fact that the activity in question is an activity which is rendered on land does not make the tax a tax on land. The charge is on rendering a taxable service and the fact that the service is rendered in relation to land does not alter the nature or character of the levy. The legislature has expanded the notion of taxable service by incorporating within the ambit of clause (zzq) and clause (zzzh) services rendered by a builder to the buyer in the course of an intended sale whether before, during or after construction. There is a legislative assessment underlying the imposition of the tax which is that during the course of a construction related activity, a service is rendered by the builder to the buyer. Whether that assessment can be challenged in assailing constitutional validity is a separate issue which would be considered a little later. At this stage, what merits emphasis is that the charge which has been imposed by the legislature is on the activity involving the provision of a service by a builder to the buyer in the course of the execution of a contract involving the intended sale of immovable property.

30. Parliament, in bringing about the amendment in question has made a legislative assessment to the effect that a service is rendered by builders to buyers during the course of construction activities. In our view, that legislative assessment does not impinge upon the constitutional validity of the tax once, the true nature and character of the tax is held not to fall within the scope of Entry 49 of List II. So long as the tax does not fall within any head of legislative power reserved to the States, the tax must of necessity fall within the legislative competence of Parliament. This is a settled principle of law, since the residuary power to legislate on a field of legislation which does not fall within the exclusive domain of the States is vested in Parliament under Article 248 read with Entry 97 of List I."

Value, in the case of flats given to first category of service receiver will be the value of the land when the same is transferred and the point of taxation will also be determined accordingly.

6.2.2 What would be the service tax liability in the following model - land is owned by a society, comprising members of the society with each member entitled to his share by way of an apartment. Society /individual flat owners give 'No Objection Certificate' (NOC) or permission to the builder/developer, for re-construction. The builder/ developer makes new flats with same or different carpet area for original owners of flats and additionally may also be involved in one or more of the following: (i) construct some additional flats for sale to others; (ii) arrange for rental accommodation or rent payments for society members/original owners for stay during the period of re-construction; (iii) pay an additional amount to the original owners of flats in the society.

Under this model, the builder/developer receives consideration for the construction service provided by him, from two categories of service receivers. First category is the society/ members of the society, who transfer development rights over the land (including the permission for additional number of flats), to the builder/developer. The second category of service receivers consist of buyers of flats other than the society/members. Generally, they pay by cash.

Re-construction undertaken by a building society by directly engaging a builder/developer will be chargeable to service tax as works contract service for all the flats built now.

6.2.3 When a certain number of flats are given by the builder/developer to a land owner in a collaborative agreement to construct, in lieu of the land or development rights transferred, will such transferee be required to pay service tax on further sale of flats to customers?

Yes. The service tax will be required to be paid by such transferee if any consideration is received by him from any person before the receipt of completion certificate.

6.2.4 What would be the service tax liability on conversion of any hitherto untaxed construction of complex or part thereof into a building or civil structure to be used for commerce or industry, after lapse of a period of time?

Mere change in use of the building does not involve any taxable service. If the renovation activity is done on such a complex on contract basis the same would be a works contract as defined in clause (54) of section 65B service portion, which would also be taxable if other ingredients of taxability are present.

6.2.5 What would be the service tax liability on Build- Operate - Transfer (BOT) Projects?

Many variants of this model are being followed in different regions of the country, depending on the nature of the project. Build-Own-Operate-Transfer (BOOT) is a popular variant. Generally under BOT model, Government, concessionaire (who may be a developer/builder himself or may be independent) and the users are the parties. Risk taking and sharing ability of the parties concerned is the essence of a BOT project. Government by an agreement transfers the 'right to use' and/or 'right to develop' for a period specified, usually thirty years or near about, to the concessionaire.

Transactions involving provision of service take place usually at three different levels: firstly, between Government and the concessionaire; secondly, between concessionaire and the contractor and thirdly, between concessionaire and users.

At the first level, Government transfers the right to use and/or develop the land, to the concessionaire, for a specific period, for construction of a building for furtherance of business or commerce (partly or wholly). Consideration for this taxable service may be in the nature of upfront lease amount or annual charges paid by the concessionaire to the Government. Such services provided by the "Government" would be in the negative list entry contained in clause (a) of section 66D unless these services qualify as 'support services provided to business entities' under exception sub-clause (iv) to clause (a) of section 66D. 'Support services have been defined in clause (49) of section 65B as 'infrastructural, operational, administrative, logistic marketing or any other support of any kind comprising functions that entities carry out in the ordinary course of operations themselves but may obtain as services by outsourcing from others for any reason whatsoever and shall include advertisement and promotion, construction or works contract, renting of movable or immovable property, security, testing and analysis'. If the nature of concession is such that it amounts to 'renting of immovable property service' then the same would be taxable. The tax is required to be paid by the government as there is no reverse charge for services relating to renting of immovable property.

In this model, though the concessionaire is undertaking construction of a building to be used wholly or partly for furtherance of business or commerce, he will not be treated as a service provider since such construction has been undertaken by him on his own account and he remains the owner of the building during the concession period. However, if an independent contractor is engaged by a concessionaire for undertaking construction for him, then service tax is payable on the construction service provided by the contractor to the concessionaire.

At the third level, the concessionaire enters into agreement with several users for commercially exploiting the building developed/constructed by him, during the lease period. For example, the user may be paying a rent or premium on the sub-lease for temporary use of immovable property or part thereof, to the concessionaire. At this third level, concessionaire is the service provider and user of the building is the service receiver. Service tax would be leviable on the taxable services provided by the concessionaire to the users if the ingredients of taxability are present.

There could be many variants of the BOT model explained above and implications of tax may differ. For example, at times it is possible that the concessionaire may outsource the management or commercial exploitation of the building developed/constructed by him to another person and may receive a pre-determined amount as commission. Such commission would be a consideration for taxable service and liable to service tax.

6.2.6 If the builder instead of receiving consideration for the sale of an apartment receives a fixed deposit, which it converts after the completion of the building into sales consideration, will it amount to receiving any amount before the completion of service.

This may be a colorable device wherein the consideration for provision of construction service is disguised as fixed deposit, which is unlikely to be returned. In any case the interest earned by the builder on such fixed deposits will be a significant amount received prior to the completion of the immovable property. As clarified at serial no. 5 of the table in point no 2.3.2 interest in such cases would be considered as part of the gross amount charged for the provision of service and the service of construction will be taxable.

6.2.7 In certain States requirement of completion certificate are waived of for certain specified types of buildings. How would leviability of service tax be determined in such cases?

In terms of Explanation to clause (b) of section 66E in such cases the completion certificate issued by an architect or a chartered engineer or a licensed surveyor of the respective local body or development or planning authority would be treated as completion certificate for the purposes of determining chargeability of service tax.

6.2.8 If the person who has entered into a contract with the builder for a flat for which payments are to be made in 12 installments depending on the stage of construction and the person transfers his interest in the flat to a buyer after paying 7 installments, would such transfer be an activity chargeable to service tax?

Such transfer does not fall in this declared service entry as the said person is not providing any construction service. In any case transfer of such an interest would be transfer of a benefit

to arise out of land which as per the definition of immovable property given in the General Clauses Act, 1897 is part of immovable property. Such transfer would therefore be outside the ambit of 'service' being a transfer of title in immovable property. Needless to say that service tax would be chargeable on the seven installments paid by the first allottee and also on subsequent installments paid by the transferee.

6.3 Temporary transfer or permitting the use or enjoyment of any intellectual property right

6.3.1 What is the scope of the term 'intellectual property right'?

'Intellectual property right' has not been defined in the Act. The phrase has to be understood as in normal trade parlance as per which intellectual property right includes the following:-

Copyright

Patents

Trademarks

Designs

Any other similar right to an intangible property

6.3.2 Is the IPR required to be registered in India? Would the temporary transfer of a patent registered in a country outside India also be covered under this entry?

Since there is no condition regarding the law under which an intellectual right should be registered, temporary transfer of a patent registered outside India would also be covered in this entry. However, it will become taxable only if the place of provision of service of temporary transfer of intellectual property right is in taxable territory.

6.4 Development, design, programming, customization, adaptation, up gradation, enhancement, implementation of information technology software

The term 'information technology software' has been defined in section 65B of the Act as 'any representation of instructions, data, sound or image, including source code and object code, recorded in a machine readable form, and capable of being manipulated or providing interactivity to a user, by means of a computer or an automatic data processing machine or any other device or equipment'.

6.4.1 Would sale of pre-packaged or canned software be included in this entry?

No. It is a settled position of law that pre-packaged or canned software which is put on a media is in the nature of goods [Supreme Court judgment in case of Tata Consultancy Services vs State of Andhra Pradesh [2002(178) ELT22(SC) refers]. Sale of pre-packaged or canned software is, therefore, in the nature of sale of goods and is not covered in this entry.

6.4.2 Is on site development of software covered under this entry?

Yes. On site development of software is covered under the category of development of information technology software.

6.4.3 Would providing advice, consultancy and assistance on matters relating to information technology software be chargeable to service tax?

These services may not be covered under the declared list entry relating to information technology software. However, such activities when carried out by a person for another for consideration would fall within the definition of service and hence chargeable to service tax if other requirements of taxability are satisfied.

6.4.4 Would providing a license to use pre-packaged software be a taxable service?

The following position of law needs to be appreciated to determine whether a license to use pre packaged software would be goods-

As held by the Hon'ble Supreme Court in the case of Tata Consultancy Services vs. State of Andhra Pradesh [2002(178) ELT22(SC)] pre-packaged software or canned software or shrink wrapped software put on a media like is goods. Relevant portion of para 24 of the judgment is reproduced below-

"A software programme may consist of various commands which enable the computer to perform a designated task. The copyright in that programme may remain with the originator of the programme. But the moment copies are made and marketed, it becomes goods, which are susceptible to sales tax. Even intellectual property, once it is put on to a media, whether it be in the form of books or canvas (in case of painting) or computer discs or cassettes, and marketed would become "goods". We see no difference between a sale of a software programme on a CD/floppy disc from a sale of music on a cassette/CD or a sale of a film on a video cassette/CD. In all such cases, the intellectual property has been incorporated on a media for purposes of transfer. Sale is not just of the media which by itself has very little value. The software and the media cannot be split up. What the buyer purchases and pays for is not the disc or the CD. As in the case of paintings or books or music or films the buyer is purchasing the intellectual property and not the media i.e. the paper or cassette or disc or CD. Thus a transaction sale of computer software is clearly a sale of "goods" within the meaning of the term as defined in the said Act. The term "all materials, articles and commodities" includes both tangible and intangible/incorporeal property which is capable of abstraction, consumption and use and which can be transmitted, transferred, delivered, stored, possessed etc. The software programmes have all these attributes."

Therefore, in case a pre-packaged or canned software or shrink wrapped software is sold then the transaction would be in the nature of sale of goods and no service tax would be leviable.

The judgement of the Supreme Court in Tata Consultancy Service case is applicable in case the pre-packaged software is put on a media before sale. In such a case the transaction will go out of the ambit of definition of service as it would be an activity involving only a transfer of title in goods.

As per the definition of 'service' as contained in clause (44) of section 65(B) only those transactions are outside the ambit of service which constitute only a transfer

of title in goods or such transfers which are deemed to be a sale within the meaning of Clause 29(A) of article 366 of the Constitution. The relevant category of deemed sale is transfer of right to use goods contained in sub-clause (d) of clause (29A) of the Constitution.

'Transfer of right to use goods' is deemed to be a sale under Article 366(29A) of the Constitution of India and transfer of goods by way of hiring, leasing, licensing or any such manner without transfer of right to use such goods is a declared service under clause (f) of section 66E.

Transfer of right to use goods is a well-recognized constitutional and legal concept. Every transfer of goods on lease, license or hiring basis does not result in transfer of right to use goods. For understanding the concept of transfer of right to use please refer to point no 6.6.1.

A license to use software which does not involve the transfer of 'right to use' would neither be a transfer of title in goods nor a deemed sale of goods. Such an activity would fall in the ambit of definition of 'service' and also in the declared service category specified in clause (f) of section 66E.

Therefore, if a pre-packaged or canned software is not sold but is transferred under a license to use such software, the terms and conditions of the license to use such software would have to be seen to come to the conclusion as to whether the license to use packaged software involves transfer of 'right to use' such software in the sense the phrase has been used in sub-clause (d) of article 366(29A) of the Constitution. (See point no 5.6.1).

In case a license to use pre-packaged software imposes restrictions on the usage of such licenses, which interfere with the free enjoyment of the software, then such license would not result in transfer of right to use the software within the meaning of Clause 29(A) of Article 366 of the Constitution. Every condition imposed in this regard will not make it liable to service tax. The condition should be such as restraints the right to free enjoyment on the same lines as a person who has otherwise purchased goods is able to have. Any restriction of this kind on transfer of software so licensed would tantamount to such a restraint.

Whether the license to use software is in the paper form or in electronic form makes no material difference to the transaction.

However, the manner in which software is transferred makes material difference to the nature of transaction. If the software is put on the media like computer disks or even embedded on a computer before the sale the same would be treated as goods. If software or any programme contained is delivered online or is downloaded on the internet the same would not be treated as goods as software as the judgment of the Supreme Court in Tata Consultancy Service case is applicable only in case the pre-packaged software is put on a media before sale.

Delivery of content online would also not amount to a transaction in goods as the content has not been put on a media before sale. Delivery of content online for consideration would, therefore, amount to provision of service.

6.4.5 In case contract is given for customized development of software and the customized software so developed is delivered to the client on media like a CD then would the transaction fall in this declared entry or would it be covered by the TCS Judgement?

In such a case although the software is finally delivered in the form of goods, since the contract is essentially for design and development of software it would fall in the declared list entry. Such a transaction would be in the nature of composite transaction involving an element of provision of service, in as much as the contract is for design and development of software and also an element of transfer of title in goods, in as much as the property in CD containing the developed software is transferred to the client. However, the CD remains only a media to transmit or deliver the outcome of which is essentially and pre-dominantly a contract of service. Therefore, such a transaction would not be excluded from the ambit of the definition of 'service' as the transaction does not involve 'only' transfer of title in goods and dominant nature of the transaction is that of provision of service.

6.5 Activities in relation to delivery of goods on hire purchase or any system of payment by instalments

6.5.1 Is the delivery of goods on hire purchase of any system of payment by instalments taxable?

No. The delivery of goods on hire purchase or any system of payment on installment is not chargeable to service tax because as per Article 366(29A) of the Constitution of India such delivery of goods is deemed to be a sale of goods. (For guidance on this aspect please refer to point no. 2.7 of this Guide) However activities or services provided in relation to such delivery of goods are covered in this declared list entry.

6.5.2 What is the scope of the phrase 'delivery of goods on hire-purchase or any system of payment by instalments'?

Section 2 of the Hire Purchase Act, 1972 defines a "hire purchase agreement" as 'an agreement under which goods are let out on hire and under which the hirer has the option to purchase them in accordance with the terms of the agreement and includes an agreement under which-

- (i) possession of goods is delivered by the owner thereof to a person on condition that such person pays the agreed amount in periodical installments, and
- (ii) the property in the goods is to pass to such person on the payment of the last of such installments, and
- (iii) such person has a right to terminate the agreement at any time before the property so passes.'

As per the Sales of Goods Act by Mulla (Seventh Edition. Page 14) delivery is 'voluntary dispossession in favour of another' and that 'in all cases the essence of delivery is that the deliverer, by some apt and manifest act, puts the deliverer in the same position of control over thing, either directly or through a custodian, which he held himself immediately before the act'.

The nature of such arrangements has been explained by the Supreme Court in the case of Association of Leasing & Financial Service Companies Vs Union Of India [2010 (20) S.T.R. 417 (S.C.)]. The relevant extract in para 20 of the said judgment is reproduced below:

"20. According to Sale of Goods Act by Mulla [6th Edition] a common method of selling goods is by means of an agreement commonly known as a hire-purchase agreement which is more aptly described as a hiring agreement coupled with an option to purchase, i.e., to say that the owner lets out the chattel on hire and undertakes to sell it to the hirer on his making certain number of payments."

Key ingredients of the deemed sale category of 'delivery of goods on hire-purchase or any system of payment by installments', therefore are-

Transfer of possession (and not just of custody)

The hirer has the option or obligation to purchase the goods in accordance with the terms of the agreement.

6.5.3 What is the difference between a normal hiring agreement and a hire-purchase agreement?

In a mere hiring agreement the hirer has no option to purchase the goods hired and the risks and rewards incidental to ownership of goods remain with the owner and are not transferred to the hirer. In a hire-purchase agreement the hirer has an option or an obligation to purchase goods.

6.5.4 Are 'finance leases', 'operating leases' and 'capital leases' covered as 'delivery of goods on hire purchase or any system of payment of installments'?

Such leases would be covered only if the terms and conditions of such leases have the ingredients as explained above. Normally in an 'operating lease' the lease is for a term shorter than property's useful life and the lessor is typically responsible for taxes and other expenses on the property. The lessee does not have an option to purchase the property at the end of the period of lease. Such arrangements do not qualify as 'delivery of goods on hire purchase or any system of payment of installments'.

On the other hand 'financial leases' or 'capital leases' strongly resemble security arrangements and are entered into for financing the asset. The lessee pays maintenance costs and taxes and has the option of purchasing the lease end. Such arrangements resemble a hire-purchase agreement and would fall under the said 'deemed sale' category. The essence of this deemed sale category is that the arrangement under which the goods are 'delivered' should be in the nature of a financing arrangement wherein the lessee pays maintenance costs and taxes and has the option of purchasing the asset so delivered at lease end.

It may, however, be pointed out that in case an 'operating lease' has elements of transfer of 'right to use' then the same would be covered in the other 'deemed sale' category pertaining to 'transfer of right to use any goods'

6.5.5 If delivery of goods on hire purchase or any system of payment on installment is deemed to be sale of goods what are the activities in relation to such delivery which are covered in the declared service?

It has been held by Supreme court in the case of Association Of Leasing & Financial Service Companies Vs Union Of India[2010 (20) S.T.R. 417 (S.C.)] that in equipment leasing/hire-purchase agreements there are two different and distinct transactions, viz., the financing transaction and the equipment leasing/hire-purchase transaction and that the financing transaction, consideration for which was represented by way of interest or other charges like lease management fee, processing fee, documentation charges and administrative fees, which is chargeable to service tax. Therefore, such financial services that accompany a hire-purchase agreement fall in the ambit of this entry of declared services.

6.5.6 Is service tax leviable on the entire quantum of interest and other charges received in relation to a hire purchase?

No. In terms of the exemption notification relating to such activities, service tax is leviable only on 10% of the amount representing interest plus other charges explicitly charged as mentioned above.

6.6 Transfer of goods by way of hiring, leasing, licensing or any such manner without transfer of right to use such goods

6.6.1 What is the meaning and scope of the phrase 'transfer of right to use such goods'

Transfer of right to use goods is a well recognized constitutional and legal concept. Every transfer of goods on lease, license or hiring basis does not result in transfer of right to use goods. **'Transfer of right of goods' involves transfer of possession and effective control over such goods** in terms of the judgment of the Supreme Court in the case of State of Andhra Pradesh vs RashtriyaIspat Nigam Ltd [Judgment dated 6/2/2002 in Civil Appeal no. 31 of 1991]. Transfer of custody along with permission to use or enjoy such goods, per se, does not lead to transfer of possession and effective control.

The test laid down by the Supreme Court in the case of Bharat Sanchar Nigam Limited vs Union of India [2006(2)STR161(SC)] to determine whether a transaction involves transfer of right to use goods, which has been followed by the Supreme Court and various High Courts, is as follows:

There must be goods available for delivery;

There must be a consensus ad idem as to the identity of the goods;

The transferee should have legal right to use the goods – consequently all legal consequences of such use including any permissions or licenses required therefore should be available to the transferee;

For the period during which the transferee has such legal right , it has to be the exclusion to the transferor – this is the necessary concomitant of the plain language

of the statute, viz., a 'transfer of the right to use' and not merely a license to use the goods;

Having transferred, the owner cannot again transfer the same right to others.

Whether a transaction amounts to transfer of right or not cannot be determined with reference to a particular word or clause in the agreement. The agreement has to be read as a whole, to determine the nature of the transaction.

6.6.2 Whether the transactions listed in column 1 of the table below involve transfer of right to use goods?

S.No.	Nature of transaction	Whether transaction involves transfer of right to use
1	A car is given in hire by a person to a company along with a driver on payment of charges on per month/mileage basis	Right to use is not transferred as the car owner retains the permissions and licenses relating to the cab. Therefore possession and effective control remains with the owner (Delhi High Court Judgment in the case of International Travel House in Sales Tax Appeal no 10/2009 refers). The service is, therefore covered in the declared list entry.
2	Supply of equipment like excavators, wheel loaders, dump trucks, cranes, etc for use in a particular project where the person to whom such equipment is supplied is subject to such terms and conditions in the contract relating to the manner of use of such equipment, return of such equipment after a specified time, maintenance and upkeep of such equipment.	The transaction will not involve transfer of right to use such equipment as in terms of the agreement the possession and effective control over such equipment has not been transferred even though the custody may have been transferred along with permission to use such equipment. The receiver is not free to use such equipment in any manner as he likes and conditions have been imposed on use and control of such equipment.
3.	Hiring of bank lockers	The transaction does not involve the right to use goods as possession of the lockers is not transferred to the hirer even though the contents of the locker would be in the possession of the hirer.(refer to Andhra Pradesh High Court Judgment in the case of State Bank of India Vs State of Andhra Pradesh)
4.	Hiring out of vehicles where it is the responsibility of the owner to abide by all the laws relating to motor vehicles	No transfer of right to use goods as effective control and possession is not transferred (Allahabad High Court judgement in Ahuja Goods Agency vs State of UP [(1997)106STC540] refers)
5	Hiring of audio visual equipment where risk is of the owner	No transfer of right to use goods as effective control and possession is not transferred

note: The list in the table above is only illustrative to demonstrate how courts have interpreted terms and conditions of various types of contracts to see if a transaction involve transfer of right to use goods. The nature of each transaction has to be examined in totality keeping in view all the terms and conditions of an agreement relating to such transaction.

6.7 Agreeing to the obligation to refrain from an act, or to tolerate an act or a situation, or to do an act

In terms of this entry the following activities if carried out by a person for another for consideration would be treated as provision of service.

Agreeing to the obligation to refrain from an act.

Agreeing to the obligation to tolerate an act or a situation.

Agreeing to the obligation to do an act.

6.7.1 Would non-compete agreements be considered a provision of service?

Yes. By virtue of a non-compete agreement one party agrees, for consideration, not to compete with the other in any specified products, services, geographical location or in any other manner. Such action on the part of one person is also an activity for consideration and will be covered by the declared services.

6.8 Service portion in execution of a works contract

Works contract has been defined in section 65B of the Act as a contract wherein transfer of property in goods involved in the execution of such contract is leviable to tax as sale of goods and such contract is for the purpose of carrying out construction, erection, commissioning, installation, completion, fitting out, repair, maintenance, renovation, alteration of any moveable or immovable property or for carrying out any other similar activity or a part thereof in relation to such property.

Typically every works contract involves an element of sale of goods and provision of service. In terms of Article 366 (29A) of the Constitution of India transfer of property in goods involved in execution of works contract is deemed to be a sale of such goods. It is a well settled position of law, declared by the Supreme Court in BSNL's case [2006(2) STR 161 (SC)], that a works contract can be segregated into a contract of sale of goods and contract of provision of service. This declared list entry has been incorporated to capture this position of law in simple terms.

It may be pointed out that prior to insertion of clause (29A) in article 366 of the Constitution defining certain categories of transactions as 'deemed sale' of goods the position of law, as declared by the Supreme Court in Gannon Dunkerley's case (AIR1958SC560) was that a works contract was essentially a contract of service and no sales tax could be levied on goods transferred in the course of execution of works contract. It is only after the constitutional amendment that VAT or sales tax is leviable on such goods. The remaining portion of the contract remains a contract for provision of service.

Further, with a view to bring certainty and simplicity, the manner of determining the value of service portion in works contracts has been given in rule 2A of the Valuation Rules. For details on valuation please refer to point no. 8.2 of this Guide.

6.8.1 Would labour contracts in relation to a building or structure be treated as a works contract?

No. Labour Contracts do not fall in the definition of works contract. It is necessary that there should be transfer of property in goods involved in the execution of such contract which is leviable to tax as sale of goods. Pure labour contracts are therefore not works contracts and would be leviable to service tax like any other service and on full value.

6.8.2 Would contracts for repair or maintenance of motor vehicles be treated as 'works contracts'? If so, how would the value be determined for ascertaining the value portion of service involved in execution of such a works contract?

Yes. Contracts for repair or maintenance of moveable properties are also works contracts if property in goods is transferred in the course of execution of such a contract. Service tax has to be paid in the service portion of such a contract.

6.8.3 Would contracts for construction of a pipe line or conduit be covered under works contract?

Yes. As pipeline or conduits are structures on land contracts for construction of such structure would be covered under works contract.

6.8.4 Would contracts for erection commissioning or installation of plant, machinery, equipment or structures, whether prefabricated or otherwise, be treated as a works contract?

Such contracts would be treated as works contracts if transfer of property in goods is involved in such a contract.

6.8.5. Would contracts for painting of a building, repair of a building, renovation of a building, wall tiling, flooring be covered under 'works contract'?

Yes, if such contracts involve provision of materials as well.

6.8.6 Is the definition of 'works contract' in clause (54) of section 65B in line with the definition of 'works contract' in various State VAT laws?

The definition of 'works contract' in clause (54) of section 65B covers such contracts which involve transfer of property in goods and are for carrying out the activities specified in the said clause (54) in respect of both moveable and immovable properties. This is broadly in consonance with the definition of 'works contract' in most of the State VAT laws. However, each State has defined 'works contracts' differently while dealing with works contract as a category of deemed sales. There could, therefore, be variations from State to State. For service tax purposes the definition in clause (54) of section 65B would alone be applicable.

6.8.7 What is the way to segregate service portion in execution of a works contract from the total contract or what is the manner of determination of value of service portion involved in execution of a works contract?

For detailed discussion on this topic please refer to Guidance Note 8, in particular point no 8.2.

6.9 Service portion in an activity wherein goods, being food or any other article of human consumption or any drink (whether or not intoxicating) is supplied in any manner as part of the activity**6.9.1 What are the activities covered in this declared list entry?**

The following activities are illustration of activities covered in this entry-

Supply of food or drinks in a restaurant;

Supply of foods and drinks by an outdoor caterer.

In terms of article 366(29A) of the Constitution of India supply of any goods, being food or any other article of human consumption or any drink (whether or not intoxicating) in any manner as part of a service for cash, deferred payment or other valuable consideration is deemed to be a sale of such goods. Such a service therefore cannot be treated as service to the extent of the value of goods so supplied. The remaining portion however constitutes a service. It is a well settled position of law, declared by the Supreme Court in BSNL's case [2006(2)STR161(SC)], that such a contract involving service along with supply of such goods can be dissected into a contract of sale of goods and contract of provision of service. This declared list entry is has been incorporated to capture this position of law in simple terms.

6.9.2 Are services provided by any kind of restaurant, big or small, covered in this entry?

Yes. Although services provided by any kind of restaurant are covered in this entry, the emphasis is to levy tax on services provided by only such restaurants where the service portion in the total supply is substantial and discernible. Thus the following category of restaurants are exempted –

Services provided in relation to serving of food or beverages by a restaurant, eating joint or a mess, other than those having the facility of air-conditioning or central air-heating in any part of the establishment, at any time during the year, and which has a license to serve alcoholic beverage.

Below the threshold exemption

6.9.3. How is the value of service portion to be determined?

For detailed discussion on this topic please refer to Guidance Paper 8 and in particular point no 8.4.

Guidance Note 7 – Exemptions

Under the present system there are 88 exemption notifications. The need for exemptions is not obviated with the introduction of negative list. While some existing exemptions have been built into the negative list, others, wherever necessary, have been retained as exemptions. In addition some new exemptions are also proposed to be introduced. For ease of reference and simplicity most of the exemptions are now a part of one single mega exemption notification 25/2012-ST dated 20/6/12 (list of such exemptions is placed as **Exhibit A3**). The exemptions requiring some clarification are explained below:

7.2 Health Care Services (Details at Sr. No 2 of Exhibit A3)

7.2.1 Are all health care services exempt?

No. only services in recognized systems of medicines in India are exempt. In terms of the Clause (h) of section 2 of the Clinical Establishments Act, 2010, the following systems of medicines are recognized systems of medicines:

Allopathy

7.2.2 Who all are covered as paramedic?

Paramedics are trained health care professionals, for example nursing staff, physiotherapists, technicians, lab assistants etc. Services by them in a clinical establishment would be in the capacity of employee and not provided in independent capacity and will thus be considered as services by such clinical establishment. Similar services in independent capacity are also exempted.

7.3 Services provided to or by a governmental authority

7.3.1 Are various corporations formed under Central Acts or State Acts or various government companies registered under the Companies Act, 1956 or autonomous institutions set up by special acts covered under the definition of 'governmental authority'?

No. All services are not exempt. Services by a governmental authority by way of any activity in relation to any function entrusted to a municipality under article 243 W of the Constitution are exempt. All other services are subjected to service tax if they are not otherwise exempt.

7.3.4 Are all services provided to a governmental authority exempt from service tax?

No. A governmental authority enjoys same benefits as the Government or a local authority in respect of receipt of services. The following services when provided to a governmental authority are exempt:

- c) Services received from a service provider located in a non- taxable territory by such authorities in relation to any purpose other than commerce, industry or any other business or profession.

7.4 Charities (Details at Sr. No. 4 of Exhibit A3)

7.4.1 I am a registered charity. How do I know that activities provided by me are charitable activities?

You are doing charitable activities if you are registered with income tax authorities for this purpose under section 12AA the Income Tax Act, 1961 and carry out one or more of the specified charitable activities. Following are the specified charitable activities:-

- a) public health by way of –
 - (I) care or counseling of (i) terminally ill persons or persons with severe physical or mental disability, (ii) persons afflicted with HIV or AIDS, or (iii) persons addicted to a dependence-forming substance such as narcotics drugs or alcohol; or

7.4.2 What is the tax liability of a registered charity on their activities?

If a registered charity is doing any activity falling in negative list of services or is otherwise exempt, it is not required to pay service tax on that activity. In case, where its activity is covered explicitly in any of the specified charitable activities at 'a' to 'd' of the answer to 7.4.1, it is exempt from service tax without any value limit. For charitable activities mentioned at 'e', it is exempt up to a value of twenty five lakh rupees in a financial year if the total value of such services had not exceeded twenty five lakh rupees during the preceding financial year. However, this later exemption is available only if the activities are meant for general public. General public is defined in the notification as 'body of people at large sufficiently defined by some common quality of public or impersonal nature'.

7.5 Religious places/ceremonies (Details at Sr. No. 5 of Exhibit A3)

7.5.1 Is renting of precincts of a religious place taxable?

Yes. However, exemption is available only if the place is meant for general public. General public is also defined in the mega notification 25/2012-ST as 'body of people at large sufficiently defined by some common quality of public or impersonal nature'.

7.5.2 Am I liable to pay service tax for conducting religious ceremonies for my client?

No. Conduct of religious ceremonies is exempt under Sr. no. 4 of mega exemption. Religious ceremonies are life-cycle rituals including special religious poojas conducted in terms of religious texts by a person so authorized by such religious texts. Occasions like birth, marriage, and death involve elaborate religious ceremonies.

7.6 Advocates or arbitral tribunals (Details at Sr. No.6 of Exhibit A3)

7.6.1 What is the tax liability of advocates, or arbitral tribunal in respect of services provided by them?

Advocates can provide services either as individuals or as firms. Legal services provided by advocates or partnership firms of advocates are exempt from service tax when provided to

the following:

- an advocate or partnership firm of advocates providing legal services (same class of persons)
- any person other than a business entity
- a business entity with a turnover up to rupees ten lakh in the preceding financial year

However, in respect of services provided to business entities, with a turnover exceeding rupees ten lakh in the preceding financial year, tax is required to be paid on reverse charge by the business entities. Business entity is defined in section 65B of the Finance Act, 1994 as 'any person ordinarily carrying out any activity relating to industry, commerce or any other business or profession'. Thus it includes sole proprietors as well. The business entity can, however, take input tax credit of such tax paid in terms of Cenvat Credit Rules, 2004, if otherwise eligible. The provisions relating to arbitral tribunal are also on similar lines.

7.6.2 I am serving as a member of an arbitral tribunal comprising many arbitrators and receiving an amount from the arbitral tribunal. Am I providing a service and required to pay service tax on such amount received?

Arbitral tribunal comprising more than one arbitrator will constitute an entity by itself. Thus services of individual arbitrator when represented on such an arbitral tribunal will also constitute service by one person to another. However such service is exempt under sr. no. 6(c) of the mega notification.

7.7 Recreational coaching or training (Details at Sr. No. 8 of Exhibit A3)

7.7.1 What is the scope of exemption to coaching or training in recreational activities?

Services provided to a recognized sports body by an individual as a player, referee, umpire, coach or team manager for participation in a sporting event organized by a recognized sports body are exempt from service tax. Similarly services by a recognized sports body to another are also exempt. Services by individuals such as selectors, commentators, curators, technical experts are taxable. Recognized sports body has been defined in the mega notification itself.

7.8.2 Are the services of an individual as a player, umpire in a premier league taxable?

The service of a player to a franchisee which is not a recognized sports body is taxable. However, services of an individual as umpire, referee when provided directly to a recognized sports body shall be exempt.

7.9 Construction (Details at Sr No 12 to 14 of Exhibit A3)

Declared tariff is defined in the mega notification. It includes charges for all amenities provided in the unit of accommodation (given on rent for stay) like furniture, air-conditioner, refrigerators or any other amenities, but without excluding any discount offered on the published charges for such unit. Its relevance is in determining the liability to pay service tax on renting of a hotel,

inn, guest house, club, campsite or other commercial places meant for residential or lodging purposes as exemption is available where declared tariff of a unit of accommodation is below rupees one thousand per day or equivalent. However, the tax will be liable to be paid on the amount actually charged i.e. declared tariff minus any discount offered.

Thus if the declared tariff is Rs 1100/-, but actual room rent charged is Rs 800/-, tax will be required to be paid on Rs 800/-.

When the declared tariff is revised as per the tourist season, the liability to pay tax shall be only on the declared tariff for the accommodation where the published/printed tariff is above Rupees 1000/-. 7.11.11 Whether the exemption provided in the mega -exemption to services by way of construction of roads, airports, railways, transport terminals, bridges, tunnels, dams etc., is also available to the sub-contractors who provide input service to these main contractors in relation to such construction?

As per clause (1) of section 66 Reference to a service by nature or description in the Act will not include reference to a service used for providing such service. Therefore, if any person is providing services, in respect of projects involving construction of roads, airports, railways, transport terminals, bridges, tunnels, dams etc., such as architect service, consulting engineer service ., which are used by the contractor in relation to such construction, the benefit of the specified entries in the mega-exemption would not be available to such persons unless the activities carried out by the sub-contractor independently and by itself falls in the ambit of the exemption.

It has to be appreciated that the wordings used in the exemption are 'services by way of construction of roads etc' and not 'services in relation to construction of roads etc'. It is thus

apparent that just because the main contractor is providing the service by way of construction of roads, airports, railways, transport terminals, bridges, tunnels, dams etc., it would not automatically lead to the classification of services being provided by the sub-contractor to the contractor as an exempt service.

However, a sub-contractor providing services by way of works contract to the main contractor, providing exempt works contract services, has been exempted from service tax under the mega exemption if the main contractor is engaged in providing exempt services of works contracts. It may be noted that the exemption is available to sub-contractors engaged in works contracts and not to other outsourced services such as architect or consultants.

7.11.12 What is the tax liability of a person carrying out intermediate production process as job work for his clients?

No. 32 of the mega-exemption Notification in addition to exemption to 'departmentally run telephones' there is exemption for 'Guaranteed Public Telephone operating only for local calls' also. Village Public Telephones (VPTs) with facility of local calls (without 9 dialing facility or STD facility) run by BSNL would fall under the category of 'Guaranteed Public Telephone operating only for local calls'.

7.11.14 I am in the business of running a chain of restaurants. I intend to sell my business. Am I required to pay service tax?

7.11.15 What does the term 'transfer of a going concern' mean?

Transfer of a going concern means transfer of a running business which is capable of being carried on by the purchaser as an independent business, but shall not cover mere or predominant transfer of an activity comprising a service. Such sale of business as a whole will comprise comprehensive sale of immovable property, goods and transfer of unexecuted orders, employees, goodwill etc. Since the transfer in title is not merely a transfer in title of either the immovable property or goods or even both it may amount to service and has thus been exempted.

If you are using these services in relation to any purpose other than commerce, industry or any other business or profession, you are required to pay tax under reverse charge, unless you are otherwise exempt. If use is for any other purpose, you are exempt from service tax.

Guidance Note 8 – Valuation

With the introduction of system of taxation of services based on the negative list there has been no fundamental change in the manner of valuation of service for the purpose of payment of service tax. The broad scheme remains the same barring some marginal changes carried out to align the scheme of valuation of taxable services and the Service Tax (Determination of Value) Rules, 2006 with the new system of taxation. Broadly these changes in the Valuation Rules are as follows:-

As compared to the existing two schemes for valuation of works contract services – one under the rule 2A of the Valuation Rules and second under the Works Contract (Composition Scheme for Payment of Service Tax) Rules 2007 has been replaced with a unified scheme under the new rule 2A of Service Tax (Determination of Value) Rules, 2006.

A new Rule 2C has been inserted for determining the value of service involved in supply of food or any other article of human consumption or any drinks in a restaurant or as outdoor catering. The existing scheme of determination of value of such services through prescribed abatements in various exemption notifications has been done away with.

There are certain changes in rule 6 of the Service Tax (Determination of Value) Rules, 2006.

All notifications that prescribed the abatements for working out the taxable value from the gross amount charged have been merged into one single exemption notification i.e., notification no. 26/2012- ST dated 20/6/12.

The broad scheme of valuation and provisions of Valuation Rules have been explained through a set of examples, questions and answers below.

8.1. Broad Scheme of Valuation.

8.1.1 How is value of service relevant for the purpose of payment of service tax?

In terms of the charging provisions contained in Section 66B, service tax is levied @ 12% on the value of taxable services. Therefore, value of service provided is relevant for determining the amount of service tax payable when a taxable service is provided by a person to another.

8.1.2 What is the value on which service tax is to be paid?

The manner of value of service is provided in Section 67. As per sub-section (1) of Section 67 wherever Service Tax is chargeable on any taxable service with regard to its value then its value shall-

- (i) in a case where the provision of service is for a consideration in money, be the gross amount charged by the service provider for such service provided or to be provided by him;
- (ii) in a case where the provision of service is for a consideration not wholly or partly consisting of money, be such amount in money as, with the addition of service tax charged, is equivalent to the consideration;
- (iii) in a case where the provision of service is for a consideration which is not ascertainable, be the amount as may be determined in the prescribed manner.

8.1.3 If the gross amount charged is inclusive of service tax payable then would service tax be chargeable on the gross amount?

No. As per sub-section (2) of section 67 where the gross amount chargeable by the service provider is inclusive of service tax payable then the value of such taxable service shall be such amount as, with the addition of such tax payable, is equal to the gross amount charged. For example if the gross amount charged for provision of service is Rs.1500 then the value of taxable service would be Rs.1339.29 ($1500 \times 100/112$) as after including the tax payable at Rs.1339.29 @ 12% (which works out to Rs.160.71) the total amount ($1339.29 + 160.71$) comes to Rs.1500.

8.1.4 Is it necessary that gross amount charged should have been received by the service provider prior to provision of service?

No. As per sub-section (3) of Section 67 the gross amount charged includes any amount received towards the taxable service before during or after the provision of such service.

8.1.5 What is the meaning of 'consideration' referred to in sub clause (1) Section 67?

The concept of consideration comes from the very root of the definition of service contained in clause (44) of section 65B as per which service has been defined as an activity carried out by a person for another 'for consideration'.

For detailed discussion on consideration please refer to Point 2.2 of this Guide. The consideration could be monetary or non-monetary.

8.1.6 If provision of service is for the consideration for money then what will be the manner of determining the value of taxable service?

In terms of clause (i) of sub-section (1) of Section 67 in case provision of service is for consideration in money, then the value of taxable service shall be the gross amount charged by the service provider for such service provided or agreed to be provided by him.

8.1.7 What is the meaning of 'gross amount charged'?

'Gross amount charged' has been defined in Explanation (c) of Section 67 to include payment by cheque, credit card, deduction from account and any form of payment by issue of credit notes or debit notes and book adjustment, and any amount credited or debited, as the case may be, to any account, whether called "Suspense account" or by any other name, in the books of account of a person liable to pay service tax, where the transaction of taxable service is with any associated enterprise.

8.1.8 What is the manner of determining the value of non-monetary consideration?

As per clause (ii) of sub-section (1) of section 67 of the Act where the consideration received is not wholly or partly consisting of money the value of taxable service shall be the equivalent money value of such consideration. If the same is not ascertainable then the value of such consideration is determined under clause (iii) of section 67 read with rule 3 of the Service Tax (Determination of the value) Rules 2006 as follows:-

On the basis of gross amount charged for similar service provided to other person in the ordinary course of trade;

Where value cannot be so determined, the equivalent money value of such consideration, not less than the cost of provision of service.

8.1.9. As per clause (iii) of sub-section (1) of Section 67 in cases where provision of service is for a consideration which is not ascertainable then the value of taxable service shall be the amount as it may be determined in the prescribed manner. What are the situations where consideration is not ascertainable and what is the manner for determining the value in such cases are prescribed?

There may be several situations wherein it may be difficult to determine the consideration received by service provider for provision of a service. Such situations can arise on account of several factors such as consideration of service being embedded in the total amount received as consideration for a composite activity involving elements of provisions of service and element of sale of goods or consideration for service being included in the gross amount charged for a particular transaction or consideration of service being wholly or partly in the nature of non-monetary consideration.

The manner has been prescribed under Service Tax (Determination of Value) Rules 2006. These rules inter-alia provide provisions in respect of the following situations:

Determination of value of service portion involved in execution of works contract.

Determination of value of service in relation to money changing.

Determination of value of service portion involved in supply of food and any other article of human consumption or any drinks in a restaurant or as outdoor catering.

Determination of value where such value is not ascertainable.

The said rules also specify certain expenditures or costs that are incurred by the service provider which have to be included or excluded

The said rules also specify certain commissions or costs that are received by the service provider that have to be included or excluded while arriving at the taxable value.

In addition to the Service Tax (Determination of Value) Rules 2006, certain sub-rules in rule 6 of the Service Tax Rules, 1994 also provide simplified compounded mechanism for determination of value of taxable services in specified situations.

These specified aspects of determination of value under the Service Tax (Determination of Value) Rules 2006 and the Service Tax Rules, 1994 have been dealt individually with in point nos. 8.2 to 8.7 below.

8.1.10 In addition to the two set of rules explained in point no 8.1.9 above, that have a bearing on the valuation of services, are there any exemption notifications that exempt certain portion of the gross amount charged from levy of service tax or in other words provide for abatements to arrive at the value of taxable services?

Yes. Earlier there were a number of exemption notifications that prescribed the abatements for various categories of services. As another measure of simplification now all such abatements for specified category of services have been merged into a single notification no 26/2102 – ST dated 20/6/12 which has been dealt with in point no. 8.8 below.

8.2 Valuation of service portion in execution of a works contract

Works contract has been defined in clause (54) of section 65B of the Act. Typically every works contract involves an element of sale of goods and provision of service. It is a well settled position of law, declared by the Supreme Court in BSNL's case [2006(2) STR 161 (SC)], that a works contract can be segregated into a contract of sale of goods and contract of provision of service. With a view to bring certainty and simplicity the manner of determining the value of service portion in works contracts has been provided in Rule 2A of the Service Tax (Determination of Value) Rules, 2006. In order to align this rule with the new system of taxation of services based on the negative list the old Rule 2A has been replaced by a new rule by the Service Tax (Determination of Value) Second Amendment Rules, 2012. The new provisions have been explained in this note

8.2.1 What is the manner of determination of value of service portion in execution of a works contract from the total contract?

The manner for determining the value of service portion of a works contract from the total works contract is given in Rule 2A of the Service Tax (Determination of Value) Rules, 2006. As per sub-rule (i) of the said Rule 2A the value of the service portion in the execution of a

works contract is the gross amount charged for the works contract less the value of transfer of property in goods involved in the execution of the said works contract.

Gross amount includes	Gross amount does not include
Labour charges for execution of the works	Value of transfer of property in goods involved in the execution of the said works contract. Note: As per Explanation (c) to the said sub-rule (i), where value added tax or sales tax has been paid or payable on the actual value of property in goods transferred in the execution of the works contract, then such value adopted for the purposes of payment of value added tax or sales tax, shall be taken as the value of property in goods transferred in the execution of the said works contract.
Amount paid to a sub-contractor for labour and services	
Charges for planning, designing and architect's fees	
Charges for obtaining on hire or otherwise, machinery and tools used for the execution of the works contract	
Cost of consumables such as water, electricity, fuel, used in the execution of the works contract	
Cost of establishment of the contractor relating to supply of labour and services and other similar expenses relating to supply of labour and services	Value Added Tax (VAT) or sales tax, as the case may be, paid, if any, on transfer of property in goods involved in the execution of the said works contract
Profit earned by the service provider relating to supply of labour and services	

8.2.2. Is there any simplified scheme for determining the value of service portion in a works contract?

Yes. The scheme is contained in the clause (ii) of rule 2A of the Service Tax (Determination of Value) Rules, 2006.

As per this scheme the value of the service portion, where value has not been determined in the manner as provided in clause (i) of rule 2A (explained in point 8.2.1 above), shall be determined in the manner explained in the table below -

Where works contract is for...	Value of the service portion shall be...
(A) execution of original works	forty percent of the total amount charged for the works contract
(B) maintenance or repair or reconditioning or restoration or servicing of any goods	seventy per cent of the total amount charged including such gross amount
(C) in case of other works contracts, not included in serial nos. (A) and (B) above, including contracts for maintenance, repair, completion and finishing services such as glazing, plastering, floor and wall tiling, installation of electrical fittings.	sixty percent of the total amount charged for the works contract

Important – As per the Explanation (II) to clause (ii) of rule 2A of the said Rules 'total amount' referred to in the second column of the table above would be the sum total of gross amount charged for the works contract and the fair market value of all goods and services supplied in

or in relation to the execution of works contract, under the same contract or any other contract, less (i) the amount charged for such goods or services provided by the service receiver; and (ii) the value added tax or sales tax, if any, levied to the extent they form part of the gross amount or the total amount, as the case may be.

8.2.3 How is the fair market value of goods or services, so supplied, be determined to arrive at the total amount charged for a works contract?

As per the proviso to Explanation (II) to clause (ii) of rule 2A of the Valuation Rules the fair market value of the goods or services so supplied shall be determined in accordance with the generally accepted accounting principles.

8.2.4. What are 'original works'?

As per Explanation (I) to clause (ii) of rule 2A of the Valuation Rules 'Original works' means :

all new constructions;

all types of additions and alterations to abandoned or damaged structures on land that are required to make them workable;

erection, commissioning or installation of plant, machinery or equipment or structures, whether pre-fabricated or otherwise.

8.2.5 Can the manner of determination of 'total amount charged' be explained by way of a suitable example?

The manner of arriving at the 'total amount charged' is explained with the help of the following example pertaining to works contract for execution of 'original works'.

S. No.	NOTATION	AMOUNT (in Rs.)
1	Gross amount received excluding taxes	95,00,000
2	Fair market value of goods supplied by the service receiver excluding taxes	10,00,000
3	Amount charged by service receiver for 2	5,00,000
4	Total amount charged (1+2-3)	1,00,00,000
5	Value of service portion(40% of 4 in case of original works)	40,00,000

Note: When the service provider pays partially or fully for the materials supplied by the service receiver, gross amount charged would inevitably go higher by that much amount.

8.3 Determination of value of service in relation to money changing

In services of money changing including sale and purchase of foreign currency the problem of valuation arises on account of the fact that as per normal trade practice in such services the consideration is inbuilt in the difference between the selling/buying rates and the Reserve Bank of India (RBI) reference rate for that currency at that time. Accordingly a separate Rule 2B provides for the manner of determination of value of service in relation to money changing.

8.3.1 Would sale and purchase of foreign currency or money changing not be excluded from the definition of service as being transaction only in money?

No. As per Explanation 2 to clause (44) of Section 65B, which defines 'service', activity of conversion of one currency into another for which a separate consideration is charged would not get tantamount to a transaction only in money. In transactions of sale and purchase of foreign currency or money changing since a separate consideration is charged these would not be excluded from the definition of 'service'.

8.3.2 What is the manner of determination of value of service in relation to money changing including sale and purchase of foreign currency?

If a currency is exchanged from or to Indian Rupees then, as per Rule 2B of the Valuation Rules, the value of taxable service shall be equal to the difference in the buying rate or the selling rate, as the case may be, and the RBI reference rate for that currency. For example if US\$ 1000 are sold by a customer @ Rs55 per US\$ and RBI reference rate for US\$ is Rs.55.73 then the taxable value shall be Rs.730 (1000 x 0.73).

8.3.3 How would the value be determined if the RBI reference rate for a currency is not available?

As per the first proviso to Rule 2B in case RBI reference rate for a currency is not available the value shall be 1% of the gross amount of Indian Rupees provided or received by the person changing the money.

8.3.4 How would the value of taxable service be determined if foreign currency is exchanged for another foreign currency?

These situations are dealt with in second proviso to Rule 2B as per which in such situations the value of taxable service shall be equal to 1% of the lesser of the two amounts the person changing the money would have received by converting one of the currencies into Indian Rupees on that day at the reference rate provided by RBI.

8.4 Valuation of service portion involved in supply of food or any other article of human consumption or any drink in a restaurant or as outdoor catering.

In terms of article 366(29A) of the Constitution of India supply of any goods, being food or any other article of human consumption or any drink (whether or not intoxicating) in any manner as part of a service for cash, deferred payment or other valuable consideration is deemed to be a sale of such goods. Such a service therefore cannot be treated as service to the extent of the value of goods so supplied. The remaining portion however constitutes a service. It is a well settled position of law, declared by the Supreme Court in BSNL's case [2006(2)STR161(SC)], that such a contract involving service along with supply of such goods can be dissected into a contract of sale of goods and contract of provision of service. Since normally such an activity is in the nature of composite activity, difficulty arises in determining the value of the service portion. In order to ensure transparency and standardization in the manner of determination of the value of such service provided in a restaurant or as outdoor catering a new rule 2C has been inserted in the Service Tax (Determination of Value) Rules,

2006 by the amendment rules of 2012. This manner of valuation is explained in the points below.

8.4.1 Are services provided by any kind of restaurant, big or small, covered by the manner of valuation provided in Rule 2C of the Valuation Rules?

Yes. Although services provided by any kind of restaurant would be valued in the manner provided in Rule 2C, it may be borne in mind that the following category of restaurants are exempted –

Services provided in relation to serving of food or beverages by a restaurant, eating joint or a mess, other than those having the facility of air-conditioning or central air-heating in any part of the establishment, at any time during the year, and which has a license to serve alcoholic beverage.

Below the threshold exemption

8.4.2. How is the value of service portion to be determined in supply of food or any other article of human consumption or any drink in a restaurant or as outdoor catering?

The manner of determination of service portion in such an activity is very simple and is given in Rule 2C of the the Service Tax (Determination of Value) Rules, 2006. In terms of the said rule value of the service portion shall be determined in the following manner-

Value of service portion in an activity wherein goods, being food or any other article of human consumption or any drink (whether or not intoxicating) is supplied in any manner.....	Shall be percent of the total amount charged:
In a restaurant	40
As part of outdoor catering	60

Important - As per Explanation 1 to the said Rule 2C 'Total amount'(referred to in the second column of the table above) means the sum total of gross amount charged and the fair market value of all goods and services supplied by the service receiver in or in relation to the supply of food or any other article of human consumption or any drink (whether or not intoxicating), under the same contract or any other contract, less (i) the amount charged for such goods or services provided by the service receiver; and (ii) the value added tax or sales tax, if any, levied to the extent they form part of the gross amount or the total amount, as the case may be.

The clarification given in point no 8.2.5 above would, mutatis mutandis, apply to valuation in this case also.

8.4.3. What are the restrictions, if any, on availment of Cenvat credit by such service providers?

In terms of the Explanation² to Rule 2C of the Valuation Rules any goods meant for human consumption classifiable under chapters 1 – 22 of Central Excise Tariff are not 'inputs' for provision of such service. Cenvat Credit is, therefore, not available on these items. Availability of Cenvat credit on other inputs, input services and capital goods would be subject to the provisions of the Cenvat Credit Rules, 2004 including the provisions relating to reversal of credits contained in rule 6 of the said rules. It may be noted the sale of food in the restaurant would amount to clearance of exempt goods and thus the provisions of Rule 6 of Cenvat Credit Rules will be applicable.

8.4.4 Would Rule 2C of the Valuation Rules also apply to determination of value of service portion in cases of supply of food or any other article of human consumption or any drink, in a premises, including hotel, convention center, club, pandal, shamiana or any place specially arranged for organizing a function?

No. Rule 2C applies only in cases of restaurants and outdoor catering. For valuation of service portion where such supplies are made in any other premises like hotel, convention center, club, pandal, shamiana or any place specially arranged for organizing a function an abatement of 30% has been provided for in exemption notification no 26/2012-ST dated 20/6/12. For details please refer to serial no. 4 of the table in point no 8.8 below.

8.5 Inclusion or exclusion from value of certain expenditure or costs borne by the service provider.

Rule 5 of Service Tax (Determination of Value) Rules, 2012 lays down the details of expenditure and cost borne by the service provider which have to be included or excluded while determining the value of taxable service.

8.5.1 What is the expenditure or costs that are to be included in the value of taxable services as per rule 5 of the Valuation Rules?

As per Rule 5 any expenditure or cost that are incurred by the service provider in the course of providing taxable services are treated as consideration for taxable service provided or agreed to be provided and shall be included in the value for the purpose of charging Service Tax on the said service.

However, Explanation to sub-rule (1) of Rule 5 clarifies that for the value of telecommunication services shall be the gross amount paid by the person to whom the service is actually provided (i.e. the subscriber).

8.5.2 Which costs or expenditure is to be excluded from the value of taxable service as per Rule 5?

As per sub rule (2) of Rule 5 the expenditure or cost incurred by the service provider as a pure agent of the recipient of the service shall be excluded from the value of taxable service if all the following conditions are satisfied:

the service provider acts as a pure agent of the recipient of service when he makes payment to third party for the goods or services procured;

the recipient of service receives and uses the goods or services so procured by the service provider in his capacity as pure agent of the recipient of service;

the recipient of service is liable to make payment to the third party;

the recipient of service authorises the service provider to make payment on his behalf;

the recipient of service knows that the goods and services for which payment has been made by the service provider shall be provided by the third party;

the payment made by the service provider on behalf of the recipient of service has been separately indicated in the invoice issued by the service provider to the recipient of service;

the service provider recovers from the recipient of service only such amount as has been paid by him to the third party; and

the goods or services procured by the service provider from the third party as a pure agent of the recipient of service are in addition to the services he provides on his own account.

8.5.3 What is the meaning of pure agent?

Pure agent has been defined in Explanation to sub-rule 2 of Rule (5) of the Valuation Rules as a person who-

enters into a contractual agreement with the recipient of service to act as his pure agent to incur expenditure or costs in the course of providing taxable service;

neither intends to hold nor holds any title to the goods or services so procured or provided as pure agent of the recipient of service;

does not use such goods or services so procured; and

receives only the actual amount incurred to procure such goods or services.

8.6 Cases in which commission, costs etc. received by the service provider will be included or excluded.

Rule 6 of the Valuation Rules deals with specific situation where certain commission or costs received by the service provider would be included as part of the taxable service.

INCLUSIONS

the commission or brokerage charged by a broker on the sale or purchase of securities including the commission or brokerage paid by the stock-broker to any sub-broker;

- subsidies or grants disbursed by the Government, not in the nature of directly influencing the value of service.

(italics indicate the additions made in the Service Tax (Determination of Value) Second Amendment, Rules, 2012)

8.6.1. Does the interest for delayed payment for provision of a service includable in the taxable value?

No. In terms of clause (iv) of Sub-rule 2 of Rule 6 delayed payments of any consideration for provision of service is excluded from the value of taxable service.

8.6.2. What is the scope of the exclusion entry related to accidental damages due to unforeseen actions not relating to the provisions of service?

This inclusion has been inserted vide the Service Tax (Determination of Value) Second Amendment Rules, 2012. In terms of this exclusion accidental damages are not to be included in the value of service provided the following two conditions are specified:

- _ The damages are due to unforeseen actions.
- _ The damages are not related to provisions of service.

Examples-

Insurance Companies provide insurance services to the clients for which the premium is charged. The premium charged is a consideration for the insurance service provided. However, in case due to an unforeseen action, like an accident etc., a compensation is paid by the insurance company to the client then the money would not be included as part of value of taxable service as it is not relating to the provisions of service but is only in the nature of consequence of provisions of insurance service.

In case a landlord who has rented out his office building to a tenant receives compensation from the tenant for the damage caused to the building by an unforeseen action then such compensation would not form part of the value of taxable service related to tenant of his building as an unforeseen damage caused by the tenant is not relating to provision of service of renting of the office building.

8.6.3. What is the scope of the exclusion entry relating to subsidies and grants disbursed by the Government, not in the nature or directly influencing the value of service?

This exclusion entry has also been inserted by the Service Tax (Determination of Value) Second Amendment Rules, 2012. A subsidy influences the price directly when the price goes down proportionately to the amount of subsidy. In terms of this exclusion any subsidy or grant disbursed by the Government cannot form part of the value of taxable service unless such subsidy or grant directly influences the value of such service.

8.7. Compounding schemes for determination of value under the Service Tax Rules, 1994.

In addition to the Service Tax (Determination of Value) Rules, 2006 various sub-rules Rule (6) of the Service Tax 1994 also provides for simplified compounding mechanism for determining the amount of service tax payable. These sub-rules either specify the service tax payable as a certain percentage of the gross amount of a specified sum received by the service provider or also provide for manner of determination of value of taxable service for other specified

services. This facility is normally available as an option to the person responsible to pay service tax. These compounding schemes are tabulated below:

Sub-rule of rule 6	Specified service	Compounding scheme	Conditions
(7)	Services provided by an air travel agent	Pay an amount calculated at the rate of 0.6% of the basic fare (i.e. that part of the fare on which commission is normally paid to the travel agent by the airlines) in the case of domestic bookings, and at the rate of 1.2% of the basic fare in the case of international bookings, of passage for travel by air, during any calendar month or quarter	Option, once exercised, shall apply uniformly in respect of all the bookings of passage for travel by air made by him and shall not be changed during a financial year under any circumstances
(7A)	An insurer carrying on life insurance business	Option to pay tax (i) on the gross premium charged from a policy holder reduced by the amount allocated for investment, or savings on behalf of policy holder, if such amount is intimated to the policy holder at the time of providing of service; (ii) in all other cases 3% of the gross amount of premium charged in the first year and 1.5% of the premium charged in the subsequent years.	Option shall not be available in cases where the entire premium paid by the policy holder is only towards risk cover in life insurance
(7B)	Service of purchase or sale of foreign currency, including money changing, provided by a foreign exchange broker, including an authorised dealer in foreign exchange or an authorized money changer	Option to pay an amount calculated at the following rate (a) 0.12 per cent. of the gross amount of currency exchanged for an amount upto rupees 100,000, subject to the minimum amount of rupees 30; and (b) rupees 120 and 0.06 per cent. of the gross amount of currency exchanged for an amount of rupees exceeding rupees 100,000 and upto rupees 10,00,000; and (c) rupees 660 and 0.012 per cent. of the gross amount of currency exchanged for an amount of rupees exceeding 10,00,000, subject to maximum amount of rupees 6000	The person providing the service shall exercise such option for a financial year and such option shall not be withdrawn during the remaining part of that financial year.
(7C)	Services by distributor or selling agent of promotion, marketing, organising or in any other manner assisting in organising lottery,	Option to pay- (i) Rs. 7000/- on every Rs. 10 Lakh (or part of Rs. 10 Lakh) of aggregate face value of lottery tickets printed by the organising State for a draw (If guaranteed prize payout is more than 80%) (ii) Rs. 11000/- on every Rs. 10 Lakh (or part of Rs. 10 Lakh) of aggregate face value of lottery tickets printed by the organising State for a draw (If guaranteed prize payout is less than 80%)	1. In case of online lottery, the aggregate face value of lottery tickets for the purpose of this sub-rule shall be taken as the aggregate value of tickets sold 2. The distributor or selling agent shall exercise such option within a period of one month of the beginning of each financial year and such option shall not be withdrawn during the remaining part of the financial year.

8.8 Notified abatements for determining the taxable value.

All abatements available to services of specified categories have now been merged in one exemption notification no 26/2012-ST dated 20/6/12. In terms of the said notification, exemption is granted from so much of the service tax leviable, as is in excess of the service tax calculated on a value which is equivalent to a percentage specified in the corresponding entry in column (3) of the following Table, of the amount charged (or in some cases of specified amount) by such service provider for providing the said taxable service, unless specified otherwise, subject to the relevant conditions specified in the corresponding entry in column (4) of the said Table:

8.8.1 Once the specified description of services has been done away with in the negative list regime how would the scope of services specified by way of description in the said notification be determined?

The services specified in the said notification, which have been tabulated in the table above, have been so specified in self-explanatory terms. In addition certain terms that have been used in the said notification are already defined in section 65B of the Act (like goods transport agency, vessel, port etc) and others have been defined in the said notification itself (like chit, package tour, tour operator and financial leasing).

8.8.2 Would the gross amount charged for financial leasing services, including equipment leasing and hire purchase, also include the interest amount charged for such financial services?

The gross amount charged for this service will be sum total of the following-

10% of the amount forming or representing interest; and

Other charges such as lease management fees, processing fees, documentation charges and administrative fees.

8.9 Person responsible for determining the value of taxable service**8.9.1 Who is the person responsible for determining the value of taxable service?**

Since Service Tax has to be paid by the persons responsible to pay Service Tax on the basis of self-assessment for value of taxable service has to be determined by the person responsible for payment of Service Tax in accordance with the provisions of Section 67 of the Act and rules made there under.

8.9.2 Can the value determined by the person responsible to pay service tax be rejected by the Department?

Yes. In terms of the provisions of Section 73 of the Finance Act 1994 and Rule 4 of Service Tax (Determination of value) Rules 2006 the value works out by the service provider or any other person responsible for payment of service tax can be rejected by Central Excise Officer if he has specified that the value so determined is not in accordance with the provisions of the act or the Valuation Rules. In such a situation the Central Excise Officer shall issue a Show Cause Notice to the serviced provider or any other person responsible for payment of Service Tax to Show Cause as to why the value of such taxable service for the purpose of charging service tax should not be fixed on the amount specified in the notice. After giving reasonable options and heard, the Central Excise Officer shall determining the value of such taxable service for the purpose of charging service tax in accordance with the provisions of the Finance Act 1994 and the Valuation Goods.

Guidance Note 9 – Rules of Interpretation

Despite doing away with the service-specific descriptions, there will be some descriptions where some differential treatment will be available to a service or a class of services. Section 66F lays down the principles of interpretation of specified descriptions of services and bundled services. These are explained in paras below –

9.1 Principles for interpretation of specified descriptions of services

Although the negative list approach largely obviates the need for descriptions of services, such descriptions continue to exist in the following areas –

In the negative list of services.

In the declared list of services.

In exemption notifications.

In the Place of Provision of Service Rules, 2012

In a few other rules and notifications e.g. Cenvat Credit Rules, 2004.

There are two principles laid down which are contained in clauses (1) and (2) of section 66F of the Act.

9.1.1 What is the scope of the clause (1) of section 66F: ‘Unless otherwise specified, reference to a service (hereinafter referred to as the “main service”) shall not include reference to a service which is used for providing the main service’

This rule can be best understood with a few illustrations which are given below –

‘Provision of access to any road or bridge on payment of toll’ is a specified entry in the negative list in section 66D of the Act. Any service provided in relation to collection of tolls or for security of a toll road would be in the nature of service used for providing such specified service and will not be entitled to the benefit of the negative list entry.

Transportation of goods on an inland waterway is a specified entry in the negative list in section 66D of the Act. Services provided by an agent to book such transportation of goods on inland waterways or to facilitate such transportation would not be entitled to the negative list entry.

9.1.2 What is the scope of clause (1) of section 66F: ‘where a service is capable of differential treatment for any purpose based on its description, the most specific description shall be preferred over a more general description’.

This rule can also be best understood with some illustrations which are given below –

The services provided by a real estate agent are in the nature of intermediary services relating to immovable property. As per the Place of Provision of Service Rule, 2012, the place of provision of services provided in relation to immovable property is the location of the immovable property. However in terms of the rule 5 pertaining to

services provided by an intermediary the place of provision of service is where the intermediary is located. Since Rule 5 provides a specific description of 'estate agent', the same shall prevail.

Pandal and Shamiana is an existing service and will remain a subject of taxation. Likewise service provided by way of catering is a taxable service and entitled to abatement. There is abatement when the two are provided in combination. Since the combination is more a specific entry than the two provided individually, there is no need to apply the later rule of bundled services, where the character could be judged by the service which provides it the essential character.

9.2 Taxability of 'bundled services'.

'Bundled service' means a bundle of provision of various services wherein an element of provision of one service is combined with an element or elements of provision of any other service or services. An example of 'bundled service' would be air transport services provided by airlines wherein an element of transportation of passenger by air is combined with an element of provision of catering service on board. Each service involves differential treatment as a manner of determination of value of two services for the purpose of charging service tax is different.

Two rules have been prescribed for determining the taxability of such services in clause (3) of section 66F of the Act. These rules, which are explained below, are subject to the provisions of the rule contained in sub section (2) of section 66F, viz a specific description will be preferred over a general description as explained in para 9.1.2 above.

9.2.1 Services which are naturally bundled in the ordinary course of business

The rule is – 'If various elements of a bundled service are naturally bundled in the ordinary course of business, it shall be treated as provision of a single service which gives such bundle its essential character'

Illustrations -

A hotel provides a 4-D/3-N package with the facility of breakfast. This is a natural bundling of services in the ordinary course of business. The service of hotel accommodation gives the bundle the essential character and would, therefore, be treated as service of providing hotel accommodation.

A 5 star hotel is booked for a conference of 100 delegates on a lump sum package with the following facilities:

- _ Accommodation for the delegates
- _ Breakfast for the delegates,
- _ Tea and coffee during conference
- _ Access to fitness room for the delegates
- _ Availability of conference room
- _ Business centre

As is evident a bouquet of services is being provided, many of them chargeable to different effective rates of tax. None of the individual constituents are able to provide the essential character of the service. However, if the service is described as convention service it is able to capture the entire essence of the package. Thus the service may be judged as convention service and chargeable to full rate. However it will be fully justifiable for the hotel to charge individually for the services as long as there is no attempt to offload the value of one service on to another service that is chargeable at a concessional rate.

9.2.2 Services which are not naturally bundled in the ordinary course of business

The rule is – ‘If various elements of a bundled service are not naturally bundled in the ordinary course of business, it shall be treated as provision of a service which attracts the highest amount of service tax.’

Illustrations -

A house is given on rent one floor of which is to be used as residence and the other for housing a printing press. Such renting for two different purposes is not naturally bundled in the ordinary course of business. Therefore, if a single rent deed is executed it will be treated as a service comprising entirely of such service which attracts highest liability of service tax. In this case renting for use as residence is a negative list service while renting for non-residence use is chargeable to tax. Since the latter category attracts highest liability of service tax amongst the two services bundled together, the entire bundle would be treated as renting of commercial property.

9.2.3 Significance of the condition that the rule relating to ‘bundled service’ is subject to the provisions of sub-section (2) of section 66F.

Sub-section (2) of section 66 lays down : ‘where a service is capable of differential treatment for any purpose based on its description, the most specific description shall be preferred over a more general description’ (refer para 9.1.2 above). This rule predominates over the rule laid down in sub-section (3) relating to ‘bundled services’. In other words, if a bundled service falls under a service specified by way of a description then such service would be covered by the description so specified. The illustration, relating to a bundled service wherein a pandal and shamiana is provided in combination with catering service, given in the second bullet in para 9.1.2 above explains the operation of this rule.

9.2.4 Manner of determining if the services are bundled in the ordinary course of business

Whether services are bundled in the ordinary course of business would depend upon the normal or frequent practices followed in the area of business to which services relate. Such normal and frequent practices adopted in a business can be ascertained from several indicators some of which are listed below –

The perception of the consumer or the service receiver. If large number of service receivers of such bundle of services reasonably expect such services to be provided as a package then such a package could be treated as naturally bundled in the ordinary course of business.

Majority of service providers in a particular area of business provide similar bundle of services. For example, bundle of catering on board and transport by air is a bundle offered by a majority of airlines.

The nature of the various services in a bundle of services will also help in determining whether the services are bundled in the ordinary course of business. If the nature of services is such that one of the services is the main service and the other services combined with such service are in the nature of incidental or ancillary services which help in better enjoyment of a main service. For example service of stay in a hotel is often combined with a service or laundering of 3-4 items of clothing free of cost per day. Such service is an ancillary service to the provision of hotel accommodation and the resultant package would be treated as services naturally bundled in the ordinary course of business.

Other illustrative indicators, not determinative but indicative of bundling of services in ordinary course of business are -

- _ There is a single price or the customer pays the same amount, no matter how much of the package they actually receive or use.
- _ The elements are normally advertised as a package.
- _ The different elements are not available separately.
- _ The different elements are integral to one overall supply – if one or more is removed, the nature of the supply would be affected.

No straight jacket formula can be laid down to determine whether a service is naturally bundled in the ordinary course of business. Each case has to be individually examined in the backdrop of several factors some of which are outlined above.

9.2.5 Manner of determination of taxability of 'composite transactions' wherein an element of provision of service is combined with an element of sale of goods

Please refer to **point no 2.6.3 of this Guidance Note.**

Guidance Note 10 – Miscellaneous

10.1 Partial Reverse Charge

With effect from 1.7.2012 a new scheme of taxation is being brought into effect whereby the liability of payment of service tax shall be both on the service provider and the service recipient. Usually such liability is affixed either on the service provider or the service recipient, but in specified services and in specified conditions, such liability shall be on both the service provider and the service recipient.

The enabling provision has been provided by insertion of proviso to section 68 in the Finance Act, 2012 as per which Central Government may notify the service and the extent of service tax which shall be payable by such person and the provisions of Chapter V shall apply to such person to the extent so specified and the remaining part of the service tax shall be paid by the service provider. Under this clause the Central government has issued notification no. 30/2012 dated 20.6.2012 notifying the description of specified services when provided in the manner so specified where part of the service tax has to be paid by the service receiver. The extent to which tax liability has to be discharged by the service receiver has also been specified in the said notification.

The manner of operation of the reverse charge mechanism has been explained in this point.

10.1.1 What are the services on which such partial reverse charge mechanism shall be applicable?

In terms of serial nos. 7(b), 8 and 9 of the table in notification no. 30/2012 dated 20.6.12, the new partial reverse charge mechanism is applicable to services provided or agreed to be provided by way of

- (a) renting of a motor vehicle designed to carry passengers on non-abated value to any person who is not engaged in a similar business, or
- (b) supply of manpower for any purpose, or
- (c) service portion in execution of a works contract;

by any individual, Hindu Undivided Family or partnership firm, whether registered or not, including association of persons, located in the taxable territory to a business entity registered as a body corporate located in the taxable territory. Thus the nature of the service and the status of both the service provider and service receiver are important to determine the applicability of partial reverse charge provisions.

10.1.2 What does a service provider need to indicate on the invoice when he is liable to pay only a part of the liability under the partial reverse charge mechanism?

The service provider shall issue an invoice complying with Rule 4A of the Service Tax Rules 1994. Thus the invoice shall indicate the name, address and the registration number of the service provider; the name and address of the person receiving taxable service; the description

and value of taxable service provided or agreed to be provided; and the service tax payable thereon. As per clause (iv) of sub-rule (1) of the said rule 4A 'the service tax payable thereon' has to be indicated. The service tax payable would include service tax payable by the service provider.

10.1.3 If the service provider is exempted being a SSI (turnover less than Rs 10 lakhs), how will the reverse charge mechanism work?

The liability of the service provider and service recipient are different and independent of each other. Thus in case the service provider is availing exemption owing to turnover being less than Rs 10 lakhs, he shall not be obliged to pay any tax. However, the service recipient shall have to pay service tax which he is obliged to pay under the partial reverse charge mechanism.

10.1.4 Will the credit of such tax paid be available to the service recipient?

Normally, the credit of the entire tax paid on the service received by the service receiver would be available to the service recipient subject to the provisions of the CENVAT Credit Rules 2004. The credit of tax paid by the service provider would be available on the basis of the invoice subject to the conditions specified in the CENVAT Credit Rules 2004. The credit of tax paid by the service recipient under partial reverse charge would be available on the basis on the tax payment challan, again subject to conditions specified in the said Rules.

10.1.5 What shall be the point of taxation for the service recipient? When will he need to pay the service tax in respect of his liability?

Both the service provider and service recipient are governed by the Point of Taxation Rules 2011 in respect of the service provided or received by him. Usually it is the invoice or date of receipt of payment which is the point of taxation for the service provider. However for the service recipient, in terms of rule 7 of the said rules, point of taxation is when he pays for the service. Thus in the case where the invoice is issued in say July 2012 and the service recipient pays for the same in August 2012 the point of taxation for the service provider will be the date of issue of invoice in July 2012. The point of taxation for the service recipient shall be the date of payment in August 2012. The service provider would be required to pay tax (to the extent liability is affixed on him) by 15/6 August, 2012 or 15/6 October 2012 depending upon the admissibility of benefit under the proviso to rule 6 of the Service Tax Rules 1994. The service recipient would need to pay tax (to the extent liability is affixed on him) by 5/6 September 2012.

10.1.6 How is the service recipient required to calculate his tax liability under partial reverse charge mechanism? How will the service recipient know which abatement or valuation option has been exercised by the service provider?

The service recipient would need to discharge liability only on the payments made by him. Thus the assessable value would be calculated on such payments done (Free of Cost material supplied and out of pocket expenses reimbursed or incurred on behalf of the service provider need to be included in the assessable value in terms of Valuation Rules). The invoice raised by the service provider would normally indicate the abatement taken or method of valuation used for arriving at the taxable value. However since the liability of the service provider and

service recipient are different and independent of each other, the service recipient can independently avail or forgo an abatement or choose a valuation option depending upon the ease, data available and economics.

10.1.7 Is the reverse charge applicable on services provided and complete before 1.7.2012 though payments were made after 1.7.2012?

For any service whose point of taxation has been determined and whole liability affixed before 1.7.2012 the new provisions will not apply. Merely because payments are being made after 1.7.2012 will not add any additional liability on the service receiver in respect of such services.

10.2 Export of Services

10.2.1 What does the export of a service mean under the new system?

Export of services shall now be governed by new provisions in the Service Tax Rules 1994, namely rule 6A. The essential requisites before a service can be designated as export service are:

- It must be a service as defined under sub-section 44 of section 65B
- by a service provider located in the taxable territory
- to a service receiver located outside India
- the service is not a service specified in the negative list
- the place of provision of the service is outside India
- the payment for such service is received by the service provider in convertible foreign exchange
- the service provider and service receiver are not merely establishments of a distinct person by virtue of item (b) of Explanation 2 of clause 44 of section 65B of the Act

The answer to all questions above must be yes to avail the status of export of service.

10.2.2 Can there be an export between an establishment of a person in taxable territory and another establishment of same person in a non-taxable territory?

No. Even though such persons have been specified as distinct persons under the explanation to clause (44) of section 65B, the transaction between such establishments have not been recognized as exports under the above stated rule.

10.3 ISD: Input Service Distributor

The facility of registering as an input service distributor exists to allow businesses to operate at their convenience and allow centralized procurement of services and the distribution of credit to units where such services are used. The provisions have been slightly altered in Budget 2012 to align the practice with the intent stated above.

10.3.1 Credit of which services can be distributed?

Credit of only "input services" can be distributed. Hence a service procured needs to be assessed whether it is an "input service" at any of the units of the ISD. Only if it qualifies as an "input service" it can be distributed. Further the credit of service tax attributable to service used in a unit exclusively engaged in manufacture of exempted goods or providing of exempted services cannot be distributed.

10.3.2 How do I calculate the credit to be distributed?

While the status of the service as "input service" is ascertained, the units where it is used is also ascertained. The credit of a service used exclusively in one unit can be distributed only to that unit. If it is used in more than one unit, the credit can be distributed proportionate to the turnover of the units. The total turnover shall be determined in the same manner as determined under rule 5 and shall be determined for the month previous to the month during which the CENVAT credit is distributed. In case if any of its unit pays tax or duty on quarterly basis as provided in rule 6 of Service Tax Rules, 1994 or rule 8 of Central Excise Rules, 2002 then the relevant period shall be the quarter previous to the quarter during which the CENVAT credit is distributed. The turnover so calculated would be ex-duty i.e not inclusive of the taxes and duties on the goods and services supplied.

e.g. a company manufactures fans in 2 units and other appliances in 2 other units. Advertisement services for fans would qualify as an input service for the units manufacturing fans and hence could be distributed to such units based on the turnover of the previous month of the 2 units.

10.3.3 How do I distribute credit in a new unit when there is no turnover?

In case of an assessee who does not have any total turnover in the said period as in the case of a new company, the ISD shall distribute any credit only after the end of such relevant period wherein the total turnover of its units are available. In case of a new unit wherein any credit is exclusively used, the credit can be distributed in total to such unit.

10.3.4 Will such credit which is distributed need to be reversed on account of any exempted turnover?

Credit so distributed is availed on the strength of a challan issued by the ISD. It shall be subject to rule 6 of CENVAT Credit Rules 2004 and depending upon the option exercised under the rule 6 due reversals will be required to be effected by the unit to which the credit has been distributed.
