How to use EPF Establishment Search Facility

THE ESTABLISHMENT SEARCH FACILITY

What is the use of this facility?

Since the creation of the multiple Regional Offices in some of the States, the erstwhile used State Codes were changed for 19 Regional Offices. Moreover, after the implementation of the Computerisation Project in the EPFO Offices, the members account number uses the Office code also even when the Region Codes had not changed.

Since the EPF members and even some employers were not aware of the new Region and Office codes, the facility has been provided to search the code number of an establishment and the EPFO Office under which the establishment is making the PF remittances.

A visitor to the website, who knows any one of the search fields, namely his account number starting with the old State code, name of his establishment, part name of the establishment, office under which his accounts are maintained etc can search the details of the establishment and also view:

1. Each electronic return (TRRN) wise payments made by the employer since April 2012,
2. Name of the members for whom the electronic
3. Advantages of the facility for: **MEMBERS:** Can check whether their employer has remitted dues and if yes whether his/her name appears in the list of employees. If yes, then only the e-passbook upto that month will be available on the Member Portal.

Employers: Can check whether the remittances made by them has reflected in the list of payments and whether the member pass book against any ECR has been made available. If yes, it will be available for download on login to the employer portal.

Principal Employers: Can check the remittances by their contractor establishments and the names of their contractual employees.

The following screen will appear. The visitor has the choice to select one of the options out of the three, namely the Old Region Code, the Office name or the PIN code where the establishment is located.

He can additionally also select and enter the name and the numeric part of the Establishment code number, if the same is known to the visitor.
