SAFETY DATA SHEET – EU/E.E.A. General ROW

1. Product Identification and Company Identification

PRODUCT NAME:	Aquamin® MgTG/Aquamin® MgAG
SUPPLIED BY:	Marigot Ltd., Strand Farm, Carrahinny, Carrigaline, Co. Cork, Ireland.
CONTACT EMAIL:	info@aquamin.com
COMPANY WEBSITE:	www.aquamin.com
TELEPHONE:	+353 21 4378727
FAX:	+353 21 4378588
EMERGENCY TELEPHONE:	+353 21 4378727

2. Hazards Identification

Not regarded as a health or environmental hazard under EC No 1272/2008 legislation. Personal protective equipment is recommended for use when handling this product.

3. Composition Information on Ingredients

Aquamin MgTG (≥95% Marine Magnesium Hydroxide with Trace Minerals & ≤5% Corn Starch) / Aquamin MgAG (≥95% Marine Magnesium Hydroxide with Trace Minerals & ≤5% Gum Arabic) are a highly bioavailable source of magnesium produced from seawater.

4. First Aid Measures

Skin Contact:	Wash with water
Eye Contact:	Rinse eyes with water for a few minutes, keeping eyelids well open
Inhalation:	Take subject away from contaminated area with dust and make victim blow their nose
Ingestion:	If necessary, wash with water

www.taxguru.in

5. Fire Fighting Measures

Extinguishing: Magnesium Hydroxide is a non-combustible material. It is not a fire hazard
Fire Hazard: Does not support combustion.
Protective Equipment: As standard

6. Accidental Release Measures

Personal Precaution: Follow the procedure for individual protection.
Environmental Precaution: Non-toxic, inert product, respects the natural environment.
Clean-up Methods: Shovel, sweep, vacuum

7. Handling & Storage

Handling: Avoid formation of dust. Local exhaust recommended if handling large quantities.
Storage: In original packaging in a cool dry area.

8. Exposure Control/Personal Protection

Engineering Measures: N/A
Respiratory Protection: Approved mask in high dust concentrations
Hand protection: Gloves
Eye Protection: Goggles
Protective Equipment: N/A

9. Physical & Chemical Properties

Description: Free flowing powders(Aq MgTG, AqMgAG).
Colour: Off white / Grey Powders
Odour: Neutral
Boiling point: N/A
Water Solubility: Aq MgTG Aq MgAG Practically insoluble in water, soluble in dilute acids
Melting Point: N/A

10. Stability and Reactivity

Stability: Stable under normal conditions
Condition to avoid: N/A
Materials to avoid: Acids
Hazardous Decomposition Products: It reacts with acids.

11. Toxicological Information

Non-toxic, inert product

12. Ecological Information

Not regarded as dangerous for the environment.

13. Disposal Considerations

In authorised dumps in accordance with local authority requirements.

14. Transport Information

Not classified as this product is not classified as dangerous goods.
Tariff code: 2816.10.00

15. Regulatory Information

Risk Phrases: Not regulated
Safety Phrases: Not regulated

16. Other Information

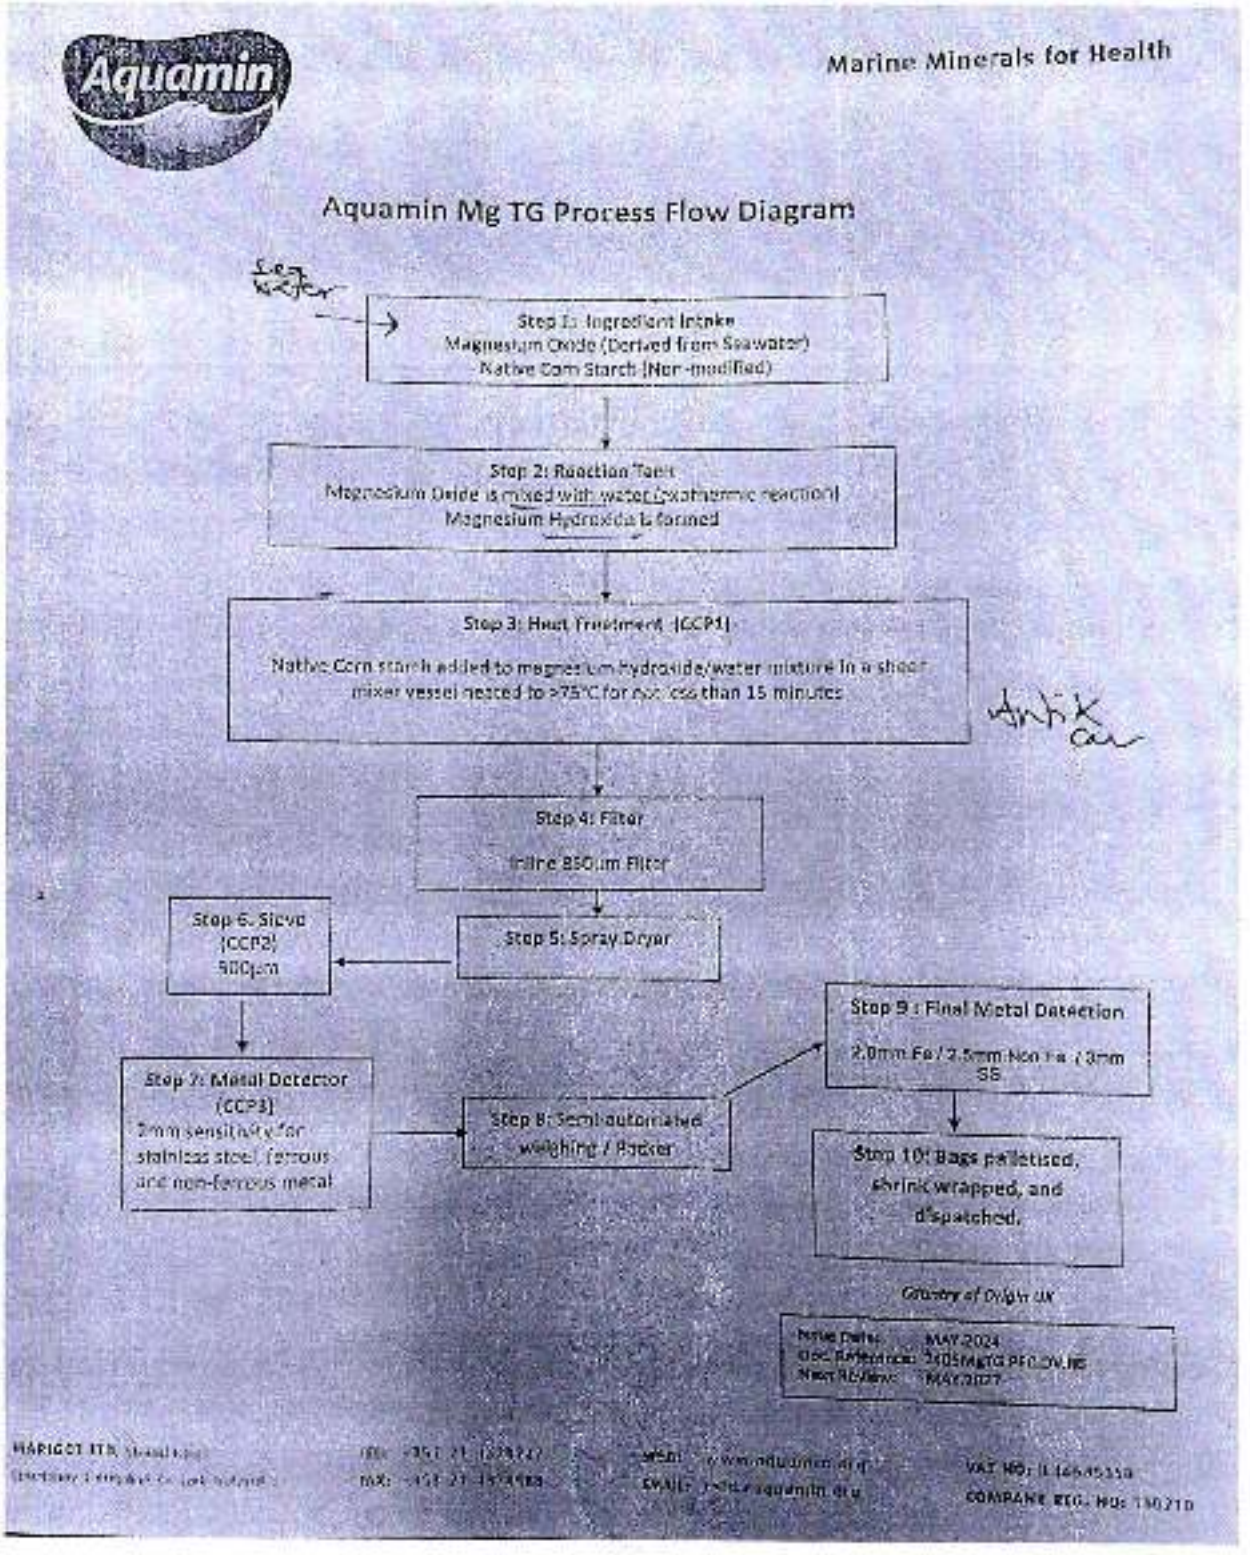

The information provided in this document is correct to the best of our knowledge, information, and belief at the date of its publication and is in our opinion consistent with the state of general scientific and technical knowledge at that date. Marigot Ltd. cannot accept liability for any loss, injury or damage which may result from its use. In compiling this SDS we have taken into account all proper applications of the material of which we are aware. It is the responsibility of any intermediate supplier to ensure that the information contained in this SDS is passed to the ultimate user.

Marine Minerals for Health

Exhibit - 'C'

Aquamin Magnesium Products Composition Statement

To Whom It May Concern:

Marigot Ltd, Strand Farm, Currabinny, Carrigaline, Co. Cork

Hereby confirm that Marine Magnesium extracted from Seawater naturally contains Trace Minerals from the sea. These trace minerals are part of the natural composition and cannot be segregated or removed from Aquamin MgTG, MgAG or Aquamin Mg Soluble.

Corn Starch is required in Aquamin MgTG as a binder during the wet granulation process and as an anti caking agent in the final product to help maintain the flow characteristics of the material.
